Appendix-2 Marmaray Passenger Interview Survey

Marmaray Project Evaluation Form
-REPORT-

MARCH 2014

CONTENTS

Purpose of the Research	3
History of the Research	3
Scope and Method of the Research	4
SECTION 1. SEA WAY INTERVIEW FINDINGS	5
SECTION 2. MARMARAY INTERVIEW FINDINGS	23

Purpose of the Research

This research is made to collect user information to have a more useful operation of Marmaray line by evaluating the effects. This study consists of 2 sections. One of them is face to face interview survey study and other one is passenger counting.

History of the Research

Study is made in between the dates 4 February – 14 March 2014.

1. Interview Survey Study

Survey interview is made in between the dates 12-17 February 2014. 1 day interview is made for each station/port. Station/port details according to the dates are give below.

2. Passenger Counting Study:

Passenger counting study is conducted in 18.02.2014 in all sea ways and it is made on Marmaray line in 19.02.2014. Countings are made with 2 hour time zones as 07:00-09:00 in the morning, 12:00-14:00 in the afternoon and 17:00-19:00 in the evening. In Sirkeci and Yenikapı stations of Marmaray line counting study is made only in between 07:00-09:00 in the morning.

	1st Week	2nd Week	3rd Week	4th Week
1. Preparation (permission letter, pilot imlementation, interviewer trainings, press etc)				
1) Survey Field Study				
2) Passenger Counting Study				
2. Coding and Data entrance				
3. Reporting				

Scope and Method of the Study

1. Survey Study

Survey study is conducted in Sirkeci, Yenikapı stations of Marmaray line and ships and small ferry ports that are operated from Anatolian side. Surveys are conducted to boarding passengers in stations and ports. Working hours are 07:00-09:00 in the morning, 12:00-14:00 in the afternoon and 17:00-19:00 in the evening. Totally 2.030 interviews are conducted. Distribution of surveys over the stations is as indicated below:

	STATION/PORT	NUMBER OF SURVEY	DATE OF INTERVIEW
Marmaray Line	Yenikapı	517	17.02.2014
	Sirkeci	507	14.02.2014
Seaway Lines	Eminönü-Kadıköy City lines port	251	12.02.2014
	Eminönü-Üsküdar City lines port	252	12.02.2014
	Eminönü-Kadıköy Small Ferry Port	253	12.02.2014
	Eminönü-Üsküdar Small Ferry Port	250	12.02.2014

2. Passenger Counting

Passengers alighting are counted in the stations and ports where survey study is made. Counting results are delivered in a different (in Excel Format) folder.

1ST SECTION: SEA WAY INTERVIEW FINDINGS

To examine the survey results together, interviews are grouped as the Kadıköy Üsküdar port interviews, and added to last column of the general total table. Each port includes City Line and Turyol ferry lines interviews. In this survey, comments are made through general totals and in crucial situations emphasis is made to the conditions in ports.

Q.1. Time of the Interview

According to the time of the interviews, 27,5 % is made in the morning, 41,1% is made in the afternoon and 31,4% is made in the evening hours. In field planning, the target is to complete each port in 1 day however time distribution was not interfered. According to the field examination reports density is low early in the morning. Especially number of interviews in between 07:00-08:00 is lower than the second time period in the morning. When morning population as millions is taken into consideration, it is possible to have more interviews in between 12:00-14:00 time period.

	Kadıköy Port		Üsküdar Port		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
07:00 - 09:00	137	27,2	140	27,9	277	27,5
12:00 - 14:00	196	38,9	217	43,2	413	41,1
17:00 - 19:00	171	33,9	145	28,9	316	31,4
Total	504	100,0	502	100,0	1006	100,0

Q.2. Weather condition

Study is generally made in sunny weather. This situation extends the time period shared for the subjects and provide healthy environment for the study.

	Kadıköy Port		Üsküdar Port		Total	
	Frequency	Percentage	Frequency	Percentage	Percentage	Percentage
Sunny	399	79,2	393	78,3	792	78,7
Cloudy	105	20,8	109	21,7	214	21,3
Total	504	100,0	502	100,0	1006	100,0

Q.4. Gender of the Passenger

Gender of the passengers is 40% women , 59,9% men. No gender discrimination is made in interviews, percentages occurred randomly. Frequency numbers of each group is adequate for the gender based examinations. Women percentage become low in Kadikoy port as 38,8% however this number becomes 42% in Üsküdar port.

	Kadıköy Port		Üsküdar Port		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Woman	192	38,1	211	42,0	403	40,1
Man	312	61,9	291	58,0	603	59,9
Total	504	100,0	502	100,0	1006	100,0

Q.5. Age of the Passengers

This study is conducted with the passengers aged 15 years or older. According to the results, average age is 35,6, the youngest passenger is 16, the oldest passenger is 81. 31,4% of the passengers is in between 15-24 age group, 17,3% is 35-44 age group, 14,2% is over 55. In Kadikoy port the lowest and highest ages respectively are 18 and 80 and average age is 35,4. In Uskudar port the lowest and youngest ages respectively are 16 and 81 and average age is 36,7. Passengers in Kadikoy port are relatively younger.

	Kadiköy Port		Üsküdar Port		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
15 - 24 age group	168	33,3	148	29,7	316	31,5
25 - 34 age group	133	26,4	102	20,4	235	23,4
35 - 44 age group	76	15,1	98	19,6	174	17,3
45 - 54 age group	60	11,9	78	15,6	138	13,8
55 - 64 age group	39	7,7	51	10,2	90	9,0
65 and over	28	5,6	22	4,4	50	5,0
Total	504	100,0	499	100,0	1003	100,0

Q.6. Do you have a Private Car ?

29,2 % of the passengers determined that they have private car and 70,8% of the passenger determined not to have. These percentages are approximate percent in both ports. Although approximate 30% population has a daily private car however it is important to examine that they prefer sea way. Increase in this percentage can support to ease in traffic.

	Kadiköy Port		Üsküdar Port		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Yes	150	29,8	143	28,5	293	29,2
No	354	70,2	358	71,5	712	70,8
Total	504	100,0	501	100,0	1005	100,0

Q.7.1. CAN I LEARN YOUR ORIGIN/DESTINATION AND TRIP PURPOSE- ORIGIN –

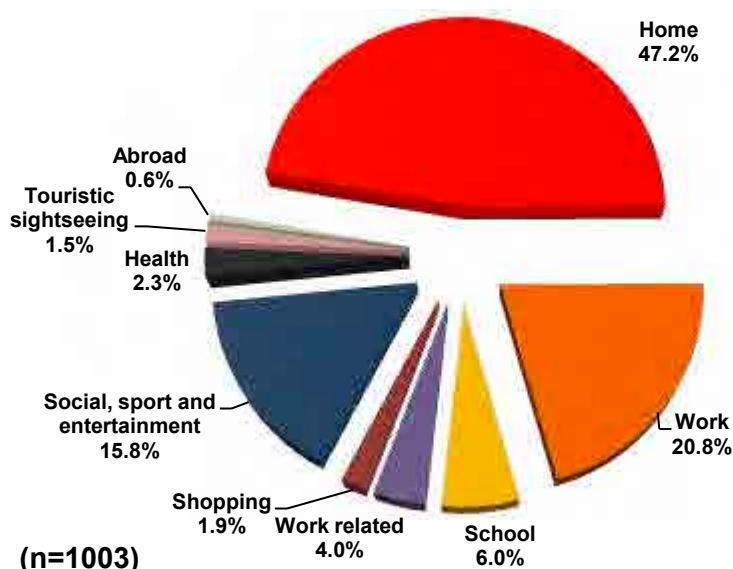

36,1% of the responder's trip origin is home. Work based trips rank second with 20,5%, shopping based trips rank third with 13,8% and social, sport and entertainment based trips ranks fourth with %12,2. In total, rest of the trips make up 17,5%. Eminonu is functioning mainly as a business center rather than accommodation; so this affects the percentages. Purpose of the trips has different ratios at every port. To exemplify, 38,7% of the interviews in Kadıköy port is home based however this percentage is 33,5% in Üsküdar port. Business based trips in Kadıkoy port is 18,8% however in Üsküdar port it is 22,2%. Passenger coming from shopping in Eminönü and Kadıkoy port is 12,6%; however, this percentage is 15% in Üsküdar. This can be supported by the fact that Üsküdar has more woman and middle age population than Kadikoy.

	Kadıköy Port		Üsküdar Port		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Home	194	38,7	168	33,5	362	36,1
Work	94	18,8	111	22,2	205	20,5
School	26	5,2	19	3,8	45	4,5
Work Related	29	5,8	25	5,0	54	5,4
Shopping	63	12,6	75	15,0	138	13,8
Social, Sport, Entertainment	62	12,4	60	12,0	122	12,2
Health	10	2,0	13	2,6	23	2,3
Touristic Sightseeing	17	3,4	16	3,2	33	3,3
Abroad	2	,4	7	1,4	9	,9
Military	1	,2	1	,2	2	,2
Dormitory	2	,4	2	,4	4	,4
Hotel	1	,2	4	,8	5	,5
Total	501	100,0	501	100,0	1002	100,0

Q.7.2. Can I learn origin destination of this trip? –destination-

Destination point of 47,2% of the passengers is home. This is followed by 20,8% work based trips and thirdly 15,8% social, sport and entertainment based trips. Total of the other trips is 16,3%. Nearly half of the passengers' destination is home. As stated before, business center structure of Eminonu is supporting this situation. Destination purpose of these trips has changing percentages. To exemplify, 44,2% of Kadıköy port interviews give the answer of home and this percentage is 50.1% in Eminönü area. In work based trips in Kadıkoy percentage is 22.8%, the same percentage in Eminönü is 18.8%. Determined passengers as having social, sport and entertainment based trips in Kadıkoy is 14,1% and this percentage is 17,4% in Üsküdar. Since the responders in Kadıköy are mostly man and younger compared to Üsküdar, it supports the fact of travelling work based.

	Kadıköy Port		Üsküdar Port		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage

7.CAN I LEARN YOUR ORIGIN/DESTINATION AND TRIP PURPOSE? (origin)
7.CAN I LEARN YOUR ORIGIN/DESTINATION AND TRIP PURPOSE? (destination)
(Percentage Table)

When the passengers destination purposes are examined, 42% of the home based passengers are going to work, 28,7% of these are going to social, sport and entertainment and 15,5% of these are going to school. 77,9% of work based passengers are going to home, %62,2 school based passengers are going to home, %87,7 of shopping based passengers are going to home and %74,6 of social, sport, entertainment based passengers are going to home. As indicated in the table, most of the trips except work related are towards home. (very small frequencies is not evaluated) Time of the interviews is really effected in these percentages. Especially in evening hours as -examined below- trips towards home are dense. Most of the trips towards home in the morning are generally passengers coming from night shifts.

Q.8. Can I learn ORIGIN district of this trip ?

Origin and destination districts are asked to the interviewed passenger. To have easy reporting only district answers are added in here. According to this, for both ports 61.8% of boarding passengers' origin is Fatih area. As it is known, Eminönü is in Fatih district borders. Beyoğlu covering Taksim and Karaköy ranks second place with 6,4% and Eyüp ranks third place with 5,7%. Gaziosmanpaşa and Sultangazi follow with 3,2% and 3,1%, respectively, There are passengers from 22 different districts and from out of İstanbul. This situation highlights the effect of Eminönü's central structure on transportation.

S.8. Can I learn the DESTINATION district of this trip?

When the destination districts are examined, according to the boarding ports %33,5 is from Üsküdar, 30% is from Kadıköy. %9,4 of the interviews are in Ümraniye, 6,2% Ataşehir, 4,8% direction. Besides passengers going out of city there are 13 different destination districts. There are passengers going to same district from different ports. For example, 80% of Ümraniye passengers (19/95) indicated in the table below are planning to go through Üsküdar but 20% is planning to go through Kadıköy(79/95). Undoubtedly, this situation can be affected by different issues like which part of Umraniye the passenger is going to, their preferred route and cost.

	Kadıköy Port		Üsküdar Port		Total

S.10.1. How much do you pay for your existing trip ?

The passengers doing payment by cash questions are open ended. This is grouped in for reporting to ease the examination. While examining it is important to remember the information that interviewed passenger –generally- round up the payment higher. In the question, it is requested to calculate the vehicles boarded before and after the port. In the field study, in spite of the warnings of the interviewer because of the scope of the question “rough” price was determined. Other note that can be added is; according to the examinations in this field study passenger does not actively calculate their cost, they are not aware of the payment and they calculate at the moment of the interview. It is determined that 15,7% of the passengers pay 1,40TL and under , 13,9% pay 1,41 – 2TL , 13,2% pay 2,01-3 TL, 25,1% apy 1,01-4TL, %12,4 apy 4,01-5TL and 19,7% apy 5,01 TL and over. The lowest price is 1TL and the highest price is 100 TL. Average price is 4,5 TL.

(n=886)

S.11. How long is your trip ?

When it is asked to passengers how long their trip is their approach was not different from their approach to the cost of their trip. From the answers given it is seen that passengers calculate the total trip time generally, some of them does not consider the time before their trip and given rough time periods despite the warnings of the interviewer. Questions are asked open ended and reporting is group to ease the examination. Periods can show difference in origin and destination points according to the preferred transportation modes. 24,8% of passenger trips is 40-60 minutes long, %20,4 of the passenger trips take between 76-90 minutes, 16% of the passenger trips are 10-45 minutes and generally 55,7% passenger trip time is under 60 minutes. The lowest time is 10 minutes and the highest time period is 240 minutes. Average time is 70,7 minutes. You can find the situation according to the ports below.

(n=1006)

S.13. Why did not you do this trip with Marmaray Line ?

Interviewed passengers give various answers to the question of why you did not do this trip with Marmaray Line. Most of the answers with 25,1% is; it does not correspond with my route. 23,5% of the passengers give the answer that Marmaray line is distant to thir location, 16,8% of passengers' answer is they like sea transportation in sunny weather. These answer is followed by 9,1% that they are not aware of Marmaray and 8,4% determined that they do not find Marmaray secure. In total these answers are approximately 83%, and alternative solutions can be found for the last two questions which in total 17,5% . Informative advertisement can increase the trust of passengers about Marmaray. In addition to that, even frequency is low, Marmaray is important to remove the negative impact in middle and long term. To exemplify, some of these are the crown in Marmaray, mistrust to departure times or having no transportation vehicle in station. Marmaray can change these negative answers into positive by making people accustom to Marmaray line, doing arrangements about the departure times, and informing people about transfers.

S.14. How do you access to this port ?

More the one answer is received to this question. Table is examined in responses percent according to the answers. 42,2% of the interviewed passengers reach the ports on foot. It is really effective to have the origin point as Eminönü or Fatih district. In addition to that, when it is considered that it is multi answered it can be said that there are passengers walking with any transportation mode in some part of their trip. Other high percentage answers are 40,2% bus and 12,6% railway system. Passengers walking to Uskudar port and passengers using bus are more as a percentage that in Kadikoy port. It is opposite for railway transportation mode. Private car, taxi, metrobus, sea way can be seen as low various answer as indicated on table.

* Multianswers are received.

Q.15. Which transportation modes will you use to access from your destination after you get off this ferry?

Multiple answers are received in this question. The table is analyzed according to the answers by percentages (responses percent). 43.4% of the interviewees use bus to access their destination point from the wharf. 30.9% of them access by walking. Because destination points for most of the interviewees are either Üsküdar or Kadıköy districts. In addition, it can be said that some interviewees use bus and also continue on foot for a distance considering the structure of the question which has multiple answers. Other answers are: 8.5% minibus, 6.3% railway system, 4.9% dolmus, 3.8% private car, taxi, service and bicycle. The number of passengers use bus and walk in Üsküdar wharf is more than Kadıköy wharf. It is the opposite for railway system.

CHAPTER 2. FINDINGS OF MARMARAY INTERVIEWS

The interviews are grouped as Sirkeci and Yenikapı interviews in order to analyze the results together and the total is added to the last column of the table. The comments are made in the context of total numbers and the data belong to the stations are emphasized in necessary situations.

Q.1. Survey time

In the context of survey time analysis, it can be seen that 29.9% of the interviews are conducted in morning hours, 38.7% are conducted in afternoon and 31.4% in evening hours. During the site planning, it is objected to finish each station in one day but there was no interfere to time distributions. The densities differ according to the stations. In morning hours that are time for going work, the passengers boarding in Yenikapı station is 39.5%. This rate indicates that Marmaray is effective for crossing from European side to Anatolian side. The density in Sirkeci in morning hours is relatively lower. Particularly the number of interviews conducted between 07:00-08:00 is lower than the interviews in second part of morning hours. Considering that Eminönü area becomes dense during the day, it is a normal result that the number of interviews increases between 12:00 -14:00 as 46%.

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
07:00 - 09:00	102	20,1	204	39,5	306	29,9
12:00 - 14:00	233	46,0	163	31,5	396	38,7
17:00 - 19:00	172	33,9	150	29,0	322	31,4
Total	507	100,0	517	100,0	1024	100,0

Q.2. Weather condition

The survey is conducted mostly in sunny days. This situation provided a convenient environment for the interviewees to spend more time for the survey.

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Sunny	312	61.5	505	97.7	817	79.8
Cloudy	195	38.5	12	2.3	207	20.2
Total	507	100.0	517	100.0	1024	100.0

Q.4. Gender of the interviewee

The 20.1% of the interviewees are female while 79.9% are male. The gender discrimination is not applied, the rates are distributed randomly. The frequency numbers of each group is enough for gender-based research. The female interviewees have 20.3% in Sirkeci station and 19.9% in Yenikapı station. Here, the female ratio is approximately half of the ratio in seaway line surveys. These rates can be effected by several factors such as; Marmaray has not known yet, it has not been used frequently and the people prefer Marmaray mostly for work purposes.

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Female	103	20.3	103	19.9	206	20.1
Male	404	79.7	414	80.1	818	79.9
Total	507	100.0	517	100.0	1024	100.0

Q.5. Age interval of interviewees

The survey is conducted to the people over 15 and an upper limit is not identified. The mean age of the interviewees is 36.33 while the highest one is 78 and the lowest age is 16. The age of 24.8% of the interviewees is between 15-24, 27.1% of them are in 25-34 age group, 19.4% are between 35-44 and 12% is over 55. The lowest age in Sirkeci station is 16 and the highest one is 78 while the mean age is 37.7. The lowest age in Yenikapı station is 16 and the highest one is 73 while the mean age is 35. The interviewees in Yenikapı station is younger.

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Between 15 - 24	108	21.3	146	28.2	254	24.8

Between 55 - 64	48	9.5	41	7.9	89	8.7
Over 65	18	3.6	16	3.1	34	3.3
Total	507	100.0	517	100.0	1024	100.0

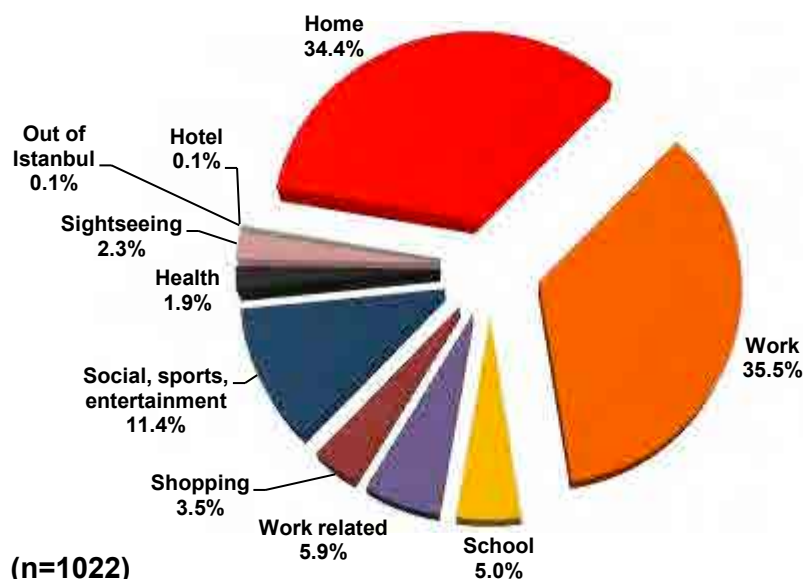

Q.6. Do you have a private car (belong to the family or work)?

41.1% of the interviewees indicates that they have a private car and 58.9% say that they do not have. These are approximate results for both stations. It is 12% more than seaway line users. Almost 40% of the interviewees have a private car for daily use, but they prefer using Marmaray and if this ratio steadily increases this situation can support the reduction of traffic problems in Istanbul. The parking lots constructed close to Marmaray stations such as in Kazlıçeşme effects positively this rate with their convenient prices.

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Yes	212	41.9	208	40.3	420	41.1
No	294	58.1	308	59.7	602	58.9
Total	506	100.0	516	100.0	1022	100.0

Q.7.1. Can I learn your origin/ destination and trip purpose? -Origin-

The origin of 35.5% of the interviewees is work. The second answer is social, sports and entertainment with 11.4% and the third one is shopping oriented trips with 5.9%. The total of other trips is 12.8%. Since Sirkeci has a business center function rather than accommodation, it affects this ratio. The purpose of destination for the trips varies according to the station. For instance, 20% of the interviews are home-based in Sirkeci station while it is 48.6% in Yenikapı station. The trips with a work purpose have 37.2% in Sirkeci station and 33.9% in Yenikapı station. Since the accommodation rate in Yenikapı is higher than Sirkeci and more importantly Yenikapı is used as a transfer station, the home-based trips increase.

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage

Q.7.2. Can I learn your origin/ destination and trip purpose? -Destination-

The destination of 45.8% of the interviewees is home. The second answer is work with 24.2% and the third one is social, sports and entertainment with 13.2%. The total of other trips is 16.8%. The purpose of destination for the trips varies according to the stations. For instance, the trips with a school purpose have 6.5% while it is 10.1% in Yenikapı and 2.8% in Sirkeci. The destination point for almost half (55%) of the interviewees in Sirkeci is home. It is 36.9% in Yenikapı station. The trips with a work purpose have 17.1% in Sirkeci and 31.3% in Yenikapı station. 13.7% of the interviewees in Sirkeci and 12.6% of the interviewees in Yenikapı station indicated that their destination purpose is social, sports and entertainment. As it is indicated above, newly constructed transfer structure of Yenikapı has supported these results.

7.CAN I LEARN YOUR ORIGIN/DESTINATION AND TRIP PURPOSE? (origin)
7.CAN I LEARN YOUR ORIGIN/DESTINATION AND TRIP PURPOSE? (destination)
(Percentage Table)

When the passengers destination purposes are examined, 42% of the home based passengers are going to work, 28,7% of these are going to social, sport and entertainment and 15,5% of these are going to school. 77,9% of work based passengers are going to home, %62,2 school based passengers are going to home, %87,7 of shopping based passengers are going to home and %74,6 of social, sport, entertainment based passengers are going to home. As indicated in the table, most of the trips except work related are towards home. (very small frequencies is not evaluated) Time of the interviews is really effected in these percentages. Especially in evening hours as -examined below- trips towards home are dense. Most of the trips towards home in the morning are generally passengers coming from night shifts.

Q.8. Can I learn your origin point?

The origin of neighbourhood, district and city are asked to the interviewees. Only the answers of districts are evaluated to ease the process during reporting. According to the results, the origin of 63.5% of the passengers boarding from each two station is Fatih. As is known, Eminönü is within the borders of Fatih district. In the second order, Beyoğlu district including Taksim and Karaköy has 5.5% ratio, Esenler has 4.5% ratio, Bağcılar has 4.4% and Şişli has 3.2% ratio. The passengers started their trip from 24 different districts and out of the city. The origin of 76.9% (almost ¾) of the passengers boarding on Sirkeci station is Fatih. Similarly, the origin of 50% of the passengers boarding in Yenikapı station is Fatih. This situation indicates the importance of Eminönü district as a central area for transportation.

Q.8. Can I learn your DESTINATION point?

According to the destination districts of trips, 34.3% of the answers are given as Üsküdar, while 24.9% are Kadıköy. 7.3% of the interviewees are on Ümraniye direction, 6.8% of them on Maltepe direction and 6.5% are on Kartal direction. Besides the passengers travelling out of the city, 13 destination points are indicated as an answer to this question. The ratio of travelling from each two station to Üsküdar is almost the same. There are differences between the stations' ratio about going to Kadıköy. 21.3% of the passengers boarding on Sirkeci station is going to Kadıköy, while 28.4% boarding on Yenikapı station going to Kadıköy.

	S.3. The station survey is made					
	Sirkeci station		Yenikapı station		Total

S.9. In which frequency do you do this trip?

In the context of given answers, it can be seen that the answer with 41.8% ratio as the highest value is 'Always (5-7 days)'. Secondly, the answer of 'rarely (1-2 times a month)' has 13.9%. 'First time' has 13.4% and 'often (1-2 days a week)' has 11.1%. The users coming to the station very often and almost everyday are the people who are travelling with the purposes of work, work related and/or school. The people coming to the region for touristic, health, shopping, social, sports and entertainment puposes are the ones who use as a first time, rarely or very rare.

	Sirkeci istasyonu		Yenikapı istasyonu		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage

Q.10. Why did you prefer Marmaray for this trip?

The interviewees gave different answers for this question. The answer that is mostly given by interviewees is 'There is a significant reduction in my trip time' with a rate of 74.5%. The second answer is: 'Out of curiosity, to give it a try' with 8.2%. Other answers are 'Marmaray station is close to my location' with a ratio of 5.7% and 'Marmaray line is comfortable' with 5.7% rate. These four answers which have the 94% of overall answers explain the most important reasons. Also there are different answers in the table with low frequencies such as the security of the line, advantageous of the line in terms of its price, being a large scale project and there is no car park problem.

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
There is a significant reduction in my trip	369	73.1	390	75.9	759	74.5

Q.11. Before the construction of this station which transportation mode were you using for this trip?

The 56.1% of the interviewees' answer this question is 'Seaway'. Multiple answers were received for this question. The table is analyzed according to the answers by percentages (responses percent). The second and third answers are 'Bus' with 14.3% ratio and 'Metrobus' with 13.4%. Other answers with considerable frequencies are private car (7%) and railway systems (5.3%). Even the ratio of the answer of 'First time trip' is low (1.4%) this answer is also remarkable. During further investigations, it is seen that these people answered as they use Marmaray because of out of curiosity and give it a try. The ratio among the answers differ according to the station. For instance, the answer of 'Seaway' has 71.3% in Sirkeci station whilst it is 43.4% in Yenikapı station. According to the survey, it can be understood that the interviewees prefer intercity ferry lines rather than the sea buses running in Yenikapı station. On the other hand, the answers of 'bus' and 'metrobus' in Yenikapı station have a higher ratio, which is double

of the rate in Sirkeci station. The variety of origin districts that boarding passengers in Yenikapı are coming from is more than the ones in Sirkeci. This situation provides bus and metrobus options as preferable alternatives.

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage *	Frequency	Percentage *	Frequency	Percentage *

Total	595	100.0	714	100.0	1309	100.0

* Multiple answers were received.

Q.12. Which transportation mode would you prefer if you did not use Marmaray?

The 55.8% of the interviewees answered this question as 'Seaway'. Multiple answers were received for this question. The table is analyzed according to the answers by percentages (responses percent). The second and third answers are 'Metrobus' with 15.5% ratio and 'bus' with 13.7%. The private car ratio is 6.1% and railway 5.5%. As a similar situation in the previous question, 1% of the interviewees answered as 'I would not make the trip otherwise'.

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage *	Frequency	Percentage *	Frequency	Percentage *
Seaway	431	72.6	305	42.1	736	55.8

Total	594	100.0	724	100.0	1318	100.0

* Multiple answers were received.

Q.13. How long is your trip?

According to the answers of the questions about travel time it can be seen that interviewees count the total travel period and do not consider about the travel time before starting their trip. As a result of interviewers' warning, they answered with approximate numbers of travel time. The question is asked in an open-ended way and grouped to ease the analysis during reporting. The questions can vary according to the origin and destination points of the trip together with the transportation mode. Travel time for the 32.6% of the interviewees is less than 30 minutes while 23.5% of interviewees answered as between 46-60 minutes, 17.4% of them replied as between 30-45 minutes and 11.7% answered as between 76-90 minutes. In general, the travel time of 73.5% of the interviewees is less than 60 minutes. This situation can differ among the stations. The travel time for the 78.3% of interviewees in Sirkeci is less than 60 minutes while it is 68.8% in Yenikapi. This difference between time periods affects the mean values also. The minimum time period is 3 minutes while the maximum one is 180 minutes. The average time is 52.7 minutes. The time period in Sirkeci is 48.5 minutes and 56.7 minutes in Yenikapi. This is caused by the people coming from far districts to Yenikapi to use it as a transfer center as it is indicated above. Together with the change of habits in short and medium term, the Marmaray will be widely used and the satisfaction citizens in Istanbul will increase.

	Sirkeci station		Yenikapi station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Less than 30 min.	200	39.4	134	25.9	334	32.6

Total	1015	3	180	52.65	30.026

Q.14. How long was your trip before the construction of this station?

According to the answers of the questions about travel time it can be seen that interviewees count the total travel period and not aware of the exact duration. So, their answers are mostly approximate numbers about travel time. The question is asked in an open-ended way and grouped to ease the analysis during reporting. The time periods are quite longer than today. Travel time for the 24.4% of the interviewees is between 76-90 minutes while 22% of interviewees answered as 91-120 minutes and 17.8% of them replied 46-60 minutes. In general, the travel time of 36.4% of the interviewees is less than 60 minutes. This time period decreased half (73.5%). The minimum time period is 4 minutes while the maximum one is 210 minutes. The mean time is 86.4 minutes. The travel time in Sirkeci station is 81 minutes and 92 minutes in Yenikapı station. The situation according to stations is indicated below;

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Less than 30 min.	60	11.9	35	6.8	95	9.3

Total	1009	4	210	86.38	38.336

Q.15. Before the construction of this station how did you pay your travel fees?

As a result of payment type analysis, it can be seen that 74.3% of interviewees pay in normal way -in other words by cash-, 22.7% pay by monthly subscription and 0.4% pay in both ways. The ratio of the passengers travel free of charge is 2.6%. The subscription payment type is higher than the users of sea lines. This situation may indicate a higher incidence of multi-passing. Besides, it had been seen during the site observations that the subscription payment type is more beneficial for students. Since some schools (such as Istanbul University) were in a holiday period during the field work, this situation has affected the results.

	Sirkeci station		Yenikapı station		Total

Total	502	100.0	513	100.0	1018	100.0

Q.15.1. Before the construction of this station how much did you pay to complete your travel?

The fees are asked in an open-ended way to the passengers who pay cash, and then they are categorized to ease the analysis during reporting. According to the site observations, it is seen that most of the people are not aware of the fees as it was the same for the question about travel time. Consequently, they -mostly- round the price they paid. The given answers are the approximately calculated amounts during the survey. The 20.8% of the interviewees specified that they pay under 1,40 TL, 13.9% of them pay between 1,41-2 TL, 13.2% pay between 2,01-3 TL, 25.1% pay between 3,01-4 TL, 12.4% pay between 4,01-5TL and 19.7% pay over 5,01 TL. The lowest price is 1 TL, the highest price is 100 TL and the average price is 5, 43 TL. The answers of 100TL are given by the passengers mostly travel to long distance or use taxi or private car.

(n=793)

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Under 1.40 TL	41	9.3	39	11.0	80	10.1
Between 1.41 tl - 2.00 tl	89	20.3	59	16.7	148	18.7
Between 2.01 tl - 3.00 tl	47	10.7	33	9.3	80	10.1
Between 3.01 tl - 4.00 tl	119	27.1	61	17.2	180	22.7
Between 4.01 tl - 5.00 tl	35	8.0	57	16.1	92	11.6

Total	44	100.0	105	100.0	149	100.0

Q.16. How do you pay your travel fees now?

As a result of payment type analysis, it can be seen that 76.9% of interviewees pay in normal way -in other words by cash-, 20.5% pay by monthly subscription and 0.2% pay in both ways. The ratio of the passengers travel free of charge is 2.4%. It had been seen during the site observations that the subscription payment type is more beneficial for students. Since some schools (such as Istanbul University) were in a holiday period during the field work, this situation has affected the results. The ratio of cash payment is higher in Sirkeci among the interviewees (84.9) while it is 69.1% in Yenikapı.

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Normal	428	84.9	353	69.1	781	76.9
Subscriber	61	12.1	147	28.8	208	20.5

Q.16.1. How much do you pay now to complete your travel?

The fees are asked in an open-ended way to the passengers who pay cash, and then they are categorized to ease the analysis during reporting. During the analysis of this question, it should not be forgotten that the people -mostly- round the price up. The 10.4% of the interviewees specified that they pay under 1,40 TL, 23.8% of them pay between 1,41-2 TL, 11.3% pay between 2,01-3 TL, 27.3% pay between 3,01-4 TL, 12.3% pay between 4,01-5TL and 15% pay over 5,01 TL. The lowest price is 1 TL, the highest price is 72 TL and the average price is 3, 95 TL. The answers of high prices are given by the passengers mostly travel to long distance or use taxi or private car. There is 1,5TL decline between the previous average of the paid prices (5,43) and the price paid by Marmaray. Marmaray seems advantageous in terms of both time and cost.

(n=793)

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Under 1.40 tl	47	10.5	38	10.3	85	10.4

90	3	7.0	7	6.4	10	6.6
155	21	48.8	46	42.2	67	44.1
Total	43	100.0	109	100.0	152	100.0

Q.17. Which transportation mode do you use to access this station?

There are multiple answers given to this question. The table is analyzed by percentages (responses percent) according to the answers. 43.9% of interviewees reach to wharfs on walking. This ratio is 59.7% in Sirkeci station and 28.7% in Yenikapı station. Since the origin of interviewees in Sirkeci was Eminönü or Fatih district, this situation affected the ratio. Besides, considering the multi answers, it can be said that there are people walking in a part of their travel in addition to the public transport they used. Other answers with high ratio are 30.7% railway systems, 20.3% municipality buses. The number of passengers that use railway system and municipality buses are more than the passengers in Sirkeci. Also the answers of private car, taxi, metrobus, dolmuş etc. can be seen in the table with low frequencies.

	Sirkeci station		Yenikapı station		Total*	
	Frequency	Percentage *	Frequency	Percentage *	Frequency	Percentage *
On foot	316	59.7	159	28.7	475	43.9

Metrobus	2	.4	1	.2	3	.3
Total	529	100.0	554	100.0	1083	100.0

* Multiple answers were received.

Q.18. In which station of Marmaray will you get off?

52% of interviewees are boarding in Ayrılıkçeşme and 47.5% of them are boarding in Üsküdar stations of Marmaray.

(n=1024)

	Sirkeci station		Yenikapı station		Total	
	Frequency	Percentage	Frequency	Percentage	Frequency	Percentage
Ayrılıkçeşme	252	49.7	280	54.2	532	52.0
Üsküdar	252	49.7	234	45.3	486	47.5
Sirkeci			1	.2	1	.1
Yenikapı	2	.4	1	.2	3	.3
Kazlıçeşme	1	.2	1	.2	2	.2
Total	507	100.0	517	100.0	1024	100.0

Q.19. Which transportation mode will you use to access your destination point?

Multiple answers are received for this question. The table is analyzed by percentages (responses percent) according to the answers. 30.9% of the interviewees use bus to access their destination point, while 30.1% of them use railway and 26.7% on foot. Destination points that are mostly Üsküdar and Kadıköy districts affected this ratio. Other answers were 4.9% minibus, 4.1% private car and 1.9% dolmus. In addition, taxi, seaway and service are other answers given to this question. The number of passengers use railway in Sirkeci station is more than the passengers use railway in Yenikapı station. Kadıköy-Kartal metro line is the reason for it.

	Sirkeci station		Yenikapı station		Total*	
	Frequency	Percentage *	Frequency	Percentage *	Frequency	Percentage *
