地域情報発信能力強化	Sub	-Sector : Information and Communication Technology 12 participants / English
OBJECTIVE	TARG	ET ORGANIZATION / GROUP
This training course will contribute to administration's activities for improvement of nvironment for internet usage, operation and maintenance, promotion of usage, mprovement of users' IT literacy, and then to reduce the poverty, to promote the ublic welfare and industrial activities in rural area. Trainee who is the National government officer will arrange the problem which locks the promotion of developing communication and information environment, nd propose one of the solutions. After discussion on the final report of the former trainee, trainee who is the Local overnment officer(prefecture or city level) will arrange the problems which blocks he promotion of developing communication and information environment, and ropose one of the solutions.	charge of prom	national and local government in otion of organizing communication ind informaton society
