

3. Sign Trail

From October 2008 to February 2009, JICA dispatched a team of expert called Special Assistance for Project Implementation (hereinafter referred to as 'SAPI'). Since one of the objectives of SAPI was to promote Ecomuseum concept in Salt, within SAPI's cooperation, fifteen (15) signage showing direction of discovery trail or describing the satellites of Salt Ecomuseum, and tourist map of Salt Ecomuseum have been designed and produced. However, it was not approved by the Ministry of Tourism and Antiquities (MOTA) to install signage and to distribute map within the period while the team was dispatched.

At the end of December 2009, through discussion with MOTA, it was revealed that MOTA is willing to install signage and to distribute map following SAPI's recommendation. As MOTA requested JICA officially, JICA has decided to cooperate MOTA in producing signage and map for realizing Ecomuseum concept in Salt.

Upon JICA Jordan Office's request, JOCVs have cooperated in preparing draft proposal of signage and map based on SAPI's result and current situation.

Step 1: Survey for Salt Discovery Trail

1st Survey : January 1, 2010

2nd Survey : April 4, 2010

3rd Survey : April 15, 2010

4th Survey : May 12, 2010

- Decision on Positions of signs by Visiting Trail
- Marking Positions of Signs on Map
- Taking Pictures of Positions
- Verification of Types of Signs for each Positions
- Verification of Time and Distance for Visiting each Site

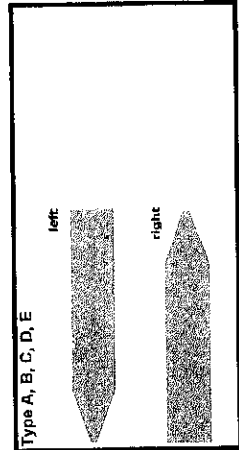

Fig.3-1 Survey in Hammam Street
(Specialistes from JICA, Representative of JICA, JOCV)

Step 2: editing Documents for Trail After Survey

- Making List of Signs by excel
 - Marking Plan of Positions of Signs
 - Making Indication List on Types and Directions of Signs
 - Verification of Types of Signs for each Positions
- (Please see the attached documents of next pages)
