EXECUTIVE SUMMARY

1 INTRODUCTION

1.1	Background	1-1
1.2	Study Objectives	1-2
1.3	Study Area and Study Roads	1-2
1.4	Study Schedule and Work Flow	1-3

2 EXISTING CONDITIONS OF THE STUDY AREA

2.1	Natural Conditions	2-1
1	Meteorology	2-1
2	Topography and Hydrology	2-1
3	Soil and Geology	2-1
2.2	Socio-Economic Condition	2-2
1	Demography	2-2
2	Economic Performance of Mamminasata Metropolitan Area	2-2
3	Poverty Rate and other Socio-economic Indicators	2-3
2.3	Industrial Sector of Mamminasata Metropolitan Area	2-4
1	Overview of Industrial Sector Performance	2-4
2	Future Development Plan for Mamminasata	2-5
2.4	Road and Transport Situations	2-6
1	Road Facilities and Traffic situation	2-6
2	Road Facilities of Mamminasata Metropolitan Area	2-7
3	Public Transport System and Facilities	2-8
4	Other Transport Facilities	2-10
5	Road Safety and Over Loading Control	2-11

3 TRANSPORT PLANS

3.1	Transport Plans.....	3-1
1	National Transport Development Plan and Strategies	3-1
2	Five Year Plan (Renstra 2005-2009) of the Ministry of Public Works	3-1
3	Sulawesi Island Transport Development Plans	3-2
3.2	Administrative Framework	3-5
1	Central Government	3-5
2	Provincial Government.....	3-6
3	City and Regency Government.....	3-7
4	System of Highway Administration	3-7
3.3	Financial Situation of Road Sector	3-8
1	Mechanism of Revenue and Budget Allocation in Indonesia.....	3-8
2	Financial Situation of Central Government.....	3-8
3	Financial Situation of Regional Governments.....	3-9
4	Implementation Set-up for EIRTP II – IBRD	3-11
3.4	On-going and Planned Road Projects related to the F/S Roads	3-12

4 DEVELOPMENT TREND AND POSSIBLE DEVELOPMENT SCENARIOS ALONG THE STUDY ROUTE CORRIDOR

4.1	Land use	4-1
4.2	Urban Structure and Land Use Plan.....	4-1
1	Mamminasata Development Strategy and Policies	4-1
2	Proposed Urban Structure.....	4-2
3	Development Direction	4-2
4	Land Use Plan.....	4-2
4.3	Socio-economic Framework and Distribution	4-3
1	Basic Concept in setting Socio-economic Framework.....	4-3
2	Revised Population Forecast	4-3
3	Revised GRDP Forecast	4-4
4.4	On-going and Proposed Development Plans Related to the F/S Roads	4-5
1	Updated Mamminasata Spatial Development Plan	4-5
2	New Industrial Area Development along Jl.Ir.Sutami and Middle Ring Connection	4-5
3	Development Plans at the South of Jeneberang River and Related Road Links	4-6
4.5	Preliminary Study for a Satellite Town along Mamminasa Bypass	4-6
1	Satellite Town Development for Makassar City Planning.....	4-6
2	Proposed Location of Satellite City.....	4-7
3	Potential Population Size of Satellite City	4-7
4	Development Concept of Satellite City	4-7

5	Implementation System (Challenge to Local Governments).....	4-8
5	TRAFFIC SURVEY AND TRAFFIC DEMAND FORECAST	
5.1	Supplemental Traffic Survey and Review of Mamminasata Traffic Study.....	5-1
1	Objectives of Supplemental Traffic Survey.....	5-1
2	Scope of Traffic Survey.....	5-1
3	Survey Locations.....	5-1
4	Present Traffic Condition.....	5-2
5	Results of Origin and Destination Survey.....	5-5
6	Travel Speed Survey.....	5-6
5.2	Method of Traffic Demand Forecast.....	5-7
5.3	Examination of Future Traffic Demand.....	5-8
1	Calibration of Forecast.....	5-8
2	Future Traffic Flow.....	5-9
3	Characteristics of Traffic Flow.....	5-11
5.4	Axle Load Survey and Analysis.....	5-12
1	Axle Load Survey.....	5-12
2	Axle Load Analysis.....	5-12
3	Axle Load Regulation and Overloading Control.....	5-13
6	NATURAL CONDITION SURVEYS AND ANALYSIS	
6.1	Hydrology.....	6-1
1	Review of Existing Data and Plans.....	6-1
2	Flood Analysis.....	6-4
3	Conclusions.....	6-9
6.2	Geotechnical Investigation and Construction Material Survey.....	6-12
1	Geological Investigation for Bridges.....	6-12
2	Road Alignment Soil Survey.....	6-14
3	Road Construction Material Investigation.....	6-14
6.3	Topographic Survey and Mapping.....	6-15
7	ENGINEERING STUDY	
7.1	General.....	7-1
7.2	Arterial Road Network System for Mamminasata Metropolitan Area.....	7-1
7.3	Review of the F/S Road Development Plan in the Mamminasata Study.....	7-2
1	Modification of Feasibility Study Road Routes.....	7-2
2	Busways (Bus-lane) and Left-lane-Use for Motorcycles.....	7-4
3	Review of Expressway and Toll Road Plan.....	7-4
4	Bikeways.....	7-6
7.4	Proposed Geometric Design Criteria for F/S Roads.....	7-8

7.5	Proposed Typical Cross Sections	7-8
7.6	Road Development Concept	7-10
1	Trans-Sulawesi Road Mamminasata Section (Maros – Takalar).....	7-10
2	Mamminasa Bypass.....	7-11
3	Hertasning Road	7-11
4	Abdullah Daeng Sirua Road	7-12
7.7	FS Road Route Study	7-13
1	Trans-Sulawesi Road Mamminasata Section (Maros – Takalar).....	7-13
2	Mamminasa Bypass.....	7-15
3	Hertasning Road	7-17
4	Abdullah Daeng Sirua Road.....	7-18
5	Section D (Antang Raya Road-Makassar City/Kab. Maros Border).....	7-20
7.8	Intersection Plan.....	7-22
1	General	7-22
2	Applicable Design Standards.....	7-22
3	Design Traffic Volume.....	7-22
4	Selection of Intersection Types.....	7-22
5	Locations of Intersections.....	7-23
6	Intersection Plan for Representatives Intersections	7-24
7.9	Bridge Design Concept	7-27
1	Number and Length of Bridges	7-27
2	Design Standard.....	7-27
3	Standard Bridge Cross Section	7-28
4	Major Bridges.....	7-29
5	Minor Bridges.....	7-35
7.10	Preliminary Design of F/S Roads.....	7-36
1	General	7-36
2	Roadways	7-36
3	Intersections.....	7-36
4	Bridges.....	7-37
5	Pavement	7-37
6	Drainage and Other Structures	7-39
7	Miscellaneous	7-40
7.11	Construction Plan.....	7-41
1	General	7-41
2	Procurement Plan.....	7-42
3	Construction Procedures.....	7-42
7.12	Road Development Methods in Harmony with Urban Development	7-42
1	Necessity of Applying Urban Development System for Road Development.....	7-42
2	Possible Frictions between Road Development and Urban Settlements	7-42

3	Land Readjustment System for Road Development Method	7-42
4	Indonesian Context and Sulawesi	7-43
8	ENVIRONMENTAL CONSIDERATION	
8.1	Basic Approaches for Environmental Surveys	8-1
8.2	Scope of the Study for IEE and EIA	8-1
8.3	Study Areas	8-1
8.4	Results of EIA (AMDAL) Studies	8-2
8.5	Results of EIA Studies (Trans-Sulawesi Road Mamminasata Section)	8-2
8.6	Results of EIA Studies (Mamminasa Bypass, Hertasning and Abdullah Daeng Sirua Road)	8-4
8.7	Mitigation Measures and Monitoring	8-5
8.8	Implementation of Public Consultations	8-6
8.9	Preparation for LARAP Policy Framework	8-9
9	COST ESTIMATE AND PROJECT EVALUATION	
9.1	Cost Estimate	9-1
1	Composition of Project Cost	9-1
2	Conditions of Cost Estimate	9-1
3	Project Cost Estimation	9-2
4	Maintenance Cost	9-3
5	Cost Estimate for the Implementation Plan	9-5
9.2	Economic Evaluation	9-9
1	Economic Costs	9-9
2	Economic Benefits	9-9
3	Economic Evaluation	9-9
4	Evaluation Results	9-10
9.3	Financial Evaluation	9-10
1	Purpose of Evaluation	9-10
2	Target Toll Road Sections for Financial Evaluation	9-10
3	Financial Return on Investment and Government Burden	9-11
9.4	Role of Mamminasata Metropolitan Area in the Sulawesi and Eastern Indonesia Regional Development	9-12
9.5	Logistic Support to promote Trade and Investment	9-13
10	IMPLEMENTATION PLAN	
10.1	Overall Implementation Plan for Major Road Development in Mamminasata Metropolitan Area	10-1
10.2	Implementation Plan for the FS Roads	10-1
1	Trans-Sulawesi Mamminasata Road	10-1

2	Mamminasa Bypass, Hertasning Road and Abdullah Daeng Sirua Road	10-3
10.3	Executing Agency	10-3
10.4	Contract Packaging	10-4
1	Trans-Sulawesi Mamminasata Road	10-4
2	Mamminasa Bypass, Hertasning Road, A.D. Sirua Road.....	10-6
10.5	Implementation Schedule.....	10-7
1	Trans-Sulawesi Mamminasata Road	10-7
2	Mamminasa Bypass, Hertasning Road, A.D. Sirua Road.....	10-8
10.6	Operation and Maintenance Plan	10-9
1	Key Maintenance Issue and Financing Source	10-9
2	Trans-Sulawesi Mamminasata Road	10-10
3	Mamminasa Bypass, Hertasning Road and Abdullah Daeng Sirua Road	10-10
10.7	Financing Plan and Annual Fund Requirements	10-11
1	Trans-Sulawesi Mamminasata Road	10-11
2	Mamminasa Bypass, Hertasning Road and Abdullah Daeng Sirua Road	10-12
3	External Soft Loan for Mamminasa Bypass and Abdullah Daeng Sirua Road	10-34
11	CONCLUSIONS AND RECOMMENDATIONS	
11.1	Conclusions on F/S Roads	11-1
1	Trans-Sulawesi Mamminasata Road	11-1
2	Mamminasa Bypass.....	11-2
3	Hertasning Road	11-2
4	Abdullah Daeng Sirua Road.....	11-3
11.2	Recommendations on F/S Roads	11-4
1	Trans-Sulawesi Mamminasata Road	11-4
2	Mamminasa Bypass.....	11-4
3	Hertasning Road	11-5
4	Abdullah Daeng Sirua Road.....	11-5
11.3	Conclusion and Recommendations on Other Roads	11-6
1	Outer Ring Road.....	11-6
2	Tj.Bunga – Takalar Road (Jalan Lintas Barat Makassar - Takalar).....	11-7
APPENDIX A Alternative Route Study Maps for the F/S Roads		
APPENDIX B Boring Logs and Geological Cross Sections for Major Bridges		
B-1	Maros Bridge (Bridge No.1-5) on Mamminasa Bypass	
B-2	Jeneberang No.1 Bridge (Bridge No. 1-31) on Mamminasa Bypass	
B-3	Tallo Bridge (Bridge Number 2-6) on Trans-Sulawesi Mamminasata Road	
B-4	Jeneberang No.2 Bridge (Bridge No. 2-11) on Trans-Sulawesi Mamminasata Road	

APPENDIX C Pre-Feasibility Study for Outer Ring Road

- C-1 Route Selection and Development Concept
- C-2 Preliminary Design of Roadway and Intersections
- C-3 Bridge Plan and Preliminary Design
- C-4 IEE for Route Selection
- C-5 Cost Estimate
- C-6 Economic Evaluation
- C-7 Conclusion and Recommendations

APPENDIX D A Supplemental Study for Tj. Bunga – Takalar Road (Jalan Lintas Barat Makassar)

- D-1 General
- D-2 Development Concept and Route Selection
- D-3 Evaluation and Recommendation on Alternative Plans
- D-4 Designs
- D-5 Cost Estimate and Economic Evaluation
- D-6 IEE for Route Selection
- D-7 Implementation Plan
- D-8 Conclusion and Recommendations
