Chapter 1 Project Cost

1.1 Summary of Cost Estimate

The Total Project Cost is estimated to be Rs. 6,336.0 million (equivalent to JPY 10,898.0 million) of which the Base Cost excluding administration cost, price and physical contingencies, consulting fee and taxes & duties is estimated to be Rs. 3,233.0 million (equivalent to JPY 5,560.8 million). The summary is given below, and the cost breakdown is given in **Attachment IV 1.1.1 of Volume IV.**

Summary of Cost Estimate

| | | Projec | et Cost | Total | | |
|-----|---|------------------|------------------|-------------|-------------|--|
| No. | Component | FC (million JPY) | LC (million Rs.) | million JPY | million Rs. | |

Source: JICA Survey Team (2014)

The cost estimate is prepared for foreign currency (FC) and local currency (LC). The former is for the procurement of international consultants. The latter covers the goods, services to be procured locally, and local tax and duties.

1.2 Conditions and Assumptions

In preparation of the cost estimate for the Project, the following assumptions were made.

- a) The cost estimate over the project duration of nine years was prepared on the basis of July 2014 prices at constant or the relevant fixed rate for FY 2014-15 in Rs.
- b) The quantity of each component, sub-component was estimated after analysis of the field conditions, operational modality, requirement for renovation or investment for facilities/ infrastructures that would be required to achieve the project objectives.
- c) The minimum wage for the forestry and wildlife related works is based on the Schedule of Rate of the Forest and Wildlife Department of Kerala, which is Rs. 434 per day per person. In the case of community infrastructure development, the labour charge is based on the PWD schedule of rate.

^{*}Foreign currency portion is converted into Rs. by applying the conversion rate indicated in Section 1.2.

- d) Schedule of rates from Forest and Wildlife Department of Kerala, Public Works Department and other government organisations were referred to in estimating unit costs. In other cases, the price quotations were obtained from reliable and relevant sources.
- e) The details of Unit Rates indicated in the Cost Breakdowns are carefully studied. The results are available with the JICA Survey Team as they are too voluminous to be included in this report.
- d) Budget was allocated in accordance with the priorities of requirement with reference to the project objectives.
- f) Exchange rate adopted is Rs. 1= JPY 1.72
- g) The price escalation for the local currency portion was estimated to be 4.2 % per annum and for the foreign currency was 2.0%, as per the JICA indicators.
- h) Physical contingencies were 5.0% and also 5.0% for project activities and Project Management Consultancy.
- i) Value Added Tax (14.5%) was added for all the materials and consumables.
- j) Service Tax (12.36%) was levied on the contractual works and professional services. In the case of Project Management Consultancy, the service tax was levied on the total contract amount.
- k) Interest during the construction (1.40% for construction and 0.01% for consultant), and Front End Fee (0.2%) has been added.

1.3 Cost Component

The cost components consist of: 1) direct cost in implementing the project activities, 2) administrative cost for the project staff, 3) price escalation, 4) price contingencies, 5) consulting services, and 6) taxes and duties. The outline of each cost component is given in this section.

1.3.1 Cost per Project Component (Direct Cost)

Out of the total project cost of JPY 10,898.0 million, 51.03% is the direct cost which will be utilised for implementing the project activities for livelihood improvement, natural environment improvement works, community infrastructure development works and other supporting activities. Non eligible portion is comprised of administrative cost and taxes and duties. The share of the non eligible portion in the total cost is estimated to be 21.12%.

Cost Components

| Sl. No | Cost Component | million JPY | million Rs. | % to the Total of Project Cost |
|-----------|----------------------|-------------|-------------|-----------------------------------|
| 1 | Base Cost | 5,560.8 | 3,233.0 | 51.03% |
| 2 | Administratoin Cost | 1,067.5 | 620.7 | 9.80% |
| 3 | Price Contingency | 1,183.7 | 688.2 | 10.86% |
| 4 | Physical Contingency | 337.2 | 196.1 | 3.09% |
| 5 | Consulting Services | 1,514.5 | 880.5 | 13.90% |
| 6 | Taxes and duties | 1,234.2 | 717.6 | 11.33% |
| | Total | 10,898.0 | 6,336.0 | 100.00% |

Source: JICA Survey Team (2014)

The fund requirement by component is given below. 59.96 % of the total of the base cost is required for community infrastructure development work. 16.80% is claimed for the natural and environment improvement work. The livelihood improvement works account for 5.71%.

Project Cost by Component in JPY and Rs. and Allocation of Funds in %

| | | Projec | et Cost | Total | | | |
|-----|---|---------------|---------------|--|-------------|--------------|--|
| No. | Component | FC | LC | million JPY | million Rs. | Distribution | |

Source: JICA Survey Team (2014)

No land acquisition cost is anticipated and thus, the cost for such purpose is not estimated.

1.3.2 Project Management Consultants (PMC)

The Project will employ a team of consultants for assisting PMU of AHADS-CCPRM in implementing the project activities. The cost estimate of the project consultants has been prepared in accordance with the scope of work and project implementation schedule. The total cost estimated for the consulting services was amounting Rs. 880.5 million (equivalent to JPY 1,514.5 million). The cost items include the remuneration for the international and national specialists, supporting staff and other direct cost to extend the services according to the scope of work. The summary is given below.

Cost for Consulting Service

| Cost Item | Foreign Currency (million JPY) | Local Currency (million Rs.) |
|--|-----------------------------------|---------------------------------|
| International Consultants | 553.8 | 0.0 |
| National Consultants | 0.0 | 150.6 |
| Supporting Staff | 0.0 | 17.4 |
| Total (1) | 553.8 | 167.9 |
| Direct Cost | 0.0 | 214.0 |
| Total (2) (Total (1)+Direct Cost) | 553.8 | 381.9 |
| Price Contingency | 63.9 | 97.6 |
| Physical Contingency | 30.9 | 24.0 |
| Total (3) (Total (2)+Price & Physical Contingencies) | 648.5 | 503.5 |
| Grand Total in Rs. | | 880.5 |
| Grand Total in JPY | | 1,514.5 |

Source: JICA Survey Team (2014)

1.3.3 Administration Costs

The administration cost includes expenditures of the staff members of PMU who are anticipated to be on deputation from the government, some contractual project staff members, fuel and maintenance of vehicles, travel expenses and accommodations of project staff, office maintenance and running cost and costs for organising internal meetings and workshops, etc. Together with other expenses which are non-eligible for JICA Yen Loan, it constitutes 21.12% of total project cost.

^{*} Foreign currency portion is converted into Rs. by applying the conversion rate as in Section 1.2. of this volume.

1.4 Annual Cost Schedule

Annual cost schedule was prepared in accordance with the project implementation schedule. The annual fund requirement will reach the maximum at the 4th year of the project implementation period. The summary is given in the table below.

Annual Cost Schedule

Unit: million JPY

| Item | 1st Year | 2nd Year | 3rd Year | 4th Year | 5th Year | 6th Year | 7th Year | 8th Year | 9th Year | Total |
|------------------------------|----------|----------|----------|----------|----------|----------|----------|----------|----------|----------|
| 1. Direct cost | 58.1 | 273.7 | 1,151.9 | 1,337.6 | 999.2 | 862.5 | 818.0 | 40.6 | 19.4 | 5,560.8 |
| 2. Administration | 117.6 | 118.7 | 118.7 | 118.7 | 118.7 | 118.7 | 118.7 | 118.7 | 118.7 | 1,067.5 |
| 3. Price cont. | 2.4 | 23.5 | 151.3 | 239.3 | 228.2 | 241.5 | 273.0 | 15.8 | 8.7 | 1,183.7 |
| 4. Physical cont. | 3.0 | 14.9 | 65.2 | 78.8 | 61.4 | 55.2 | 54.5 | 2.8 | 1.4 | 337.2 |
| 5. Project consultant | 0.0 | 156.9 | 183.4 | 184.3 | 211.3 | 201.9 | 199.3 | 175.7 | 201.7 | 1,514.5 |
| 6. Taxes and Duties | | | | | | | | | | |
| VAT | 6.7 | 28.3 | 109.9 | 128.2 | 91.2 | 74.0 | 73.2 | 5.6 | 2.6 | 519.6 |
| Srvice Tax | 0.5 | 17.1 | 29.5 | 29.3 | 29.4 | 27.9 | 22.8 | 7.9 | 10.9 | 175.3 |
| Interest during construction | 0.9 | 5.3 | 24.4 | 47.6 | 65.7 | 82.0 | 98.0 | 98.9 | 99.3 | 522.1 |
| 7. Front End Fee | 0.1 | 0.9 | 3.1 | 3.7 | 3.0 | 2.7 | 2.7 | 0.5 | 0.5 | 17.2 |
| Total | 189.3 | 639.2 | 1,837.5 | 2,167.6 | 1,808.1 | 1,666.4 | 1,660.2 | 466.5 | 463.1 | 10,898.0 |
| Distribution of cost in % | 1.74% | 5.87% | 16.86% | 19.89% | 16.59% | 15.29% | 15.23% | 4.28% | 4.25% | 100.00% |

Source: JICA Survey Team (2014)

1.5 Financial Plan

According to the JICA funding policy, administration cost, taxes and duties will not be eligible to be financed by JICA, but need to be met by GoK. The loan eligible portion is equivalent JPY 8,596.2 million and the non eligible portion is equivalent JPY 2,301.7 million. The JICA portion and GoK by currency is given in the table below.

Summary of Funding Requirement

| Breakdown of Cost | | Currency nillion JP | | Local Currency Portion (million Rs.) | | | Total (million JPY) | | |
|---|---------|------------------------|--------|--------------------------------------|---------|--------|---------------------|---------|---------|

Chapter 2 Project Evaluation

2.1 Expected Economic Benefits

Wayanad Comprehensive Environment Conservation and Community Development Project consists of three major components: 1) livelihood improvement work, 2) natural environment improvement work, and 3) community infrastructure development work. These components are designed to bring about qualitative changes as well as tangible benefits to the lives of beneficiaries. The tangible benefits that are assumed in estimating the Economic Internal Rate of Return (EIRR) and Net Present Value (NPV) are summarised below.

Anticipated Economic Benefits

| Components and Activities | Economic Benefits |
|---|---|
| Livelihood Improvement Work | Profits generated out of the IGA products |
| Natural Environment Improvement Work | Reduced cost of recovering the damages caused by the wild animal/ forest fire |
| | Profits through eco tourism |
| Community Infrastructure Development Work | No benefits that can be converted into economic value |

Source: JICA Survey Team (2014)

2.2 Basic Assumption for Cost-Benefit Analysis

The following assumptions were made while analysing the cost-benefit ratio.

- 1) The economic life of the project is assumed to be 30 years.
- 2) The project costs are estimated based on July 2014 constant prices in Rs.
- 3) The economic cost includes cost of livelihood improvement work and natural environment improvement work as well as the cost of operation and maintenance.
- 4) Cost of consulting services was not considered as project cost.
- 5) A standard conversion rate of 0.9 was applied to arrive at the economic cost.
- 6) The O&M cost was estimated at the 1% of the total of base cost.
- 7) The average prices of products that would be produced by SHGs were estimated on the basis of whole sale price and used for the calculation of EIRR.
- 8) No profit from community infrastructure works has been included.
- 9) Discount Ratio of 7.5% has been applied in estimating NPV, which is the interest rate of NABARD to fund the project of similar nature¹.

Summary of the Conditions for Calculation of EIRR

| Factors | Condition |
|--|---|
| Exchange rate | Rs. 1.00 = 1.72 Yen |
| Price Escalation | Foreign Currency: 2.0% Local Currency: 4.2% |
| Physical Contingency | 5.0% |
| Taxes and other kinds of transfer payments | Not considered |

Source: JICA Survey Team (2014)

_

¹ https://www.nabard.org/pdf/Change_interest_rates_Revision_english.pdf (accessed on 25th September 2014)

2.3 Calculation of EIRR

Economic Internal Rate of Return (EIRR) and Net Present Value (NPV) were calculated taking into consideration of the conditions stated in the above selection. The estimate of EIRR and NPV did not yield any meaningful figure. The details of calculation are shown in **Attachment IV 2.3.1**, **Volume IV.**

Results of Economic Analysis

| Economic Index | Result |
|-----------------------|--------|
| NPV (in thousand Rs.) | 21,789 |
| EIRR | 7.8% |

Source: JICA Survey Team (2014)

2.4 Sensitivity Analysis

Sensitivity analysis was carried out to see the economic viability of the project under the different economic conditions. The results of the calculation did not yield any valid figures in the case of i) 20% increase of cost, ii) 10% decrease of benefit and 20% increase of cost and iii) 20% decrease of the benefit. The results are summarised below.

Sensitivity Analysis by EIRR

| Change of Cost | | Change of Benefit | | | | | | | | | | |
|----------------|------|-------------------|------|--|--|--|--|--|--|--|--|--|
| | 0% | -10% | -20% | | | | | | | | | |
| 0% (Base cost) | 7.8% | 6.9% | 5.9% | | | | | | | | | |
| +10% | 6.9% | 6.0% | 5.0% | | | | | | | | | |
| +20% | 6.2% | 5.3% | 4.3% | | | | | | | | | |

2.5 Employment Opportunities

For the cost estimate, each unit cost was categorized into four elements: 1) Equipment, 2) Material, 3) Labour, and 4) Professional Services. Rs. 690.32 million or 21.35% of the total base cost of the Project has been allocated for the labour, which will be primarily mobilised among the beneficiaries and their families.

Base Cost of Project (by category)

Unit: million Rs.

| Equipment | Material | Labour | Professional | Total |
|-----------|----------|--------|--------------|----------|
| 262.05 | 1,835.44 | 690.32 | 445.22 | 3,233.04 |
| 8.11% | 56.77% | 21.35% | 13.77% | 100.00% |

Source: JICA Survey Team (2014)

An attempt was made to assess the employment opportunities that the project could generate by adopting the prevailing wages paid by MGNREGA (212 Rs. per day per person) and FD (434 Rs. per day per person). It is estimated that, in total, 2,552,684 person days of work opportunities can be provided to the beneficiaries during the project period. The component wise potential work opportunities are given below.

Component wise Employment Opportunities Generated

| Project Component | Total Labour Cost (Rs.) | Daily Wage Rate (Rs.) | Person Day | Person Months |
|-----------------------------|-------------------------|--------------------------|--------------|---------------|
| Institutional strengthening | 16,636,137.93 | 212 | 78,472.35 | 2,615.74 |
| Natural Environment | 291,586,515.69 | 434 | 671,858.33 | 22,395.28 |
| Community Infrastructure | 382,098,818.56 | 212 | 1,802,352.92 | 60,078.43 |
| Total | 690,321,472.18 | | 2,552,683.60 | 85,089.45 |
