EXECUTIVE SUMMARY

CHAPTER 1 INTRODUCTION

1.1	Background	1-1
1.2	Study Objectives	1-2
1.3	Target Year of Master Plan	1-2
1.4	Study Area	1-3
1.5	Study Progress	1-3
1.6	Organization for the Study	1-5

CHAPTER 2 PRESENT CONDITION OF THE STUDY AREA

2.1	Natural Conditions	2-1
2.1.1	Geographical Conditions and Administrative Region of Sulawesi	2-1
2.1.2	Climate and Meteorological Conditions	2-3
2.1.3	Present Land Uses	2-4
2.2	Socio-Economic Condition	2-9
2.2.1	Social Framework	2-9
2.2.2	Expenditure and Poverty	2-12
2.2.3	Regional Economy and Industrial Structure	2-14
2.2.4	Agriculture, Forestry, and Fisheries	2-17
2.2.5	Industries	2-29
2.3	Existing National and Regional Development Plans	2-32
2.3.1	National Development Plan	2-32
2.3.2	National Spatial Plan (RTRWN)	2-34
2.3.3	Sulawesi Spatial Plan (RTR Pulau Sulawesi)	2-38
2.3.4	The Regional Development Cooperation Board of Sulawesi (BKPRS)	2-39
2.4	Problems and Constraints in Regional Development	2-42
2.4.1	Mountainous Geography, Dispersed Populations, and Weak Economic Linkages	2-42
2.4.2	Lower GRDP and Regional Disparities	2-42
2.4.3	Greater Dependence on Agricultural Sector and Undeveloped Manufacturing	

Sector	2-42
2.4.4 Low Utilization of Rich Natural Resources	2-43
2.4.5 Limited Forest Land	2-43
2.4.6 Disaster Management	2-43

CHAPTER 3 PRESENT TRANSPORT SITUATION OF SULAWESI

3.1 Existing Transport Development Studies and Projects	3-1
3.1.1 Studies	3-1
3.1.2 Projects	3-5
3.2 Road Transport Network	3-7
3.2.1 Road Planning Framework	3-7
3.2.2 Existing Road Network System.....	3-14
3.2.3 Existing Road Conditions based on IRMS and Other Data.....	3-17
3.2.4 Existing Bridge Conditions based on the IBMS and Other Information.....	3-23
3.2.5 Road Traffic based on the IRMS and Study Team’s Estimate.....	3-25
3.3 Air and Maritime Transportation	3-26
3.3.1 Air.....	3-26
3.3.2 Maritime	3-29
3.4 Cargo Transport.....	3-32
3.4.1 Port Facility	3-32
3.4.2 Cargo Throughout in Major Sea Ports.....	3-34
3.4.3 Cargo Traffic through International Ports.....	3-35
3.4.4 Cargo Traffic through National and Regional Ports	3-37
3.4.5 Major Commodities Traded and Processed	3-43
3.4.6 Containerization of International Cargo	3-47
3.5 Administration Framework and Financial Situation in Road Sector	3-50
3.5.1 System of Highway Administration	3-50
3.5.2 Road Administration Framework for National Road.....	3-51
3.5.3 Road Administration Framework for Provincial Road.....	3-55
3.5.4 Mechanism of Revenue and Budget Allocation in Indonesia.....	3-57
3.5.5 Road Sector Budget Allocation of General Government	3-59
3.5.6 Road Sector Budget Allocation of Provincial Government.....	3-62
3.6 Transport Problems and Issues in Sulawesi	3-66
3.6.1 Transport Sector and Road Subsector.....	3-66
3.6.2 Road Infrastructure	3-66
3.6.3 Environment and Traffic Safety	3-69

CHAPTER 4 IDENTIFICATION OF REGIONAL DEVELOPMENT NEEDS AND POTENTIALS

4.1 Social and Economic Needs and Potentials	4-1
--	-----

4.1.1	Spearhead of Development in East Indonesia	4-1
4.1.2	Development of Sulawesi Economy.....	4-1
4.1.3	Enhancement of Productivity	4-2
4.1.4	Improvement of Quality and Value	4-3
4.1.5	Paradigm Shift to Sustainable Development	4-3
4.1.6	Environmental Protection and Conservation.....	4-4
4.1.7	Development Plan by Province	4-4
4.1.8	Potential Resources	4-5
4.2	Industrial Development Needs and Potentialities in Sulawesi.....	4-6
4.2.1	Cocoa.....	4-7
4.2.2	Coconut Oil	4-9
4.2.3	Coffee	4-11
4.2.4	Animal Feeds.....	4-12
4.2.5	Livestock	4-14
4.2.6	Fishery and Marine Product	4-16
4.2.7	Mining Products (Cement)	4-17
4.2.8	Mineral Products (Nickel)	4-17
4.2.9	Oil and Gas Industries (Crude oil and LNG).....	4-19
4.2.10	Manufactured Products.....	4-21

CHAPTER 5 DEVELOPMENT STRATEGY AND CONCEPT

5.1	Development Goals and Strategy	5-1
5.1.1	Development Goals	5-1
5.1.2	Development Strategies.....	5-1
5.2	Sulawesi Island Development Concept.....	5-2
5.2.1	Development Plan by Strengthening Inter-regional Linkages in Sulawesi as well as with other Islands of Indonesia including other Asian Countries.....	5-2
5.2.2	Industrial Development Concept	5-8
5.2.3	Alleviation of Social and Economic Disparities in Rural Area through Integration of Regional Centers and Cities	5-12
5.2.4	Environment-friendly Development and Disaster Prevention.....	5-15
5.3	Land Use Plan	5-23
5.3.1	Principles for Land Uses	5-23
5.3.2	Land-use Frameworks by Province	5-24
5.4	Industrial Promotion.....	5-27
5.4.1	Principle for Industrial Promotion in Sulawesi	5-27
5.4.2	Assessment of Prospective Industries.....	5-27
5.4.3	Policies and Measures for Industrial Cluster Promotion	5-31
5.4.4	Implementation of Industrial Promotion Programs	5-33

CHAPTER 6 SETTING OF SOCIO-ECONOMIC FRAMEWORK

6.1	Demographic Framework.....	6-1
6.1.1	Review of Population Grth Trends	6-1
6.1.2	Review of the BAPPENAS's Population Forecast.....	6-3
6.1.3	JICA Study Team's Population Forecast Methodology	6-5
6.1.4	JICA Study Team's Kabupaten Population Forecast Results	6-9
6.2	GRDP Forecast.....	6-14
6.2.1	Review of GRDP Growth Trends	6-14
6.2.2	Review of BAPPENAS's GRDP Forecasts	6-14
6.2.3	Methodology of the JICA Study Team's Long-term GRDP Forecast by Kabupaten/Kota.....	6-15
6.2.4	Results of the JICA Study Team's Long-term GRDP Forecast by Kabupaten/Kota	6-16

CHAPTER 7 TRAFFIC ANALYSIS

7.1	Traffic Surveys Conducted.....	7-1
7.1.1	Survey Objective	7-1
7.1.2	Survey Coverage	7-1
7.1.3	Scope of Survey.....	7-4
7.2	Survey Result and Major Findings.....	7-6
7.2.1	Methodology.....	7-6
7.2.2	Road Traffic Characteristics	7-7
7.2.3	Trip Distribution	7-14
7.2.4	Passenger Travel Characteristics	7-17
7.2.5	Freight Transport Characteristics.....	7-18
7.3	Traffic Assignment for Present network.....	7-20
7.3.1	Zoning and Road Network	7-20
7.3.2	Traffic Assignment for 2007.....	7-24
7.4	Analysis on Current Traffic Situation	7-30
7.4.1	Inter-modal Relations among Road, Maritime and Air Transport.....	7-30
7.4.2	Cargo Traffic by Land Transport in Sulawesi.....	7-35
7.5	Assignment of Future Traffic Assignment onto Present Road network (Do-Nothing Situation).....	7-39
7.5.1	Future Traffic Demand in terms of Trip Generation/Attraction	7-39
7.5.2	Forecast of Future OD Tables.....	7-44
7.5.3	Traffic Assignment of Future Demand on Existing Network (Do-Nothing Assumption)	7-48

CHAPTER 8 DIRECTION OF TRANSPORT NETWORK DEVELOPMENT AND ESTABLISHMENT OF ROAD MASTER PLAN

8.1	Direction of Transport Network Development.....	8-1
-----	---	-----

8.1.1	Review of National Transport Development Plans	8-1
8.1.2	Development Directions for Integrated Transport Network	8-5
8.2	Establishment of Sulawesi Road Master Plan (SRMP)	8-13
8.2.1	Road Development Policy	8-13
8.2.2	Road Development Plan and Possible Projects	8-14
8.2.3	Proposed Improvement Plan.....	8-17
8.2.4	Upgrade of Road Classification.....	8-18
8.2.5	Staged Application of New Road Standard Regulation.....	8-20
8.2.6	Needs for Capacity Expansion Plan	8-24
8.2.7	Needs for Pavement Improvement Plan	8-30
8.2.8	Bridge Improvement Plan.....	8-31
8.2.9	Sulawesi Road Master Plan in 2024 (SRMP).....	8-32

CHAPTER 9 FUTURE TRAFFIC DEMAND FORECAST

9.1	Traffic Assignment Cases.....	9-1
9.1.1	General	9-1
9.1.2	Projects	9-1
9.1.3	Traffic Assignment Cases	9-4
9.2	Traffic Assignment Results	9-4
9.2.1	“Do-nothing” Case	9-4
9.2.2	“With Project” Case for Each of 19 Projects	9-5
9.2.3	“Do-all” Case with 19 Projects.....	9-5

CHAPTER 10 PRELIMINARY ENGINEERING STUDY AND COST ESTIMATE

10.1	Preliminary Engineering Study	10-1
10.1.1	Identification of Improvement Measures	10-1
10.1.2	Proposed Design Standard and Typical Cross Section	10-2
10.1.3	Estimated Quantities.....	10-3
10.1.4	Packaging of Proposed Links of SRMP	10-4
10.2	Cost Estimates.....	10-7
10.2.1	Conditions of Cost Estimates	10-7
10.2.2	Unit Cost of Road Improvement	10-8
10.2.3	Unit Cost for Periodic Maintenance (Overlay).....	10-10
10.2.4	Unit Cost for Routine Maintenance.....	10-11
10.2.5	Total Project Cost until 2024.....	10-11

CHAPTER 11 PROJECT EVALUATIONS

11.1	Evaluation Methods	11-1
11.1.1	Road Packages to be Evaluated	11-1
11.1.2	Conditions for Comparison	11-1

11.2	Economic Costs.....	11-2
11.2.1	Construction/Improvement Costs	11-2
11.2.2	Economic Maintenance Costs	11-2
11.3	Economic Benefits	11-2
11.3.1	Quantified Economic Benefits.....	11-2
11.3.2	Vehicle Operating Cost (VOC).....	11-3
11.3.3	Passenger Travel Time Cost (TTC)	11-4
11.4	Economic Evaluation	11-6
11.4.1	Premises for Evaluation.....	11-6
11.4.2	Cost Benefit Streams and Evaluation Indicators	11-6
11.4.3	Results of Economic Evaluations	11-6
11.5	Supplemental Economic Analysis on Ferry Operations in Sulawesi Island	11-8
11.5.1	Comparisons of Economic Efficiency between Road and Ferry Transport.....	11-8
11.5.2	Bajoe-Kolaka Ferry Route (Crossing the Bone Bay)	11-8
11.5.3	Siwa-Lasusua Ferry Route (Crossing the Bone Bay).....	11-15
11.5.4	Gorontalo-Pagimana Ferry Route (Crossing the Tomini Bay)	11-18
11.5.5	Conclusions of the conomic Study on Ferry Operations	11-21

CHAPTER 12 ENVIRONMENTAL CONSIDERATIONS FOR THE MASTER PLAN

12.1	Basic Approaches	12-1
12.2	Objectives of the Strategic Environmental Assessment (SEA).....	12-1
12.2.1	Objective of SEA methodology	12-1
12.2.2	Reference to the SEA methodology.....	12-1
12.3	SEA Methodologies	12-2
12.3.1	Collection of Baseline Data and Information	12-2
12.3.2	Identification of Evaluation Items	12-2
12.3.3	Impact Assessment	12-2
12.3.4	Multiple-criteria Analysis (MCA)	12-2
12.3.5	Recommendations of Mitigation Measures	12-3
12.3.6	Stakeholder's Meetings	12-3
12.4	Baseline Information.....	12-4
12.5	Evaluation of Pollution	12-24
12.6	Results of the SEA Process	12-33
12.6.1	Setting-up Alternative Options for SEA.....	12-33
12.6.2	Formulation of Environmental Impact Matrix	12-33
12.6.3	Identification of Major Environmental Impacts	12-34
12.6.4	Results of Environmental Impact Matrix	12-38
12.6.5	Results of Multi-criteria Analysis (MCA)	12-39
12.6.6	Conclusion of Multi-criteria Analysis	12-39
12.6.7	Formulation of Mitigation Measures.....	12-45

12.7	Conclusion and Recommendations	12-51
------	--------------------------------------	-------

CHAPTER 13 IMPLEMENTATION PROGRAM

13.1	General	13-1
13.2	Project Prioritization	13-2
13.2.1	Methodology.....	13-2
13.2.2	Prioritization of Proposed Projects	13-4
13.2.3	Sensitivity Test	13-6
13.3	Executing Agency and Implementation Organization.....	13-7
13.3.1	Executing Agency.....	13-7
13.3.2	Implementation Organization	13-7
13.4	Maintenance Plans	13-8
13.4.1	Maintenance Issues.....	13-8
13.4.2	Road Maintenance Plan for Arterial and Collector Roads.....	13-10
13.4.3	Approach for Asset Management and Road Funds	13-12
13.4.4	Overloaded Vehicle Control System.....	13-13
13.5	Funding Requirement and Financing Plans	13-16
13.5.1	Funding Requirement of the Proposed Master Plan	13-16
13.5.2	Possible Budget Envelop	13-16
13.5.3	Estimated Financing Plan	13-19
13.6	Implementation Schedules	13-21
13.6.1	Implementation Plan Concepts.....	13-21
13.6.2	Road Investment Plan.....	13-21
13.6.3	Bridge Investment Plan	13-22
13.6.4	Implementation Plan of Proposed Project	13-24

CHAPTER 14 CONCLUSION AND RECOMMENDATION

14.1	Conclusions	14-1
14.1.1	Regional Development	14-1
14.1.2	Transport Development	14-2
14.1.3	Road Development and Sulawesi Road Master Plan	14-3
14.1.4	Environmental Consideration	14-6
14.1.5	Rural Road Development Plan and Asbuton Use	14-6
14.2	Recommendations	14-8
14.2.1	Regional Development	14-8
14.2.2	Transport Development	14-9
14.2.3	Road Development and Sulawesi Road Master Plan	14-10

14.2.4	Environmental Considerations	14-12
14.2.5	Rural Road Development Plan and Asbuton Utilization	14-12
14.2.6	Recommended Action Plan for Realization of the Project	14-12

APPENDICES

APPENDIX 1	Technical Paper Development Potential of Bio-Diesel Fuel Production in Sulawesi
APPENDIX 2	Port and Airport in Sulawesi
APPENDIX 3	Traffic Survey Forms
APPENDIX 4	Major Commodities Produced in Sulawesi
APPENDIX 5	Summary Results of PCM Held in Manado
APPENDIX 6	Existing Road Network by Province
APPENDIX 7	Discussion Paper on Staged Road Development
APPENDIX 8	Possibility of Tunnel Construction in Long Term Vision
APPENDIX 9	Economic Evaluation Results
APPENDIX 10	A Study on Local Road Rehabilitation and Asbuton Utilization for Regional Development Support
