

THE STUDY
ON
THE INTEGRATED WATER RESOURCES MANAGEMENT PLAN
IN
THE HAOUZ PLAIN IN THE KINGDOM OF MOROCCO

MAIN REPORT

Table of Contents

Preface

Transmittal Letter

Location map of the Study Area

Tensift Basin and The Study Area

Boundaries of Prefecture, Provinces and Communes in the Haouz Plain

Pictures of the Study Area

Summary

CHAPTER 1: INTRODUCTION

1.1	Background of the Study	1 - 1
1.2	Objectives of the Study and Study Area	1 - 1
1.2.1	Objectives of the Study	1 - 1
1.2.2	The Study Area	1 - 1
1.2.3	Study Implementation Framework.....	1 - 2
1.3	Contents of the Study.....	1 - 2
1.3.1	Contents of the Study	1 - 2
1.3.2	Process of the Study	1 - 2
1.3.3	Participation of Stakeholders	1 - 2

CHAPTER 2: MOROCCO AND STUDY AREA

2.1	Morocco in Brief.....	2 - 1
2.1.1	Administration.....	2 - 1
2.1.2	Social and Economic Conditions of the Country	2 - 1
2.1.3	National Development Plan	2 - 3
2.1.4	World Bank Country Assistance Strategy.....	2 - 4
2.1.5	Privatization and Restructuring of Public Utilities.....	2 - 4
2.1.6	Environmental Policies	2 - 5
2.1.7	Water Resources Development in Morocco.....	2 - 7
2.1.8	Water Resources Management Policy and Legal Framework	2 - 7
2.1.9	Integrated Water Management Plan by River Basin	2 - 8
2.1.10	Water Related Institutions	2 - 10
2.2	Outline of the Study Area	2 - 12
2.2.1	General Conditions.....	2 - 12
2.2.2	Natural Conditions	2 - 13
2.2.3	Socio-Economic Conditions.....	2 - 15
2.2.4	Present Water Uses.....	2 - 19
2.2.5	Other Social Infrastructure	2 - 27

CHAPTER 3: PRESENT CONDITION AND POTENTIAL OF THE WATER RESOURCES IN THE STUDY AREA

3.1	Previous Projects and Studies on Water Resources Development.....	3 - 1
3.1.1	Water Resources Development Projects	3 - 1
3.1.2	Water Resources Development Studies	3 - 1
3.2	Present Conditions of Surface Water	3 - 3
3.2.1	Meteo-hydrological Network and their Data.....	3 - 3
3.2.2	Surface Runoffs.....	3 - 3
3.2.3	Water Supply from Dams.....	3 - 3
3.2.4	Water Taken by Traditional Seguia System.....	3 - 3
3.2.5	Sedimentation.....	3 - 3
3.2.6	Floods and Flood Forecasting and Warning System.....	3 - 4
3.2.7	Water Quality	3 - 4
3.3	Present Groundwater Conditions	3 - 5
3.3.1	Hydrogeological Mechanism in the Haouz plain	3 - 5
3.3.2	Groundwater Table and Groundwater Quality	3 - 5
3.3.3	Groundwater Recharge and Natural Discharge.....	3 - 8
3.4	Groundwater Extraction in the Study Area.....	3 - 11
3.4.1	Existing Well Inventory	3 - 11
3.4.2	Groundwater abstraction for irrigation in agriculture	3 - 12
3.4.3	Groundwater abstraction for drinking water supply.....	3 - 14
3.4.4	Other Groundwater Uses	3 - 14
3.4.5	Estimated total groundwater abstraction	3 - 15
3.5	Present Conditions of Irrigation and Water Saving Irrigation	3 - 15
3.5.1	Irrigation Water Demand	3 - 15
3.5.2	Water Saving Irrigation.....	3 - 17
3.6	Issues Relating to Water Resources Management and Water Users Association (AUEA) / Farm Household Survey.....	3 - 19
3.6.1	Problems and Constraints of Water Sector of the State	3 - 19
3.6.2	Problems and Constraints on Water Resources in the Study Area.....	3 - 19
3.6.3	Water Users Association (AUEA) / Farm Household Survey	3 - 19
3.7	Re-use of Treated Sewage and Drainage Water of Marrakech.....	3 - 24
3.7.1	Present Conditions of Sewage and Drainage of Marrakech Town.....	3 - 24
3.7.2	Possibility of Re-use of Treated Sewage Water.....	3 - 25
3.8	Analysis of the Water Balance.....	3 - 26
3.8.1	Previous Studies on Groundwater Balance	3 - 26
3.8.2	Methodology of Groundwater Modeling and Simulations.....	3 - 26
3.8.3	Present Conditions in Groundwater Balance.....	3 - 28
3.8.4	Current water demand	3 - 28
3.8.5	Available Amount of Water Resources.....	3 - 29
3.9	Groundwater Simulation in the Haouz Plain and Zoning	3 - 32
3.9.1	Groundwater Simulation in the Haouz Plain.....	3 - 32
3.9.2	Regional Characteristics and Measures for Groundwater and Management	3 - 34

CHAPTER 4 STRATEGY OF THE INTEGRATED WATER RESOURCES MANAGEMENT

4.1	Strategies for Integrated Water Resources Management.....	4 - 1
4.1.1	Strategies for Integrated Water Resources Management and Integrated Groundwater Management.....	4 - 1
4.1.2	Basic Concept of Integrated Water Resources Management Strategies	4 - 1

4.2	Strategy for Surface Water Sources Development and Management	4 - 2
4.2.1	Strategy for Surface Sources Development.....	4 - 2
4.2.2	Strategy for Maximum Use of Surface Water Resources	4 - 3
4.2.3	Development of Reclaimed Water of Sewage	4 - 5
4.2.4	Water Resource Development from Desalination.....	4 - 6
4.2.5	Strategy for Surface Water Resources Management.....	4 - 6
4.3	Strategy for Groundwater Management.....	4 - 7
4.3.1	Registration Management of Groundwater Intake Facilities.....	4 - 7
4.3.2	Determination of Available Groundwater Volume through Scientific Means	4 - 7
4.3.3	Establishment of Institutional Mechanism for Equitable Groundwater Distribution	4 - 8
4.3.4	Scenario for Implementation of Groundwater Management Program	4 - 8
4.4	Strategy for Water Quality Management.....	4 - 9
4.4.1	Basic Concepts of Water Quality Management Strategy	4 - 9
4.4.2	Promotion of Construction Work of Wastewater Treatment Facilities.....	4 - 9
4.4.3	Construction of Facilities for Domestic Sewage.....	4 - 9
4.4.4	Construction of Facilities for Factory & Business Wastewater	4 - 10
4.4.5	Construction of Facilities for Other Wastewater.....	4 - 10
4.4.6	Reduction of Water Pollutants by Non-structural Measures	4 - 11
4.4.7	Formulation of Water Quality Monitoring System among Supervisory Agencies, Water Polluters and Residents	4 - 11
4.5	Strategy for Improving Efficiency of Water Use and Controlling Water Demand	4 - 12
4.5.1	Strategy for Improving Efficiency of Water Use and Controlling Water Demand in Agricultural Sector.....	4 - 12
4.5.2	Strategy for Water saving in Water Supply Sector	4 - 14
4.5.3	Water Saving of Other Sectors.....	4 - 16
4.6	Strategy for Reinforcement of Organizational and Institutional Framework	4 - 17
4.6.1	Clarification of the Roles and Responsibilities of the Stakeholders and Reinforcement of Consultation Frameworks.....	4 - 17
4.6.2	Activation of the Prefectural and Provincial Committees of Water	4 - 19
4.6.3	Reinforcement of the Implementation of the Water Police and the Competence Transfer to the Provincial Level	4 - 19
4.6.4	Adequate Water Pricing and Royalties Collection.....	4 - 20
4.6.5	Financial Strengthening of ABHT	4 - 21
4.6.6	Capacity Development of ABHT on Water Resources Management	4 - 22
4.6.7	Legislative System Establishment for Effective Implementation of the Water Law.....	4 - 22
4.7	Strategy for Participatory Water Resources Management	4 - 23
4.7.1	Reinforcement of the Actions of Enlightenment for Water Saving and Water Resources Conservation.....	4 - 23
4.7.2	Activation and Reinforcement of Capacities of Water User's Associations, Competence Transfer for Water Management.....	4 - 23
4.7.3	Contract for Groundwater Management and Use.....	4 - 24
4.8	Scenarios for Integrated Water Resources Development and Management.....	4 - 24
4.8.1	Scenarios for Improvement and Maintenance of Water Balance.....	4 - 24
4.8.2	Scenarios for Water Resources Development	4 - 25
4.8.3	Scenarios for Reduction of Water Demand.....	4 - 26
4.8.4	Scenarios for Integrated Water Resources Management.....	4 - 28
4.8.5	Groundwater Simulations Based on Scenarios	4 - 29

CHAPTER 5 MASTER PLAN OF INTEGRATED GROUNDWATER MANAGEMENT

5.1	Object of the Master Plan	5 - 1
5.2	Targets of the Master Plan	5 - 1
5.2.1	Target Year.....	5 - 1
5.2.2	Achievement Target	5 - 1
5.2.3	Objective Area	5 - 1
5.2.4	Target Group	5 - 1
5.3	Strategies to Attain the Master Plan Object	5 - 1
5.3.1	Basic Concepts	5 - 1
5.3.2	Components of the Master Plan	5 - 2
5.4	Contents of the Master Plan	5 - 2
5.4.1	Surface Water Sources Development and Surface Water Resources Management Plan.....	5 - 2
5.4.2	Groundwater Management Plan.....	5 - 10
5.4.3	Water Quality Management Plan	5 - 17
5.4.4	Water Demand Reduction Plan	5 - 21
5.4.5	Organizational and Institutional Improvement Plan	5 - 32
5.4.6	Participatory Groundwater Management Plan	5 - 46
5.5	Implementation of Integrated Groundwater Management Master Plan.....	5 - 58
5.5.1	Institutional Arrangement of the Master Plan Implementation	5 - 58
5.5.2	Schedule of the Master Plan Implementation.....	5 - 59
5.5.3	Costs of the Master Plan.....	5 - 59
5.6	Evaluation of the Master Plan.....	5 - 60
5.6.1	Basic Concepts of the Evaluation.....	5 - 60
5.6.2	Methodology and Conditions of the Evaluation.....	5 - 61
5.6.3	Project Benefits	5 - 61
5.6.4	Project Costs.....	5 - 62
5.6.5	Viewpoint of Economic Evaluation	5 - 63
5.6.6	Viewpoint of Financial Evaluation	5 - 63
5.6.7	Socio-economic Effects.....	5 - 63
5.6.8	Environmental and Social Considerations (Environmental and Social Impact Assessment).....	5 - 64
5.6.9	Comprehensive Evaluation	5 - 69
5.6.10	Direct Contribution of Major Projects / Programs to the Groundwater Balance and their Economic Contribution	5 - 70

CHAPTER 6 ACTION PLAN

6.1.	Understanding of the Master Plan as a whole and selection of Programs / Projects for the Action Plan	6 - 1
6.1.1	Understanding of the Master Plan as a whole	6 - 1
6.1.2	Structure of the Action Plan	6 - 1
6.2.	Contents of the Action Plan	6 - 3
6.2.1	Action Plan for Groundwater Management	6 - 3
6.2.2	Action Plan for Reclaimed Water Supply	6 - 7
6.2.3	Action Plan for Water Efficient Agriculture	6 - 8
6.2.4	Implementation Structure of the Action Plan.....	6 - 11
6.3	Implementation Schedule of the Action Plan	6 - 13
6.4	Implementation Cost of the Action Plan.....	6 - 14

CHAPTER 7 CONCLUSIONS AND RECOMMENDATIONS

7.1 Conclusions..... 7 - 1
7.2 Recommendations..... 7 - 2

APPENDICES

APPENDIX 1 SCOPE OF WORKS AND MINUTES OF MEETINGS----- A1 - 1
APPENDIX 2 MINUTES OF MEETING ON PROGRESS REPORT 2 ----- A2 - 1
APPENDIX 3 MINUTES OF MEETING ON DRAFT FINAL REPORT ----- A3 - 1
