Final Report

REPORT 1

TABLE OF CONTENTS

Survey Location

Table of Contents

Abbreviation

Chapter 1	Introduction.....	1-1
1.1	Background of the Survey.....	1-1
1.1.1	Road and Bridge Development in Bangkok Metropolitan Region	1-1
1.1.2	Bridges Over the Chao Phraya River and Japanese ODA Projects	1-2
1.1.3	Present Condition of the Bridge Maintenance by DRR.....	1-2
1.2	Survey Object.....	1-3
1.3	Target Area of Survey	1-3
 Chapter 2	 Current State of Bridges Across Chao Phraya and Delineation of Problems	 2-1
2.1	Current State of Roads and Bridges in Bangkok Metropolitan Region.....	2-1
2.1.1	Summary Description.....	2-1
2.1.2	Current State of Traffic and Transportation.....	2-1
2.1.3	Current State of Roads and Bridges.....	2-2
2.1.4	Policies Implemented in Bangkok Metropolitan Region for Roads and Bridges.....	2-9
2.2	Current State of Maintenance and Sorting-out Problems with Current System.....	2-10
2.2.1	Legal Systems, Standards, Guidelines, Manuals, etc.	2-10
2.2.2	Implementation Entities (Organization, Budget, Workforce, Status of Maintenance Plan).....	2-11
2.2.3	Current State of Maintenance	2-14
2.3	Organizing Information on Existing Bridges	2-18

2.3.1	General Information (Traffic Volume, Natural Condition)	2-18
2.3.2	Geometric and Structural Information	2-19
2.3.3	Information on Condition for Design	2-20
2.3.4	Information on Current State of Bridges (Repair Performance)	2-21
2.3.5	Restrictions on Height of Vessels and Vehicles and Weight of Vehicles ...	2-22
Chapter 3	Inspection Survey and Evaluation of Chao Phraya River Bridges.....	3-1
3.1	Preparation of Inspection and Evaluation Manual.....	3-1
3.1.1	Overview	3-1
3.1.2	Preparation of Inspection and Evaluation Manual.....	3-3
3.1.3	Overview of Inspection and Evaluation Manual	3-11
3.2	Site reconnaissance.....	3-14
3.3	Bridge Inspection	3-16
3.3.1	Purposes of Bridge Inspection	3-16
3.3.2	Method of Bridge Inspection.....	3-16
3.3.3	Implementation Process.....	3-16
3.3.4	Results of Bridge Inspection.....	3-19
3.3.5	Summary	3-33
3.4	Collection of Additional Data Survey for Evaluation.....	3-34
3.4.1	Investigation of Inland Transportation	3-34
3.4.2	Traffic Volume by Vehicle Type	3-35
3.4.3	Inspection of River-bed Scour Status	3-37
3.4.4	Geological Layer around Bangkok and Record of Seismic Observation	3-37
3.5	Review of Deterioration Factors	3-39
3.5.1	Superstructures and Piers	3-39
3.5.2	Substructures	3-51
3.6	Maintenance Status.....	3-53
3.7	Summary (Review of Deterioration factors)	3-53
Chapter 4	Formulation of Long-term Maintenance Planning for The Chao Phraya River Crossing Bridges.....	4-1
4.1	Collection and Analysis of Existing Management Information	4-1
4.2	Proposals Concerning the Formulation of Long-term Maintenance Plan.....	4-1
4.3	Estimation of Life Cycle Cost.....	4-2

4.3.1	Estimation of LCC for Repair Planning	4-2
4.3.2	Prediction Method of Deterioration.....	4-7
4.3.3	Estimation of LCC Based on the Repair Method and Repair Timing	4-8
4.4	Formulation of Long-term Maintenance Plan.....	4-9
4.4.1	Preparation of the Manual for Formulation of Long-term Maintenance Plan.....	4-9
4.4.2	Frame and Scenario of the Long-term Maintenance Plan	4-10
4.4.3	Long-term Maintenance Plans for Individual Bridges	4-19
4.4.4	Countermeasure Classification for Individual Bridge	4-23
4.4.5	Preparation of Action Plans for Execution and Revision of the Maintenance Plan	4-35
Chapter 5	Proposal Regarding the Bridge Maintenance and Management System	5-1
5.1	Issues Concerning the Maintenance System for the Bridges Over The Chao Phraya River.....	5-1
5.2	Proposal for The Maintenance System for the Bridges Over Chao Phraya River.....	5-9
5.3	Current State and Issues of Maintenance System for Rural Bridges ...	5-11
5.3.1	Organization and Bridges Under Jurisdiction of Rural Maintenance Offices	5-12
5.3.2	Current State of Roads and Bridges.....	5-16
5.3.3	Current State of the Maintenance System of Rural Districts.....	5-19
5.3.4	Current State and Issues of the Maintenance Plan.....	5-26
5.4	Proposal Regarding the Maintenance System for Bridges in Local Areas.....	5-27
5.4.1	Ideal Maintenance System.....	5-27
5.4.2	Provision and Execution of Standards for Planned Maintenance	5-28
5.5	Summary.....	5-35
Chapter 6	Proposal for an Efficient Maintenance System	6-1
6.1	Investigation for the Master Plan	6-1
6.2	Interviews of Other Maintenance Institutions	6-1
6.3	Interviews of Research Institutes.....	6-4
6.3.1	An Interview with Academic Experts from Chulalongkorn University	6-4
6.3.2	An Interview with Academic Experts from Srinakharinwirot	

	University	6-5
6.4	Proposals for the Basic Plan for the Bridge Maintenance Management System (BMMS).....	6-7
6.4.1	Issues on BMMS	6-7
6.4.2	The Technical Elements Necessary for Improving BMMS	6-9
6.4.3	The Direction of Efforts Aimed Towards Improving Basic Data	6-11
Chapter 7	Technology Transfer	7-1
7.1	Details of OJT Programs.....	7-1
7.1.1	Sharing Techniques to Conduct Bridge Inspections and Evaluations.....	7-1
7.1.2	Sharing LCC Calculation Techniques.....	7-4
7.2	Lectures, etc.	7-5
7.2.1	Status of Bridge Maintenance and Management in Japan, and Case Study of Asset Management	7-5
7.2.2	Technology Transfer Through International Symposium	7-5
7.2.3	Presentation to the Regional Bridge Maintenance Division, Bureau of Road Maintenance	7-7
7.2.4	The final presentation at DRR	7-7
Chapter 8	Conclusions	8-1

Appendixes:

Appendix-1	Interview to the maintenance offices of the 12 bridges over Chao Phraya river
Appendix-2	Example reports on the inspection operated by DRR
Appendix-3	Ledger and repair history records
Appendix-4	Bridge inspection results (Visual inspection)
Appendix-5	Bridge inspection results (Non-destructive test)
Appendix-6	Inspection results of the rural bridges in vicinity of Bangkok
Appendix-7	Examples of long-term maintenance plan for rural bridges in Japan
Appendix-8	Site investigation results of the rural bridges in Thailand
Appendix-9	Example reports on the inspection of the rural bridges in Thailand
Appendix-10	Technology transfer of inspection methods
Appendix-11	Other technology transfer
Appendix-12	Traffic volume reports

Reports:

Report 2	Bridge inspection and evaluation manual
Report 3	Manual for the formulation of long-term maintenance plan
Report 4	Long-term maintenance plans for individual bridges and action plan

Collected documents :

Collected documents 1	Additional information regarding maintenance
Collected documents 2	Other collected documents

TABLE OF FIGURE

Figure 1.1.1	Bangkok Metropolitan Region.....	1-1
Figure 1.1.2	Project targets and Chao Phraya bridges	1-4
Figure 1.3.1	Regional Management Office	1-5
Figure 2.1.1	Transition of traffic volume of all vehicles (except motorbikes) in Bangkok Metropolitan Region.....	2-8
Figure 2.2.1	Organizational chart of DRR.....	2-12
Figure 2.3.1	Dents made by crashing vehicles	2-23

Figure 3.3.1	General drawing of Rama 4	3-19
Figure 3.3.2	Cracks in Rama 4	3-19
Figure 3.3.3	Free lime of Rama 4.....	3-19
Figure 3.3.4	General drawing of Rama 5	3-20
Figure 3.3.5	Cracks in Rama 5	3-21
Figure 3.3.6	Cracks and free lime in Rama 5	3-21
Figure 3.3.7	Inclination of bridge columns of Rama 5	3-21
Figure 3.3.8	Ground settlement around Rama 5	3-21
Figure 3.3.9	General drawing of Rama 7	3-22
Figure 3.3.10	Cracks in Rama 7	3-22
Figure 3.3.11	Cracks in Rama 7	3-22
Figure 3.3.12	General drawing of Phra Pinklao	3-23
Figure 3.3.13	Phra Pinklao	3-23
Figure 3.3.14	Phra Pinklao	3-23
Figure 3.3.15	General drawing of the Phra Pokklao	3-24
Figure 3.3.16	Cracks in the Phra Pokklao	3-24
Figure 3.3.17	Cracks in the Phra Pokklao	3-24
Figure 3.3.18	General drawing of the Taksin.....	3-25
Figure 3.3.19	Cracks in the Taksin.....	3-25
Figure 3.3.20	Moving constraint of bearings in the Taksin.....	3-25
Figure 3.3.21	General drawing of Rama 3	3-26
Figure 3.3.22	Cracks in Rama 3	3-26
Figure 3.3.23	Cracks in Rama 3	3-26
Figure 3.3.24	General drawing of the Krung Thon	3-27

Figure 3.3.25	Deformation of the Krung Thon.....	3-27
Figure 3.3.26	Deformation of the Krung Thon.....	3-27
Figure 3.3.27	General drawing of the Memorial	3-28
Figure 3.3.28	Deformation of the Memorial	3-29
Figure 3.3.29	Free line of the Memorial Mark of water leakage.....	3-29
Figure 3.3.30	General drawing of the Krung Thep	3-30
Figure 3.3.31	Krung Thep Crack.....	3-30
Figure 3.3.32	Pop-outs in the Krung Thep	3-30
Figure 3.3.33	General drawing of the IRR South.....	3-31
Figure 3.3.34	IRR South.....	3-31
Figure 3.3.35	IRR South.....	3-31
Figure 3.3.36	General drawing of the IRR North.....	3-32
Figure 3.3.37	Cracks in the main tower of the IRR North.....	3-32
Figure 3.3.38	Cracks of a deck of the IRR North.....	3-32
Figure 3.4.1	Condition of passage of a vessel (1).....	3-35
Figure 3.4.2	Condition of passage of a vessel (2).....	3-35
Figure 3.5.1	Crack damage position on a composite deck	3-46
Figure 3.5.2	Crack damage 1 on a composite deck	3-46
Figure 3.5.3	Crack damage 2 on a composite deck	3-46
Figure 3.5.4	Repainting on HTB(F10T).....	3-48
Figure 4.3.1	Flow chart for LCC estimation.....	4-4
Figure 4.3.2	Schematic diagram of repair for damage occurring from deterioration over time	4-5
Figure 4.3.3	Estimation of example of LCC for remaining service life	4-6
Figure 4.3.4	Example of deterioration curve	4-7
Figure 4.3.5	Parabola approximation of deterioration curve	4-7
Figure 4.3.6	Approximation of deterioration curve with polygonal line.....	4-8
Figure 4.4.1	Discussion on the frame of the long-term maintenance plan, Jul. 30, 2010.....	4-9
Figure 4.4.2	Discussion on the contents of the long-term maintenance plan, Nov. 29&30, 2010.....	4-9
Figure 4.4.3	Procedural system of bridge maintenance.....	4-10
Figure 4.4.4	Flow chart for the determination of countermeasure classification	4-12
Figure 4.4.5	Case example of the determination of CC (cracking, water leakage, free lime [superstructure]	4-14
Figure 4.4.6	Concept of action timing using the relationship between service life and CC	4-16

Figure 4.4.7	Flow chart for long-term maintenance planning	4-19
Figure 4.4.8	Estimation example of PC-Box girder bridge	4-20
Figure 5.1.1	Organizational chart for the maintenance of roads and bridges in Bangkok and provinces surrounding Bangkok	5-3
Figure 5.1.2	Details of activities of the Maintenance Department	5-4
Figure 5.1.3	Organizational chart for the maintenance of IRR bridges	5-5
Figure 5.1.4	Details of work on IRR bridges	5-5
Figure 5.2.1	Bridge information management system	5-9
Figure 5.4.1	Conceptual drawing of the restrictions on the position of a pier and on the depth of embedment of a pier foundation	5-29
Figure 5.4.2	Conceptual drawings of a river width and a pier width	5-30
Figure 5.4.3	Length of the revetment as required in the bridge arrangement	5-31
Figure 5.4.4	Height of a bank revetment required as a result of the installation of a bridge	5-32
Figure 5.4.5	Range of protection for the riverbank or embankment below a bridge	5-32
Figure 5.4.6	Embedment depth for a pier	5-32
Figure 5.4.7	Example of the depth of installation of foot protection work	5-32
Figure 5.4.8	Example of installation of deck waterproofing	5-33
Figure 5.4.9	Drain-free expansion joint	5-34
Figure 7.1.1	Lecture	7-2
Figure 7.1.2	Explaining how to use devices	7-2

Table 5.1.4	Budget and its breakdown for the maintenance group for IRR bridges	5-8
Table 5.3.1	Items to be investigated and objects to be analyzed at local offices	5-11
Table 5.3.2	Results of hearings (Central region; organizations and bridges under jurisdiction)	5-12
Table 5.3.3	Results of hearing (Southern District: organization and bridges under jurisdiction)	5-13
Table 5.3.4	Results of hearing (Northeastern District: organization and bridges under jurisdiction)	5-14
Table 5.3.5	Results of hearing (Northern District: the organization and bridges under jurisdiction)	5-15
Table 5.3.6	List of bridges inspected	5-18
Table 5.3.7	Results of hearings (Grasping of the fiscal year in which a bridge was built and the bridge ledger)	5-19
Table 5.3.8	Results of hearings (Determination of the necessity of repair)	5-20
Table 5.3.9	Results of hearings (How to handle priorities).....	5-21

Table 5.3.10	Results of hearings (Methods of inspection and evaluation; frequency of inspection)	5-22
Table 5.3.11	Results of hearings (State of repair activities).....	5-23
Table 5.3.12	Results of hearings (Allocation of the budget and personnel to maintenance activities).....	5-24

ABBREVIATION

AADT	Average Annual Daily Traffic
AASHTO	American Association of State Highway and Transportation Officials
ADB	Asian Development Bank
AIT	Asian Institute of Technology
ARD	Office of Accelerated Rural Development
B	Baht
B/C	Benefit / Cost Ratio
BMA	Bangkok Metropolitan Administration
BMMS	Bridge Maintenance Management System
BMR	Bangkok Metropolitan Region
BOD	Biochemical Oxygen Demand
BQ	Bill of Quantity
CFRP	Carbon Fiber Reinforced Plastics
CMLT	Commission of Management of Land Traffic
C/S	Construction Supervision
D/D, DD	Detailed Design
DOH	Department of Highways
DRR	Department of Rural Roads
DVD	Digital Versatile Disk
EIA	Environment Impact Assessment
E/N	Exchange of Notes
EXAT	Expressway Authority of Thailand
F/S	Feasibility Study
GDP	Gross Domestic Products
GRDP	Gross Regional Domestic Products
GMS	Greater Mekong Sub-region
H	Height
HDPE	High Density Polyethylene
H _{gc}	Height at Center
H _{gs}	Height at Support (Bearing)
HIV	Human Immunodeficiency Virus
HWL	High Water Level
IBRD	International Bank for Reconstruction and Development
IRR	Industrial Ring Road

JBIC	Japan Bank for International Cooperation
JICA	Japan International Cooperation Agency
L	Length
L/A	Loan Agreement
L/C	Letter of Credit
LCC	Life Cycle Cost
L_{\max}	Maximum Length
M/C	Motor Cycle
MEA	Metropolitan Electronic Association
M/M	Man-Month
MOF	Ministry of Finance
MOI	Ministry of Interior
MOT	Ministry of Transport
MRT	Mass Rapid Transit
MRTA	Mass Rapid Transit Authority of Thailand
MSL	Mean Sea Level
NESDB	Office of the National Economic and Social Development Board
NESDP	National Socio-Economic Development Plan
NPV	Net Present Value
OD	Origin and Destination
ODA	Official Development Assistance
O&M	Operation and Maintenance
ONEP	Office of Natural Resources and Environmental Policy and Planning
OTP	Office of Transport and Traffic Policy and Planning
PC	Pre-stressed Concrete
PCC	Property Compensation Community
PCU	Passenger Car Unit
PDMO	Public Debt Management Office
PPP	Public and Private Partnership
P/Q	Pre-Qualification
PWD	Public Works Department
RAP	Resettlement Action Plan
ROW	Right of Way
SAPS	Special Assistance for Project Sustainability (JBIC)
SRT	State Railway of Thailand
TDMC	Transport Data and Model Center

TDML	Transport Data and Model Integrated with Multimodal Transport and Logistics
UTDP	Urban Transport Development Partnership
UTM	Universal Transverse Mercator
VAT	Value-added Tax
V/C (VCR)	Volume/ Capacity Ratio
VOC	Vehicle Operating Cost
VOT	Value of Time
WB	World Bank
