**Minutes of Meetings  
of Outline Design Study I  
on the Project for Support for the Public Activities of the Communities  
in Jordan Valley  
in the Palestinian Authority**

In response to a request from the Palestinian Authority (hereinafter referred to as "PA"), the Government of Japan decided to conduct the Outline Design Study I (hereinafter referred to as "the Study") on the Project for Support for the Public Activities of the Communities in Jordan Valley (hereinafter referred to as "the Project") and entrusted the study to the Japan International Cooperation Agency (hereinafter referred to as "JICA").

JICA sent to Palestine the team for the Study (hereinafter referred to as "the Team"), headed by Dr. Kenichi TSUKAHARA, Senior Advisor of JICA, and scheduled to stay in the region from May 10 to June 4, 2009.

The Team held discussions with the officials concerned of PA and conducted field surveys in the study area. In the course of discussions and field surveys, both parties have confirmed the main items described in the attached sheets.

### 1. Objective of the Project

The main objective of the Project is to improve the living of the communities in the Jordan Valley by improving the quality of public services of both the central governmental ministries and the Joint Councils (JCs). The Project implements new public infrastructures and conducts renovations of existing public local properties, thus expects to enhance the level of public service activities, in conjunction with further capacity development of local authorities to deliver services through the technical cooperation project for 'Improvement for Local Governance System in Palestine'.

### 2. Purposes of the Study

The purposes of the Study are as follows;

- (1) To finalize the contents of the Project;
- (2) To clarify the domain of responsibilities and ownership among the supervisory ministries in respective sector of the candidate projects within the scope of the Project (hereafter the Candidate Projects); and,
- (3) To confirm consensus reached among supervisory ministries and local authorities over the list of the Candidate Projects.
- (4) To disseminate contents of the Inception Report shown in ANNEX-1.

### 3. The Candidate Projects

Both PA and the Team agreed that the selection of the Candidate Projects should be based on 'Interim Local Development Strategy (I-LDS)', which was formulated through the technical cooperation project for 'Improvement for Local Governance System in Palestine (2005-2010)', shown in ANNEX-2.

Both sides also agreed that the Candidate Projects shall be selected based on the following criteria;

- (1) Relevance with the PA's national strategy/policy in respective sector
- (2) Prioritized needs among the communities in the Jordan Valley
- (3) Geographical equity among the local authorities within the JCs

In addition, following four factors were considered as important elements in the process of finalizing the Candidate Projects;

- (1) Development impact on the communities.
- (2) Effectiveness of the candidate projects.
- (3) Contribution to the improvement of the public service activities.
- (4) Assurance of implementation of the Candidate Projects.

### 3-2 Relevant issues of the Candidate Projects

- (1) Above PN-05, PN-06, PW-07 and PW-08 are subject to the coordination with the Civil Administration of Israeli military because of political nature of the designated location.

Although these projects shall remain in the list of the candidate in following phases of study mission, due to the limited timeframe of Japan's Grant Aid scheme, both PA and the Team agreed to exclude these projects from the scope of the Project unless the necessary coordination is completed by the Israeli side before the end of September 2009.

- (2) Both sides agreed that some of the educational facilities to be supported by the Project might have the potential function to be open to civil activities by the local community based organizations and JCs.
- (3) Before the Outline Design Survey II in July, Palestinian side would give priority order among the Candidate Projects within each JC.
- (4) Ministry of Health agreed that they provide the budget and human resources needed for maintenance of above Candidate Projects concerning health sector.

### 4. Responsible and executing organization

For the sake of smooth implementation of the Project, both PA and JICA agreed that the Ministry of Local Government (MoLG) shall act as a single executing organization of the Project in collegial with the line supervisory ministries over the respective field of the Candidate Projects, so that the ownership and responsibilities of each Candidate Project be properly shared within each jurisdiction of public service.

### 5. Schedule of the Outline Design Study

After the return of the Team in the capital, the result of the Study shall be consulted with relevant Japanese authorities concerned of Grant Aid scheme, and they shall conduct further analysis based on the criteria shown in ANNEX-3. Thereafter JICA shall notify PA the final result of the Study in the proper timing.

Based on above result, JICA shall conduct the Outline Design Study II, and dispatch the Team again to this region in July 2009.

**The Outline Design Study on the Project For  
Support for the Public Activities of the Communities in Jordan Valley  
(Explanation on Draft Report)**

In November 2009, the Japan International Cooperation Agency (hereinafter referred to as "JICA") dispatched an Outline Design Study Team on the Project for Support for the Public Activities of the Communities in Jordan Valley (hereinafter referred to as "the Project") to the Palestinian Authority (hereinafter referred to as "PA"), and through discussion, field survey, and technical examination of the results in Japan, JICA prepared a draft report of the study.

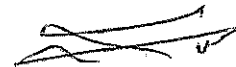

In order to explain the components of the draft report and consult with PA, JICA sent the Draft Report Explanation Team (hereinafter referred to as "the Team"), which was headed by Mr. Tsutomu KOBAYASHI, Senior Representative of JICA Palestine Office, and is scheduled to stay in the region from 1<sup>st</sup> to 5<sup>th</sup> November, 2009.

As a result of discussions, both parties have confirmed the main items described in the attached sheets.

Ministry of Planning and  
Administrative Development

## ATTACHMENT

### 1. Contents of the report

PA agreed and accepted in principle the contents of the draft report as detailed in ANNEX 1. JICA will complete the final report in accordance with the discussions on the current mission, and submit it to PA before the end of March 2010. The Team explained that there might be slight changes in component and BoQ, on subsequent Exchange of Notes and bidding due to exchange fluctuations.

### 2. Implementation Plan

Both sides agreed on the implementation schedule in attached document of ANNEX 2.

### 3. Responsible Agency

Both sides agreed that Ministry of Local Governance (hereinafter 'MoLG') would be the sole agency responsible for all the matters concerned of implementation of the Project, throughout the process of preparation, bidding, contracting, supervising, monitoring, and inspection. Furthermore, MoLG shall bear commanding role in coordination with respective ministries, especially on issues related to compliance with subscribed standards/quality and regulations in every component of the Project.

### 4. Confidentiality of the Project related documents

Both sides agreed that all the Project related documents shall never be duplicated or released to any outside parties before finalizing or signing. PA further agreed that the Project Cost Estimation attached as ANNEX 3 is provisional and is subject to change.

### 5. Selection of Local Consultant

PA agreed that the Japanese consultant who conducted Outline Design Study Survey would continue to take part in supervision as a prime consultant under Procurement Management Agent.

PA further agreed that the local consultants who conducted Detail Design would continue to take part in supervision. The final list of local consultants shall be shared and cleared by MoLG

### 6. Allocation of necessary budget and personnel

PA agreed to commit itself to allocate adequate budget and human resources in order that all the property to be procured or constructed through the Project be utilized and maintained in proper manner.

### 7. Necessary measures to be taken by PA

PA agreed to continue its commitment for taking necessary measures as described in Annex 3 and 4.

### 8. List of Candidate Projects

The list of Candidate Projects is as below;

**Candidate Projects**
