

**THE STUDY ON RURAL DEVELOPMENT  
AND WATERSHED MANAGEMENT  
IN  
THE SOUTH-WEST REGION OF ALAOTRA  
OF  
THE REPUBLIC OF MADAGASCAR**

**FINAL REPORT**

**Table of Contents**

Location Map	page
Map of region of the Alaotra Lake	
Photographs	
Summary	

**CHAPTER 1 INTRODUCTION**

1.1	History of the Study .....	1-1
1.2	Objectives of the Study .....	1-1
1.3	Study Area .....	1-1
1.4	Basic Concept of Study Implementation.....	1-2
1.5	Progress of the Study.....	1-2
1.6	Organization for Study Implementation.....	1-3

**CHAPTER 2 BACKGROUND OF THE STUDY**

2.1	General Socio-economic Condition .....	2-1
2.2	Development Policy .....	2-1
2.2.1	Poverty Reduction Strategic Paper .....	2-1
2.2.2	Madagascar Action Plan .....	2-4
2.2.3	Irrigation and Watershed Management Policy .....	2-8
2.2.4	Decentralization of Development Administration .....	2-9
2.3	Alaotra-Mangoro Regional Development Plan .....	2-10
2.4	Trend of Assistance by Donors.....	2-11
2.4.1	Assistance of Madagascar .....	2-11
2.4.2	Foreign Donor Assistant Activities in the Surrounding Areas of Lake Alaotra .....	2-14

## **CHAPTER 3 PRESENT CONDITIONS AND PROBLEMS IN THE STUDY AREA**

3.1	Present socio-economic conditions .....	3-1
3.1.1	Administrative system, zone demarcation and population.....	3-1
3.1.2	Detail village survey.....	3-1
3.1.3	Land tenure.....	3-2
3.1.4	Major occupation and income structure and farmer's income and poverty.....	3-4
3.1.5	Gender Issue and Social Practice .....	3-8
3.2	Natural conditions .....	3-10
3.2.1	Topography, geology and soils .....	3-10
3.2.2	Agricultural climate.....	3-11
3.2.3	Rivers and water resources .....	3-13
3.3	Land use .....	3-18
3.4	Agriculture .....	3-20
3.4.1	General .....	3-20
3.4.2	Cropping pattern and farming practice.....	3-21
3.4.3	Yield and production .....	3-22
3.4.4	Agricultural support services.....	3-23
3.4.5	Problems and their causes for agriculture.....	3-27
3.5	Livestock .....	3-28
3.5.1	General .....	3-28
3.5.2	Pasture land farming method.....	3-29
3.5.3	Grazing land and carrying capacity of grazing area as to keep cattle .....	3-30
3.5.4	Balance of fodder supply and fodder consuming .....	3-30
3.5.5	Problems and causes of problems for livestock sector .....	3-31
3.6	Inland fisheries .....	3-31
3.7	Post harvest and market.....	3-32
3.7.1	Present post harvest.....	3-32
3.7.2	Market and price.....	3-34
3.7.3	Market information system.....	3-35
3.7.4	Problems and causes of problems for post harvest and market sector.....	3-36
3.8	Irrigation.....	3-36
3.8.1	Irrigation areas around PC23 irrigation area .....	3-36
3.8.2	Irrigation and drainage in PC23 area.....	3-37
3.8.3	Present water distribution .....	3-40
3.8.4	Sedimentation, land subsidence and drainage .....	3-42

3.8.5	Operation and maintenance (O/M) irrigation and drainage system in PC23 area .....	3-47
3.8.6	Present situation of irrigation in the upper area of the source rivers .....	3-49
3.8.7	Problems of irrigation and water use association and causes of problems .....	3-50
3.9	Present watershed management and soil conservation.....	3-52
3.9.1	Present status of forest.....	3-52
3.9.2	Watershed management.....	3-53
3.9.3	Forest fire .....	3-53
3.9.4	Soil erosion.....	3-55
3.9.5	Problems of watershed management and causes of problems .....	3-57
3.10	Life environmental status .....	3-57
3.10.1	Poverty.....	3-57
3.10.2	Basic living environment.....	3-58
3.10.3	Problems of basic living environment and causes of problems .....	3-61
3.11	Natural environment.....	3-62
3.12	Resident's demand and sense of participation .....	3-64
3.12.1	Resident's demand .....	3-64
3.12.2	Resident's development participation consideration.....	3-64

## **CHAPTER 4 COUNTERMEASURES FOR PROBLEM SOLVING**

4.1	Approaches to problem solving.....	4-1
4.2	Countermeasures based on the Approaches .....	4-4
4.2.1	Countermeasures in Agriculture sector.....	4-4
4.2.2	Countermeasures for livestock sector.....	4-8
4.2.3	Countermeasures for post harvest processing sector .....	4-10
4.2.4	Countermeasures for irrigation sector .....	4-12
4.2.5	Countermeasures for watershed management sector.....	4-17
4.2.6	Countermeasures for Living environment sector .....	4-23
4.3	Selection of countermeasures for solving problems.....	4-26
4.4	Implementation Schedule and Target Areas .....	4-31
4.5	Assessment of environmental impact associated with the implementation of countermeasures .....	4-32
4.5.1	Environmental Impact Assessment System in Madagascar.....	4-32
4.5.2	Initial Environmental Evaluation (IEE) for the selected countermeasures.....	4-35

## **CHAPTER 5 VALIDATION OF COUNTER MEASURES THROUGH IMPLEMENTATION OF PILOT PROJECTS**

5.1	Objectives and selection of pilot projects.....	5-1
5.1.1	Objectives of the pilot projects.....	5-1
5.1.2	Basic approach to the selection of pilot projects .....	5-1
5.1.3	Selection of Pilot Projects .....	5-2
5.2	Implementation of the Pilot Projects .....	5-7
5.2.1	Outline of the pilot projects.....	5-7
5.2.2	Overview of the pilot project sites.....	5-9
5.2.3	Method of implementation of the pilot projects .....	5-12
5.3	Achievement of the pilot projects .....	5-13
5.3.1	Outline of the pilot project activities .....	5-13
5.3.2	Inputs and outputs of the pilot projects .....	5-19
5.3.3	Evaluation of the pilot projects upon completion.....	5-22
5.3.4	Sustainable implementation system by the pilot area and participating community .....	5-27
5.4	Lessons learned from the pilot projects.....	5-29
5.4.1	Effectiveness and applicability of counter measures to solve the problems....	5-29
5.4.2	Lessons learned to be reflected in the basin management and rural development plan .....	5-36
5.4.3	Lessons learned for management of pilot projects .....	5-42

## **CHAPTER 6 WATERSHED MANAGEMENT AND RURAL DEVELOPMENT PROJECTS**

6.1	Basic Concept.....	6-1
6.1.1	Background on Study Area and Basic Development Concept.....	6-1
6.1.2	Development Objectives .....	6-2
6.2	Master Plan for Watershed Management and Rural Development Projects.....	6-4
6.2.1	Principles in formulation of watershed management and rural development projects.....	6-4
6.2.2	Development Projects.....	6-6
6.2.3	Outline of the Development Projects.....	6-10
6.2.4	Approximate operation costs and expected benefits/effects of the development projects.....	6-25
6.2.5	Organization of implementation of development projects.....	6-27
6.3	Action Plan.....	6-28

6.3.1	Target years .....	6-28
6.3.2	Implementation Schedule of the Projects .....	6-29
6.4	Evaluation of Environmental Impact.....	6-32

## **CHAPTER 7 COUNTERMEASURES FOR PROBLEM SOLVING**

7.1	Problem Analysis, Countermeasures and Project Proposed .....	7-1
7.2	Early Implementation and Budgetary Arrangement.....	7-2
7.3	Supporting Projects for Smooth Implementation of Proposed Projects .....	7-3
7.4	Set-up Improvement for Basic Data Collection .....	7-3
7.5	Coordination with Relevant Organizations .....	7-3

## Table in the text

Table 2.1.1	Major Economic Indicators in 2005.....	2-1
Table 2.2.1	Major Numerical Indexes of MAP .....	2-6
Table 2.2.2	Rice Production Doubling Plan under MAP .....	2-6
Table 2.3.1	Necessary Budget for Alaotra-Mangoro PRD.....	2-11
Table 2.4.1	Results of Assistance by Multilateral Agencies to Madagascar .....	2-12
Table 2.4.2	Results of Bilateral Assistance to Madagascar.....	2-13
Table 2.4.3	Development Assistant Activities in Surrounding Area of Lake Alaotra.....	2-14
Table 3.1.1	Administrative units and zone in the Study area.....	3-1
Table 3.1.2	Objective villages for survey.....	3-2
Table 3.1.3	Average land holding size .....	3-3
Table 3.1.4	Present land registration rate.....	3-3
Table 3.1.5	Major occupation and income structure of household heads .....	3-4
Table 3.1.6	Farm budget of farmers in the Study area .....	3-5
Table 3.1.7	Poverty rate .....	3-5
Table 3.1.8	Poverty rate in the Study area.....	3-6
Table 3.1.9	Poverty rate and paddy field area owned by household .....	3-7
Table 3.2.1	Average annual rainfall at FOFIFA Central-Eastern regional agricultural research center .....	3-12
Table 3.2.2	Temperature and evaporation at Anosiboribory seed center .....	3-13
Table 3.2.3	Drought and wet probability .....	3-14
Table 3.2.4	General characteristics of rivers .....	3-14
Table 3.2.5	Summary of discharge measurement results .....	3-15
Table 3.2.6	Probability of maximum daily rain at FOFIFA central-eastern regional agricultural research center .....	3-17
Table 3.2.7	Summary of probable peak in the Study area.....	3-17
Table 3.3.1	Present land use.....	3-19
Table 3.4.1	Cultivation area, yield and production for the main crops .....	3-22
Table 3.4.2	Agricultural problems and their causes .....	3-28

Table 3.5.1	Balance of fodder supply and fodder consuming .....	3-30
Table 3.5.2	Problems and causes of problems for livestock sector .....	3-31
Table 3.7.1	Problems and causes of problems for post harvesting and market sector .....	3-36
Table 3.8.1	General features of irrigation systems around PC23 area .....	3-36
Table 3.8.2	Length of canals provided by for PC23 area.....	3-39
Table 3.8.3	Irrigation water distribution in canal hierarchy of PC23 area .....	3-41
Table 3.8.4	Dredging Works in PC23 conducted by DRDR Ambatondrazaka in 2003 ....	3-42
Table 3.8.5	Approximate ground elevation along D2 drain (road surface/.dike crest) .....	3-46
Table 3.8.6	General Description of Role of DRDR and AUEs in O/M .....	3-47
Table 3.8.7	General profile of water user association .....	3-48
Table 3.8.8	Irrigation Areas in the Upper Area .....	3-49
Table 3.8.9	Problems of irrigation and water use association and causes of problems.....	3-51
Table 3.9.1	Damage by forest fires within the area controlled by old offices of Ambatondrazaka and Amparafaravola .....	3-54
Table 3.9.2	Present number of lavaka in the Study area .....	3-55
Table 3.9.3	Soil loss from each river basin .....	3-56
Table 3.9.4	Problems of watershed management and causes of problems.....	3-57
Table 3.10.1	Source of domestic water in the Study area .....	3-58
Table 3.10.2	Condition of toilet .....	3-59
Table 3.10.3	Sources of fuel.....	3-59
Table 3.10.4	Soruce of lighting .....	3-60
Table 3.10.5	Problems of basic living environment and causes of problems.....	3-62
Table 3.12.1	Peoples' willingness to participate for increasing forest areas .....	3-64
Table 3.12.2	Peoples' willingness to participate for irrigation improvement.....	3-65
Table 4.1.1	Problems and approaches to problem solving: Agriculture and livestock.....	4-2
Table 4.1.2	Problems and Approaches to problem solving: Post harvest processing and irrigation.....	4-3
Table 4.1.3	Problems and approaches to problem solving: Watershed management and living environment.....	4-4
Table 4.2.1	Countermeasures and components in agriculture.....	4-8
Table 4.2.2	Countermeasures and components for livestock .....	4-10
Table 4.2.3	Countermeasures for post harvest processing and components .....	4-12

Table 4.2.4	Countermeasures and Components for Irrigation.....	4-16
Table 4.2.5	Countermeasures and components for watershed management .....	4-22
Table 4.2.6	Countermeasures and components for Living environment.....	4-25
Table 4.3.1	Selection of Countermeasures to solve problems.....	4-29
Table 4.4.1	Implement schedule and target area .....	4-31
Table 4.5.1	Conditions requiring EIA in Madagascar.....	4-33
Table 4.5.2	Outline of the procedure of Environment Impact Assessment .....	4-34
Table 4.5.3	Items to be included in PREE .....	4-34
Table 5.1.1	Results of Scoring according to the level of urgency and contribution to river basin conservation in each technical area.....	5-4
Table 5.1.2	List of Pilot projects and pilot project sites .....	5-6
Table 5.2.1	Outline of the Pilot Projects .....	5-7
Table 5.2.2	Subcontractors of the pilot projects.....	5-13
Table 5.3.1	Overview of the Pilot Project activities.....	5-14
Table 5.3.2	Overview of the inputs and outputs of pilot projects .....	5-19
Table 5.3.3	Summary of the results of the final evaluation of the pilot projects.....	5-22
Table 5.3.4	Sustainability of the activities and implementation system of the pilot project.....	5-28
Table 5.4.1	Effectiveness and applicability of countermeasures to solve the problems .....	5-29
Table 5.4.2	Lessons learned through pilot project implementation (Project management) .....	5-42
Table 6.1.1	Development Indicators .....	6-3
Table 6.2.1	Project List .....	6-7
Table 6.2.2	Comparison of countermeasures and development projects .....	6-8
Table 6.2.3	List of newly organized water users' associations in PC5 main canal irrigated area .....	6-14
Table 6.2.4	Implementation Period, Project Cost and Expected Benefits/effects of Development Projects .....	6-25
Table 6.3.1	Project Priority .....	6-30
Table 7.3.1	Supporting Projects to Maximize Effects and Outcomes of Proposed Projects .....	7-4

## **Figure in the text**

Figure 3.1.1	Basic Daily Life Calendar .....	3-8
Figure 3.1.2	Basic Annual Farming Calendar .....	3-9
Figure 3.2.1	Flood Prone Area in the Study area .....	3-16
Figure 3.7.1	Market condition of Paddy and Rice in Alaotra lake region in 1999.....	3-33
Figure 3.7.2	Market rice of paddy and rice at Amvatondrazaka .....	3-35
Figure 3.8.1	Schematic diagram of intake system for PC23 area .....	3-38
Figure 3.8.2	River flow fluctuation of the Sahabe river system.....	3-40
Figure 3.8.3	General area classification on commencement of irrigation activities .....	3-41
Figure 3.8.4	Irrigation water distribution (irrigation diagram) in PC23 canal system .....	3-42
Figure 3.8.5	Present irrigated conditions in PC23 area.....	3-44
Figure 3.8.6	Change of water flow direction before and after rehabilitation works in 1980's.....	3-45
Figure 3.9.1	Soil loss from lavaka .....	3-56
Figure 3.9.2	Soil loss from kinds of vegetation .....	3-56
Figure 5.2.1	Pilot Projects Location Map .....	5-10
Figure 6.2.1	Location of Development Projects .....	6-9
Figure 6.2.2	Locations of 3 development projects in PC23area .....	6-12
Figure 6.2.3	Layout of main irrigation facilities in PC 23 south west irrigated area .....	6-12
Figure 6.2.4	Organization for Implementation of the Projects.....	6-28
Figure 6.3.1	Implementation Schedule of Development Projects.....	6-31

## **Tables**

Table 2.1	National Irrigation and watershed management programs.....	T-1
Table 2.2	General features of Alaotra-Mangro regional development plan .....	T-2
Table 3.1	Number of Commune and Number of House Hold/population in villages in the Study Area .....	T-3
Table 3.2	Average Farm Budget in 10 Selected villages.....	T-4
Table 3.3	Soil Analyses.....	T-5
Table 3.4	Total Length of Canals in PC23 Area.....	T-6
Table 3.5	Farmers' Desire for Development .....	T-7

## **Figures**

Fig.2.1	Ministry of Agriculture • Livestock • Fisheries .....	F-1
Fig.2.2	Organizational chart of Ministry of Environment, flood control, forestry.....	F-2
Fig.2.3	Irrigation and Watershed management program location map .....	F-3
Fig.3.1	Location map of administrative units and zone in the study area .....	F-4
Fig.3.2	Discharge measurement results in PC23 irrigation area .....	F-5
Fig.3.3	Land use map in the Study area .....	F-6
Fig.3.4	Alaotra-Mangoro DRDR .....	F-7
Fig.3.5	Irrigation and Drainage System in PC23 .....	F-8
Fig.3.6	Alaotra-Mangoro DREEF .....	F-9
Fig.3.7	Map of watershed management .....	F-10

## **Explanation note**

Explanation note 3-1	Run-Off Analysis .....	A3-1-1
Explanation note 3-2	Evaluation of Water Management System.....	A3-2-1
Explanation note 4-1	Necessity prioritization procedures for counter measures for problem solving in development .....	A4-1-1
Explanation note 5-1	PDM For Pilot Projects.....	A5-1-1
Explanation note 5-2	Performance table of Pilot Projects on Watershed management and Rural development .....	A5-2-1
Explanation note 6-1	Project Profile .....	A6-1-1
