EXECUTIVE SUMMARY

CHAPTER 1 INTRODUCTION

1.1	Background	1-1
1.2	Study Objectives	1-2
1.3	Study Area and Study Roads	1-2
1.4	Study Schedule and Work Flow	1-3
1.5	Major Meetings, Presentations, Consultations and Workshop	1-5
1.6	Organization for the Study	1-6

CHAPTER 2 EXISTING CONDITIONS OF THE STUDY AREA

2.1	Natural Conditions	2-1
2.1.1	Meteorology	2-1
2.1.2	Topography and Hydrology	2-4
2.1.3	Soil and Geology	2-9
2.2	Socio-Economic Condition	2-13
2.2.1	Demography	2-13
2.2.2	Economic Performance of Mamminasata Metropolitan Area	2-16
2.2.3	Poverty Rate and other Socio-economic Indicators	2-17
2.3	Industrial Sector of Mamminasata Metropolitan Area	2-18
2.3.1	Overview of Industrial Sector Performance	2-18
2.3.2	Future Development Plan for Mamminasata	2-21
2.4	Road and Transport Situations	2-23
2.4.1	Road Facilities and Traffic situation	2-23
2.4.2	Road Facilities of Mamminasata Metropolitan Area	2-27
2.4.3	Public Transport System and Facilities	2-28
2.4.4	Other Transport Facilities	2-37
2.4.5	Road Safety and Over Loading Control	2-42

CHAPTER 3 TRANSPORT PLANS

3.1	Transport Plans.....	3-1
3.1.1	National Transport Development Plan and Strategies	3-1
3.1.2	Five Year Plan (Renstra 2005-2009) of the Ministry of Public Works	3-1
3.1.3	Sulawesi Island Transport Development Plans	3-3
3.2	Administrative Framework	3-8
3.2.1	Central Government	3-8
3.2.2	Provincial Government.....	3-11
3.2.3	Kabupaten/Kota Government	3-12
3.2.4	System of Highway Administration	3-12
3.3	Financial Situation of Road Sector	3-15
3.3.1	Mechanism of Revenue and Budget Allocation in Indonesia.....	3-15
3.3.2	Financial Situation of Central Government.....	3-16
3.3.3	Financial Situation of Regional Governments.....	3-19
3.3.4	Implementation Set-up for EIRTP II – IBRD/ EINRIP – AusAID.....	3-24
3.4	On-going and Planned Road Projects related to the F/S Roads	3-28

CHAPTER 4 DEVELOPMENT TREND AND POSSIBLE DEVELOPMENT SCENARIOS ALONG THE STUDY ROUTE CORRIDOR

4.1	Land use	4-1
4.2	Urban Structure and Land Use Plan.....	4-3
4.2.1	Mamminasata Development Strategy and Policies	4-3
4.2.2	Proposed Urban Structure.....	4-3
4.2.3	Development Direction	4-3
4.2.4	Land Use Plan.....	4-4
4.3	Socio-economic Framework and Distribution	4-6
4.3.1	Basic Concept in setting Socio-economic Framework.....	4-6
4.3.2	Revised Population Forecast	4-6
4.3.3	Revised GRDP Forecast	4-9
4.4	On-going and Proposed Development Plans Related to the F/S Roads	4-11
4.4.1	Updated Mamminasata Spatial Development Plan	4-11
4.4.2	New Industrial Area Development along Jl. Tol Ir.Sutami and Middle Ring Connection	4-11
4.4.3	Development Plans at the South of Jeneberang River and Related Road Links	4-13
4.5	Preliminary Study for a Satellite Town along Mamminasata Bypass	4-14
4.5.1	Satellite Town Development for Makassar City Planning.....	4-14
4.5.2	Proposed Location of Satellite City.....	4-19
4.5.3	Potential Population Size of Satellite City	4-21
4.5.4	Development Concept of Satellite City	4-22

4.5.5	Implementation System (Challenge of Local Governments)	4-25
-------	--	------

CHAPTER 5 TRAFFIC SURVEY AND TRAFFIC DEMAND FORECAST

5.1	Supplemental Traffic Survey and Review of Mamminasata Traffic Study	5-1
5.1.1	Objectives of Supplemental Traffic Survey	5-1
5.1.2	Outline and Schedule of Traffic Survey	5-1
5.1.3	Survey Locations and Zoning	5-2
5.1.4	Present Traffic Condition	5-6
5.1.5	Results of Origin and Destination Survey	5-18
5.1.6	Travel Speed Survey	5-23
5.2	Method of Traffic Demand Forecast	5-26
5.3	Examination of Future Traffic Demand	5-33
5.3.1	Calibration of Forecast	5-33
5.3.2	Future Traffic Flow	5-34
5.3.3	Characteristics of Traffic Flow	5-37
5.4	Axle Load Survey and Analysis	5-40
5.4.1	Axle Load Survey	5-40
5.4.2	Axle Load Analysis	5-42
5.4.3	Axle Load Regulation and Overloading Control	5-44

CHAPTER 6 NATURAL CONDITION SURVEYS AND ANALYSIS

6.1	Hydrology	6-1
6.1.1	Review of Existing Data and Plans	6-1
6.1.2	Flood Analysis	6-17
6.1.3	Conclusions	6-46
6.2	Geotechnical Investigation and Construction Material Survey	6-51
6.2.1	Geological Investigation for Bridges	6-51
6.2.2	Road Alignment Soil Survey	6-62
6.2.3	Road Construction Material Investigation	6-66
6.3	Topographic Survey and Mapping	6-69

CHAPTER 7 ENGINEERING STUDY

7.1	General	7-1
7.2	Arterial Road Network System for Mamminasata Metropolitan Area	7-3
7.3	Review of the F/S Road Development Plan in the Mamminasata Study	7-7
7.3.1	Modification of Feasibility Study Road Routes	7-7
7.3.2	Busways (Bus-lane) and Left-lane-Use for Motorcycles	7-9
7.3.3	Review of Freeway and Toll Road Plan	7-10
7.3.4	Bikeways	7-17
7.4	Proposed Geometric Design Criteria for F/S Roads	7-23

7.5	Proposed Typical Cross Sections	7-26
7.6	Road Development Concept	7-29
7.6.1	Trans-Sulawesi Road Mamminasata Section (Maros – Takalar).....	7-29
7.6.2	Mamminasa Bypass.....	7-30
7.6.3	Hertasning Road	7-31
7.6.4	Abdullah Daeng Sirua Road.....	7-31
7.7	FS Road Route Study	7-33
7.7.1	Trans-Sulawesi Road Mamminasata Section (Maros – Takalar).....	7-33
7.7.2	Mamminasa Bypass.....	7-35
7.7.3	Hertasning Road	7-40
7.7.4	Abdullah Daeng Sirua Road.....	7-40
7.8	Intersection Plan.....	7-47
7.8.1	General	7-47
7.8.2	Applicable Design Standards.....	7-47
7.8.3	Design Traffic Volume.....	7-47
7.8.4	Selection of Intersection Types.....	7-47
7.8.5	Locations of Major Intersections.....	7-50
7.8.6	Intersection Plan for Each Intersection.....	7-52
7.9	Bridge Design Concept	7-72
7.9.1	Bridge List.....	7-72
7.9.2	Design Standard.....	7-77
7.9.3	Standard Bridge Cross Section	7-79
7.9.4	Major Bridges.....	7-81
7.9.5	Minor Bridges.....	7-92
7.10	Preliminary Design of F/S Roads.....	7-95
7.10.1	General	7-95
7.10.2	Roadways	7-95
7.10.3	Intersections.....	7-101
7.10.4	Bridges.....	7-110
7.10.5	Pavement	7-112
7.10.6	Drainage and Other Structures	7-127
7.10.7	Miscellaneous	7-136
7.11	Construction Plan.....	7-139
7.11.1	General	7-139
7.11.2	Procurement Plan.....	7-139
7.11.3	Construction Procedures.....	7-141
7.12	Road Development Methods in Harmony with Urban Development	7-146
7.12.1	Necessity of Applying Urban Development System for Road Construction.....	7-146
7.12.2	Possible Frictions between Road Development and Urban Settlements	7-146
7.12.3	Land Readjustment System for Road Development Method	7-148

7.12.4	Indonesian Context and Sulawesi.....	7-153
--------	--------------------------------------	-------

CHAPTER 8 ENVIRONMENTAL CONSIDERATION

8.1	Basic Approaches for Environmental Considerations.....	8-1
8.2	Methodology for Environmental Considerations Studies for Assessment of the F/S Roads.....	8-1
8.3	Scope of the Study for IEE and EIA	8-5
8.3.1	Scope of the Study for IEE.....	8-5
8.3.2	Scope of the Study for EIA.....	8-7
8.4	Methodologies of IEE and EIA.....	8-11
8.4.1	Methodologies of IEE.....	8-11
8.4.2	Methodologies of EIA	8-13
8.5	Summary of IEE for Route Selections for F/S Roads.....	8-19
8.5.1	Preliminary Survey for IEE.....	8-19
8.5.2	IEE for Mamminasa Bypass.....	8-19
8.5.3	IEE for Trans-Sulawesi Road Mamminasata Section.....	8-21
8.5.4	Hertasning Road (refer to Appendix B as to IEE and MCA Matrixes)	8-24
8.5.5	Abdullah Daeng Sirua Road (refer to Appendix B as to IEE and MCA Matrixes)	8-25
8.6	EIA Status for Feasibility Study Roads	8-26
8.6.1	Trans-Sulawesi Road Mamminasata Section	8-27
8.6.2	Mamminasa Bypass, Hertasning Road and Abdullah Daeng Sirua Road	8-28
8.7	Community Involvement in EIA.....	8-28
8.7.1	Public Consultation Methodology	8-29
8.7.2	Outline of Public Consultations.....	8-30
8.7.3	Public Consultation Implementation	8-32
8.8	Summary of Final EIA Documents for Trans Sulawesi Road Mamminasa Section	8-41
8.8.1.	Environmental Category and Draft EIA (AMDAL) Report	8-41
8.8.2	Physical Environment (Natural Environment)	8-41
8.8.3	Social Environment	8-57
8.8.4	Summary of Impact under AMDAL Impact Matrix.....	8-67
8.9	Summary of Draft Final EIA for Mamminasa Bypass, Hertasning and Abdullah Daeng Sirua Roads	8-69
8.9.1.	Natural Environment	8-69
8.9.2.	Social Environment	8-80
8.9.3	Summary of Impacts under AMDAL Impact Matrix	8-91
8.10	Environmental Management Plan (RKL)	8-92
8.11	Environmental Monitoring Plan (RPL).....	8-99
8.12	LARAP policy Framework	8-106

8.12.1.	Objectives	8-106
8.12.2	Legal Basis for LARAP.....	8-106
8.12.3	Framework for LARAP	8-106

CHAPTER 9 COST ESTIMATE AND PROJECT EVALUATION

9.1	Cost Estimate	9-1
9.1.1	Composition of Project Cost	9-1
9.1.2	Conditions of Cost Estimate	9-1
9.1.3	Project Cost	9-4
9.1.4	Maintenance Cost	9-8
9.1.5	Cost Estimate for the Implementation Plan	9-10
9.2	Economic Evaluation	9-16
9.2.1	Target Roads for Evaluation	9-16
9.2.2	Evaluation Scenarios	9-17
9.2.3	Economic Costs	9-18
9.2.4	Economic Benefits.....	9-19
9.2.5	Economic Evaluation.....	9-23
9.2.6	Conclusions of Economic Evaluation.....	9-24
9.3	Financial Evaluation.....	9-32
9.3.1	Purpose of Analysis	9-32
9.3.2	Target Toll Road Sections for Financial Evaluation	9-32
9.3.3	Analytical Framework	9-32
9.3.4	Financial Return on Investment.....	9-33
9.3.5	Requirement of Government Subsidy	9-34
9.3.6	Comparison of Government Burden.....	9-37
9.3.7	Conclusions of Financial Evaluation.....	9-37
9.4	Role of Mamminasata Metropolitan Area in the Sulawesi and Eastern Indonesia Regional Development.....	9-38
9.4.1	National and Sulawesi Island Spatial Plans.....	9-38
9.4.2	Development Strategies and Concepts in the Master Plan	9-39
9.5	Logistic Support to promote Trade and Investment	9-44

CHAPTER 10 IMPLEMENTATION PLAN

10.1	Overall Implementation Plan for Major Road Development in Mamminasata Metropolitan Area	10-1
10.2	Implementation Plan for the FS Roads	10-5
10.2.1	Trans-Sulawesi Mamminasata Road	10-5
10.2.2	Mamminasa Bypass, Hertasing Road and Abdullah Daeng Sirua Road	10-8
10.3	Executing Agency	10-8
10.4	Contract Packaging	10-10

10.4.1	Trans-Sulawesi Mamminasata Road	10-10
10.4.2	Mamminasa Bypass, Hertasning Road, A.D. Sirua Road.....	10-13
10.5	Implementation Schedule.....	10-14
10.5.1	Trans-Sulawesi Mamminasata Road	10-14
10.5.2	Mamminasa Bypass, Hertasning Road, A.D. Sirua Road.....	10-16
10.6	Operation and Maintenance Plan	10-17
10.6.1	Key Maintenance Issue and Financing Source	10-17
10.6.2	Trans-Sulawesi Mamminasata Road	10-18
10.6.3	Mamminasa Bypass, Hertasning Road and Abdullah Daeng Sirua Road	10-20
10.7	Financing Plan and Annual Fund Requirements	10-20
10.7.1	Trans-Sulawesi Mamminasata Road	10-20
10.7.2	Mamminasa Bypass Project, Hertasning Road Project and Abdullah Daeng Sirua Road Project.....	10-28
10.7.3	External Soft Loan for Mamminasa Bypass and Abdullah Daeng Sirua Road	10-35

CHAPTER 11 CONCLUSIONS AND RECOMMENDATIONS

11.1	Conclusions on F/S Roads	11-1
11.1.1	Trans-Sulawesi Mamminasata Road	11-1
11.1.2	Mamminasa Bypass.....	11-2
11.1.3	Hertasning Road	11-2
11.1.4	Abdullah Daeng Sirua Road	11-3
11.2	Recommendations on F/S Roads	11-4
11.2.1	Trans-Sulawesi Mamminasata Road	11-4
11.2.2	Mamminasa Bypass.....	11-4
11.2.3	Hertasning Road	11-5
11.2.4	Abdullah Daeng Sirua Road	11-5
11.3	Conclusion and Recommendations on Other Roads	11-6
11.3.1	Outer Ring Road.....	11-6
11.3.2	Tj.Bunga – Takalar Road (Jalan Lintas Barat Makassar - Takalar)	11-7
11.4	Recommendation on Establishment of Coordination Committee for Project Implementation of the F/S Roads	11-7

APPENDIX A Alternative Route Study Maps for the F/S Roads

APPENDIX B IEE Matrix

B-1 Mamminasa Bypass

B-2 Trans-Sulawesi Mamminasata Section

B-3 Hertasning Road

B-4 Abdullah Daeng Sirua Road

APPENDIX C Overall Rating Matrix based on Multi Criteria Analysis

- C-1 Mamminasa Bypass
- C-2 Trans-Sulawesi Mamminasata Section
- C-3 Hertasing Road
- C-4 Abdullah Daeng Sirua Road
- C-5 Evaluation Standard
- APPENDIX D Pavement Design
- APPENDIX E Geological Investigation and Analysis Data
 - E-1 Development Concept and Route Selection
 - E-2 Road Alignment Soil Survey
 - E-3 Road Construction Material Investigation
- APPENDIX F Pre-Feasibility Study for Outer Ring Road
 - F-1 Route Selection and Development Concept
 - F-2 Preliminary Design of Roadway and Intersections
 - F-3 Bridge Plan and Preliminary Design
 - F-4 IEE for Route Selection
 - F-5 Cost Estimate
 - F-6 Economic Evaluation
- APPENDIX G A Supplemental Study for Tj.Bunga-Takalar Road (Jalan Lintas Barat Makassar-Takalar)
 - G-1 General
 - G-2 Development Concept and Route Selection
 - G-3 Evaluation and Recommendation on Alternative Plans
 - G-4 Designs
 - G-5 Cost Estimate and Economic Evaluation
 - G-6 IEE for Route Selection
 - G-7 Implementation Plan
 - G-8 Conclusion and Recommendations
