### எமது செயற்பாடு பற்றிய ஓர் கண்ணோட்டம்.....

Insight of our Project

கட்டிய கட்டடங்கள் புனரமைக்கப்பட்ட வீதிகள் உரிய தினைக்களங்கள் ஊடாக, உருவாக்கத்தில் பங்கேற்ற பயனாளிகளிடம் கையளிக்கப்படவேண்டியவை. ஆனால் கையளிக்கப்பட்டவை சிறந்த முறையில் பராமரிக்கப்படவேண்டும், நீண்ட கால நோக்கோடு பயன்பாட்டிற்குள்ளாக்கப்பட வேண்டுமென்ற அவாவும் ஆவலுமாகும். உருவாக்கத்திற்கு பண்டதவி வழங்கியவர்கள், உறுதுணை புரிந்தவர்கள், ஆலோசனை வழங்கியவர்கள் தனது உடல் உழைப்பை வழங்கிய கிராம வாசிகள் பயனாளிகளின் அனைவரினதும் எதிர்பார்ப்பாகும். இந் நிலையில் உரிய அலுவலர்களையும் பயனாளிகளையும் இது பற்றிய உரிய ஆக்கழுர்வுமான அறிவை பெறுவதற்கு ஏதுவாக கற்றல் சுற்றுலாவென்றை மன்றீகப்பெற்காக நிறுவனம் வழங்கியது. இதன் வாயிலாக பணம் அல்ல மக்களின்(பயனாளிகளின்) ஆக்கழுர்வுமான பங்களிப்புடாக எதையும் பராமரிக்கமுடியும், மக்கள் மனமாற்றமும், பலமும் எதனையும் வெற்றிகரமாக நிலைநிறுத்தும் என்பதனைக் கண்டு கொண்டார்கள்.

இன்று இக் கிராமங்களில் பலமான கட்டுக்கோப்புடன் கூடிய அமைப்பு உண்டு, நிறைவான நிதி உண்டு, பலமான ஒற்றுமையும் கூட்டுறவும் உண்டு. இவையெனத்தும் நிறைந்த சமூகத்தில் பராமரிப்பிற்கான திட்டமிடல் (மதிப்பீடு, வேலை அட்டவணை) ஒன்றினை ஏற்படுத்தி அமைப்புகள் ஊடாக செயற்பாட்டை முன்னெடுத்துச் செலவதற்கான செயற்பாடுகள் முன்னெடுக்கப்பட்டு வருகின்றது.

### சேவா கிராமம் :-

Income Generation Activities at Sewa Village ( Home Gardening, Mason work, Business (Micro) & Backyard Poultry

இங்கு வாழும் கிராம வாசிகள் தமது சுய வருமானத்தை ஊக்குவிக்கும் நோக்குடன் பலவிதமான சுய வருமானத் தொழில்களில் ஈடுபாடுகாட்டி வருகின்றனர். சிறு வியாபாரம், வீட்டுத் தோட்டம், கோழி வளர்ப்பு, பய்பாசி (ரெட் லேடி) தோட்டம், திறங்கள் மேசன் தொழில் இவை போன்ற செயற்பாடுகள் ஊடாக வருமானத்தை ஊக்குவிப்பதோடு இதன் வெளியீடுகளான

வினை பொருட்களை தமது சுய தேவைக்கும் பயன்படுத்துகின்றனர். இம் மக்கள் இவ்வாறான செயற்பாடுகளுக்கு பெருந்தொகையான பணத்தை முதலிட்டு ஆரம்பித்த பொழுதும் அதன் பராமரிப்பிற்குத் தேவையான உள்ளுக்களான எரிபொருட்கள் பச்சை வகைகளை பெறுவதற்கு தட்டுப்பாடும் விலை உயர்வும் நிலவுவதால் தமது முதலிட்டிற்கு ஏற்ற வருமானத்தை பெற முடியாமையால் மனமுடைந்து செயலிழந்து காணப்படுகின்றனர். மேலும் இச் செயற்பாட்டில் இட வசதி, ஆர்வம் இருந்தாலும் கூட தற்போதைய நாட்டுச் சூழல் காரணமாக எதிலுமே உணர்வோடும் ஊக்கத்துடனும் செயற்படமுடியாத நிலையில் காணப்படுகின்றனர்.

மன்றீகப் திட்டத்தின் கீழ் உருவாக்கப்பட்ட 7 மேசன் தமது திறமையான செயற்பாட்டினாடாக அயல் கிராமமான மூன்றாம்பிட்டி கிராமத்தில் UNDP நிறுவனத்தினால் அமைக்கப்பட்டுள்ள வீட்டுத்திட்டத்தில் முழுநேர மேசன்களாக இணைந்து நாளொன்றிற்கு 700/- நாளாந்த வகுமானமாக பெற்றுக் கொள்வதனால் இப்பொருளாதார முடக்கத்தினால் ஏற்படும் பாரிய பாதிப்புக்குள்ளாகாத நிலையில் வாழ்ந்து வந்த போதிலும் சீமெந்து போன்ற உள்ளுக்களை பெறுவதற்கான வசதியற்ற நிலை உருவாக்கியிருப்பதால் மக்களின் தொழில் வாய்ப்பு குறைந்ததோடு வருமானம் குறைந்து வறுமையும் பட்டினியும் மேலோங்கி வருகின்ற ஒருநிலை உருவாகக் கூடிய நிலை வந்து கொண்டிருக்கின்றது.

### கணேசபுரம்:-

Water tank construction- by cement & plastic is in progress at Ganeshapuram

இவ் கிராம வாசிகளின் அடிப்படைத் தேவைகளில் ஒன்றானதாகவும் அத்தியாவசியமானதுமாக விளங்குவது குடி நீர் ஆகும். இத் தேவையின் முக்கியத்துவத்தை மக்கள் மூலம் கண்டுணர்ந்த மன்றீகப் / ஜெய்க்கா நிறுவனங்களு, தனது நிதியின் அரசு நிகர் நிதியையும் இணைத்து நீர்த் தாங்கியினை அமைத்து நீர்க் குழாய்கள் மூலமாக இத் தேவையினை பூர்த்தி செய்ய முனைகளிற் வேலையில் பல விதமான தடைகளையும் இடர்களையும் எதிர்கொள்வதோடு அதற்கான மாற்றுக்களையும் கண்டுகொண்டு இத் தேவையினை பெற்று மகிழ்வதற்கு வழி வகுக்கு வருகின்றது.

### பாலியாறு :-

Water tank construction- by cement & plastic is in progress at Paliaru

இம் மக்களின் அத்தியாவசிய தேவைகளில் ஒன்றாக குடிநீர் விளங்குகின்றது. இத் தேவையினையே மக்கள் முன்னுரையைப் படுத்தியதைத் தொடர்ந்து மன்றீகப் / ஜெய்க்கா தனது நிதியின் கீழ் மேற்படி தேவையினை பூர்த்தி செய்ய முன்வந்தது. மாதர் கிராம அபிவிருத்தி சங்கம், கிராம அபிவிருத்தி சங்கம் ஆகிய இரு அமைப்புகளுடன் செய்த ஒப்பந்தத்தின் வெலையிலாக அனைத்து மக்களின் பங்களிப்பையும் உள்ளாங்கி 2,242,000 தொகை பெறுமதியான வேலையினை முழு உட்சாகத்துடனும் உத்தேவைக்கத்துடனும் செய்து வருகின்றார்கள்.

### தற்காலிக அணைக்கட்டு (பாலியாறு) :-

Temporary anicut at (Paliaru)

வெள்ளாங்குளம், பாலியாறு, கணேசபுரம் ஆகிய கிராமங்களில் வாழ்ந்து வரும் விவசாயிகள் இதன் வழியாக வழிந்தோடும் நீரை நம்பி வாழ்கின்றவர்கள். இவ் நீரைப் பயன்படுத்தி பயிர்ச் செய்கையினை மேற்கொள்வதனுடாக நாளாந்த வருமானத்தைப் பெருக்கி தமது வயிற்றுப்பசியை போக்குகின்றவர்கள். இவ் அணைக்கட்டினை திட்டமிட்டவாறு முன்னெடுத்ததுச் செல்ல முடியாவிட்டாலும் தற்காலிகமாவது ஓர் அணைக்கட்டினை காட்டு மரங்கள், உரப்பை இவைகளின் துணைகாண்டு அமைப்பதற்கு கமக்காரர் அமைப்புடன் ஒப்பந்தம் செய்யப்பட்டுள்ளது. ஆனாலும் கூட உரப்பையினை எடுத்துச்செல்வதற்கு தாமதம் ஏற்பட்டுள்ளமையால் மேற்படி வேலையானது குறித்த காலத்திற்குள் செய்து முடிக்கமுடியாத தூர்ப்பாக்கிய நிலை ஏற்பட்டுள்ளது. இவ்வாறான பின்னடைவினால் மக்கள் மன நீதியாகவும் பொருளாதார நீதியாகவும் பாதிப்புக்குள்ளாகின்ற நிலைக்கு தள்ளப்பட்டுள்ளனர்.

### மதகு அமைத்தல்:-

Construction of sluice gates at Paliaru

பாலியாறு கிராம மக்களின் மிக்கவும் முக்கியம் வாய்ந்த தேவையாக அமைவது உள்ளக பிரதான குறுக்கு வீதிகள். மழை காலங்களில் மக்கள் பாதையின்றி பயணிப்பதற்கு பலவிதமான பிரச்சனைகளை எதிர்கொண்டு வந்தார்கள். ஆனால் இன்று 3255மீற்றர் அளவு நீளமான வீதிகள் பூர்த்தியாக்கப்பட்டாலும், மழைகாலங்களில் பாதையின் இருமருங்கல்லும் தேங்கிக் கிடக்கின்ற நீர் பாய்ந்தோடி ஆற்று நீருடன் கலந்தோடுவதற்கு ஏதுவாக மதகுகள் அமைக்கவேண்டியது அத்தியாவசியமானது. இவ் மதகு அமைக்கும் வேலையில் 20% வேலைகள் முடிவடைந்துள்ள நிலையில் சீமெந்து தட்டுப்பாடு காரணமாக மிகுநியான வேலைகளை முன்னோக்கி எடுத்துச்செல்ல முடியாமலுள்ளது. இவ்வாறான நிலை தொடருமானால் மழை காலங்களில் புனரமைக்கப்பட்ட வேலைகள் மேலும் பாதிப்பிற்குள்ளாகும் நிலை உண்டாகும்.

### சீதுவிநாயகர்குளம்:-

#### குளம் புனரமைப்பு

4.2 மில்லியன் ரூபாயில் 700 மீற்றர் நீளமான குளக்கட்டுவேலை, துருசு, வான் ஆகிய வேலைகள் அனைத்தும் முற்றும் முழுவதுமாக முடிவடைந்துள்ளது. இதன் வாயிலாக சீதுவிநாயகர்குளம், கூராய், ஆத்திமோட்டை ஆகிய கிராமங்களில் வாழும் பெரும்பான்மையான விவசாயிகளும், நன்னீர் மீன்பிடி வாசிகளும் தமது நாளாந்த வருமானத்தை பெருக்கிக்கொள்வதோடு தமது வாழ்வாதாரத்தையும், வாழ்க்கைத் தரத்தையும் உயர்த்துவதற்கும் வழி வகுக்கும்.

சமூக குடிநீர் வழங்கல் திட்டம்:-

இத் திட்டத்தின் கீழ் 1.9 மில்லியன் ரூபாய் பெறுமதியான வேலைகள் முன்னெடுக்கப் படவேண்டும். இத் திட்டத்தில் பிரதான கிணறு அமைத்து அதன் துணைகொண்டு பிரதான நீர்க் குழாய்கள் உட்டாக நீரை இலகு முறையில் வழங்குவதே ஏற்பாடு. இந்த வகையில் முதல் கட்ட வேலையான பிரதான கிணறு அமைக்கும் வேலை முடிவடைந்துள்ளது. நீர்க் குழாய்கள் அனைத்தும் கொள்வனவு செய்யப்பட்டுள்ளது. மேலும் இக் குழாய்களை பதிப்பதற்கான வாய்க்கால்கள் வெட்டுகின்ற வேலையில் 75% வேலைகளை அனைத்தும் முடிவடைந்துள்ளன.

Seethuvinayagarkulam

ஆசிரியர் தங்கும் விடுதி:- ஆசிரியர் தங்குமிடத்திற்கான அனைத்து வேலைகளும் முடிவடைந்துள்ளது. தற்பொழுது சுவரிற்கு வர்ணம் பூச்சு வேலையும், தளம் அமைக்கும் வேலையுடன் கூட கதவு, யன்னல் பூட்டும் வேலையும் நடைபெற்றுக் கொண்டிருக்கின்றது. தற்போதைய நடை சூழலும் பதற்றபூர்வ காரணாக மக்கள் நிம்மதியின்றி தமது நாளாந்த வருமானத்தை ஈட்டுவதற்கான வழிபினைக் கண்டுகொள்ள முடியாத நிலையில் உள்ளனர்.

கூராய்:-

கூராய் கிராமத்தினைச் சேர்ந்த நன்னீர் மீன்பிடி வாசிகள் நன்னீர் மீன்பிடிச் சங்கத்தினாடாக தமது குளத்தினிலே விரால், நோகு, திலாப்பியா, கொமங்காப் ஆகிய இன் மீன் வகைகளை பிடித்து சங்கத்தினாடாக விற்பனை செய்ததன் பயனாக பெருமளவிலான வருமானத்தை சங்கத்தினரும், ஒவ்வொர் அங்கத்தவர்களும் பெற்றுக்கொண்டுள்ளமை குறிப்பிடத்தக்கது.

சமயபுரம்:- Renovation of internal road at Samayapuram

உள்ளகவீதி புனரமைப்பு:-

மன்றீகப் / ஜெய்க்கா அனுசரணையுடன் கிராம முன்னேற்ற சங்கத்துடன் செய்து கொள்ளப்பட்ட ஒப்பந்தத்தின் பயனாக 1.02 கிலோ மீற்றர் நீளமான 06 வீதிகள் புனரமைக்கப்பட்டதோடு பக்க வாய்க்கால் வழியாக வழிந்தோடிவரும் நீர் வீதியினை பாதிக்காத வகையில் வெளியே செல்வதற்கு ஏதுவாக 07 மதகுகளும் அமைக்கப்பட்டுள்ளது. இக் கிராம அமைப்புகளுக்கிடையிலான ஒற்றுமையும் ஒத்துழைப்பும் மக்களின் பலமும், முழுமையான பங்களிப்புமே இவ் வெற்றிக்கு வழிவகுத்ததென்றால் அது மிகையாகாது. நீண்ட காலமாக பாதையின்றி குறிப்பாக மழை காலங்களில் பலவிதமான கஸ்டங்களுக்குள்ளான மக்கள் இன்று அவ்வாறான கஸ்டங்களை கடந்து கால நேரங்களை மீதப்படுத்தி தமது அன்றாட தேவைகளையும் தொழில் முயற்சியையும் முறையாக செய்வதற்கு வழிவகுத்துள்ளது.

சிறுகுழுக்களின் வருமான ஊக்குவிப்பு செயற்பாடு:-

Income Generation Activities of small groups at Samayapuram

“ஒன்றுபட்டால் உண்டு வாழ்வு ஒற்றுமை நீங்கில் அனைவருக்கும் தாழ்வு” இதனை உணர்ந்த மக்கள் மன்றிக்குப் / ஜெய்க்கா நிறுவாத்தின் சிந்தனையில் ஒன்றுபட்டு தங்களை சிறு குழுக்களாக இணைத்துக் கொண்டு தமது ஒற்றுமையின் பலத்தை கட்டிக்காத்து அதன் வாய்லாக தமது நாளாந்த வருமானத்தை பெருக்கி தமதும் தமது பின்னால்களின் எதிர்காலமும் ஒனிமயமானதாக அனைய வழிவகுக்கும் வகையில் சிறுகைத்தொழில் முயற்சிகளை உருவாக்க ஆழம்பித்தார்கள். இந்த முயற்சிக்கான ஆக்க பூர்வமான பயிற்சிகளை மன்றிக்குப் நிறுவனம் வளவாளர்களின் துணையுடன் வழங்கியதுடன் ஆலோசனைகளையும் வழங்கியுள்ளது.

இதன் பயனாக முறையே  
குழு 1 :- தேங்காய், மரக்கறி விற்பனையும்

குழு 2 :- நாட்டுக்கோழி முடடையினை கச்சேரி /பிரதேச செயலகம் நலன்புரி சங்கத்தினுடாகவும்

குழு 3 :- மனித வலுவை கொண்டு இடித்து வறுத்த சிவப்பு அரிசி மாவினை கச்சேரி / பிரதேச செயலகம் நலன்புரி சங்கத்தினுடாகவும் குறைந்த விலையில் தரமாகவும் சந்தைப்படுத்தி தமது சுய வருமானத்தை ஈட்டி வருகின்றனர்.

“ஒற்றுமையே பலம்”என்பதனை உணர்ந்த மக்கள் தமது ஒற்றுமைக்கு வழிவகுக்கும் சிறுகுழுக்கள் என்பதனை உணர்ந்து ஒன்றுபட்டு தம் விருப்பிற்கு ஏற்றவாறு தம்மை தாமே குழுக்களாக பிரித்து ஒவ்வாரு குழுவும் தமக்கென செயற்பாடுகளையும் அதற்கான திட்டங்களையும் வகுத்து செயற்படுத்தி வருகின்றனர். இந்த வகையில் இரண்டு குழுக்கள் வியாபார நோக்கோடும், தமது மக்கள் இரசாயனபச்சையிலிருந்து விரிவாக்கி பாரதாரமன் விளைவினை கண்டுகொள்ளாத வகையிலும் கூட்டுறுவினை பயன்படுத்தி குறைந்த செலவில் தரமான உற்பத்தியினை பெற்று தமது சுய வருமானத்தை பெருக்கி வாழ்க்கைத்தரத்தை உயர்த்த வழிசமைத்து வருகின்றனர். இச் செயற்பாடுன் வாயிலாக மக்களின் நாளாந்த வருமானம் அதிகரித்துள்ளது, ஒற்றுமை வளர்ந்துள்ளது, தொடர்பாடல் வளர்ந்துள்ளது, புதிய முகவர்கள் அறிமுகமாகியுள்ளனர், குழுக்கள் வலுப்புபடுத்தப்பட்டுள்ளன.

## புதுக்கமம்:-

Renovation of inlet and feeder  
cannel at Puthukkamam

இக் கிராமவாசிகள், விவசாயிகள், பெரும்போகம், காலபோகம் ஆகிய இரு போகங்களினதும் விளைச்சலினில் தமது வாழ்வாதாரத்தையும், பொருளாதாரத்தையும் வாழ்கைத்தரத்தையும் மேம்படுத்தி வாழ்ந்து வருகின்றவர்கள். எனவே இவர்களை பொறுத்தவரையில் குளம் என்பது அக்கிராமத்தின் இதயம் போன்றது. ஏனென்றால் அதனுள் தேங்கும் நீரை நம்பி நமது இரு போகங்களையும் செய்ய முனைகின்றவர்கள். ஆகவே மக்கள் தமது முன்னுரிமைப்படுத்தப்பட்டுள்ள தேவைகளில் முக்கியமானதாக குள புனரமைப்பினை அடையாளங்கண்டதினை அடுத்து மன்றிக்கிழின் நிதி அனுசரணையூடாக கமக்காரர் அமைப்புடன் செய்துகொள்ளப்பட்ட ஒப்பந்தத்தின் மூலம் குளக்கட்டு, வாள், உள்ளக வாய்க்கால் (Inlet Cannel-960M), நீர் வழங்கும் வாய்க்கால் (Feeder Cannel-780M) புனரமைக்கப்படுவதற்கான ஏற்பாடுகள் மேற்கொள்ளப்பட்டது. இதன் வழியில் குளக்கட்டு, உள்ளக வாய்க்கால் ஆகியன முடிவடைந்த நிலையில், நீர் வழங்கும் வாய்க்கால், வாள் வேலைகள் தொடர்ந்தும் நடந்து கொண்டிருக்கின்றன.

## சாந்திபுரம்

Community water supply  
at Santhipuram

நீண்ட காலமாக மக்களின் அடிப்படைத் தேவைகளில் ஒன்றானதும், இக் கிராமத்தின் வளர்ச்சிக்குத் தடையாகவும் இருந்த முக்கிய காரணி நீர் ஆகும். மக்கள் ஆண்டாண்டு காலமாக இத் தேவையின் பூர்த்திக்காக ஓடி அலைந்து திரிந்து இன்று மன்றிக்கப் / ஜெய்க்கா நிறுவனத்தின் அனுசரணையுடனும், முழுமையான மக்களின் பங்களிப்புடனும் நிறைவேறி வருகின்றது. 11 கிலோ மீற்றர் நீளமான தூரத்திற்கான நீர்க் குழாய்களை நிலத்தின் கீழ் பதித்துச் செல்வதற்கான குழிகளை அகழ்வதில் இயந்திரத்தின் பங்களிப்பு 85% அனால் மக்களின் பங்களிப்பு 15% விதமாக அமைந்திருந்தது.

கூடிய விரைவில் இலகுவான முறையில் இப் பாரிய திட்டத்தை நிறைவு செய்து முடிப்பதற்காக இயந்திரத்தை பாலித்தாலும் அவ்வியந்திரம் இயங்குவதற்கும் அதனை இயக்குவதற்கும் முழு முச்சடன் செயற்படுவதற்கும் காரணமாக அமைந்தது மக்களின் தன்னார்வமும் முற்று முழுதான உடல் உள் பங்களிப்புமே ஆகும். இத் திட்டத்தின் கீழ் அக் கிராம இளைஞர்கள் பொறியியல் முறையில் நீர்க் குழாய்களை இணைப்பதற்கு, நீர் வழங்கல் சபையினால் யயிற்றுவிக்கப்பட்டு அவர்களின் பங்களிப்புடன் பொறியியல் ரத்யில் வெற்றிகரமாக செய்துமுடிக்கப்பட்டுள்ளது.

## REPORT ON MONITORING OF CBO'S ACTIVITIES

### (1) Monitoring Aspects

Monitoring and evaluation survey has been conducted in order to grasp the extent to which the management capacity of CBOs in the focal villages has improved since October 2006. In this monitoring, following three aspects have been prepared.

- i) Monitoring One: CBO's ability to keep financial documents and necessary books
- ii) Monitoring Two: CBO's management ability from the aspects of "Resources", "Organization", and "Norms/ Standards"
- iii) Motoring Three: CBO's ability to manage socio-economic activities from the aspect of sustainability

### (2) Method and Result of the Survey of Monitoring One: CBO's ability to keep financial documents and necessary books

#### Items of Monitoring One

In order to grasp the conditions from the aspect of Monitoring One mentioned above, following 23 documents/books are listed as monitoring items.

#### Items of Monitoring One

1.Accounting Books	2.Other Necessary books
1)Receipt book	1)Income and expenditure statement
2)Payment Voucher Book	2)Book for maintenance purpose
3)Cash book	3)Book for maintenance of equipment
4)Bank account statement	4)Book for maintenance of library
5)Members fee schedule	5)Book for maintenance of garden materials
6)O&M fees schedule	6)Log Book
7)Fixed assets resister/an inventory of property	7)Correspondence file
8)CBO members application & registration form	8)Attendance Resister Book
9)Monthly financial report	9)Minutes of the Meetings
10)Wage Payment	
11)Everyday transaction book	
12)Stock book	
13)Advance Payment Resister	
	3.Filing
	1)Documents for financial management (Financial report)

#### Method of Monitoring One

When rating the above items, five-tier rating is adopted. An accounting staff in the Project has rated his aspects on a 5 to 1 scale to each item (5:"Good, enough skill", 4:"Need improvement to some extent", 3:"Lack of correct procedure, but all evidence & document are kept", 2:"Lack of capabilities of office bearers", and 1:"Any documentations or evidences are not found out").

#### Result of Monitoring One

Since the first survey conducted in October 2006, CBO's overall ability has been improving. Average point of all 23 monitoring items has been improved from 3.38 (first survey), 3.34 (second survey), to 4.13 (third survey).

Only one item yet to be improved is "8) CBO members application & registration form of 1.

Accounting Books". Both sides of the Project Staff and CBOs notice that this form is a necessary item for appropriate management of CBO. But, this item has not been kept well since the first survey. The reason is that the CBO is reluctant to prepare this form. This issue would be solved if the Project provide appropriate guidance on this issue.

**(3) Method and Result of the Survey of Monitoring Two: CBO's management ability from the aspects of "Resources", "Organization", and "Norms/ Standards"**

Items of Monitoring Two

In order to grasp the conditions from the aspect of Monitoring Two mentioned above, following 15 aspects (3 from "Resources", 5 from "Organization", and 7 from "Norms/Standard") are listed as monitoring items.

**Items of Monitoring Two**

<b>1.Resources</b>	<b>3.Norms/ Standard</b>
1)Fund Conditions	9)Organizational Activities
2)Human Resources Conditions	10)Method of Selection of Leaders
3)Cooperation among relevant organizations	11)Method of Discussion &Consensus
<b>2.Organization</b>	12)Frequency of Meeting
4)CBO	13)Accountability of CBO's Management
5)Constitution	14)Democratic Management
6)Financial Transaction	15)Communication System
7)Action Plan	
8)Others	

Method of Monitoring Two

In this monitoring survey, four facilitators in the Project have rated each item. In every item of the survey sheet, there are several indicators of level of quality in certain conditions that are categorized by "Primary", "Secondary" and "Final". Each indicator has a score. The facilitators check all appropriate indicators and total the scores of the indicators checked. If all indicators of each item are fully checked, it becomes 100 points. If no indicators are checked, it becomes 0 point.

Result of Monitoring Two

- i) All 15 monitoring items have been improved since the first survey. Average point of all 15 monitoring items was 44.10 (first survey), 65.31 (second survey), to 70.82 (third survey).
- ii) The average point of Manthai West (MW) area has been rated higher than that of Manner area. As large scale infrastructure projects had been rather implemented in MW than in Mannar under the financial support of the Project, it can be explained that situations in the financial conditions of MW side had been suddenly improved through community contract work given by the Project.
- iii) "10) Method of selection of leaders", "13) Accountability of CBO's management", and "15) Communication System" that are the aspects of "Norm/ Standard" have been identified to be the lowest three items since the first survey. Following CBOs: Puthkkamam/ FO, Puthkkamam/ RDS, Thethavadimaruthank/ FO, and Vaddupithanmadhu/ FO were rated at lower points, especially. The reason may be that committee members in these CBOs have remained to be unchanged for a long time and they are not rather democratically managed.
- iv) In third survey (June 2007), item of "4) CBO" from the "Organization" aspect has been

remarkably improved. This item is rated at higher points, if CBO understands the contents of the CBO Constitution, CBO is managed in accordance with it, and member fee is properly paid in accordance with it, etc. The Project has distributed a newest version of CBO constitution to CBOs and explained about importance of following the constitution those days. This activity may have brought about positive effect.

**(4) Method and Result of the Survey of Monitoring Three: CBO's ability to manage socio-economic activities from the aspect of sustainability**

Items of Monitoring Three

In order to grasp the conditions from the aspect of Monitoring Three mentioned above, following 3 aspects have been prepared as monitoring items.

- 1) Conditions of financial transaction
- 2) Skill/ knowledge that CBO acquired through the Project and applied to its socio-economic activities
- 3) Socio-economic activities conducted without support of the Project or with some support of the Project

Method of Monitoring Three

Unlike the above Monitoring One and Two surveys, not the Project staff but the CBO side itself assessed its own conditions. Monitoring sheet inquiring the above three aspects was distributed to the CBO side, and it completed the monitoring sheet.

Result of Monitoring Three

- i) The Project instructed CBOs to acquire skill/knowledge of community contract, construction, planning and implementation of self-reliant socio-economic activities, keeping financial and management books, negotiation with other agencies/ government departments, fund raising, keeping a book for maintenance management and utilization of equipment. The skill/knowledge of CBOs acquired has being improved since the first survey. In the last survey (September 2007), 20 of 22 CBOs in the focal villages rated their skill/knowledge at normal or more level.
- ii) Number of CBOs in the focal villages that have done some socio-economic activities without support of MANRECAP or with some support of MANRECAP have remained steady. In the last survey (September 2007), 11 of 22 CBOs were identified to have done some socio-economic activities without support of MANRECAP or with some support of MANRECAP. 2 of the 11 were the CBOs in the MW area, and 9 were the CBOs in the Mannar area. It was identified that the MW CBOs were not rather active than the Mannar ones. Unstable security conditions in MW may have disturbed their socio-economic activities.

## ベースライン調査報告書(2007)

### 1. 調査方法

プロジェクト対象郡の現状及びニーズを確認するため、マナー郡とマンタイ西部郡の各事業対象村落において、ベースライン調査を実施した。2004 年度は行政村毎に、その後、治安状況の悪化に伴い各村落、各戸は大きく生活の影響を受けて変異が大きいと判断し、2005 年度からは全戸調査とした。2005 年度及び 2007 年度は治安悪化の中、調査を開始したが調査員の安全確保を第 1 として、マンタイ西部郡など地域によっては、途中で調査を中断、中止するなどの必要性が生じ、データは計画通りに収集されていない。調査は、調査票を使い、村落行政官（グラマニラダーリ）の協力により、地域の学生、教員を訓練して、各戸戸主と面談して調査票への記入がなされた。なお、収集したデータは、上述した治安等の影響で不完全な部分が多くあったが、最終報告ではプロジェクト開始当初あるいは途中段階と最終年次（2007 年次）との比較が可能なように、ベースライン調査以外で、各プロジェクト活動で収集したデータ等も利用している。

### データ収集の方法

- 1) 調査地域の教員、大学生から調査員の選定
- 2) オリエンテーション：プロジェクトの説明と調査目的及び調査員について
- 3) 調査員に対する訓練及びフィールでの実施訓練
- 4) 各対象村落の各世帯での面談聞き取りによるデータの収集

### 2. 調査対象地域

マナー郡 (政府地域)		
No.	対象村落名	世帯数
1)	シャンティプラム村	297
2)	プドゥカマン村	117
3)	ワトウビタンマドゥ村	48
4)	テータワディ村	30
5)	サメヤプラム村	54
マンタイ西部郡 (LTTE 地域)		
6)	セーワビレッジ村	49
7)	ガネッシャプラム村	95
8)	パーリアール村	114
9)	クーライ村	30
10)	シードゥウェイナーヤカクラム村	40

### 3. 目的

現状把握及びプロジェクト開始時期と終了時期間の比較、検討である。

### 4. 調査内容

各村落の人口、教育や健康・衛生、家計状態などの基本的な生活に関する調査

### 5. 調査結果

#### 5-1 調査の前提

- データは全てベースライン調査の入力数値に基づくものとする。
- 検討の過程で発見された矛盾を含む数値については、適宜数値をそのまま放置するか、「0 (ゼロ)」あるいは「不明」とした。
- 調査側が意図している回答方式が守られていないケースも散見され、それらについては

データとしてはずした。

## 5-2

### (1) 人口

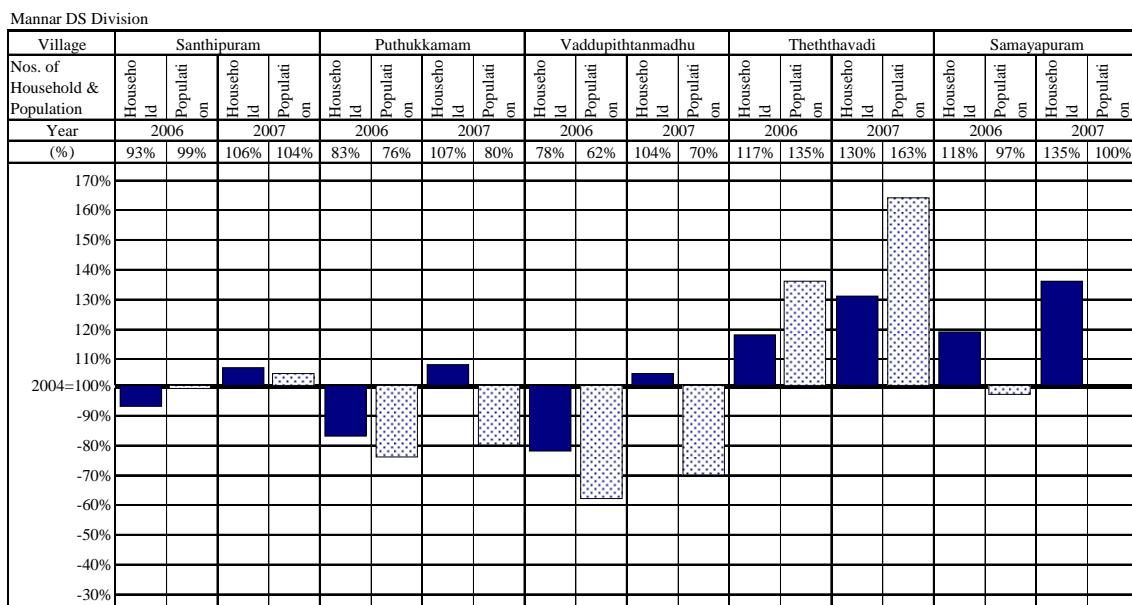

マナー郡の対象村落の世帯数は、プロジェクト開始時期（2004 年次）より増加し、人口は減少している村落もある。これは、IDP として親戚に居た親戚、友人が各地域へ帰還したためである。また、村落内の支援を必要とする家族数は減少している。

マンタイ西部郡のパーリアールでは、避難民センターが 2004 年次まで機能していたが、これの撤収にともない家族数は 309 (2004 年) から 114(2007 年)に減少した。しかしながら、治安の悪化から 2007 年 12 月には、UNHCR は再度、パーリアールに難民センターの設置を決定している。

マナー郡では65%がキリスト教徒、32%がヒンズー教徒で、2005年時よりも、ヒンズー教徒の割合が高くなっている。また、2005年時には1%あったムスリムが2007年時では0となった。マンタイ西部郡では90%がヒンズー教徒でキリスト教徒は9%となっており、2005

年時より、ヒンズー教徒の割合が極端に高くなっている。これは、パーリアールの避難民でキリスト教徒が帰還したこと。また、現在の治安の悪化と関係していると考えられる。仏教徒はマナー郡のシャンティプラムに見られるが、シンハラ人 1 名（仏教徒）とタミル人仏教徒の 2 名（シャンティプラムとテータワディ）である。

### (3) 村落民の移転前の状況

マンタイウエスト郡対象村民の 96%、マナー郡対象村落住民の 73%が、国内避難民もしくは海外への避難した経験を持つ。特にマンタイ西部郡のセーワ村落は 100%が国内避難民の新規入植者であり、クーライを除く同郡対象村落の 90%以上が避難をした経験を持つ。

新規入植や 10 年以上在住していた土地を離れた者にとって、再入植にあたり居住する土地、農用地などの獲得が重要な問題となり、マナー郡及びマンタイ西部郡の両者において 50%以上の人達が土地を保有していなかったが、当プロジェクトにおいて、シャンティプラムを除く、対象村落住民は公式に土地の再配分を受けている。

現在、再入植した村民の入植前の職業は、農業、漁業、レイバー、商人などが主であった。

### (8) 燃料（灯り、料理）

マナー郡は、電気の復旧が進み、2004 年当時は電気のなかつた、プドウッカマン、ワトゥピタンマドゥ、テータワディ、サメヤプラムで電灯が利用されているが、半数以上は灯油（Kerosene）に依存している。マンタイ西部郡は、2005 年に電気設備の工事が開始されたが治安の悪化により工事が中断したため、電灯の利用はなく灯油が利用されている。料理には、マナー郡、マンタイ西部郡とも薪の利用が多い。

## (10) 教育

マナー郡では対象村落の子供の総数が 871 名で、このうち 71.9% が学校教育を受けている。このうち、大学進学者は 1.5% (10 名) である。ただし、治安の悪化で 2006 年から、子供を他県へ預けたり、また、遠距離通学の必要な専門学校への入学者は減少傾向にある。マンタイ西部郡では、対象村落の子供総数は 532 名で、この 46.9% が学校教育を受けているが、マナー郡より低い数字となっている。これは、同地域は LTTE 地域内にあり、治安や経済的影響を受けやすい。

Output 1 Community Action Plan (CAP) is formulated with the participatory method.

1.1 Select project sites from the selected clusters.											
1.2 Make Community Action Plan (CAP) through CAP Workshops in the Project sites.	P	—	—	—	—	—	—	—	—	—	
Indicators	Achievements										
1-1 Number of CAP workshops held in focal villages	1-1	JFY 2004 No.	11	2004 10	2005 0	2006 10	2007 0	Note : 10 focal villages + Thavampiddy			
1-2 Level of satisfaction and understanding of the villagers in focal villages on the objectives and benefit of the CAP	<p>I-2 People in the focal villages expressed their satisfaction and understanding toward the CAP in the CAP review workshops and group discussions in other occasions. The examples of their opinions are as follows.</p> <ul style="list-style-type: none"> <li>- Community now knows the value of community participation in identifying their needs and incorporating their ideas and consent in the implementation of activities. In addition, Community now takes unanimous decision to solve common problems (Ganeshapuram).</li> <li>- Community learned to work as a group and as a community. The process of formulation of the CAP developed leadership qualities and advocated unity among community members (Putukkamam).</li> <li>- People became aware of the importance of community itself solving their own problems (Santhipiram).</li> </ul> <p>1-3 As the Project activities progressed and the urgent needs were fulfilled, people's focus shifted to new needs. Accordingly, their CAP was revised in the CAP review workshop by themselves. Therefore, CAPs always met people's needs and priority.</p>										
	<p>Reasons if planned targets not being satisfied</p> <ul style="list-style-type: none"> <li>- In 2006, deterioration of the security situation and people's anxiety about their future was not conducive for both the Project and community members to conduct the CAP review workshops.</li> </ul> <p>Countermeasures taken</p> <ul style="list-style-type: none"> <li>- In 2007, CAP review workshops were held in all the focal villages.</li> </ul> <p>Impact (expected/unexpected)</p> <ul style="list-style-type: none"> <li>- Initially, most communities were reluctant to take responsibility of implementing developmental works such as CMR. However, process of CAP workshops restored their confidence and unearthed their abilities, resources and potentiality to conduct developmental works, as a result, in most villages, community members actively participated in the meetings and physical works.</li> <li>- Though people flinched at the beginning, through the activities of the Project such as CAP workshops they got accustomed to expressing their opinions and making collective decisions to solve the common problems.</li> </ul> <p>In an initial stage on some occasions, domination by a few eloquent participants and gender-imbalanced representation in the workshops was observed. However, as the Project activities progressed, more people came to be able to express their own opinions. It is impressive that women in remote villages such as Kurai and Seethuvinayagarkulam confidently expressed their opinions in the workshops.</p> <p>At the inception of the Project, in many focal villages CBOs didn't exist or function properly. Therefore people were less confident in CBOs' capacity to conduct developmental works of their own. They, however, recognized that building a capacity of CBOs was crucial for the future development of their villages, through the process of formulation of CAPs. Afterwards, CBOs in the focal villages positively took responsibility of implementing developmental works such as CMR and other socio-economic activities.</p>

**Output 2** Basic community infrastructures are rehabilitated.

Indicators	Achievements	Countermeasures taken
2.2 Level of satisfaction of the villagers to the infrastructure constructed/reconstructed by the Project	<p>(3) Laying a pumping main pipeline in connection with Santhipuram Water Supply Scheme was carried out by CMR financed by the NWS&amp;DB.</p> <p>2.2 Villagers are very satisfied with the infrastructures constructed/rehabilitated by the Project. Their satisfaction was expressed in the CAP review workshops and other meetings. Especially they are very proud of the CMR works they conducted. They are satisfied with the quality of the works, too.</p>	<ul style="list-style-type: none"> <li>- Instead of construction of permanent structure, a temporary diversion weir with wooden piles and sand bags was constructed at Pali Ara.</li> <li>- There have been no effective measures to tackle the above situation unless the security situation is normalized.</li> <li>- The fund allocated to the cancelled facilities above was transferred to establishment of Santhipuram Water Supply Scheme, which was carried out in collaboration with NWS&amp;DB.</li> </ul>
2.3 Adequacy of the maintenance and usage of the infrastructure constructed/reconstructed by the Project	<p>2.3 Most of the infrastructures constructed/rehabilitated under the Project have been used and maintained properly. For future operation and maintenance (O&amp;M), Community Centers at the focal villages in Manmar DS Division and Groups for O&amp;M at the villages in Manthai West AGA Division were established with the support of the Project.</p>	<ul style="list-style-type: none"> <li>- Substantial amount of payment was made as labor components (21%, 18%, 23% and 47% of total payment on the average in JFY 2004, 2005, 2006 and 2007 respectively) which were paid directly to community members participating in CMR works. It is worth mentioning that MANRECAP activities were very much appreciated by the people and the officers concerned as they have secured the only income source when people had no other income sources under the adverse security situation.</li> <li>- Some CBOs have utilized knowledge, skills and fund obtained through CMR works for other developmental works in their villages such as construction of houses and renovation of internal roads.</li> </ul>
2.4 Degree of self-reliance, confidence, sense of unity created among the villagers through the experience of CMR	<p>2.4 The villagers are very proud of the CMR works they implemented. They enhanced self-confidence, as they could have built technical and financial capacity through the experience of CMR. In addition, unity among community people has been created by working together through CMRs. The followings are the examples.</p> <ul style="list-style-type: none"> <li>- Renovation of village internal roads has created unity among the villagers and sense of ownership in the renovated road. Because of the unity, they could complete other construction works by themselves (Santhipuram).</li> <li>- CBOs carried out a CMR work of restoration of a tank with the minimum technical inputs from the Project. They arranged to hire equipment and skilled foremen. Despite shortage of materials they completed the work (Seethuvinayagarkulam).</li> </ul>	<ul style="list-style-type: none"> <li>- Community people in Theththavadi Maruthankulam have utilized Community Hall constructed under the Project as shelter since the security situation got worse in order to avoid unnecessary contacts with soldiers at night. The Community Hall is the only public building in the village and JICA's logo on it provided safety for the people because it indicated that a foreign donor backed the community.</li> <li>- In Seethuvinayagarkulam, people started vegetable cultivation utilizing the water from the tank restored under the Project. In addition, restoration of the tank contributes to control floods around the village. It improved an environmental condition in the village.</li> <li>- Many IDPs from the Southern part of Manthai West AGA Division have been evicted at the focal villages, circa April 2007. This facilitates rehabilitation major activities at the focal villages. Although the security situation had an impact on CMR Activities, CBOs in the focal villages in the uncleared area, where the support from the Project was limited due to closure of the exit/entry point, were motivated towards self-help Activities and more people participated in CMR works.</li> </ul>
2.5 Amount and usage of the profits the CBOs obtained by undertaking CMR	<p>2.5 The average profit margins obtained by a CBO in charge are 8% in JFY 2004, 23% in 2005, 5% in 2006 and 29% in 2007, while 14% of overhead costs and profit was estimated in a contract.</p> <p>CBOs have started various activities, including operation and maintenance of rehabilitated infrastructure and socio-economic activities such as rehabilitation of roads, establishment of community library and revolving loans for community members with the profits gained by implementing CMR works.</p>

Activities		Plan and progress of activities												JFY 2007	
		JFY 2004			JFY 2005			JFY 2006			JFY 2007				
Planned (P) Actual (A)		4	5	6	7	8	9	10	11	12	1	2	3		
3.1 Support economic activities (agriculture, fishery, processing, sales, etc.) carried out by CBOs.															
3.2 Support social activities (mutual assistance, social welfare, mothers' class, youth club, traditional events, peace education, etc.) carried out by CBOs.	P A														
3.3 Guide CBOs in the management of the socio-economic activities as mentioned above.	P A														
Indicators	Achievements	Reasons if planned targets not being satisfied													
3-1 Number of skill training, and villagers' level of skills and knowledge obtained by the activities of the Project	3-1 The following trainings and activities were carried out as planned, however, some of the trainings and activities were cancelled, especially in Manthai West AGA Division. (1) Economic activities: assistance for agriculture, fisheries and animal husbandry etc - Agricultural trainings: - 22 programs with 1430 participants in the 2nd year 60 programs with 2652 participants in the 3rd year 20 programs with 707 participants in the 4th year - Agricultural activities at plant nursery farms (6 villages) - Promotion of Potted cultivation, OFC cultivation, Coconut cultivation, Cashew cultivation, Poultry farming, Inland fisheries etc	1. Due to delay and cancellation of rehabilitation of the irrigation facility, planned agricultural activities with the facility could not be implemented under the Project. As a result, people could not get income from the activities. 2. Due to deterioration of the security situation and closure of Exit/ Entry point to the uncleared area, the Project had to suspend some of the planned trainings and income generation activities. 3. Agricultural products grown in the focal villages with the support of the Project could not be taken to the cleared area due to closure of the Exit/ Entry point, so that farmers had to give up selling those products in the markets in Manthai town. It caused a limited income from the activities and farmers have been in difficulties in getting funds for the next season. In addition, the Project was not permitted by the authority to bring chemical fertilizers such as urea from the cleared area to the uncleared area. Utilization of agricultural machines was also limited due to unavailability of fuel. 4. Cement block making activity was expected to expand, however, it came to a standstill after the transport of cement to the uncleared area was banned in May 2006.													
	(2) Economic activities: Income generation activities - 5 training programs in Mat weaving, food processing, Sari painting, Palmyra based products, and Cost effective construction technology for Housing and Pre-cast concrete components - Provision of technical guidance in cement block making (4 villages)														
	(3) Social activities - Support for official land allocation for newly settled families at the focal villages in Manthai West AGA Division - Support for Micro finance activities (38 Women's Saving Groups with 411 members, and Rs.473,487.50 saved) - Support for educational activities by CBOs at Preschools and Multi Purpose Halls constructed under the Project

Activities		4	5	6	7	8	9	10	11	12	1	2	3	4	5	6	7	8	9	10	11	12	1	2	3
4.1	Provide training for government officers on participatory development method.	Planned (P) Actual (A)																							
4.2	Carry out study tours for government officers.	P A																							
Indicators	Achievements	Reasons if planned targets not being satisfied												Some of the officers had no transport facilities to assist CBOs' activities, which delayed necessary administrative measures such as registration of CBOs; and approval for banking transaction.											
4-1	Number of trainings completed and level of participation of the planned trainings for the government officers and Iseminar in 2006	4-1 The following training programs were conducted. (1) Training on Participatory Approach; 4 study tours & 2 seminars in JFY 2004, 1 training in 2005 and Iseminar in 2006 (2) Establishment of a Tamil-medium Diploma course on Participatory Community Development (3) Counterpart trainings in Japan; 2 & 4 officers attended in JFY 2004 & 2005 respectively												(4) Study tour in relation to handing over of facilities constructed under the Project : 2 tours in JFY 2007 (5) Others: 1 training on cost effective construction technology for housing and precast concrete components in JFY 2006											
4-2	Level of understanding on participatory development approach of the relevant government officers, such as GA, DS, and GNs of the focal villages	4-2 - The former GA, Mannar fully understood the value of participatory approach and suggested that NWS&DB undertake the pipe laying work at Santhipuram via CMR. - GNs, especially those in Manthai West, fully understood the approach and have extended the maximum assistance to the communities.												- Each WRDS in Sewa Village, Ganeshapuram and Pali Aru in Manthai West AGA Division was appreciated their ability in management of construction works and won a contract with NECORD for construction of permanent houses in each village in JFY 2006. Unfortunately, all works were suspended due to unavailability of cement caused by the prevailing security situation.											
4-3	Number of examples that the relevant government officers extended assistance to the focal villages and the Project	4-3 - Technical agencies such as RDD, Central ID, Provincial ID, NWS&DB etc. rendered assistance to relevant CMR works carried out by CBOs. - Approval of the officers such as RDO and DAD is prerequisite for banking transaction of CBOs. They have been well cooperative to the CBOs.												- The officers understood the participatory approach and changed their attitude, and they put community people at center in their activities. Particularly the Chief Secretary of the North Provincial Council and the District Secretary, Mannar well understood the concept of MANRECAP and advised their officers of other Projects such as NECORD and NEIAP to introduce a participatory approach in various occasions. The concept and method adopted by MANRECAP was thus disseminated among other Projects and neighboring villages.											
4-4	Degree of interest of Provincial Council of North Province to the participatory development approach	4-4 - The Chief Secretary of the then North East Provincial Council often expressed appreciation of the MANRECAP activities in the Provincial Development Meetings and repeatedly suggested officers concerned to adopt a similar approach in implementing developmental works in other areas too. - He also provided support for establishing a Tamil-medium diploma course on Participatory community development at Vavuniya Campus of Jaffna University.
