# Annex 5 Monitoring Sheet

# Project Monitoring Sheet I (Revision of Project Design Matrix)

Version 1

Dated July 2015

**Project Title:** The Project for Strengthening Capacity for Maintenance of Roads and Bridges
**Implementation Agency:** Road Infrastructure Department of Ministry of Public Work and Transport (RID MPWT)
**Target Groups:** Engineers of RID
**Period of Project:** April 2015 – March 2018
**Project Site:** Cambodia
**Target Area:** Roads and Bridges under MPWT

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| **Overall Goal**<br>Appropriate maintenance of roads and bridges is managed by MPWT. | 1. The road and bridge database is updated once / a year.<br>2. Road and bridge maintenance plans are updated once / a year base on the result of the road and bridge database updated.<br>3. Road and bridge maintenance is carried out based on the road and bridge maintenance plan and the maintenance and repair manuals, under supervision of RID.<br>4. The road maintenance and repair manuals, and the bridge maintenance and repair manuals are regularly reviewed. | 1. Log record of the database, random sample check of individual data<br>2. The maintenance plans, corresponding data from the database<br>3. The maintenance record, the maintenance plans and manuals<br>4. Minutes of the review meeting | - Country's socio-political situation does not change rapidly. | | |
| **Project Purpose**<br>Capacity of RID to supervise implementing bodies maintaining roads and bridges is enhanced. | 1. Inspection results done by the three target DPWTs are approved by RID based on the manuals by the end of the Project.<br>2. Repair results done by the two target DPWTs are approved by RID base on the manuals by the end of the Project.<br>3. The above two target DPWTs prepare | 1. DPWT inspection reports and on-site confirmation by RID<br>2. DPWT repair reports and on-site confirmation by RID.<br>3. The said draft budget and its submission date | - Organizational arrangement of MPWT is not changed drastically. | | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | a draft budget for roads and bridge maintenance for FY 2018 respectively within pre-agreed schedule.<br>4. Road and bridge maintenance cycle is explained and shared to concerning offices and units at the project wrap-up seminar.<br>5. Maintenance budget of road and bridge is prepared by RID according to the road and bridge maintenance cycle | 4. Number and name of the participated offices and unit<br>5. Interest level of the participants through the questionnaire. | | | |
| **Outputs**<br>1. The bridge maintenance cycle is established. | 1-1. The annual action plan for bridge maintenance cycle is developed by June every year for each targeted DPWT.<br>1-2. The above action plan is approved by August every year.<br>1-3. At least 5 officials of RID engineers pass exam of bridge maintenance cycle.<br>1-4. The annual bridge maintenance budget is drafted at the target DPWTs of 2nd year and 3rd year by May every year. | 1-1. The annual action plan and it's date developed<br>1-2. The approved date<br>1-3. The exam results and participants list<br>1-4. The drafted budget and its date | - The trained staff/officers remain at the job.<br>- Roles of DPWTs and other concerning offices and units are not changed including budget preparation system. | | |
| 2. Road and bridge inspection capacity of RID is enhanced. | 2-1. The road and bridge maintenance manuals are drafted by August 2015 and finalized by June 2017.<br>2-2. The selected roads and bridges in the targeted DPWTs are inspected according to the maintenance manual.<br>2-3. The inspection results are registered to the road and bridge database by RID until November every year.<br>2-4. At least 5 officials of RID's | 2-1. The manuals and its' date prepared<br>2-2. Inspection record and sample on-site confirmation<br>2-3. Inspection record and corresponding data for sample check<br>2-4. The test results and participants list | | | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | engineers pass road and bridge inspection test. | | | | |
| 3. Road and bridge repair capacity of RID is enhanced. | 3-1. The road and bridge repair manuals are drafted by January 2016 and finalized by June 2017.<br>3-2. The identified roads and bridges in the targeted DPWTs are repaired according to the repair manuals and the inspection results.<br>3-3. The repair results are registered to the road and bridge database by RID within 1 month after the completion of repair works.<br>3-4. At least 5 officials of RID's engineers pass road and bridge repair test. | 3-1. The manuals and its' date prepared<br>3-2. Repair record and sample on-site confirmation<br>3-3. Repair record and corresponding data for sample check<br>3-4. The test results and participants list | | | |
| 4. Road and bridge maintenance cycle is introduced to other DPWTs and concerning agencies. | 4-1. Bridge inspection is carried out at the more than 80% DPWTs (20/25 DPWTs).<br>4-2. More than 80% DPWTs attends the seminar held in the Project.<br>4-3. The project activities are disseminated to other agencies concerning road/bridge maintenance. (number is not specified but with increments through the project) | 4-1. Bridge inventory data<br>4-2. The participants list<br>4-3. Publicity matter | | | |

| **Activities** | **Inputs** | | |
|---|---|---|---|
| 1-1. To review the present bridge maintenance cycle and the works of RID in comparison to the existing Japanese system<br>1-2. To propose annual action plan for bridge maintenance cycle to establish a proper bridge maintenance cycle based on the review results<br>1-3. To practice the action plan<br>1-4. To hold workshop of the bridge maintenance cycle<br>1-5. To prepare draft annual bridge maintenance budget<br><br>2-1. To review and develop road maintenance manual<br>2-2. To review and develop bridge maintenance manual, including a database frame<br>2-3. To hold training workshops on road and bridge inspections<br>2-4. To inspect roads and bridges and prepare rough cost estimation of the repair works at the target DPWTs<br>2-5. To register the inspection results in the database at the target DPWTs<br>2-6. To revise the road and bridge maintenance manuals incorporating lessons learned from the above activities by organizing review workshops<br><br>3-1. To review and establish road repair manual<br>3-2. To review and establish bridge repair manual<br>3-3. To hold training workshops on road and bridge repairs<br>3-4. To identify roads and bridges for the pilot repair works based on the inspection results at the target DPWTs<br>3-5. To establish repair plan for the identified roads and bridges at the target DPWTs<br>3-6. To repair the identified roads and bridges at the target DPWTs<br>3-7. To evaluate the above repair works<br>3-8. To revise the road and bridge repair manual incorporating lessons learned from the above activities by organizing review workshop by organizing review workshop<br><br>4-1. To organize seminars for other DPWTs – trainings on road | (Japan side)<br>1. A chief advisor / A long term expert<br><br>2. Short term experts<br>1) Team Leader / Bridge Maintenance Engineer<br>2) Deputy-team leader / Road Maintenance Planner<br>3) Bridge Inspection Engineer<br>4) Bridge Repair Engineer (1) (Planning and Design)<br>5) Bridge Repair Engineer (2) (Repairing work Expert)<br>6) Bridge Maintenance Planner<br>7) Road Maintenance Engineer(1)<br>8) Road Maintenance Engineer(2)<br>9) Coordinator / Assistant for Road and Bridge Inspection<br>10) Coordinator for other relevant project / C/P training Supervision<br><br>3. Equipment for road and bridge maintenance<br><br>4. C/P training<br><br>5. Cost for seminars and Trainings as the project activities | (Cambodia side)<br>1. Arrangement of counterpart personnel<br>1) Project Director<br>2) Project Manager<br>3) Other Necessary Personnel<br><br>2. Implementation cost for the pilot repair works<br><br>3. Travel expenses and allowances for the participants of the seminars and trainings organized as the project activities<br><br>4. Maintenance cost of the JICA project equipment<br><br>5. Office space including its utility cost (electricity, water, internet and other necessary office facilities)<br><br>6. Etc. | - Conditions of roads and bridges under MPWT are not rapidly deteriorated.<br>- Flood with large scale is not occurred annually.<br><br>Pre-condition<br>N/A |

| | | | |
|---|---|---|---|
| and bridge inspection<br>4-2. To organize seminars for other DPWTs – trainings on road and bridge repair<br>4-3. To organize the project wrap-up seminar | | | |

Project Monitoring Sheet I (Revision of Plan of Operation)

|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Output-1: The bridge maintenance cycle is established. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1 | To review the present bridge maintenance cycle and the works of RID in comparison to the existing Japanese system | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-1 | To collect existing Data and analyze them with RID | Ogawa / Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-2 | To study the cases of Japanese bridge maintenance cycle that be able to apply to Cambodia | Mizota / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-3 | To review the result and discuss with RID | Ogawa / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2 | To propose annual action plan for bridge maintenance cycle to establish a proper bridge maintenance cycle based on the review results | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2-1 | To draft the action plan with RID | Mizota / Nakajima/ Tokumasu | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2-2 | To supervise "1.2.1 activities" and review with RID for final action plan | Ogawa / Mizota / Nakajima | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3 | To practice the action plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3-1 | To supervise the action of RID and the other organization | Mizota / Nakajima / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3-2 | To supervise "1.3.1 activities" and evaluate it with RID | Ogawa /Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4 | To hold workshops of the bridge maintenance cycle | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4-1 | To prepare workshops and materials for the workshops and explain their part at workshops with RID | Nakajima / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4-2 | To organize the workshops and review the result with RID | Ogawa / Mizota / Nakajima / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5 | To prepare draft annual bridge maintenance budget | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-1 | To draft the maintenance budget of target DPWT | Mizota / Nakajima / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-2 | To draft the maintenance budget with RID | Mizota / Nakajima / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-3 | To supervise "1.5.2 activities" and review drafts with RID | Ogawa | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| Output-2: Road and bridge inspection capacity of RID is enhanced. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1 | To review and develop road maintenance manual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-1 | To review road maintenance manual with RID | Nakajima / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-2 | To draft new road maintenance manual with RID | Nakajima / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-3 | To supervise "2.1.1-2 activities" and review it with RID | Ogawa / Nakajima | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2 | To review and develop bridge maintenance manual, including a database framework | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2-1 | To draft new bridge maintenance manual with RID | Tokumasu / Tsukamoto / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| (1) | Inspection Manual | Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| (2) | Database Manual | Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2-2 | To supervise "2.2.1 activities" and review it with RID for finalizing bridge maintenance manual | Ogawa / Tokumasu / Tsukamoto / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3 | To hold training workshops on road and bridge inspections | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3-1 | To prepare workshops and materials for the workshops and explain their part at workshops with RID | Tokumasu / Tsukamoto / Ohtake / Watanabe | Plan | | | As Needed | | | | | | | | | | | | As Needed | | | | | | | | | | | | As Needed | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3-2 | To organize the workshops and review the result with RID | Ogawa / Tokumasu / Tsukamoto / Ohtake | Plan | | | As Needed | | | | | | | | | | | | As Needed | | | | | | | | | | | | As Needed | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4 | To inspect roads and bridges and prepare rough cost estimation of the repair works at the target DPWTs | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-1 | To prepare draft inspection plan for roads and bridges with RID | Nakajima/Tokumasu/ Tsukamoto/Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-2 | To implement road and bridge inspection with RID and DPWTs engineers at the target DPWTs | Tokumasu /Tsukamoto / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-3 | To prepare rough cost estimation of the repair works for roads and bridges with RID | Tokumasu / Tsukamoto / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-4 | To supervise "2.4.1-3 activities" and discuss with RID | Ogawa / Mizota /Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | 0 | | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | 0 | | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5 | To register the inspection results in the database at the targeted DPWTs | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-1 | To register the inspection results of roads with RID | Nakajima / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-2 | To register the inspection results of bridges with RID | Tokumasu / Tsukamoto / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-3 | To supervise "2.5.1-2 activities" and review the result with RID | Ogawa / Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6 | To register the inspection results in the database at the targeted DPWTs | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6-1 | To revise the road and bridge maintenance manual with RID | Mizota/Nakajima/ Tokumasu/Tsukamot | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6-2 | To prepare workshops and materials for the workshops and explain their part at workshops with RID | Mizota / Nakajima / Tokumasu / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6-3 | To organize the workshops and review the result with RID | Ogawa / Mizota / Nakajima | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

## TO CR of JICA CAMBODIA OFFICE

### PROJECT MONITORING SHEET

**Project Title : The Project for Strengthening Capacity for Maintenance of Roads and Bridges**

**Version of the Sheet: Ver.2 (January 2016)**

**Name: Yuzo MIZOTA**
**Title: Team Leader**

**Submission Date: 21 January 2016**

## I. Summary

### 1 Progress

**1-1 Progress of Inputs**

**[(Japan side) 2. Short term experts]**

**Addition of Road Maintenance Engineer (3) (Overloading Control)**

**1-2 Progress of Activities**

**Progress of activities is indicated in Monitoring Sheet Form 3-2 and Form 3-3.**

**1-3 Achievement of Output**

**[Output-1: The bridge maintenance cycle is established.]**

- **Inspection of all bridges in Cambodia has been completed by December 2015.**
- **The basic maintenance works procedure has been specified in the Bridge Maintenance Manual.**
- **The draft manual of bridge maintenance is completed.**
- **Trial of action plan for bridge maintenance cycle is ongoing.**
- **Outlines of the proposed annual action plan were agreed with MPWT in the 1st JCC meeting on July 10, 2015.**
- **JICA expert team carried out a joint inspection of all bridges in the country in collaboration with MPWT and DPWT.**
- **Based on the inspection result, priority list of bridges with serious damage and the damage diagnosis records of each bridge was formulated.**

**[Output-2: Road and bridge inspection capacity of RID is enhanced.]**

**[Road]**

- **Update scheme (revision or additional preparation) of the existing manual has been determined, based on the review on the existing manual.**
- **Road maintenance guideline (ver.1) was prepared in August, 2015.**
- **In addition to the road maintenance guideline, a guideline for DRIMS operation was prepared in August, 2015. The guideline supported inspection capacity improvement of RID officials.**
- **Inspection (IRI measurement and visual inspection) of target 1-digit roads was completed in August, 2015.**
- **The analysis on the inspection results was fed back to update of the guideline (ver.1) to the version-2.**
- **Approximate maintenance planning and cost estimate of 1-digit roads were carried out following the prepared road maintenance guideline.**
- **Road inventory format has been invented in accordance with the prepared road maintenance guideline.**
- **Road inventories of 1-digit roads have been prepared.**
- **Mr. You Dara (RID) gave a presentation on the established routine road maintenance cycle in the workshop held on 7 August, 2015, and RID officials understood the new road maintenance system.**
- **Mr. Chan Dara (RID) gave a presentation on road inspection and analysis results in the workshop held on November, 2015, and RID and DPWT officials deepened the practical knowledge on the new inspection and analysis procedure.**
- **2 of officials are able to conduct DRIMS.**

**[Bridge]**

- **The Bridge Maintenance Manual was drafted together with RID officials in August 2015.**
- **The training plan of bridge maintenance was drafted in December 2015.**
- **All bridges (2226 bridges) under all DPWTs were finished to inspect.**
- **Database was created and installed in RID director office.**
- **Mr. NIN Menakak and Mr. SA Sivutha (RID) gave a presentation on the established routine bridge maintenance cycle in the workshop held on August 7, 2015, and RID officials understood the new road maintenance system.**
- **Mr. NIN Menakak (RID) gave a presentation on bridge inspection and analysis results in the workshop held on September 17, 2015, and RID and DPWT**

**officials deepened the practical knowledge on the new inspection and analysis procedure.**

**[Output-3: Road and bridge repair capacity of RID is enhanced.]**

**[Road]**

- **Update scheme (revision or additional preparation) of the existing manual has been determined, based on the review on the existing manual.**
- **Revision of the road repair guideline was started and in progress. (target to complete early March)**
- **Road condition (surface condition) was surveyed.**

**[Bridge]**

- **The contents to be included in the manual were agreed and draft was started to prepare. (target to complete early March)**
- **Through 2000-bridge inspection, damaged bridges were identified.**
- **4 bridges from Kandal DPWT and 2 bridges from Phnom Penh DPWT were chosen for pilot project.**

**[Output-4: Road and bridge maintenance cycle is introduced to other DPWTs and concerning agencies.]**

- **Bridge inspection of all DPWTs was conducted.**
- **Kickoff Seminar held on 22 May, 2015 (5 DPWTs)**
- **Five (5) workshops**
  - **1st: Road Maintenance Cycle using IRI (Aug 8, 2015)**
  - **2nd :Bridge Maintenance Cycle and 2000 Bridges Inspection (Sep 17, 2015)**
  - **3rd: Introduction of database system (Oct 22, 2015)**
  - **4th: 2000 Bridge Inspection and Overloading Control (Oct 27, 2015)**
  - **5th: Overloading Control, Report of training in Japan (Dec 11, 2015)**

**1-4 Achievement of the Project Purpose**

**[Road]**

- **All 1st digit roads (not limited to the target DPWTs) were inspected using DRIMS based on the manual.**
- **Clarification of 49 codes to be implemented for road repair work by DPWT. Revision of repair guideline to include all the works is ongoing.**
- **Manual revision (include all work code items into new manual) (in progress)**

**[Bridge]**

- **Completion of preparation of database and proposition of framework for**

**standard work code items (to be included in budget request)**

- **Proposal of Training Plan, Bridge Maintenance Expert (ME) Program**
- **Manual creation (framework and selection of priority repair item)**

**[Road/Bridge]**

- **It was decided to formulate a repair manual to clarify more in detail of method statement of the work (Job sheet style) and selected working team is drafting the manual.**
- **Holding workshops, inviting RID and DPWTs**

**1-5 Changes of Risks and Actions for Mitigation**

**N/A**

**1-6 Progress of Actions undertaken by JICA**

**Kickoff seminar was held on 22nd May, 2015.**
**1st JCC meeting was held on 10th July, 2015.**
**2nd JCC meeting was held on 18th January, 2016.**
**Five (5) workshops were held as follows;**

- **1st: Road Maintenance Cycle using IRI (Aug 8, 2015)**
- **2nd :Bridge Maintenance Cycle and 2000 Bridges Inspection (Sep 17, 2015)**
- **3rd: Introduction of database system (Oct 22, 2015)**
- **4th: 2000 Bridge Inspection and Overloading Control (Oct 27, 2015)**
- **5th: Overloading Control, Report of training in Japan (Dec 11, 2015)**

**1-7 Progress of Actions undertaken by Gov. of Cambodia**

**Kickoff seminar was held on 22nd May, 2015.**
**1st JCC meeting was held on 10th July, 2015.**
**2nd JCC meeting was held on 18th January, 2016.**
**Five (5) workshops were held as follows;**

- **1st: Road Maintenance Cycle using IRI (Aug 8, 2015)**
- **2nd :Bridge Maintenance Cycle and 2000 Bridges Inspection (Sep 17, 2015)**
- **3rd: Introduction of database system (Oct 22, 2015)**
- **4th: 2000 Bridge Inspection and Overloading Control (Oct 27, 2015)**
- **5th: Overloading Control, Report of training in Japan (Dec 11, 2015)**

**1-8 Progress of Environmental and Social Considerations (if applicable)**

**N/A**

**1-9 Progress of Considerations on Gender/Peace Building/Poverty Reduction (if applicable)**

**N/A**

**1-10 Other remarkable/considerable issues related/affect to the project (such as other JICA's projects, activities of counterparts, other donors, private sectors, NGOs etc.)**

**Transfer of management responsibility of national road No.4 (RN4) from private sector to Cambodian Government as of January 14, 2016**

## 2 Delay of Work Schedule and/or Problems (if any)

**2-1 Detail**

**N/A**

**2-2 Cause**

**N/A**

**2-3 Action to be taken**

**N/A**

**2-4 Roles of Responsible Persons/Organization (JICA, Gov. of Cambodia,etc.)**

**N/A**

## 3 Modification of the Project Implementation Plan

**3-1 PO**

**PO of the project is prepared. It is attached as Monitoring Sheet Form 3-3.**

**3-2 Other modifications on detailed implementation plan**

***(Remarks: The amendment of R/D and PDM (title of the project, duration, project site(s), target group(s), implementation structure, overall goal, project purpose, outputs, activities, and input) should be authorized by JICA HDQs. If the project team deems it necessary to modify any part of R/D and PDM, the team may propose the draft.)***

**PDM revised from Ver.1 to Ver.2 is attached as Monitoring Sheet Form 3-2.**

**PM Form 3-2 (1) Monitoring Sheet I (PDM Ver.1)**

**PM Form 3-2 (2) Monitoring Sheet I (PDM Ver.2)**

**PM Form 3-2 (3) Monitoring Sheet I (Detail of Modification)**

**II. Project Monitoring Sheet I & II** *as Attached*

# Project Monitoring Sheet I (Revision of Project Design Matrix)

Version 1

Dated July 2015

**Project Title:** The Project for Strengthening Capacity for Maintenance of Roads and Bridges
**Implementation Agency:** Road Infrastructure Department of Ministry of Public Work and Transport (RID MPWT)
**Target Groups:** Engineers of RID
**Period of Project:** April 2015 – March 2018
**Project Site:** Cambodia
**Target Area:** Roads and Bridges under MPWT

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| **Overall Goal**<br>Appropriate maintenance of roads and bridges is managed by MPWT. | 1. The road and bridge database is updated once / a year.<br>2. Road and bridge maintenance plans are updated once / a year base on the result of the road and bridge database updated.<br>3. Road and bridge maintenance is carried out based on the road and bridge maintenance plan and the maintenance and repair manuals, under supervision of RID.<br>4. The road maintenance and repair manuals, and the bridge maintenance and repair manuals are regularly reviewed. | 1. Log record of the database, random sample check of individual data<br>2. The maintenance plans, corresponding data from the database<br>3. The maintenance record, the maintenance plans and manuals<br>4. Minutes of the review meeting | - Country's socio-political situation does not change rapidly. | | |
| **Project Purpose**<br>Capacity of RID to supervise implementing bodies maintaining roads and bridges is enhanced. | 1. Inspection results done by the three target DPWTs are approved by RID based on the manuals by the end of the Project.<br>2. Repair results done by the two target DPWTs are approved by RID base on the manuals by the end of the Project.<br>3. The above two target DPWTs prepare a draft budget for roads and bridge maintenance for FY 2018 respectively | 1. DPWT inspection reports and on-site confirmation by RID<br>2. DPWT repair reports and on-site confirmation by RID.<br>3. The said draft budget and its submission date<br>4. Number and name of the participated offices and | - Organizational arrangement of MPWT is not changed drastically. | | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | within pre-agreed schedule.<br>4. Road and bridge maintenance cycle is explained and shared to concerning offices and units at the project wrap-up seminar.<br>5. Maintenance budget of road and bridge is prepared by RID according to the road and bridge maintenance cycle | unit<br>5. Interest level of the participants through the questionnaire. | | | |
| **Outputs**<br>1. The bridge maintenance cycle is established. | 1-1. The annual action plan for bridge maintenance cycle is developed by June every year for each targeted DPWT.<br>1-2. The above action plan is approved by August every year.<br>1-3. At least 5 officials of RID engineers pass exam of bridge maintenance cycle.<br>1-4. The annual bridge maintenance budget is drafted at the target DPWTs of 2nd year and 3rd year by May every year. | 1-1. The annual action plan and it's date developed<br>1-2. The approved date<br>1-3. The exam results and participants list<br>1-4. The drafted budget and its date | - The trained staff/officers remain at the job.<br>- Roles of DPWTs and other concerning offices and units are not changed including budget preparation system. | | |
| 2. Road and bridge inspection capacity of RID is enhanced. | 2-1. The road and bridge maintenance manuals are drafted by August 2015 and finalized by June 2017.<br>2-2. The selected roads and bridges in the targeted DPWTs are inspected according to the maintenance manual.<br>2-3. The inspection results are registered to the road and bridge database by RID until November every year.<br>2-4. At least 5 officials of RID's engineers pass road and bridge inspection test. | 2-1. The manuals and its' date prepared<br>2-2. Inspection record and sample on-site confirmation<br>2-3. Inspection record and corresponding data for sample check<br>2-4. The test results and participants list | | | |
| 3. Road and bridge repair capacity of RID is enhanced. | 3-1. The road and bridge repair manuals are drafted by January 2016 and finalized by June 2017.<br>3-2. The identified roads and bridges in the targeted DPWTs are repaired according to the repair manuals and the | 3-1. The manuals and its' date prepared<br>3-2. | | 4-3. The project activities are disseminated to other agencies concerning road/bridge maintenance. (number is not specified but with increments through the project) | maintenance. (number is not specified but with increments through the project) | |

**In regards to Activities**

| Activities | Original | Amendment | Remarks |
|---|---|---|---|
| **Output 1** | 1-1.To review the present bridge maintenance cycle and the works of RID in comparison to the existing Japanese system | 1-1.To review the present bridge maintenance cycle and the works of RID in comparison to the existing Japanese system | No change |
| | 1-2.To propose annual action plan for bridge maintenance cycle to establish a proper bridge maintenance cycle based on the review results | 1-2. To propose 3 year bridge maintenance strategic plan with the annual action plan to establish a proper bridge maintenance cycle | Addition of 3 Year Bridge Maintenance Strategic Plan |
| | 1-3.To practice the action plan | 1-3.To practice the action plan | No change |
| | 1-4.To hold workshop of the bridge maintenance cycle | 1-4.To hold workshop of the bridge maintenance cycle | No change |
| | 1-5.To prepare draft annual bridge maintenance budget | 1-5.To prepare draft annual bridge maintenance budget | No change |
| **Output 2** | 2-1.To review and develop road maintenance manual | 2-1.To review and develop road maintenance manual | No change |
| | 2-2.To review and develop bridge maintenance manual, including a database frame | 2-2.To review and develop bridge maintenance manual, including a database frame | No change |
| | 2-3.To hold training workshops on road and bridge inspections | 2-3.To hold training workshops on road and bridge inspections | No change |
| | 2-4.To inspect roads and bridges and prepare rough cost estimation of the repair works at the target DPWTs | 2-4. For bridge, to inspect bridges and prepare rough cost estimation of the repair works for all DPWTs | Amendment, For bridge all DPWTs |
| | | 2-5. For roads, to inspect roads using IRI and prepare rough cost estimation of the repair works at the target DPWTs | Amendment, for roads, target DPWTs(same to original PDM) Improvement of inspection accuracy by using IRI. |
| | 2-5.To register the inspection results in the database at the target DPWTs | 2-6.To register the inspection results in the database by RID | Amendment, RID to database register |
| | 2-6.To revise the road and bridge maintenance manuals incorporating lessons learned from the above activities by organizing review workshops | 2-7.To revise the road and bridge maintenance manuals incorporating lessons learned from the above activities by organizing review workshops | No change |
| | | 2-8. To conduct preliminary study on overloading control (at Tsubasa Bridge) | Addition, overloading control |

| | | | |
|---|---|---|---|
| **Output 3** | 3-1.To review and establish road repair manual<br>3-2.To review and establish bridge repair manual<br>3-3.To hold training workshops on road and bridge repairs<br>3-4.To identify roads and bridges for the pilot repair works based on the inspection results at the target DPWTs<br>3-5.To establish repair plan for the identified roads and bridges at the target DPWTs<br>3-6.To repair the identified roads and bridges at the target DPWTs<br>3-7.To evaluate the above repair works<br>3-8.To revise the road and bridge repair manual incorporating lessons learned from the above activities by organizing review workshop by organizing review workshop | 3-1.To review and establish road repair manual<br>3-2.To review and establish bridge repair manual<br>3-3.To hold training workshops on road and bridge repairs<br>3-4.To identify roads and bridges for the pilot repair works based on the inspection results at the target DPWTs<br>3-5.To establish repair plan for the identified roads and bridges at the target DPWTs<br>3-6.To repair the identified roads and bridges at the target DPWTs<br>3-7.To evaluate the above repair works<br>3-8.To revise the road and bridge repair manual incorporating lessons learned from the above activities by organizing review workshop by organizing review workshop | No change<br>No change<br>No change<br>No change<br>No change<br>No change<br>No change<br>No change |
| **Output 4** | 4-1.To organize seminars for other DPWTs – trainings on road and bridge inspection<br>4-2.To organize seminars for other DPWTs – trainings on road and bridge repair<br>4-3.To organize the project wrap-up seminar | 4-1.To organize seminars for other DPWTs – trainings on road and bridge inspection<br>4-2.To organize seminars for other DPWTs – trainings on road and bridge repair<br>4-3.To organize the project wrap-up seminar | No change<br>No change<br>No change |

PM Form 3-3 Monitoring Sheet II

| ACTIVITIES | | Expert in charge | Plan/ Actual | 2015 | | | | | | | | | | | | 2016 | | | | | | | | | | | | 2017 | | | | | | | | | | | | 2018 | | | Responsible Organization | | Achievements | Issue & Countermeasures |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 1 | 2 | 3 | Japan | Cambodia | | |
| Output-1: The bridge maintenance cycle is established. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1 | To review the present bridge maintenance cycle and the works of RID in comparison to the existing Japanese system | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-1 | To collect existing Data and analyze them with RID | Ogawa / Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-2 | To study the cases of Japanese bridge maintenance cycle that be able to apply to Cambodia | Mizota / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-3 | To review the result and discuss with RID | Ogawa / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2 | To propose 3 year bridge maintenance strategic plan with the annual action plan to establish a proper bridge maintenance cycle | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2-1 | To draft the action plan with RID | Mizota / Nakajima/ Tokumasu | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2-2 | To supervise "1.2.1 activities" and review with RID for final action plan | Ogawa / Mizota / Nakajima | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3 | To practice the action plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3-1 | To supervise the action of RID and the other organization | Mizota/Nakajima/ Tokumasu/Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3-2 | To supervise "1.3.1 activities" and evaluate it with RID | Ogawa /Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4 | To hold workshops of the bridge maintenance cycle | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4-1 | To prepare workshops and materials for the workshops and explain their part at workshops with RID | Nakajima/Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4-2 | To organize the workshops and review the result with RID | Ogawa / Mizota / Nakajima / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5 | To prepare draft annual bridge maintenance budget | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-1 | To draft the maintenance budget of target DPWT | Mizota / Nakajima / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-2 | To draft the maintenance budget with RID | Mizota / Nakajima / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-3 | To supervise "1.5.2 activities" and review drafts with RID | Ogawa | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| Output-2: Road and bridge inspection capacity of RID is enhanced. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1 | To review and develop road maintenance manual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-1 | To review road maintenance manual with RID | Nakajima / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-2 | To draft new road maintenance manual with RID | Nakajima / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-3 | To supervise "2.1.1-2 activities" and review it with RID | Ogawa / Nakajima | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2 | To review and develop bridge maintenance manual, including a database framework | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2-1 | To draft new bridge maintenance manual with RID | Tokumasu/ Tsukamoto/Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2-2 | To supervise "2.2.1 activities" and review it with RID for finalizing bridge maintenance manual | Ogawa/Tokumasu/ Tsukamoto/Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3 | To hold training workshops on road and bridge inspections | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3-1 | To prepare workshops and materials for the workshops and explain their part at workshops with RID | Tokumasu/Tsukamoto/ Ohtake/Watanabe | Plan | | | | | As Needed | | | | | | | | | | | | As Needed | | | | | | | | | | | | As Needed | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3-2 | To organize the workshops and review the result with RID | Ogawa/Tokumasu/ Tsukamoto/Ohtake | Plan | | | | | As Needed | | | | | | | | | | | | As Needed | | | | | | | | | | | | As Needed | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4 | For bridge, to inspect bridges and prepare rough cost estimation of the repair works for all DPWTs | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-1 | To prepare draft inspection plan for bridges with RID | Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-2 | To implement bridge inspection with RID and DPWTs engineers at all the DPWTs | Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-3 | To prepare rough cost estimation of the repair works for bridges with RID | Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-4 | To supervise "2.4.1-3 activities" and discuss with RID | Ogawa/ Mizota/ Tokumasu/Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5 | For roads, to inspect roads using IRI and prepare rough cost estimation of the repair works at the target DPWTs | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-1 | To prepare draft inspection plan for roads with RID | Nakajima/ Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-2 | To implement road inspection with RID and DPWTs engineers at the target DPWTs | Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-3 | To prepare rough cost estimation of the repair works for roads with RID | Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-4 | To supervise "2.5.1-3 activities" and discuss with RID | Ogawa/ Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6 | To register the inspection results in the database by RID | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6-1 | To register the inspection results of roads with RID | Nakajima/ Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6-2 | To register the inspection results of bridges with RID | Tokumasu/Tsukamoto/ Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6-3 | To supervise "2.5.1-2 activities" and review the result with RID | Ogawa/ Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-7 | To register the inspection results in the database by RID | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-7-1 | To revise the road and bridge maintenance manual with RID | Mizota/Nakajima/ Tokumasu/Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-7-2 | To prepare workshops and materials for the workshops and explain their part at workshops with RID | Mizota/Nakajima/ Tokumasu/Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-7-3 | To organize the workshops and review the result with RID | Ogawa/Mizota / Nakajima | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-8 | To conduct preliminary study on overloading control (at Tsubasa Bridge) | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-8-1 | Overloading enforcement in foreign countries | Hakamada | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-8-2 | Countermeasures against overloading issue at Tsubasa Bridge | Hakamada | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

## 1-2 Progress of Activities

**Progress of activities is indicated in Monitoring Sheet Form 3-2 (PDM) and Form 3-3 (PO).**

## 1-3 Achievement of Output

| Output/Indicators | Achievement (%) | | Major Results | Status OT: On Time SFT: Scheduled for later DL: Delay |
|---|---|---|---|---|
| | Plan | Actual | | |
| **Output-1: The bridge maintenance cycle is established.** | | | | |
| 1) The annual action plan for bridge maintenance cycle is developed by August every year for each targeted DPWT. | 50 | 90 | All of the nationwide bridges, totally 2,355 bridges, have been inspected while review activities are required. | OT |
| | | 50 | Annual action plan (draft) for bridge maintenance was prepared through a drafted 3-year bridge maintenance plan while a detailed action plan should be prepared for targeted DPWTs. | OT |
| 2) At least 5 officials of RID engineers pass exam of bridge maintenance cycle | 50 | 80 | Four (4) RID officials completed Maintenance Expert (ME) program required by Japanese experts. | OT |
| 3) The annual bridge maintenance budget is drafted at the target DPWTs of 2nd year and 3rd year by May every year. | 50 | 50 | Annual bridge maintenance budget is drafted at the target DPWTs through a drafted 3-year bridge maintenance plan while review activities are required. | OT |
| 4) 3 year bridge maintenance strategic plan of short term is prepared by RID/MPWT every August | 70 | 70 | A 3-year bridge maintenance strategic plan is drafted while review activities are required. | OT |
| **Output-2: Road and bridge inspection capacity of RID is enhanced.** | | | | |
| 1) The road and bridge maintenance manuals are drafted by August 2015 and finalized by June 2017. | 70 | 70 | The road and bridge maintenance manuals are drafted. Khmer versions are being prepared. | OT |
| 2) The selected bridges of all DPWTs are inspected according | 70 | 90 | The selected bridges of all DPWTs were inspected according to the maintenance manual. | OT |
| | | 50 | A pilot project for overloading control at Tsubasa | DL |

| | | | | |
|---|---|---|---|---|
| to the maintenance manual. | | | Bridge started behind the proposed schedule of preliminary study. | |
| 3) The selected roads in the targeted DPWTs are inspected according to the maintenance manual | 50 | 50 | 1-digit roads throughout the nation and the selected roads in Kandal province were successfully inspected by IRI-based inspection method according to the maintenance manual. Selected roads in Takeo province are also planned to be inspected as well. | OT |
| 4) The inspection results are registered to the road and bridge database by RID until November every year. | 70 | 70 | Database was created and installed in RID director office, which required improvement for maintenance management efficiency. | OT |
| 5) At least 5 officials of RID's engineers pass road and bridge inspection test. | 50 | 80 | Four (4) RID officials completed ME bridge program and two (2) RID officials completed ME road program, instructed by Japanese experts. | OT |
| **Output-3. Road and bridge repair capacity of RID is enhanced.** | | | | |
| 1) The road and bridge repair manuals are drafted by January 2016 and finalized by June 2017. | 70 | 70 | The road and bridge repair manuals are drafted. Khmer versions are being prepared. | OT |
| 2) The identified roads and bridges in the targeted DPWTs are repaired according to the repair manuals and the inspection results. | 50 | 50 | The 1st pilot project for road repair work has been implemented for selected roads in Kandal province.<br>3 bridges from Kandal province and 2 bridges from Phnom Penh were repaired by crack sealing method through the 1st pilot project.<br>The identified roads and bridges managed by the target DPWTs are to be repaired in the 2nd pilot project. | OT |
| 3) The repair results are registered to the road and bridge database by RID within 1 month after the completion of repair works. | 40 | 40 | The repair results of the 1st pilot project are registered in the database system while those of the 2nd pilot project will be installed upon completion of the project. Review of database is required. | OT |
| 4) At least 5 officials of RID's engineers pass road and bridge repair test. | 50 | 80 | Four (4) RID officials completed bridge Maintenance Expert (ME) training program and three (3) RID officials completed road ME training program, instructed by Japanese experts. | OT |
| **Output-4. Road and bridge maintenance cycle is introduced to other DPWTs and concerning agencies** | | | | |
| 1) Bridge inspection is carried out at the more than 80% DPWTs (20/25 DPWTs). | 50 | 90 | Bridge inspection of all DPWTs was completed while a review work of database is required. | OT |

## 1-4 Achievement of the Project Purpose

| Project Purpose/Indicators | Achievement (%) | Situation | Expected Time of achievement |
|---|---|---|---|
| Project Purpose: Capacity of RID to supervise implementing bodies maintaining roads and bridges is enhanced. | | | |
| 1) Inspection results done by the three target DPWTs are approved by RID based on the manuals by the end of the Project. | 30 | [Road] all 1-digit roads and selected roads in Kandal province (not limited to the target DPWTs) were inspected using DRIMS based on the manual.<br>[Bridge] Completion of inspection of all the bridges under DPWTs (not limited to the target DPWTs) and basic bridge inventory database. | OT |
| 2) Repair results done by the two target | 30 | [Road][Bridge] It was decided to formulate a repair manual to specify standard method | OT |

| | | | |
|---|---|---|---|
| DPWTs are approved by RID based on the manuals by the end of the Project | | statements of repair works (Job Sheet style) and selected working team completed the manual. | |
| 3) The above two target DPWTs prepare a draft budget for roads and bridge maintenance for FY 2018 respectively within pre-agreed schedule. | 30 | [Road] Clarified 46 codes implemented for road repair work by DPWT. Revision of repair guidelines to include all the works is ongoing.<br>[Bridge] Preparation of database and proposition of framework for standard work code items (to be included in budget request) | OT |
| 4) Road and bridge maintenance cycle is explained and shared to concerning offices and units at the project wrap-up seminar. | 30 | [Road] Holding workshops inviting RID and DPWTs<br>[Bridges] Holding workshops inviting RID and DPWTs<br>Proposal of Training Plan, Bridge Maintenance Expert Program | OT |
| 5) Maintenance budget of road and bridge is prepared by RID according to the road and bridge maintenance cycle | 30 | [Road] Manual revision (to include all the work code items into the new manual) (in progress)<br>[Bridge] Manual creation (framework and selection of priority repair items) | OT |

## 1-5 Changes of Risks and Actions for Mitigation

### 1) Activity 2-8: Overloading control

The progress of the activity is delayed a few months to have mature agreement with the counterparts on the activity contents.

### 2) Equipment for bridge inspection tools

As the number of multi-span bridges have increased, needs for appropriate maintenance of such bridges have also increased. Above all, it is important to closely inspect bridge structures in high elevation such as superstructures, where inspectors can't reach easily without specific equipment, in order to maintain their functions. As one of the solutions, the project plans to procure a robotic camera (rod camera) that enables inspectors to more closely and accurately examine the bridge structures in high elevation than visual inspections from distant places. The introduction of the equipment is considered to be essential in order to improve bridge maintenance management skills of Cambodian government officials in charge of bridge maintenance.

### 3) Equipment for road inspection tools

There is a demand to enhance monitoring of the road by using DRIMS and the counterpart decided to procure 2 more sets by their own budget. The project will support the counterpart for procurement and maintenance of the equipment

**4) Facilitate Maintenance Expert (ME) training program**

The ME training program should be encouraged by management level of MPWT.

**1-6 Progress of Actions undertaken by JICA**

**N/A**

**1-7 Progress of Actions undertaken by Gov. of Cambodia**

**N/A**

**1-8 Progress of Environmental and Social Considerations (if applicable)**

**N/A**

**1-9 Progress of Considerations on Gender/Peace Building/Poverty Reduction (if applicable)**

**N/A**

**1-10 Other remarkable/considerable issues related/affect to the project (such as other JICA's projects, activities of counterparts, other donors, private sectors, NGOs etc.)**

Transfer of management responsibility of national road No.4 (NR4) from private sector to Cambodian Government as of January 14, 2016. The change gave the following effects to the project;

1) Increase of the number of bridges to be inspected and listed in the bridge database (39 more bridges)
2) Duty on RID to measure IRI and evaluate condition of the road.
3) Increase of demand for implementation of repair methods (crack sealing and pothole patching)
4) In regard to IRI measurement for road maintenance, Road Infrastructure Department (RID) will study and clarify the application range of two (2) types of IRI-measurement equipment, DRIMS and ROMDAS.

## 2 Delay of Work Schedule and/or Problems (if any)

**2-1 Detail**

**1) Activity 2-8: Overloading control**

The progress of the activity is delayed a few months to have mature agreement with the counterparts on the activity contents.

**2-2 Cause**

- Procurement of a portable weighing scale

**2-3 Action to be taken**

- The project activity shall start on time using the existing portable weighing scale.
- Training for the new scale operation shall be conducted upon completion of the equipment installation

**2-4 Roles of Responsible Persons/Organizations (JICA, Gov. of Cambodia, etc.)**

**N/A**

## 3 Modification of the Project Implementation Plan

**3-1 PO**

PO of the project is prepared. It is attached as Monitoring Sheet Form 3-3.

**3-2 Other modifications on detailed implementation plan**

***(Remarks: The amendment of R/D and PDM (title of the project, duration, project site(s), target group(s), implementation structure, overall goal, project purpose, outputs, activities, and input) should be authorized by JICA HDQs. If the project team deems it necessary to modify any part of R/D and PDM, the team may propose the draft.)***

**PDM Ver.2 is attached as Monitoring Sheet Form 3-2.**

## 4 Measures undertaken by Gov. of Cambodia or Project Team to Assure the Sustainability of Project after the Project Completion

**4-1 Financial Sustainability**

"3-year bridge maintenance strategic plan" was drafted using the bridge database developed in the project. This plan gives maintenance priority to the each bridge under MPWT considering soundness of the bridges and road functions. This plan is under review by DPWT and to be included in the budget request to MEF to support grounds of for the request.

**4-2 Technical Sustainability**

Guidelines for evaluation system of road conditions using IRI is drafted. This gives a standard method from evaluation of the road conditions to estimation of required costs for maintenance, including priority.

**4-3 Institutional Sustainability**

The project is proposing to create a regulation related to the Maintenance Experts (MEs). This is to specify tasks and responsibilities of the MEs and expected to encourage increase of the number of MEs.

## II. Project Monitoring Sheet I & II *as Attached*

# Project Monitoring Sheet Form 3-2 (Revision of Project Design Matrix)

Version 2

Revised Date July 2016

**Project Title:** The Project for Strengthening Capacity for Maintenance of Roads and Bridges
**Implementation Agency:** Road Infrastructure Department of Ministry of Public Work and Transport (RID MPWT)
**Target Groups:** Engineers of RID
**Period of Project:** April 2015 – March 2018
**Project Site:** Cambodia
**Target Area:** Roads and Bridges under MPWT

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| **Overall Goal**<br>Appropriate maintenance of roads and bridges is managed by MPWT. | 1. The road and bridge database is updated once / a year.<br>2. Road and bridge maintenance plans are updated once / a year base on the result of the road and bridge database updated.<br>3. Road and bridge maintenance is carried out based on the road and bridge maintenance plan and the maintenance and repair manuals, under supervision of RID.<br>4. The road maintenance and repair manuals, and the bridge maintenance and repair manuals are regularly reviewed. | 1. Log record of the database, random sample check of individual data<br>2. The maintenance plans, corresponding data from the database<br>3. The maintenance record, the maintenance plans and manuals<br>4. Minutes of the review meeting | - Country's socio-political situation does not change rapidly. | | |
| **Project Purpose**<br>Capacity of RID to supervise implementing bodies maintaining roads and bridges is enhanced. | 1. Inspection results done by the three target DPWTs are approved by RID based on the manuals by the end of the Project. | 1. DPWT inspection reports and on-site confirmation by RID<br>2. DPWT repair reports and on-site confirmation by RID.<br>3. The said draft budget and its submission date | - Organizational arrangement of MPWT is not changed drastically. | [Road] 1-digit roads throughout the nation and the selected roads in Kandal province were successfully inspected by IRI-based inspection method according to the | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | | 4. Number and name of the participated offices and unit<br>5. Interest level of the participants through the questionnaire. | | maintenance manual.<br>[Bridge] Completion of inspection of all the bridges under DPWTs (not limited to the target DPWTs) and basic bridge inventory database. | |
| | 2. Repair results done by the two target DPWTs are approved by RID base on the manuals by the end of the Project. | | | [Road][Bridge] It was decided to formulate a repair manual to specify standard method statements of repair works (Job Sheet style) and selected working team completed the manual. | |
| | 3. The above two target DPWTs prepare a draft budget for roads and bridge maintenance for FY 2018 respectively within pre-agreed schedule. | | | [Road] Clarified 46 codes implemented for road repair work by DPWT. Revision of repair guidelines to include all the works is ongoing.<br>[Bridge] Preparation of database and proposition of framework for standard work code items (to be included in budget request) | |
| | 4. Road and bridge maintenance cycle is explained and shared to concerning offices and units at the project | | | [Road] Holding workshops inviting RID and DPWTs | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | wrap-up seminar.<br><br>5. Maintenance budget of road and bridge is prepared by RID according to the road and bridge maintenance cycle | | | [Bridge] Holding workshops inviting RID and DPWTs Proposal of Training Plan, Bridge Maintenance Expert Program<br><br>[Road] Manual revision (to include all the work code items into the new manual) (in progress)<br>[Bridge] Manual creation (framework and selection of priority repair items) | |
| **<u>Outputs</u>**<br>1. The bridge maintenance cycle is established. | 1-1. The annual action plan for bridge maintenance cycle is developed and approved by August every year for each targeted DPWT.<br><br>1-2. At least 5 officials of RID engineers pass exam of bridge maintenance cycle. | 1-1. The annual action plan and it's date developed and approved<br>1-2. The exam results and participants list<br>1-3. The drafted budget and its date<br>1-4. 3 Year Bridge Maintenance Strategic Plan | - The trained staff/officers remain at the job.<br>- Roles of DPWTs and other concerning offices and units are not changed including budget preparation system. | All of the nationwide bridges, totally 2,355 bridges, have been inspected while review activities are required. Annual action plan (draft) for bridge maintenance was prepared through a drafted 3-year strategic bridge maintenance plan while a detailed action plan should be prepared for targeted DPWTs.<br><br>Four (4) RID officials completed Maintenance Expert | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | | | | (ME) program required by Japanese experts. | |
| | 1-3. The annual bridge maintenance budget is drafted at the target DPWTs of 2nd year and 3rd year by May every year. | | | Annual bridge maintenance budget is drafted at the target DPWTs through a drafted 3-year bridge maintenance plan while review activities are required. | |
| | 1-4. 3-Year Bridge Maintenance Strategic Plan of short term is prepared by RID/MPWT every August | | | A 3-year bridge maintenance plan is drafted while review activities are required. | |
| 2. Road and bridge inspection capacity of RID is enhanced. | 2-1. The road and bridge maintenance manuals are drafted by August 2015 and finalized by June 2017. | 2-1. The manuals and its' date prepared<br>2-2. Inspection record and sample on-site confirmation<br>2-3. Inspection record and corresponding data for sample check<br>2-4. The test results and participants list | | The road and bridge maintenance manuals are drafted. Khmer versions are being prepared. | |
| | 2-2. The selected bridges of all DPWTs are inspected according to the maintenance manual. | | | The selected bridges of all DPWTs were inspected according to the maintenance manual. | |
| | 2-3. The selected roads in the targeted DPWTs are inspected according to the maintenance manual | | | 1-digit roads throughout the nation and the selected roads in Kandal province were successfully inspected by IRI-based inspection method according to the | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | | | | maintenance manual. Selected roads in Takeo province are also planned to be inspected as well. | |
| | 2-4. The inspection results are registered to the road and bridge database by RID until November every year. | | | Database was created and installed in RID director office, which required improvement for maintenance management efficiency. | |
| | 2-5. At least 5 officials of RID's engineers pass road and bridge inspection test. | | | Four (4) RID officials completed ME bridge program and two (2) RID officials completed ME road program, instructed by Japanese experts. | |
| 3. Road and bridge repair capacity of RID is enhanced. | 3-1. The road and bridge repair manuals are drafted by January 2016 and finalized by June 2017. | 3-1. The manuals and its date prepared<br>3-2. Repair record and sample on-site confirmation<br>3-3. Repair record and corresponding data for sample check<br>3-4. The test results and participants list | | The road and bridge repair manuals are drafted. Khmer versions are being prepared. | |
| | 3-2. The identified roads and bridges in the targeted DPWTs are repaired according to the repair manuals and the inspection results. | | | The 1st pilot project for road repair work has been implemented for selected roads in Kandal province.<br>3 bridges from Kandal province and 2 bridges from Phnom Penh were repaired by crack sealing method | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | | | | through the 1st pilot project.<br>The identified roads and bridges managed by the target DPWTs are to be repaired in the 2nd pilot project. | |
| | 3-3. The repair results are registered to the road and bridge database by RID within 1 month after the completion of repair works. | | | The repair results of the 1st pilot project are registered in the database system while those of the 2nd pilot project will be installed upon completion of the project. Review of database is required. | |
| | 3-4. At least 5 officials of RID's engineers pass road and bridge repair test. | | | Four (4) RID officials completed ME bridge program and two (2) RID officials completed ME road program, instructed by Japanese experts. | |
| 4. Road and bridge maintenance cycle is introduced to other DPWTs and concerning agencies. | 4-1. Bridge inspection is carried out at the more than 80% DPWTs (20/25 DPWTs). | 4-1. Bridge inventory data<br>4-2. The participants list<br>Publicity matter | | Bridge inspection of all DPWTs was conducted. | |
| | 4-2. More than 80% DPWTs attends the seminar held in the Project. | | | Ten (10) DPWTs attended the series of seminars. Attendance of DPWTs: 40% (10 out of 25 DPWTS) | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | 4-3. The project activities are disseminated to other agencies concerning road/bridge maintenance. (number is not specified but with increments through the project) | | | In kickoff seminar on 22 May 2015, the outline of the project activities was disseminated to MPWT, DPWTs, MEF, WB and ADB.<br>SIP seminar held in March 2016 disseminated road and bridge maintenance techniques to MPWT, DPWTs and ITC. | |

| **Activities** | **Inputs** | | |
|---|---|---|---|
| 1-1. To review the present bridge maintenance cycle and the works of RID in comparison to the existing Japanese system<br>1-2. To propose 3 year bridge maintenance strategic plan with the annual action plan to establish a proper bridge maintenance cycle<br>1-3. To propose annual action plan for bridge maintenance cycle to establish a proper bridge maintenance cycle based on the review results<br>1-4. To practice the action plan<br>1-5. To hold workshop of the bridge maintenance cycle<br>1-6. To prepare draft annual bridge maintenance budget<br><br>2-1. To review and develop road maintenance manual<br>2-2. To review and develop bridge maintenance manual, including a database frame<br>2-3. To hold training workshops on road and bridge inspections<br>2-4. For bridge, to inspect bridges and prepare rough cost estimation of the repair works for all DPWTs<br>2-5. For roads, to inspect roads using IRI and prepare rough cost estimation of the repair works at the target DPWTs<br>2-6.To register the inspection results in the database by RID<br>2-7. To revise the road and bridge maintenance manuals incorporating lessons learned from the above activities by organizing review workshops<br>2-8. To conduct preliminary study on overloading control (at Tsubasa Bridge)<br><br>3-1. To review and establish road repair manual<br>3-2. To review and establish bridge repair manual<br>3-3. To hold training workshops on road and bridge repairs<br>3-4. To identify roads and bridges for the pilot repair works based on the inspection results at the target DPWTs<br>3-5. To establish repair plan for the identified roads and bridges at the target DPWTs<br>3-6. To repair the identified roads and bridges at the target DPWTs | (Japan side)<br>1. A chief advisor / A long term expert<br><br>2. Short term experts<br>1) Team Leader / Bridge Maintenance Engineer<br>2) Deputy-team leader / Road Maintenance Planner<br>3) Bridge Inspection Engineer<br>4) Bridge Repair Engineer (1) (Planning and Design)<br>5) Bridge Repair Engineer (2) (Repairing work Expert)<br>6) Bridge Maintenance Planner<br>7) Road Maintenance Engineer(1)<br>8) Road Maintenance Engineer(2)<br>9) Coordinator / Assistant for Road and Bridge Inspection<br>10) Coordinator for other relevant project / C/P training Supervision<br>11) Road Maintenance Engineer (3) (Overloading Control)<br><br>3. | Output-1: The bridge maintenance cycle is established. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1 | To review the present bridge maintenance cycle and the works of RID in comparison to the existing Japanese system | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-1 | To collect existing Data and analyze them with RID | Ogawa / Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-2 | To study the cases of Japanese bridge maintenance cycle that be able to apply to Cambodia | Mizota / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-3 | To review the result and discuss with RID | Ogawa / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2 | To propose 3 year bridge maintenance strategic plan with the annual action plan to establish a proper bridge maintenance cycle | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2-1 | To draft the action plan with RID | Mizota / Nakajima/ Tokumasu | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2-2 | To supervise "1.2.1 activities" and review with RID for final action plan | Ogawa / Mizota / Nakajima | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3 | To practice the action plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3-1 | To supervise the action of RID and the other organization | Mizota/Nakajima/ Tokumasu/Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3-2 | To supervise "1.3.1 activities" and evaluate it with RID | Ogawa /Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4 | To hold workshops of the bridge maintenance cycle | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4-1 | To prepare workshops and materials for the workshops and explain their part at workshops with RID | Nakajima/Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4-2 | To organize the workshops and review the result with RID | Ogawa / Mizota / Nakajima / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5 | To prepare draft annual bridge maintenance budget | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-1 | To draft the maintenance budget of target DPWT | Mizota / Nakajima / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-2 | To draft the maintenance budget with RID | Mizota / Nakajima / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-3 | To supervise "1.5.2 activities" and review drafts with RID | Ogawa | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

## 1-2 Progress of Activities

**Progress of activities is indicated in Monitoring Sheet Form 3-2 (PDM) and Form 3-3 (PO).**

## 1-3 Achievement of Output

| Output/Indicators | Achievement (%) | | Major Results | Status<br>OT: On Time<br>SFT: Scheduled for later<br>DL: Delay |
|---|---|---|---|---|
| | Plan | Actual | | |
| **Output-1: The bridge maintenance cycle is established.** | | | | |
| 1) The annual action plan for bridge maintenance cycle is developed by August every year for each targeted DPWT. | 60 | 90 | All of the nationwide bridges, totally 2,355 bridges, have been inspected, while review on inspection results of 173 bridges is required. | OT |
| | | 60 | Annual action plan for bridge maintenance cycle was drafted through the activities for budgeting of FY 2017 to MEF using the 3-year nationwide maintenance plan (Chapter 21 and Chapter 61) | OT |
| 2) At least 5 officials of RID engineers pass exam of bridge maintenance cycle | 80 | 100 | Seventeen (17) RID officials completed Maintenance Expert (ME) program required by Japanese experts. | OT |
| 3) The annual bridge maintenance budget is drafted at the target DPWTs of 2nd year and 3rd year by May every year. | 80 | 80 | For budget request of FY 2017, following activities are the major:<br>1. Budget request for "bridge" for Chapter 61 routine maintenance and Chapter 21 Investment<br>2. 3-year bridge maintenance plan<br>3. Road routine maintenance for measurement of IRI | OT |
| 4) 3 year bridge maintenance strategic plan of short term is prepared by RID/MPWT every August | 80 | 80 | A nationwide 3-year maintenance plan was drafted.<br>The maintenance priority list was developed accordingly. | OT |
| **Output-2: Road and bridge inspection capacity of RID is enhanced.** | | | | |
| 1) The road and bridge maintenance manuals are drafted by August 2015 and finalized by June | 80 | 80 | The road and bridge maintenance manuals are drafted. Khmer versions are being prepared. | OT |

| | | | | |
|---|---|---|---|---|
| 2017. | | | | |
| 2) The selected bridges of all DPWTs are inspected according to the maintenance manual. | 70 | 100 | The selected bridges of all DPWTs were inspected according to the maintenance manual. | OT |
| | | 70 | A pilot project for overloading control at Tsubasa Bridge has been conducted from September 2016 to August 2017. | OT |
| 3) The selected roads in the targeted DPWTs are inspected according to the maintenance manual | 50 | 50 | 1-digit roads throughout the nation and the selected roads in Kandal and Takeo province were successfully inspected by IRI-based inspection method according to the maintenance manual. | OT |
| 4) The inspection results are registered to the road and bridge database by RID until November every year. | 80 | 80 | Database was created and installed in RID office. All the inspection results have been registered in the database. | OT |
| 5) At least 5 officials of RID's engineers pass road and bridge inspection test. | 80 | 80 | Two (2) RID officials have passed road ME training program.<br>Seventeen (17) RID officials have passed bridge ME training program. | OT |
| **Output-3. Road and bridge repair capacity of RID is enhanced.** | | | | |
| 1) The road and bridge repair manuals are drafted by January 2016 and finalized by June 2017. | 80 | 80 | The road and bridge repair manuals are drafted. Khmer versions are being prepared. | OT |
| 2) The identified roads and bridges in the targeted DPWTs are repaired according to the repair manuals and the inspection results. | 50 | 50 | The 1st pilot project for road repair work has been implemented for selected roads in Kandal province.<br>3 bridges from Kandal province and 2 bridges from Phnom Penh were repaired by crack sealing method through the 1st pilot project. | OT |
| 3) The repair results are registered to the road and bridge database by RID within 1 month after the completion of repair works. | 40 | 40 | Repair results of the 1st pilot project are registered in the database system.<br>The form of the repair result is prepared. | OT |
| 4) At least 5 officials of RID's engineers pass road and bridge repair test. | 80 | 80 | Three (3) RID officials completed road ME training program, and five (5) RID officials completed bridge Maintenance Expert (ME) training program, instructed by Japanese experts. | OT |
| **Output-4. Road and bridge maintenance cycle is introduced to other DPWTs and concerning agencies** | | | | |
| 1) Bridge inspection is carried out at the more than 80% DPWTs (20/25 | 80 | 100 | Bridge inspection was conducted in all the DPWTs. | OT |

## 1-4 Achievement of the Project Purpose

| Project Purpose/Indicators | Achievement (%) | Situation | Expected Time of achievement |
|---|---|---|---|
| Project Purpose: Capacity of RID to supervise implementing bodies maintaining roads and bridges is enhanced. | | | |
| 1) Inspection results done by the three target DPWTs are approved by RID based on the manuals by the end of the Project. | 60 | [Road] 1-digit roads throughout the nation and the selected roads in Kandal and Takeo province were successfully inspected by IRI-based inspection.<br>[Bridge] Inspection of all the bridges in Cambodia has been completed in December 2015. | OT |
| 2) Repair results done by the two target | 60 | [Road] The 1st pilot project for road repair work has been implemented for selected | OT |

| | | | |
|---|---|---|---|
| DPWTs are approved by RID based on the manuals by the end of the Project | | roads in Kandal province.<br>[Bridge] 3 bridges from Kandal DPWT and 2 bridges from Phnom Penh DPWT were repaired by crack sealing method under the 1st pilot project. | |
| 3) The above two target DPWTs prepare a draft budget for roads and bridge maintenance for FY 2018 respectively within pre-agreed schedule. | 60 | [Road] The road condition evaluated by IRI is used for the FY 2017 budget request to MEF.<br>[Bridge] Budget for bridge maintenance was proposed for FY 2017 to MEF using the 3-year maintenance plan (Chapter 21 and Chapter 61) | OT |
| 4) Road and bridge maintenance cycle is explained and shared to concerning offices and units at the project wrap-up seminar. | 60 | Training for ME (Maintenance Experts on Road and Bridges) program was conducted for understanding road and bridge maintenance cycle. | OT |
| 5) Maintenance budget of road and bridge is prepared by RID according to the road and bridge maintenance cycle | 60 | [Road] The road condition evaluated by IRI is used for the FY 2017 budget request to MEF through ME program for understanding maintenance cycle.<br>[Bridge] Budget for bridge maintenance was proposed for FY 2017 to MEF using the 3-year maintenance plan through ME program for understanding maintenance cycle. | OT |

## 1-5 Achievement of the Overall Goal

| Overall Goal/Indicators | Achievement (%) | Situation | Expected Time of achievement |
|---|---|---|---|
| Overall Goal: Appropriate maintenance of roads and bridges is managed by MPWT. | | | |
| 1) The road and bridge database is updated once a year. | 60 | Prototype database covering all the bridges and selected roads on the nationwide road network was developed and installed in RID office. | OT |
| 2) Road and bridge maintenance plans are updated once a year based on the result of the road and bridge database updated | 60 | 3-year bridge maintenance plan and the selected roads maintenance plan for FY2017 were drafted based on developed database. | OT |
| 3) Road and bridge maintenance is carried out based on the road and bridge maintenance plan and the maintenance and | 30 | Road and bridge maintenance will be conducted based on the 3-year bridge maintenance plan and the road maintenance plan for the FY 2017 under supervision of RID | OT |

| | | | |
|---|---|---|---|
| repair manuals, under supervision of RID. | | | |
| 4) The road maintenance and repair manuals, and the bridge maintenance and repair manuals are regularly reviewed | 30 | [Road] Khmer version of road repair manual was completed.<br>[Bridge] Khmer version of bridge inspection and repair manual is under preparation. | OT |

**1-6 Changes of Risks and Actions for Mitigation**

**1) Activity 2-8: Overloading control**

A pilot project for overloading control has been prepared on schedule.

**2) Equipment for bridge inspection tools**

Special equipment for close bridge inspection has been procured. The appropriate utilization of the equipment has to be monitored for sustainability by JICA experts.

**3) Equipment for road inspection tools**

An additional DRIMS set has been procured. The appropriate utilization of the equipment has to be monitored for sustainability by JICA experts.

**4) Facilitate Maintenance Expert (ME) training program**

Participation for the ME training program should be encouraged by management level of MPWT.

**1-7 Progress of Actions undertaken by JICA**

**N/A**

**1-8 Progress of Actions undertaken by Gov. of Cambodia**

**N/A**

**1-9 Progress of Environmental and Social Considerations (if applicable)**

**N/A**

**1-10 Progress of Considerations on Gender/Peace Building/Poverty Reduction (if applicable)**

**N/A**

**1-11 Other remarkable/considerable issues related/affect to the project (such as other JICA's projects, activities of counterparts, other donors, private sectors, NGOs etc.)**

In regard to IRI measurement for road maintenance, Road Infrastructure Department (RID) will clarify the application range of two (2) types of IRI-measurement equipment, DRIMS and ROMDAS. As of December 2016, the application range is defined as shown in the following table.

| Implementation Stage | Road Digit Class | ROMDAS | DRIMS |
|---|---|---|---|
| Short Term (The next 3 years) | 1&2 | Planning | Planning |
| | 3&4 | N/A | Routine maintenance |
| | City Roads | N/A | |
| Mid Term (3 – 10 years) | 1&2 | Planning<br>Routine Maintenance | (Routine maintenance) |
| | 3&4 | N/A | Planning |
| | City Roads | N/A | Routine maintenance |

**Organizational arrangement: One office will be responsible for both RONDAS and DRIMS operation , data analysis and data use.**

## 2 Delay of Work Schedule and/or Problems (if any)

### 2-1 Detail

#### 1) Activity 2-8: Overloading control

A pilot project for overloading control has been prepared on schedule.

### 2-2 Cause

**N/A**

### 2-3 Action to be taken

Progress of the pilot project has to be monitored for smooth implementation of the project.

### 2-4 Roles of Responsible Persons/Organizations (JICA, Gov. of Cambodia, etc.)

**N/A**

## 3 Modification of the Project Implementation Plan

### 3-1 PO

PO of the project is prepared. It is attached as Monitoring Sheet Form 3-3.

### 3-2 Other modifications on detailed implementation plan

***(Remarks: The amendment of R/D and PDM (title of the project, duration, project site(s), target group(s), implementation structure, overall goal, project purpose, outputs, activities, and input) should be authorized by JICA HDQs. If the project team deems it necessary to modify any part of R/D and PDM, the team may propose the draft.)***

**PDM revised from Ver.2 to Ver.3 is attached as Monitoring Sheet Form 3-2.**

**PM Form 3-2 (1) Monitoring Sheet I (PDM Ver.2)**

**PM Form 3-2 (2) Monitoring Sheet I (PDM Ver.3)**

## 4 Measures undertaken by Gov. of Cambodia or Project Team to Ensure the Sustainability of Project after the Project Completion

### 4-1 Financial Sustainability

"The 3-year bridge maintenance strategic plan" has been drafted based on information stored in the bridge database developed in the project. The plan has been already submitted to MEF (Ministry of Economic and Finance) as the budget request and negotiations have been taken between MPWT and MEF for its approval.

### 4-2 Technical Sustainability

All the technologies transferred in the project have to be continued as the part of the project activities, assisted by the JICA expert team. The technical sustainability has to be appropriately monitored by the JICA expert team.

### 4-3 Institutional Sustainability

The project has proposed to create a regulation related to the Maintenance Experts (MEs). This is to specify tasks and responsibilities of the MEs and expected to encourage increase of the number of MEs.

## II. Project Monitoring Sheet I & II *as Attached*

# Project Monitoring Sheet I (Revision of Project Design Matrix)

Version 2

Dated January 2016

**Project Title:** The Project for Strengthening Capacity for Maintenance of Roads and Bridges
**Implementation Agency:** Road Infrastructure Department of Ministry of Public Work and Transport (RID MPWT)
**Target Groups:** Engineers of RID
**Period of Project:** April 2015 – March 2018
**Project Site:** Cambodia
**Target Area:** Roads and Bridges under MPWT

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| **Overall Goal**<br>Appropriate maintenance of roads and bridges is managed by MPWT. | 1. The road and bridge database is updated once / a year.<br>2. Road and bridge maintenance plans are updated once / a year base on the result of the road and bridge database updated.<br>3. Road and bridge maintenance is carried out based on the road and bridge maintenance plan and the maintenance and repair manuals, under supervision of RID.<br>4. The road maintenance and repair manuals, and the bridge maintenance and repair manuals are regularly reviewed. | 1. Log record of the database, random sample check of individual data<br>2. The maintenance plans, corresponding data from the database<br>3. The maintenance record, the maintenance plans and manuals<br>4. Minutes of the review meeting | - Country's socio-political situation does not change rapidly. | | |
| **Project Purpose**<br>Capacity of RID to supervise implementing bodies maintaining roads and bridges is enhanced. | 1. Inspection results done by the three target DPWTs are approved by RID based on the manuals by the end of the Project.<br>2. Repair results done by the two target DPWTs are approved by RID base on the manuals by the end of the Project.<br>3. The above two target DPWTs prepare | 1. DPWT inspection reports and on-site confirmation by RID<br>2. DPWT repair reports and on-site confirmation by RID.<br>3. The said draft budget and its submission date | - Organizational arrangement of MPWT is not changed drastically. | | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | a draft budget for roads and bridge maintenance for FY 2018 respectively within pre-agreed schedule.<br>4. Road and bridge maintenance cycle is explained and shared to concerning offices and units at the project wrap-up seminar.<br>5. Maintenance budget of road and bridge is prepared by RID according to the road and bridge maintenance cycle | 4. Number and name of the participated offices and unit<br>5. Interest level of the participants through the questionnaire. | | | |
| **Outputs**<br>1. The bridge maintenance cycle is established. | 1-1. The annual action plan for bridge maintenance cycle is developed and approved by August every year for each targeted DPWT.<br>1-2. At least 5 officials of RID engineers pass exam of bridge maintenance cycle.<br>1-3. The annual bridge maintenance budget is drafted at the target DPWTs of 2nd year and 3rd year by May every year.<br>1-4. 3 Year Bridge Maintenance Strategic Plan of short term is prepared by RID/MPWT every August | 1-1. # Project Monitoring Sheet I (Revision of Project Design Matrix)

Version 3

Dated December 2016

**Project Title:** The Project for Strengthening Capacity for Maintenance of Roads and Bridges
**Implementation Agency:** Road Infrastructure Department of Ministry of Public Work and Transport (RID MPWT)
**Target Groups:** Engineers of RID
**Period of Project:** April 2015 – March 2018
**Project Site:** Cambodia
**Target Area:** Roads and Bridges under MPWT

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| **Overall Goal**<br>Appropriate maintenance of roads and bridges is managed by MPWT. | 1. The road and bridge database is updated once / a year.<br><br>2. Road and bridge maintenance plans are updated once / a year base on the result of the road and bridge database updated.<br><br>3. Road and bridge maintenance is carried out based on the road and bridge maintenance plan and the maintenance and repair manuals, under supervision of RID.<br><br>4. The road maintenance and repair manuals, and the bridge maintenance and repair manuals are regularly reviewed. | 1. Log record of the database, random sample check of individual data<br>2. The maintenance plans, corresponding data from the database<br>3. The maintenance record, the maintenance plans and manuals<br>4. Minutes of the review meeting | - Country's socio-political situation does not change rapidly. | Prototype bridge database which covered all the bridges on national roads was developed and installed in RID office.<br><br>3-year bridge maintenance plan and the maintenance budget for FY2017 were drafted based on developed database.<br><br>3-year bridge maintenance plan and the annual maintenance budget will be updated by RID.<br><br>[Road] Khmer version of road repair manual was completed.<br>[Bridge] Khmer version of bridge inspection and repair | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | | | | manual is under preparation. | |
| **Project Purpose**<br>Capacity of RID to supervise implementing bodies maintaining roads and bridges is enhanced. | 1. Inspection results done by the three target DPWTs are approved by RID based on the manuals by the end of the Project.<br>2. Repair results done by the two target DPWTs are approved by RID base on the manuals by the end of the Project.<br>3. The above two target DPWTs prepare a draft budget for roads and bridge maintenance for FY 2018 respectively within pre-agreed schedule. | 1. DPWT inspection reports and on-site confirmation by RID<br>2. DPWT repair reports and on-site confirmation by RID.<br>3. The said draft budget and its submission date<br>4. Number and name of the participated offices and unit<br>5. Interest level of the participants through the questionnaire. | - Organizational arrangement of MPWT is not changed drastically. | [Road] 1-digit roads throughout the nation and the selected roads in Kandal and Takeo province were successfully inspected by IRI-based inspection.<br>[Bridge] Inspection of all the bridges in Cambodia has been completed in December 2015.<br><br>[Road] The 1st pilot project for road repair work has been implemented for selected roads in Kandal province.<br>[Bridge] 3 bridges from Kandal DPWT and 2 bridges from Phnom Penh DPWT were repaired by crack sealing method under the 1st pilot project.<br><br>[Road] The road condition evaluated by IRI is used for the FY 2017 budget request to MEF.<br>[Bridge] Budget for bridge maintenance was proposed for FY 2017 to MEF using the | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | 4. Road and bridge maintenance cycle is explained and shared to concerning offices and units at the project wrap-up seminar.<br><br>5. Maintenance budget of road and bridge is prepared by RID according to the road and bridge maintenance cycle | | | 3-year maintenance plan (Chapter 21 and Chapter 61)<br><br>Training for ME (Maintenance Experts on Road and Bridges) program was conducted for understanding road and bridge maintenance cycle.<br><br>[Road] The road condition evaluated by IRI is used for the FY 2017 budget request to MEF through ME program for understanding maintenance cycle.<br>[Bridge] Budget for bridge maintenance was proposed for FY 2017 to MEF using the 3-year maintenance plan through ME program for understanding maintenance cycle. | |
| **<u>Outputs</u>**<br>1. The bridge maintenance cycle is established. | 1-1. The annual action plan for bridge maintenance cycle is developed and approved by August every year for each targeted DPWT. | 1-1. The annual action plan and it's date developed and approved<br>1-2. The exam results and participants list<br>1-3. The drafted budget and its date<br>1-4. 3 Year Bridge Maintenance Strategic | - The trained staff/officers remain at the job.<br>- Roles of DPWTs and other concerning offices and units are not changed including budget preparation | Annual action plan for bridge maintenance cycle was drafted through the activities for budgeting of FY 2017 to MEF using the 3-year nationwide maintenance plan (Chapter 21 and | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | | Plan | system. | Chapter 61)<br>Annual action plan (draft) for bridge maintenance was prepared through a drafted 3-year bridge maintenance plan while a detailed action plan should be prepared for targeted DPWTs. | |
| | 1-2. At least 5 officials of RID engineers pass exam of bridge maintenance cycle. | | | Seventeen (17) RID officials completed Maintenance Expert (ME) program required by Japanese experts. | |
| | 1-3. The annual bridge maintenance budget is drafted at the target DPWTs of 2nd year and 3rd year by May every year. | | | For budget request of FY 2017, following supports are the major:<br>1. Budget request for "bridge" for Chapter 61 routine maintenance and Chapter 21 Investment<br>2. 3-year bridge maintenance plan<br>3. Road routine maintenance for measurement of IRI | |
| | 1-4. 3 Year Bridge Maintenance Strategic Plan of short term is prepared by RID/MPWT every August | | | A nationwide 3-year maintenance plan was drafted.<br>The maintenance priority list was developed accordingly. | |
| 2. Road and bridge inspection capacity of RID is enhanced. | 2-1. The road and bridge maintenance manuals are drafted by August 2015 | 2-1. The manuals and its' date prepared | | The road and bridge maintenance manuals | |

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| | and finalized by June 2017.<br><br>2-2. The selected bridges of all DPWTs are inspected according to the maintenance manual.<br><br>2-3. The selected roads in the targeted DPWTs are inspected according to the maintenance manual<br><br>2-4. The inspection results are registered to the road and bridge database by RID until November every year.<br><br>2-5. ## 1-2 Progress of Activities

**Progress of activities is indicated in Monitoring Sheet Form 3-2 (PDM) and Form 3-3 (PO).**

## 1-3 Achievement of Output

| Output/Indicators | Achievement (%) | | Major Results | Status<br>OT: On time<br>SFT: Scheduled for later<br>DL: Delayed |
|---|---|---|---|---|
| | Plan | Actual | | |
| **Output-1: The bridge maintenance cycle is established.** | | | | |
| 1) The annual action plan for bridge maintenance cycle is developed by August every year for each targeted DPWT. | 80 | 100 | All of the nationwide bridges, totally 2,422 bridges, have been inspected. | OT |
| | | 80 | Annual action plan for bridge maintenance cycle has been drafted through the activities for budgeting of FY 2017 to MEF using the 3-year nationwide maintenance plan (Chapter 21 and Chapter 61).<br>Also, the action plan for the final year of the project was prepared to practically implement the plan for bridge maintenance cycle circulation. | OT |
| 2) At least 5 officials of RID engineers pass exam of bridge maintenance cycle | 80 | 100 | 17 RID officials completed Maintenance Expert (ME) training program.<br>ME training for DPWTs has been started. | OT |
| 3) The annual bridge maintenance budget is drafted at the target DPWTs of 2nd year and 3rd year by May every year. | 80 | 80 | For the FY 2018 budget proposal of following activities are the major:<br>1. Budget proposal for "bridge" for Chapter 61 routine maintenance and Chapter 21 Investment<br>2. 3-year bridge maintenance plan<br>3. Road routine maintenance for measurement of IRI | OT |
| 4) 3 year bridge maintenance strategic plan of | 80 | 80 | A nationwide 3-year maintenance plan was updated. | OT |

| | | | | |
|---|---|---|---|---|
| short term is prepared by RID/MPWT every August | | | | |
| **Output-2: Road and bridge inspection capacity of RID is enhanced.** | | | | |
| 1) The road and bridge maintenance manuals are drafted by August 2015 and finalized by June 2017. | 90 | 90 | The road and bridge maintenance manuals are drafted. Khmer version of bridge inspection manual has been drafted and under review, aiming at August, 2017 for its completion. | OT |
| 2) The selected bridges of all DPWTs are inspected according to the maintenance manual. | 70 | 100 | The selected bridges of all DPWTs were inspected according to the maintenance manual. Additionally, 173 damaged bridges were identified and detailed inspection for the bridges has been carried out. | OT |
| | | 70 | A pilot project for overloading control at Tsubasa Bridge has been conducted from September 2016 to August 2017. The mid-term seminar on the pilot project of overloading vehicle control at Tsubasa Bridge was held in April, 2017. | OT |
| 3) The selected roads in the targeted DPWTs are inspected according to the maintenance manual | 70 | 70 | 1-digit roads throughout the nation and the selected roads in Kandal and Takeo province were successfully inspected by IRI-based inspection method according to the maintenance manual. IRI measurement in Kep province is planned as the next activity. | OT |
| 4) The inspection results are registered to the road and bridge database by RID until November every year. | 80 | 100 | Database was created and installed in RID office. All the inspection results have been registered in the database. | OT |
| 5) At least 5 officials of RID's engineers pass road and bridge inspection test. | 80 | 100 | Two (2) RID officials have passed road ME training program. Seventeen (17) RID officials have passed bridge ME training program. | OT |
| **Output-3. Road and bridge repair capacity of RID is enhanced.** | | | | |
| 1) The road and bridge repair manuals are drafted by January 2016 and finalized by June 2017. | 90 | 100 | The road and bridge repair manuals are drafted. Also, Khmer versions have been drafted. | OT |
| 2) The identified roads and bridges in the targeted DPWTs are repaired according to the repair manuals and the inspection results. | 100 | 100 | The 1st pilot project for road repair work has been implemented for selected roads in Kandal province. 3 bridges in Kandal province and 2 bridges in Phnom Penh were repaired by crack sealing method through the 1st pilot project. A bridge in Preah Sihanouk province was repaired | OT |

## 1-4 Achievement of the Project Purpose

| Project Purpose/Indicators | Achievement (%) | Situation | Expected Time of achievement |
|---|---|---|---|
| Project Purpose: Capacity of RID to supervise implementing bodies maintaining roads and bridges is enhanced. | | | |
| 1) Inspection results done by the three target DPWTs are approved by RID based on the manuals by the end of the Project. | 100 | [Road] 1-digit roads throughout the nation and the selected roads in Kandal and Takeo provinces have been successfully inspected by IRI-based inspection.<br>[Bridge] Inspection of all the bridges in Cambodia has been completed in December, 2015. Additionally, 173 damaged bridges were identified and detailed inspection for the bridges has been carried out. | OT |
| 2) Repair results done by the two target DPWTs are approved by RID based on the manuals by the end of the Project | 100 | [Road] The 1st pilot project for road repair work has been implemented for selected roads in Kandal province.<br>[Bridge] 3 bridges from Kandal DPWT and 2 bridges from Phnom Penh DPWT were repaired by crack sealing method under the 1st pilot project. Also, a bridge in Preah Sihanouk province was repaired by carbon fiber sheet method through 2nd pilot project. | OT |
| 3) The above two target DPWTs prepare a draft budget for road and bridge | 80 | [Road] The road condition evaluated by IRI is to be used for the FY 2018 budget proposal to MEF.<br>[Bridge] Budget for bridge maintenance | OT |

| | | | |
|---|---|---|---|
| maintenance for FY 2018 respectively within pre-agreed schedule. | | was proposed for FY 2017 to MEF using the 3-year maintenance plan (Chapter 21 and Chapter 61). The updated plan will be proposed for the FY2018 budget. | |
| 4) Road and bridge maintenance cycle is explained and shared with concerned offices and units at the project wrap-up seminar. | 60 | Instructions for road and bridge maintenance cycle have been given to MPWT and DPWT officials through Maintenance Expert (ME) training program.<br>The project team has been in cooperation with Institute of Technology of Cambodia (ITC) on bridge database system and bridge repair pilot projects. | OT |
| 5) Maintenance budget of road and bridge is prepared by RID according to the road and bridge maintenance cycle | 80 | [Road] The road condition evaluated by IRI is to be used for the FY 2018 budget proposal to MEF through ME program for understanding maintenance cycle.<br>[Bridge] Budget on bridge maintenance for FY2017 has been proposed to MEF based on the 3-year maintenance plan.<br>USD2million out of USD10million that was proposed for FY2017 has already been approved by MEF for replacement of 4 damaged bridges.<br>[Road/Bridge] The budget for road and bridge inspection has been approved by MEF. | OT |

## 1-5 Achievement of the Overall Goal

| Overall Goal/Indicators | Achievement (%) | Situation | Expected Time of achievement |
|---|---|---|---|
| Overall Goal: Appropriate maintenance of roads and bridges is managed by MPWT. | | | |
| 1) The road and bridge database is updated once a year. | 80 | Prototype database that stores all the bridges and selected roads on the nationwide road network has been developed and installed in RID office in 2016.<br>The database information has been updated with road inspection result in Takeo and detailed inspection result of 173 damaged bridges in 2017. | OT |
| 2) Road and bridge maintenance plans are updated once a year based on the result of the road and bridge database updated | 80 | [Road] Maintenance plans for road sections inspected in Kandal province has been drafted and to be used in the budget proposal for FY2018. Additionally, maintenance budget plan for Takeo province is planned to be prepared for FY2018.<br>[Bridge] 3-year bridge maintenance plan has been drafted based on information in | OT |

## 1-6 Changes of Risks and Actions for Mitigation

### 1) Activity 2-8: Overloading control

A pilot project for overloading control has been carried out on schedule.

### 2) Equipment for bridge inspection tools

Special equipment for close bridge inspection has been procured. The appropriate utilization of the equipment has been monitored for sustainability by JICA experts.

### 3) Equipment for road inspection tools

Additional DRIMS equipment has been procured. The appropriate utilization of the equipment has been monitored for sustainability by JICA experts.

### 4) Facilitate Maintenance Expert (ME) training program

ME training program has been implemented since 2016. The following trainings have been carried out since then:

- ME training on road inspection using DRIMS for RID officials
- ME training on road repair for RID officials
- 5 workshops on the road repair manual for 25 DPWTs
- ME training on bridge inspection for RID officials
- ME training on bridge repair for RID officials
- 5 workshops on the bridge repair manual for 25 DPWTs

**1-7 Progress of Actions undertaken by JICA**

**N/A**

**1-8 Progress of Actions undertaken by Gov. of Cambodia**

**N/A**

**1-9 Progress of Environmental and Social Considerations (if applicable)**

**N/A**

**1-10 Progress of Considerations on Gender/Peace Building/Poverty Reduction (if applicable)**

**N/A**

**1-11 Other remarkable/considerable issues related/affect to the project (such as other JICA's projects, activities of counterparts, other donors, private sectors, NGOs etc.)**

In regard to IRI measurement for road maintenance, Road Infrastructure Department (RID) has clarified the application range of two (2) types of IRI-measurement equipment, DRIMS and ROMDAS. The application range has been defined as shown in the following table.

| Implementation Stage | Road Digit Class | ROMDAS | DRIMS |
|---|---|---|---|
| Short Term (The next 3 years) | 1&2 | Planning | Planning |
| | 3&4 | N/A | Routine maintenance |
| | City Roads | N/A | |
| Mid Term (3 – 10 years) | 1&2 | Planning | (Routine maintenance) |
| | | Routine Maintenance | |
| | 3&4 | N/A | Planning |
| | City Roads | N/A | Routine maintenance |

**Note: One office will be responsible for both ROMDAS and DRIMS operation, data analysis and data use.**

## 2 Delay of Work Schedule and/or Problems (if any)

**2-1 Detail**

**1) Activity 2-8: Overloading control**

A pilot project for overloading control has been prepared on schedule.

**2-2 Cause**

**N/A**

**2-3 Action to be taken**

Progress of the pilot project has to be monitored for smooth implementation of the project.

**2-4 Roles of Responsible Persons/Organizations (JICA, Gov. of Cambodia, etc.)**

**N/A**

## 3 Modification of the Project Implementation Plan

**3-1 PO**

PO of the project is prepared. It is attached as Monitoring Sheet Form 3-3.

**3-2 Other modifications on detailed implementation plan**

***(Remarks: The amendment of R/D and PDM (title of the project, duration, project site(s), target group(s), implementation structure, overall goal, project purpose, outputs, activities, and input) should be authorized by JICA HDQs. If the project team deems it necessary to modify any part of R/D and PDM, the team may propose the draft.)***

**PDM revised from Ver.3 to Ver.4 is attached as Monitoring Sheet Form 3-2.**

**PM Form 3-2 (1) Monitoring Sheet I (PDM Ver.3)**

**PM Form 3-2 (2) Monitoring Sheet I (PDM Ver.4)**

## 4 Measures undertaken by Gov. of Cambodia or Project Team to Ensure the Sustainability of Project after the Project Completion

### 4-1 Financial Sustainability

"The 3-year bridge maintenance strategic plan" has been drafted based on information stored in the bridge database developed in the project. The plan was submitted to MEF (Ministry of Economic and Finance) in 2016 as the FY 2017 budget proposal and negotiations have been taken between MPWT and MEF for its approval. The maintenance plan will be updated for the FY2018 budget proposal.

### 4-2 Technical Sustainability

All the technologies transferred in the project have to be continued as the part of the project activities in accordance with the action plan stated in "4-3 Institutional Sustainability". The technical sustainability has to be appropriately monitored by the JICA expert team.

### 4-3 Institutional Sustainability

The project has proposed the action plan for bridge maintenance cycle circulation in order to:

1) stipulate required tasks and responsibilities of RID and

2) institutionalize the Maintenance Expert (ME) training program.

## II. Project Monitoring Sheet I & II　*as Attached*

# Project Monitoring Sheet I (Revision of Project Design Matrix)

Version 3

Dated December 2016

**Project Title:** The Project for Strengthening Capacity for Maintenance of Roads and Bridges
**Implementation Agency:** Road Infrastructure Department of Ministry of Public Work and Transport (RID MPWT)
**Target Groups:** Engineers of RID
**Period of Project:** April 2015 – March 2018
**Project Site:** Cambodia
**Target Area:** Roads and Bridges under MPWT

| Project Summary | Objectively Verifiable Indicators | Means of Verification | Important Assumptions | Achievement | Remarks |
|---|---|---|---|---|---|
| **Overall Goal**<br>Appropriate maintenance of roads and bridges is managed by MPWT. | 1. The road and bridge database is updated once / a year.<br><br>2. |---|---|---|---|---|---|
| | 4-3. The project activities are disseminated to other agencies concerning road/bridge maintenance. (number is not specified but with increments through the project) | | | Kickoff Seminar on 22 May 2015: MPWT, DPWTs, MEF, WB, ADB<br>SIP seminar in March 2016: road and bridge maintenance jointly held with ITC<br>Coordination of bridge database utilization with university (ITC)<br>Participation of database training from HEC, RMC and SPEAD<br>Bridge inspection jointly with ITC | |

| **Activities** | **Inputs** | | |
|---|---|---|---|
| 1-1. To review the present bridge maintenance cycle and the works of RID in comparison to the existing Japanese system<br>1-2. To propose 3 year bridge maintenance strategic plan with the annual action plan to establish a proper bridge maintenance cycle<br>1-3. To propose annual action plan for bridge maintenance cycle to establish a proper bridge maintenance cycle based on the review results<br>1-4. To practice the action plan<br>1-5. To hold workshop of the bridge maintenance cycle<br>1-6. To prepare draft annual bridge maintenance budget<br><br>2-1. To review and develop road maintenance manual<br>2-2. To review and develop bridge maintenance manual, including a database frame<br>2-3. To hold training workshops on road and bridge inspections<br>2-4. For bridge, to inspect bridges and prepare rough cost estimation of the repair works for all DPWTs<br>2-5. For roads, to inspect roads using IRI and prepare rough cost estimation of the repair works at the target DPWTs<br>2-6.To register the inspection results in the database by RID<br>2-7. To revise the road and bridge maintenance manuals incorporating lessons learned from the above activities by organizing review workshops<br>2-8. To conduct preliminary study on overloading control (at Tsubasa Bridge)<br><br>3-1. To review and establish road repair manual<br>3-2. To review and establish bridge repair manual<br>3-3. To hold training workshops on road and bridge repairs<br>3-4. To identify roads and bridges for the pilot repair works based on the inspection results at the target DPWTs<br>3-5. To establish repair plan for the identified roads and bridges at the target DPWTs<br>3-6. To repair the identified roads and bridges at the target DPWTs | (Japan side)<br>1. A chief advisor / A long term expert<br><br>2. Short term experts<br>1) Team Leader / Bridge Maintenance Engineer<br>2) Deputy-team leader / Road Maintenance Planner<br>3) Bridge Inspection Engineer (1)<br>4) Bridge Inspection Engineer (2)<br>5) Bridge Repair Engineer (1) (Planning and Design)<br>6) Bridge Repair Engineer (2) (Repairing work Expert)<br>7) Bridge Repair Engineer (3)<br>8) Bridge Maintenance Planner<br>9) Road Maintenance Engineer(1) / Equipment procurement engineer<br>10) Road Maintenance Engineer(2)<br>11) Coordinator / Assistant for Road and Bridge Inspection<br>12) Coordinator for other relevant project / C/P training Supervision<br>13) Road Maintenance Engineer (3) (Overloading Control)<br>14) Database Expert<br><br>3. Equipment for road and bridge maintenance<br><br>4. C/P training<br><br>5. Cost for seminars and Trainings as the project activities | (Cambodia side)<br>1. Arrangement of counterpart personnel<br>1) Project Director<br>2) Project Manager<br>3) Other Necessary Personnel<br><br>2. Implementation cost for the pilot repair works<br><br>3. Travel expenses and allowances for the participants of the seminars and trainings organized as the project activities<br><br>4. Maintenance cost of the JICA project equipment<br><br>5. Office space including its utility cost (electricity, water, internet and other necessary office facilities)<br><br>6. Etc. | - Conditions of roads and bridges under MPWT are not rapidly deteriorated.<br>- Flood with large scale is not occurred annually.<br><br>Pre-condition<br>N/A |

| | | | |
|---|---|---|---|
| 3-7. To evaluate the above repair works<br>3-8. To revise the road and bridge repair manual incorporating lessons learned from the above activities by organizing review workshop by organizing review workshop<br><br>4-1. To organize seminars for other DPWTs – trainings on road and bridge inspection<br>4-2. To organize seminars for other DPWTs – trainings on road and bridge repair<br>4-3. To organize the project wrap-up seminar | | | |

Form 3-3 Project Monitoring Sheet II (Revision of Plan of Operation)

Ver. 3

Dated: December, 2016

Project Title: The Project for Strengthening Capacity for Maintenance of Roads and Bridges

| Output-1: The bridge maintenance cycle is established. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1 | To review the present bridge maintenance cycle and the works of RID in comparison to the existing Japanese system | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-1 | To collect existing Data and analyze them with RID | Ogawa / Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-2 | To study the cases of Japanese bridge maintenance cycle that be able to apply to Cambodia | Mizota / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-3 | To review the result and discuss with RID | Ogawa / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2 | To propose 3 year bridge maintenance strategic plan with the annual action plan to establish a proper bridge maintenance cycle | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2-1 | To draft the action plan with RID | Mizota / Nakajima/ Tokumasu | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2-2 | To supervise "1.2.1 activities" and review with RID for final action plan | Ogawa / Mizota / Nakajima | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3 | To practice the action plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3-1 | To supervise the action of RID and the other organization | Mizota/Nakajima/ Tokumasu/Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3-2 | To supervise "1.3.1 activities" and evaluate it with RID | Ogawa /Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4 | To hold workshops of the bridge maintenance cycle | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4-1 | To prepare workshops and materials for the workshops and explain their part at workshops with RID | Nakajima/Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4-2 | To organize the workshops and review the result with RID | Ogawa / Mizota / Nakajima / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5 | To prepare draft annual bridge maintenance budget | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-1 | To draft the maintenance budget of target DPWT | Mizota / Nakajima / Watanabe/Ono | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-2 | To draft the maintenance budget with RID | Mizota / Nakajima / Watanabe/Ono | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-3 | To supervise "1.5.2 activities" and review drafts with RID | Ogawa | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| Output-2: Road and bridge inspection capacity of RID is enhanced. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1 | To review and develop road maintenance manual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-1 | To review road maintenance manual with RID | Nakajima / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-2 | To draft new road maintenance manual with RID | Nakajima / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-3 | To supervise "2.1.1-2 activities" and review it with RID | Ogawa / Nakajima | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2 | To review and develop bridge maintenance manual, including a database framework | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2-1 | To draft new bridge maintenance manual with RID | Tokumasu/ Tsukamoto/Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2-2 | To supervise "2.2.1 activities" and review it with RID for finalizing bridge maintenance manual | Ogawa/Tokumasu/ Tsukamoto/Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3 | To hold training workshops on road and bridge inspections | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3-1 | To prepare workshops and materials for the workshops and explain their part at workshops with RID | Tokumasu/Tsukamoto/ Ohtake/Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3-2 | To organize the workshops and review the result with RID | Ogawa/Tokumasu/ Tsukamoto/Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4 | For bridge, to inspect bridges and prepare rough cost estimation of the repair works for all DPWTs | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-1 | To prepare draft inspection plan for bridges with RID | Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-2 | To implement bridge inspection with RID and DPWTs engineers at all the DPWTs | Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-3 | To prepare rough cost estimation of the repair works for bridges with RID | Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-4 | To supervise "2.4.1-3 activities" and discuss with RID | Ogawa/ Mizota/ Tokumasu/Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5 | For roads, to inspect roads using IRI and prepare rough cost estimation of the repair works at the target DPWTs | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-1 | To prepare draft inspection plan for roads with RID | Nakajima/ Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-2 | To implement road inspection with RID and DPWTs engineers at the target DPWTs | Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-3 | To prepare rough cost estimation of the repair works for roads with RID | Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-4 | To supervise "2.5.1-3 activities" and discuss with RID | Ogawa/ Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6 | To register the inspection results in the database by RID | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6-1 | To register the inspection results of roads with RID | Nakajima/ Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 1 | 2 | 3 | Japan | Cambodia | | |
| Output-1: The bridge maintenance cycle is established. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1 | To review the present bridge maintenance cycle and the works of RID in comparison to the existing Japanese system | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-1 | To collect existing Data and analyze them with RID | Ogawa / Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-2 | To study the cases of Japanese bridge maintenance cycle that be able to apply to Cambodia | Mizota / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-1-3 | To review the result and discuss with RID | Ogawa / Tokumasu / Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2 | To propose 3 year bridge maintenance strategic plan with the annual action plan to establish a proper bridge maintenance cycle | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2-1 | To draft the action plan with RID | Mizota / Nakajima/ Tokumasu | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-2-2 | To supervise "1.2.1 activities" and review with RID for final action plan | Ogawa / Mizota / Nakajima | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3 | To practice the action plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3-1 | To supervise the action of RID and the other organization | Mizota/Nakajima/ Tokumasu/Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-3-2 | To supervise "1.3.1 activities" and evaluate it with RID | Ogawa /Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4 | To hold workshops of the bridge maintenance cycle | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4-1 | To prepare workshops and materials for the workshops and explain their part at workshops with RID | Nakajima/Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-4-2 | To organize the workshops and review the result with RID | Ogawa / Mizota / Nakajima / Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5 | To prepare draft annual bridge maintenance budget | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-1 | To draft the maintenance budget of target DPWT | Mizota / Nakajima / Watanabe/Ono | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-2 | To draft the maintenance budget with RID | Mizota / Nakajima / Watanabe/Ono | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 1-5-3 | To supervise "1.5.2 activities" and review drafts with RID | Ogawa | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

| | ACTIVITIES | Expert in charge | Plan/ Actual | 2015 | | | | | | | | | | | | 2016 | | | | | | | | | | | | 2017 | | | | | | | | | | | | 2018 | | | Responsible Organization | | Achievements | Issue & Countermeasures |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 1 | 2 | 3 | Japan | Cambodia | | |
| Output-2: Road and bridge inspection capacity of RID is enhanced. | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1 | To review and develop road maintenance manual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-1 | To review road maintenance manual with RID | Nakajima / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-2 | To draft new road maintenance manual with RID | Nakajima / Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-1-3 | To supervise "2.1.1-2 activities" and review it with RID | Ogawa / Nakajima | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2 | To review and develop bridge maintenance manual, including a database framework | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2-1 | To draft new bridge maintenance manual with RID | Tokumasu/ Tsukamoto/Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-2-2 | To supervise "2.2.1 activities" and review it with RID for finalizing bridge maintenance manual | Ogawa/Tokumasu/ Tsukamoto/Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3 | To hold training workshops on road and bridge inspections | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3-1 | To prepare workshops and materials for the workshops and explain their part at workshops with RID | Tokumasu/Tsukamoto/ Ohtake/Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-3-2 | To organize the workshops and review the result with RID | Ogawa/Tokumasu/ Tsukamoto/Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4 | For bridge, to inspect bridges and prepare rough cost estimation of the repair works for all DPWTs | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-1 | To prepare draft inspection plan for bridges with RID | Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-2 | To implement bridge inspection with RID and DPWTs engineers at all the DPWTs | Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-3 | To prepare rough cost estimation of the repair works for bridges with RID | Tokumasu/ Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-4-4 | To supervise "2.4.1-3 activities" and discuss with RID | Ogawa/ Mizota/ Tokumasu/Tsukamoto | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5 | For roads, to inspect roads using IRI and prepare rough cost estimation of the repair works at the target DPWTs | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-1 | To prepare draft inspection plan for roads with RID | Nakajima/ Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-2 | To implement road inspection with RID and DPWTs engineers at the target DPWTs | Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-3 | To prepare rough cost estimation of the repair works for roads with RID | Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-5-4 | To supervise "2.5.1-3 activities" and discuss with RID | Ogawa/ Mizota | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6 | To register the inspection results in the database by RID | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6-1 | To register the inspection results of roads with RID | Nakajima/ Ohtake | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| | | | Actual | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2-6-2 | To register the inspection results of bridges with RID | Tokumasu/Tsukamoto/ Watanabe | Plan | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
