

**THE STUDY ON THE NATIONWIDE FLOOD RISK ASSESSMENT  
AND THE FLOOD MITIGATION PLAN FOR THE SELECTED AREAS  
IN THE REPUBLIC OF THE PHILIPPINES**

**FINAL REPORT  
VOLUME II  
-MAIN REPORT-**

Preface  
Letter of Transmittal  
Location Map  
Executive Summary  
Abbreviations and Acronyms  
Measurement Units

**Table of Contents**

	Page
CHAPTER 1 INTRODUCTION.....	1- 1
1.1 Background of the Study .....	1- 1
1.2 Objectives of the Study.....	1- 2
1.3 The Study Area .....	1- 2
1.4 The Study Schedule .....	1- 2
1.5 Basic Conditions for Conducting the Study .....	1- 2
1.5.1 Target Year .....	1- 3
1.5.2 Safety Level .....	1- 3
CHAPTER 2 PRESENT CONDITIONS IN THE PHILIPPINES.....	2- 1
2.1 River Basins.....	2- 1
2.2 Floods .....	2- 2
2.2.1 Flood Condition .....	2- 2
2.2.2 Flood Control Projects .....	2- 4
2.3 Related Flood Control Projects.....	2- 5
2.4 Policy and Direction for Flood Control.....	2- 7
2.4.1 Medium-Term Philippine Development Plan, 2004-2010 (MTPDP 2004-2010).....	2- 7
2.4.2 Medium-Term DPWH Infrastructure Development Plan, 2005–2010 .....	2- 8
2.4.3 National Flood Mitigation Framework Plan (Draft: June 2006).....	2- 9
CHAPTER 3 FIRST SCREENING OF RIVER BASINS .....	3- 1
3.1 Procedure of the First Screening .....	3- 1
3.2 Identification of River Basins.....	3- 2
3.2.1 Basic Data and Information for Identification of River Basins .....	3- 2

---

3.2.2 Other River Basins.....	3- 3
3.2.3 River Basins Covering the Flood Prone Areas .....	3- 3
3.3 Confirmation of Methodology of the First Screening .....	3- 4
3.4 Selection of Evaluation Indexes .....	3- 4
3.4.1 Indexes for Socio-economic Conditions.....	3- 5
3.4.2 Indexes for Natural Conditions.....	3- 5
3.5 Arrangement of Data for Indexes and Scoring .....	3- 6
3.5.1 Data Collection .....	3- 6
3.5.2 Data Arrangement.....	3- 6
3.5.3 Determination of Maximum Score for Each Index.....	3- 7
3.6 Results of the First Screening.....	3- 7
3.6.1 Scoring Results .....	3- 7
3.6.2 Issues of Scoring.....	3- 8
3.6.3 Guidelines on Preliminary Selection for the First Screening.....	3- 8
3.6.4 Preliminary Selection of River Basins for the First Screening .....	3- 9
3.6.5 Result of the First Screening.....	3- 10
CHAPTER 4 SECOND SCREENING AND SELECTION OF MODEL RIVER BASINS .....	4- 1
4.1 Objective and Procedure of the Second Screening.....	4- 1
4.1.1 Objective of the Second Screening .....	4- 1
4.1.2 Procedure of the Second Screening .....	4- 1
4.2 Basic Analysis for the Second Screening .....	4- 2
4.2.1 GIS Data Setup .....	4- 2
4.2.2 Analysis for Cost Index .....	4- 3
4.2.3 Analysis for Benefit Index .....	4- 5
4.2.4 Scoring and Ranking of 120 River Basins.....	4- 8
4.2.5 Analysis for Investment Amount .....	4- 10
4.3 Selection of River Basins through the Second Screening .....	4- 11
4.3.1 Key Points Considered for the Second Screening .....	4- 11
4.3.2 Process for the Second Screening.....	4- 11
4.3.3 Selection of River Basins through the Second Screening.....	4- 13
4.4 Prioritization and Arrangement of Implementation Schedule .....	4- 13
4.4.1 Implementation Period.....	4- 13
4.4.2 Classification of River Basins.....	4- 13
4.4.3 Prioritization .....	4- 14
4.4.4 Implementation Schedule .....	4- 15
4.5 Grouping and Selection of Model River Basin.....	4- 15
4.5.1 Grouping of 56 River Basins .....	4- 16

---

4.5.2 Selection of Model River Basins .....	4- 17
CHAPTER 5 FLOOD MITIGATION PLAN FOR MODEL RIVER BASINS.....	5- 1
5.1 General .....	5- 1
5.1.1 Basic Procedure for Formulation of Flood Mitigation Plan .....	5- 1
5.1.2 Basic Conditions for Formulation of Flood Mitigation Plan .....	5- 3
5.1.3 Applicable Measures and Selection of Optimum Measures .....	5- 4
5.1.4 Implementation Schedule and Responsible Agencies.....	5- 6
5.1.5 Estimation of Cost and Benefit.....	5- 7
5.1.6 Initial Environmental Examination.....	5- 11
5.1.7 Project Evaluation.....	5- 13
5.2 Ilog-Hilabangan River Basin.....	5- 14
5.2.1 Basin Conditions.....	5- 14
5.2.2 Hydrologic Analysis .....	5- 20
5.2.3 Flood Inundation Analysis.....	5- 21
5.2.4 Basic Layout of Main Structural Measures .....	5- 22
5.2.5 Non-Structural Measures .....	5- 29
5.2.6 Initial Environmental Examination.....	5- 32
5.2.7 Project Evaluation.....	5- 34
5.3 Dungcaan River Basin .....	5- 36
5.3.1 Basin Conditions.....	5- 36
5.3.2 Hydrologic Analysis .....	5- 41
5.3.3 Flood Inundation Analysis.....	5- 41
5.3.4 Basic Layout of Main Structural Measures .....	5- 42
5.3.5 Non-Structural Measures .....	5- 51
5.3.6 Initial Environmental Examination.....	5- 54
5.3.7 Project Evaluation.....	5- 56
5.4 Meycauayan River Basin.....	5- 58
5.4.1 Basin Conditions.....	5- 58
5.4.2 Hydrologic Analysis .....	5- 63
5.4.3 Flood Inundation Analysis.....	5- 63
5.4.4 Basic Layout of Main Structural Measures .....	5- 64
5.4.5 Non-Structural Measures .....	5- 74
5.4.6 Initial Environmental Examination.....	5- 77
5.4.7 Project Evaluation.....	5- 79
5.5 Kinanliman River Basin .....	5- 81
5.5.1 Basin Conditions.....	5- 81
5.5.2 Hydrologic Analysis .....	5- 86

5.5.3 Flood Inundation Analysis .....	5- 87
5.5.4 Basic Layout of Main Structural Measures .....	5- 88
5.5.5 Non-Structural Measures .....	5- 95
5.5.6 Initial Environmental Examination.....	5- 98
5.5.7 Project Evaluation.....	5-100
5.6 Tuganay River Basin .....	5-102
5.6.1 Basin Conditions.....	5-102
5.6.2 Hydrologic Analysis .....	5-110
5.6.3 Flood Inundation Analysis.....	5-111
5.6.4 Basic Layout of Main Structural Measures .....	5-112
5.6.5 Non-Structural Measures .....	5-125
5.6.6 Initial Environmental Examination.....	5-128
5.6.7 Project Evaluation.....	5-130
5.7 Dinanggasan River Basin .....	5-132
5.7.1 Basin Conditions.....	5-132
5.7.2 Hydrologic Analysis .....	5-137
5.7.3 Flood Inundation Analysis.....	5-138
5.7.4 Basic Layout of Main Structural Measures .....	5-139
5.7.5 Non-Structural Measures .....	5-148
5.7.6 Initial Environmental Examination.....	5-151
5.7.7 Project Evaluation.....	5-153
CHAPTER 6 CONCLUSION AND RECOMMENDATIONS .....	6- 1
6.1 Conclusion.....	6- 1
6.2 Recommendations .....	6- 1

## **List of Tables**

### **Table**

Table 2.1	DPWH Medium-Term Investment Program, 2005-2010 .....	2- 9
Table 3.1	Total Number of River Basins .....	3- 3
Table 3.2	Evaluation Indexes for Socio-Economic Conditions.....	3- 5
Table 3.3	Evaluation Indexes for Natural Conditions .....	3- 6
Table 3.4	River Basins from Viewpoint of Guideline .....	3- 10
Table 3.5	Category of River Basins.....	3- 10
Table 3.6	List of Newly Included Dangerous River Basins .....	3- 11
Table 3.7	Types of River Basin .....	3- 11
Table 3.8	River Basin Classification .....	3- 12
Table 4.1	Examples of Urban River Basin .....	4- 4
Table 4.2	Distribution of Score .....	4- 9
Table 4.3	Relationship between DPWH Growth Rate, Available Budget and Number of Achievable Projects .....	4- 12
Table 4.4	Medium-Term Investment Program (2005-2010) .....	4- 14
Table 4.5	Classification of River Basins .....	4- 14
Table 4.6	Model River Basins .....	4- 17
Table 5.1	Safety Levels of the River Basins .....	5- 4
Table 5.2	Applicable Structural Measures for Each Flood Type.....	5- 4
Table 5.3	Purpose of Non-Structural Measures.....	5- 5
Table 5.4	Menu of Non-Structural Measures for Each Stage of Disaster Cycle .....	5- 5
Table 5.5	Responsible Agencies for Implementation, Maintenance and Operation.....	5- 7
Table 5.6	Damage Rates.....	5- 10
Table 5.7	Rivers in the Ilog-Hilabangan River Basin .....	5- 14
Table 5.8	Existing and Projected Land Use in Kabankalan City .....	5- 18
Table 5.9	Existing and Projected Land Use in Ilog Municipality .....	5- 18
Table 5.10	Major Works of River Improvement Proposed in the Master Plan for the Ilog-Hilabangan River Basin .....	5- 20
Table 5.11	Flow Capacity of Existing River Channel in the Ilog-Hilabangan River Basin.....	5- 21
Table 5.12	Area of Flood Inundation of the Ilog-Hilabangan River Basin .....	5- 21
Table 5.13	Basic Applicable Structural Measures for Flood Type in the Ilog-Hilabangan River Basin .....	5- 22
Table 5.14	Applicable Structural Measures in the Ilog-Hilabangan River Basin .....	5- 23
Table 5.15	Alternative Cases in the Ilog-Hilabangan River Basins .....	5- 24
Table 5.16	Result of Cost Comparison of Alternative Cases in the Ilog-Hilabangan River	

---

	Basin.....	5- 26
Table 5.17	Improvement Plan of Ilog River.....	5- 26
Table 5.18	Improvement Plan of Hilabangan River.....	5- 27
Table 5.19	Main Construction Cost for Structural Measures of the Ilog-Hilabangan River Basin.....	5- 27
Table 5.20	Project Cost for Structural Measures of the Ilog-Hilabangan River Basin.....	5- 27
Table 5.21	Financial and Economic Cost of the Project of the Ilog-Hilabangan River Basin ...	5- 27
Table 5.22	Flood Damage in the Ilog-Hilabangan River Basin .....	5- 29
Table 5.23	Rough Cost Estimation for Flood Warning System for 26 years in the Ilog-Hilabangan River Basin (2009 to 2034) .....	5- 31
Table 5.24	Rough Cost Estimation for Recommended Baseline Activities on Watershed Management for 26 years in the Ilog-Hilabangan River Basin (2009 to 2034) .....	5- 31
Table 5.25	Activities for Each Project Phase in the Ilog-Hilabangan River Basin .....	5- 32
Table 5.26	Economic Viability of the Optimum Plan in the Ilog-Hilabangan River Basin .....	5- 34
Table 5.27	Rivers in the Dungcaan River Basin .....	5- 36
Table 5.28	Existing Land Use in Baybay City .....	5- 39
Table 5.29	Flow Capacity of Existing River Channel in the Dungcaan River Basin.....	5- 41
Table 5.30	Area of Flood Inundation of the Dungcaan River Basin .....	5- 42
Table 5.31	Basic Applicable Structural Measures for Flood Type in the Dungcaan River Basin.....	5- 42
Table 5.32	Applicable Structural Measures in the Dungcaan River Basin .....	5- 44
Table 5.33	Preliminary Design of Dam.....	5- 46
Table 5.34	Alternative Cases in the Dungcaan River Basin.....	5- 46
Table 5.35	Result of Cost Comparison of Alternative Cases in the Dungcaan River Basin .....	5- 46
Table 5.36	Improvement Plan of Dungcaan River .....	5- 48
Table 5.37	Main Construction Cost for Structural Measures of the Dungcaan River Basin.....	5- 50
Table 5.38	Project Cost for Structural Measures of the Dungcaan River Basin .....	5- 50
Table 5.39	Financial and Economic Costs of the Project of the Dungcaan River Basin.....	5- 50
Table 5.40	Flood Damage in the Dungcaan River Basin .....	5- 51
Table 5.41	Rough Cost Estimation for Flood Warning System for 26 years in the Dungcaan River Basin (2009 to 2034) .....	5- 53
Table 5.42	Rough Cost Estimation for Recommended Baseline Activities on Watershed Management for 26 years in the Dungcaan River Basin (2009 to 2034) .....	5- 53
Table 5.43	Activities for Each Project Phase in the Dungcaan River Basin .....	5- 54
Table 5.44	Economic Viability of the Optimum Plan in the Dungcaan River Basin .....	5- 56
Table 5.45	River Gradient of Meycauayan River.....	5- 58
Table 5.46	Population in the Meycauayan River Basin .....	5- 60

### **List of Tabs.**

#### **Tab.**

Tab. 2-1	List of Water Resources Regions.....	T - 2 - 1
Tab. 2-2	Eighteen Major River Basins.....	T - 2 - 1
Tab. 2-3	Recorded Annual Flood Damages, Philippines, 1980-2005.....	T - 2 - 2
Tab. 2-4	Destructive Tropical Disturbance and Corresponding Casualties, Philippines.....	T - 2 - 2
Tab. 2-5	GOJ Grant Aid Projects (1971-2004).....	T - 2 - 3
Tab. 2-6	JICA Studies (1971-2004).....	T - 2 - 3
Tab. 2-7	OECE/JBIC Projects (1971-2004).....	T - 2 - 4
Tab. 2-8	Proposed Project (DPWH Medium-Term Public Investment Program).....	T - 2 - 5
Tab. 3-1	List of Flood Susceptible Areas Nominated by NDCC in 2004.....	T - 3 - 1
Tab. 3-2	Number of Principal River Basins Categorized by Water Resources Region (Excluding Eighteen Major River Basins).....	T - 3 - 6
Tab. 3-3	Major River Basins Categorized by Water Resources Region.....	T - 3 - 6
Tab. 3-4	List of Major River Basins and Principal River Basins.....	T - 3 - 7
Tab. 3-5	Number of Other River Basins Categorized by Water Resources Region.....	T - 3 - 7
Tab. 3-6	List of Other River Basins.....	T - 3 - 8
Tab. 3-7	Collected Data and Data Arrangement for Evaluation Indexes.....	T - 3 -10
Tab. 3-8	River Basin Data.....	T - 3 -11
Tab. 3-9	List of Score.....	T - 3 -12
Tab. 3-10	Scoring from the First Place to the 100th Place in First Screening.....	T - 3 -12
Tab. 3-11	Result of Sensitivity Analysis.....	T - 3 -13
Tab. 3-12	Selected 100 River Basins.....	T - 3 -14
Tab. 3-13	Regional Distribution of River Basins.....	T - 3 -15
Tab. 3-14	Selected 120 River Basins by the First Screening.....	T - 3 -15
Tab. 4-1	List of the Existing Projects for Extraction of the Project Costs.....	T - 4 - 1
Tab. 4-2	List of Averaged CPI (Year of 2006 = 100) in the Philippines.....	T - 4 - 1
Tab. 4-3	List of Project Costs for the Existing River Improvement Projects.....	T - 4 - 2
Tab. 4-4	Comparison of Flood Areas.....	T - 4 - 3
Tab. 4-5	Ratio of Damageable Value to Gross Income.....	T - 4 - 4
Tab. 4-6	Summary of Damage Rate.....	T - 4 - 5
Tab. 4-7	Ratio of Annual Benefit to Flood Damage.....	T - 4 - 5
Tab. 4-8	Benefit Index from Flood Control under Future Condition.....	T - 4 - 6
Tab. 4-9	Benefit Index from Sabo Dam under Future Condition.....	T - 4 -16
Tab. 4-10	Ranking of Selected 120 River Basins.....	T - 4 -17

---

Tab. 4-11	Result of Sensitivity Analysis.....	T - 4 -18
Tab. 4-12	Medium-Term Investment Program.....	T - 4 -18
Tab. 4-13	Actual Investment Amount.....	T - 4 -19
Tab. 4-14	Selected 56 River Basins by the Second Screening.....	T - 4 -19
Tab. 4-15	Additional 7 River Basins.....	T - 4 -19
Tab. 4-16	Classification of River Basins .....	T - 4 -20
Tab. 4-17	Regional Distribution of River Basins.....	T - 4 -21
Tab. 4-18	Regional Arrangement.....	T - 4 -22
Tab. 4-19	Proposed Project (DPWH Medium-Term Public Investment Program (2005-2010)).....	T - 4 -23
Tab. 4-20	Prioritization of River Basins .....	T - 4 -24
Tab. 4-21	Selected Model River Basins.....	T - 4 -25
Tab. 5-1	Economic Cost and Benefit Stream of the Ilog-Hilabangan River Basin.....	T - 5 - 1
Tab. 5-2	Socio-Environmental Evaluation for the Ilog-Hilabangan River Basin .....	T - 5 - 2
Tab. 5-3	Economic Cost and Benefit Stream of the Dungcaan River Basin.....	T - 5 - 3
Tab. 5-4	Socio-Environmental Evaluation for the Dungcaan River Basin .....	T - 5 - 4
Tab. 5-5	Economic Cost and Benefit Stream of the Meycauayan River Basin.....	T - 5 - 5
Tab. 5-6	Socio-Economic Evaluation for the Meycauayan River Basin.....	T - 5 - 6
Tab. 5-7	Economic Cost and Benefit Stream of the Kinanliman River Basin .....	T - 5 - 7
Tab. 5-8	Socio-Environmental Evaluation for the Kinanliman River Basin.....	T - 5 - 8
Tab. 5-9	Economic Cost and Benefit Stream of the Tuganay River Basin .....	T - 5 - 9
Tab. 5-10	Socio-Environmental Evaluation for the Tuganay River Basin.....	T - 5 -10
Tab. 5-11	Economic Cost and Benefit Stream of the Dinanggasan River Basin .....	T - 5 -11
Tab. 5-12	Socio-Environmental Evaluation for the Dinanggasan River Basin.....	T - 5 -12

### List of Figs.

#### Fig.

Fig. 2- 1	Boundaries of Water Resources Region .....	F - 2 - 1
Fig. 2- 2	Major River Basins .....	F - 2 - 2
Fig. 3- 1	River Basins Related with NDCC List .....	F - 3 - 1
Fig. 3- 2	Poverty Incidence .....	F - 3 - 5
Fig. 3- 3	Population.....	F - 3 - 6
Fig. 3- 4	Population Growth Rate .....	F - 3 - 7
Fig. 3- 5	Production.....	F - 3 - 8
Fig. 3- 6	Forest Cover Ratio.....	F - 3 - 9
Fig. 3- 7	Built-up Area Ratio.....	F - 3 -10
Fig. 3- 8	Flood Casualties .....	F - 3 -11
Fig. 3- 9	Flood Damages of River Basins in 2001–2005 .....	F - 3 -12
Fig. 3- 10	Frequency of Tropical Cyclones.....	F - 3 -13
Fig. 3- 11	Rainfall Intensity .....	F - 3 -14
Fig. 3- 12	River Gradient .....	F - 3 -15
Fig. 3- 13	Hazards Zone of Volcano.....	F - 3 -16
Fig. 3- 14	Frequency of Floods based on Flood Casualty Data (times/10 years).....	F - 3 -17
Fig. 3- 15	Frequency of Floods based on Flood Damage Data (times/5 years) .....	F - 3 -18
Fig. 3- 16	Location of Selected 120 River Basins in the First Screening.....	F - 3 -19
Fig. 4- 1	Flood Area Map of Bicol River Basin .....	F - 4 - 1
Fig. 4- 2	Flood Area Map of Panay River Basin .....	F - 4 - 2
Fig. 4- 3	Flood Area Map of Jalaar River Basin .....	F - 4 - 3
Fig. 4- 4	Calculation of (B)-(C) and (B)/(C).....	F - 4 - 4
Fig. 4- 5	Allocation of Score of B-C and B/C.....	F - 4 - 5
Fig. 4- 6	Score Sensitivity .....	F - 4 - 6
Fig. 4- 7	Expected Investment Amount.....	F - 4 - 7
Fig. 4- 8	Location of Selected 56 River Basins in the Second Screening .....	F - 4 - 8
Fig. 4- 9	Investment Schedule of 56 Rive Basins .....	F - 4 - 9
Fig. 4-10	Investment Schedule of 120 Rive Basins .....	F - 4 -10
Fig. 4-11	Classified 120 River Basins in terms of 3 Flood Damage Type .....	F - 4 -12
Fig. 5- 1	Longitudinal Profile and Typical Cross Sections of Ilog-Hilabangan River .....	F - 5 - 1
Fig. 5- 2	Longitudinal Profile and Typical Cross Sections of Dungcaan River .....	F - 5 - 2
Fig. 5- 3	Longitudinal Profile and Typical Cross Sections of Meycauayan River .....	F - 5 - 3
Fig. 5- 4	Longitudinal Profile and Typical Cross Sections of Marilao River.....	F - 5 - 4
Fig. 5- 5	Longitudinal Profile and Typical Cross Sections of Kinanliman River.....	F - 5 - 5

Fig. 5- 6 Longitudinal Profile and Typical Cross Sections of Tuganay River..... F - 5 - 6  
Fig. 5- 7 Longitudinal Profile and Typical Cross Section of Anibongan River ..... F - 5 - 7  
Fig. 5- 8 Longitudinal Profile and Typical Cross Sections of Ising River ..... F - 5 - 8  
Fig. 5- 9 Longitudinal Profile and Typical Cross Sections of Dinanggasan River..... F - 5 - 9

**List of Annexes**

Annex 1	Implementing Arrangement.....	AN-1
Annex 2	Minutes of Meeting .....	AN-8
