Alignment and Track Improvement Areas

## Attachment 8.2(2): Questionnaire Form used in the Socio-Economic Survey

## Questionnaire for Environmental and Social Survey

on Affected Units and Affected People, the Losses, Income and Livelihood of the Affected People
This questionnaire is used for the Environmental and Social Survey in..................................................................... in which the detailed information about the affected units, affected people, the losses, income and livelihood of those affected people are to be collected in their houses..

The following two main subjects are focused in this questionnaire.
Part (A) Analysis on Affected Units, Affected People, and the Losses
Part (B) Survey on Income and Livelihood of the Affected People

| Survey Sr. Number |  |  |  | Survey Date: <br> Position/Org. |
| :---: | :---: | :---: | :---: | :---: |
| Enumerator | Signature | Name |  |  |
| Inspector | Signature | Name |  | Position/Org. |
| Name of PAP |  |  | PAU Location |  |

Part (A) Analysis on Affected Units, Affected People, and the Losses

| No. | Affected Unit | $\begin{gathered} \text { No. } \\ \text { of } \\ \text { Unit } \end{gathered}$ | Legal Status | Size of the Land (Sq. Feet) | Housing Structure |  |  |  | Estimate market Price of Building (to get from other sources, not from PAP) | Remark |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  | No. of Story | Roof | Wall | Post/ <br> Beam |  |  |
| 1 | House 1 |  |  |  |  |  |  |  |  |  |
| 2 | House 2 |  |  |  |  |  |  |  |  |  |
| 3 | Shop |  |  |  |  |  |  |  |  |  |
| 4 | Stall |  |  |  |  |  |  |  |  |  |
| 5 | Community owned Building |  |  |  |  |  |  |  |  |  |
| 6 | Religious Building |  |  |  |  |  |  |  |  |  |
| 7 | Other |  |  |  |  |  |  |  |  |  |

NOTE: In the remark column, mention the specific name and significant information; if they are different form the former descriptions.

- Type of ownership
(a) legally owned (b) MR's Tenant (c) Illegal
- No. of Storey
(a) One Storey (b) Two Storey (c) more than Two Storey
- Roof
(a) Bamboo /Leaf/Tarpaulin (b) Zinc Sheet
(c) Brick Roofing
- Wall
(a) Bamoo (b) Wood (c) Brick
- Post/Beam
(a) Bamboo (b) Wood
(c) Brick/RC

## Part (B) Survey on Income and Livelihood of the Affected People

## 1. Information of the Household Head

Household Head/ Asset Owner
Respondent (on behalf of HH)

This is the translated English version of the Cut-Off Date Announcement.

## 1. Description of the Project

a) Name of the Project - Yangon - Mandalay Raiway Improvement Project (Phase 2)
b) Environmental Type of the Project - EA Type Project (expected)

## c) Objective of the Project

To improve and modernize old facilities and equipment in the Yangon - Mandalay Railway for the Section between Taungoo and Mandalay and thereby realizing safer and faster train operation, expanding the transportation capacity: and contributing to cocio-conomic development of Myanmar.

## d) Main Components of the Project

i. Civil Works including track works, civil structures and station building
ii. Upgrading of signaling and telecommunication system
iii. Introduction of the new rolling stock (DEMU)
iv. Improvement of freight facilities
e) Location of the Project - Section between Taungoo Station and Mandalay Station on the Yangon - Mandalay Railway f) Schedule of the Project (tentative) - Construction is planned to be started in 2021 and last for approximately 5 years

## 2. Announcement of the Cut-Off Date

Cut-off date is set in order to identify/differentiate genuine PAPs from non-eligible people. For this Yangon - Mandalay Railway Improvement Project (Phase 2) the Cut-Off Date is set as July 20, 2017.

## 3. Project Proponent and Contact Person

The Project Proponent is Myanma Railways (MR) under the Ministry of Transport and Communications (MOTC)
< address > Nay Pyi Taw Station Compound
< TEL > 067-77087
< FAX > 067-77164
Comments and suggestions about the project can be written and sent to the following contact person:
< Name > U Phyo Htet Kyaw
< Position > Assistant General Manager (Planning),
Planning and Administration Department,
International Relationship, Myanma Railways
< E-mail>kozin6893@gmail.com

## Attachment 8.2(4): Document for Individual Public Consultations

## Meeting Records during socio-economic survey

Socio-economic surveys had been conducted for the target areas of three sectors, (a) bridge renovation areas (b) Myohaung depot improvement area and alignment and track improvement areas along the section of Taungoo-Mandalay. The survey team recorded the questionnaires raised by some respondents and prepared as the meeting records during the census survey.

## (a) Bridge Renovation Area

The field survey for Bridge Renovation Area was conducted on May 17-18 and the second is on July 10-12, 2017. The survey team had met people who are living near/around renovated bridges like bridge Nos. $379,393,417,683$ and 748 . The survey team held the brief public consultation with those affected household member and the purpose is to disclose the information about the project plan up to grass-root level communities. Participants list of public consultation are as shown in table

| Item | Description |  |
| :--- | :--- | :---: |
| JICA Survey Team | 1. U Bo Bo Han, Senior Environmental Engineer |  |
|  | 2. U Ye Wint Aung, Junior Environmental Engineer |  |
|  | 3. U Ye Soe Oo, Junior Environmental Engineer |  |
|  | 4. U Htet Thu Soe, Junior Environmental Engineer |  |
| Myanma Railways (MR) | 1. U Aung San Oo, Assistant Engineer |  |
|  | 2. U Aung Kyaw Nyunt, Junior Engineer |  |
|  | 3. U Myo Aung, Junior Engineer |  |
|  | 4. U Kyaw Thura, Junior Engineer |  |
|  | 5. U Zaw Oo, MR Staff |  |
|  | 6. U Phyo Ko Ko, MR Staff |  |
|  | 7. U Han Thar, MR Staff |  |
|  | 8. U Chan Thar Oo, MR Staff |  |
| Participant | $-\quad$ The family members of affected household |  |
| Material Provided | N/A |  |

The Survey team members and MR Officers explained the brief project designs, schedules and public monitoring system, possible environmental and social impacts as well as the measure to reduce them.

## Common Opinions and Suggestions by Local Community People

- Community people welcome this Yangon - Mandalay Railway Upgrading Project Phase 2. They also agreed that the existing railway track and some bridges (especially down line railway) are needed to be improved for many reasons - transportations, to reduce travel time, livelihood enhancement and improve local economy.
- Job opportunity for local people is also one of their concerns. Local people would like to get employment opportunities related to construction works in the project.
- One of villagers said that they rely on railways transportations for accessing to other towns and transporting their goods. So, they welcome to this project of improving the existing railways facilities
- One of villager from Na Bel Kan village near Bridge No. 683 said that they welcome this upgrading project and they all depend on the Yangon - Mandalay Railway line for transporting their agricultural products more smoothly than before.
- The two of frequently asked questions are -1 ) when will the project starts - project schedule: and 2) What time they need to do for displacement. Because they need time to prepare for
displacement of assets to other places. MR and JST responded that the actual construction works might be started in 2020 and so their replacement is possible to be conducted in end of 2019.
(b) Myohaung Depot Improvement Area

As for Myohaung Depot Area, the survey team had met people living in the proposed depot area on June 02, 2017. Participants list of brief public consultation are as shown in table.

| Item | Description |  |
| :--- | :--- | :---: |
| JICA Survey Team | 1. U Bo Bo Han, Senior Environmental Engineer |  |
|  | 2. U Ye Wint Aung, Junior Environmental Engineer |  |
|  | 3. U Ye Soe Oo, Junior Environmental Engineer |  |
|  | 4. U Htet Thu Soe, Junior Environmental Engineer |  |
| Myanma Railways (MR) | 1. U Thar Lin, Station Officer (Myohaung Station) |  |
|  | 2. U Naing Win Tun, Junior Engineer (2) |  |
|  | 3. U Zaw Naing, Locomotive Officer |  |
|  | 4. U Maung Kyaw, Slipper Factory Officer |  |
|  | 5. U Zaw Ko Latt, Supervisor |  |
|  | 6. U Zaw Htet Aung, Labor |  |
| Participant | $-\quad$ The family members of affected household |  |
| Material Provided | N/A |  |

The Survey team members and MR Officers explained the brief project designs, schedules and public monitoring system, possible environmental and social impacts as well as the measure to reduce them.

## Common Opinions and Suggestion by local community people

- Community people welcome this Yangon - Mandalay Railway Upgrading Project. They also agreed that the existing railway track and some bridges (especially down line railway) were to be improved necessarily for many reasons - transportations, to reduce travel time, livelihood enhancement, improve local economy.
- As for depot improvement plan, MR has plan to improve the existing Myohaung depot for improvement of facilities and container transport plan.
- Job opportunity for local people is also one of their concerns. Most of local people would like to get employment opportunities related to construction works in the project.
- The affected people in Myohaung Depot Area said that they understood they are living in depot area of MR and they do not have formal and legal ownership right for the land.
- The two of frequently asked questions are -1 ) when will the project starts - project schedule: and 2) What time they need to do for displacement. Because they need time to prepare for displacement of assets to other places. MR and JST responded that the actual construction works might be started in 2020 and so their replacement is possible to be conducted in end of 2019.
- A question raised by one affected person is whether they can continue to live in until the commencement of construction works and MR and JST replied that they can continue to live there until construction works started but MR will not allow any further new settlement in the area.

## (c) Alignment and Track Improvement Area

For alignment and track improvement area, the survey team had met people near some improvement curves on June 20-23, 2017 along the Yangon - Mandalay Railway line. Participants list of brief public consultation are as shown in table.

| Item | Name |
| :--- | :--- |
| JICA Survey Team | 1. U Bo Bo Han, Senior Environmental Engineer |
|  | 2. U Ye Wint Aung, Junior Environmental Engineer |
|  | 3. U Ye Soe Oo, Junior Environmental Engineer |
|  | 4. U Htet Thu Soe, Junior Environmental Engineer |

The Survey team members and MR Officers explained the brief project designs, schedules and public monitoring system, possible environmental and social impacts as well as the measure to reduce them.

## Common Opinions and Suggestions made by Local Community People

- Community people welcome this Yangon - Mandalay Railway Upgrading Project. They also agreed that the existing railway track and some bridges (especially down line railway) were to be improved necessarily for many reasons - transportations, to reduce travel time, livelihood enhancement, improve local economy.
- For Alignment and Track Improvement, MR's will need to upgrade curved sections in order to improve the current train speed.
- Job opportunity for local people is also one of their concerns. Most of local people would like to get employment opportunities related to construction works in the project.
- One of the Monks near U-IP. 1 (affected public access road to monastery), said that he would like to get full support for reconstruction of the access road because it was constructed with the donation of people.
- Common opinion is that the PAPs know their houses/structure are within ROW and they are willing to be replaced at the time of construction works. But they are not willing to move very early before actual construction works.

Photo Record on Meeting with PAPs

## Attachment 8.2(5): Document for Public Consultation at Myohaung Station

| Place | Myohaung Sleeper Preservation Factory Hall, Myohaung Station, Myanma Railways, Mandalay |
| Attendees | 19 MR Staffs <br> 6 Staffs from Government Organizations <br> 4 Persons from Social Society <br> 3 Community Elders <br> 11 Project Affected Person <br> 4 Staffs from JICA Study Team <br> 8 Interested persons around Myohaung Station <br> Total Participants (55) |
| Materials Provided | - Power-point presentation document for Public Consultation <br> - Copies of Cut-Off Date Announcement Letter issued by Myanma Railways (HQ) |
| Prepared By | U Bo Bo Han, Environmental Engineer, JICA Study Team |

1. Opening Remark by U Myo Win, General Manager of Myanma Railways (Upper Myanmar)
A brief quote by U Myo Win, was as follow:

* U Myo Win explained that the meeting was for the resettlement work of affected people and units in Myohaung Depot area and ways to provide compensation measures for PAPs. The objectives of the project were to rehabilitate and modernize the existing railway infrastructure and relevant equipment and facilities and to achieve train safer and high speed.
* For resettlement work, although the affected people who lived in Myohaung Depot Area did not have formal and legal ownership right for land, Myanma Railway will need to compensate and relocate the affected people by the regard of JICA Guidelines. One of the members of JICA Study Team would explain about the resettlement policy and compensation measures.

## 2. Presentation by U Thar Lin, Station Manager (Myohaung Station), Myanma Railways

 Technical explanation by U Thar Lin, was as follow:* U Thar Lin explained that the plan of the project was for rehabilitation of deteriorated infrastructures and relevant facilities of the existing railway, to increase the current speed of passenger train up to $100 \mathrm{~km} / \mathrm{hr}$ ( $62 \mathrm{miles} / \mathrm{hr}$ ), to provide the train operation services of less than 8 hours for the section from Yangon to Mandalay, and to modernize depot plan.
* He also explained that the descriptions of the project were to upgrade roadbed and earthworks along the railway line, rehabilitation or renewal of bridges, upgrading of signaling and telecommunication system, introducing of new rolling stocks (Diesel Electric Multiple Unit/ DEMU) and improving freight facilities in Myohaung Depot area.
* Resettlement works and compensation measures would be explained more detailed by Environmental Consultant.

## 3. Presentation on the Survey Results for A-RPA report preparation by U Bo Bo Han,

 Environmental Engineer, JICA Study Team* The purpose of this meeting was to inform the PAPs in Myohaung Deport Area and other community stakeholders about Yangon - Mandalay Railways Improvement Project Phase 2 (Taungoo - Mandalay Section) and the result of the survey on PAPs.
* According to the result of the social survey conducted jointly by MR and JST from May 2017 to July 2017, necessary land acquisition even within MR ROW and MR owned station yard would affect 22 households and 2 religious structures.
* Myohaung Depot Improvement is a necessity for good freight flow and it is an important part of national economic growth. So MR is planning to implement the construction works in Myohaug Depot in coming two or three years.
* In Myohaung Depot Improvement Area, the project was found to affect 12 households (53 household members).
* Cut-Off Date was set to identify/differentiate genuine PAPs from non-eligible people. The Cut-off date for this project had been issued by MR as July 20, 2017. And it was announced to all relating stakeholders and posted on MR relating stations.
* By showing the pictures of the affected structures, civil works for bridge renovation, alignment improvement and deport improvement plans were explained. And the location of the affected houses in MR's area is explained in line with the civil work plans.
* Then, MR's support policy on different kinds of affected units including livelihood restoration program were briefly explained. It was confirmed by MR that genuine PAPs are eligible to get supports from MR.
* The PAPs were encouraged to speak out freely about their feeling, concerns, perceptions, requests and any others.

## 4. Questions \& Answers and Discussions

Discussion 1 - U Tun Win Aung, one of the PAP, discussed as follow:

- He is the son of a formerly MR staff and so he feels himself one of the MR family members.
- He (on behalf of other PAPs) understands that they are living on MR's owned land and they have to leave or move from the current place in case of necessity of this improvement project.
- He welcomes if MR can arrange some suitable supports to all PAPs.
- He welcomes such kind of meeting and information disclosure (i.e. public consultation) because the PAPs feel they are valued and respectfully explained about the project plans.
Discussion 2 - Daw Ngel, one of the PAPs, discussed that if possible she wanted other alternative place (replacement area).

Discussion 3 - U Kyaw Tint, Administrator of Chanmyatharzi South Quarter, told that he wanted to have fairness between the government (MR) and the PAPs.

Discussion 4 - U Tun Wai, the Secretary of Phyusin Myittar Blood Donation Group (one of the local CSOs - Civil Society Organization) as follow:

- He had experienced on relocation from one place to another place at least 25 times and so he had great sympathy for those PAPs in Myohaung.
- He would like to request MR that the cash compensation is not enough for PAPs and if possible they should get the same accommodation facilities and employment/job opportunities as MR staffs. He also remarked that the illegal stay on Government's land is not good in any aspect.
- He claimed that the Government should have much care on the poor community.

Discussion 5 - Daw Yin Yin Htwe, Deputy Staff Officer of Chanmyatharzi General Administration Department also made her comments as follow:

- She made congratulations to MR for making good efforts to handle such kind of public consultation for the PAPs.
- GAD (General Administration Depart) had willingness to help the PAPs if necessary or in case of big problems.
- She believed that MR could be able to handle the relocation process peacefully.

Note: At this point, U Bo Bo Han (Environmental Engineer) had summarized and reconfirmed all the discussion points and invited any further comment.

Discussion 6 - U Tun Win Aung, one of the PAP, explained his isuue: Currently his temporary shop is in weak composition (nearly broken) due to the effect by strong wind and rain. He confirmed with his neighbors and even the survey members. So he wanted to get permission from MR to repair his shop to make it sure to stay safely for the remaining two years.

## 5. Closing Remark, by U Myo Win, General Manager of MR (Upper Myanmar)

- He confirmed with U Thar Lin (Myohuang Satation Manager) to give permission to U Tun Win Aung to repair his shop.
- He told that he had already experienced with some people who intentionally wanted to be PAPs on purpose of getting huge amount of compensation, but he believed the 12 PAPs in Myohaung Station Area are the real PAPs who stayed there for long year because of poverty.
- He explained that if MR could arrange some accommodation the PAPs should not make any complain such as "too far from school", "too far from market", "accommodation fee is too high", etc.
- He told that the 12 PAPs were permitted to continue their temporary stay until the time before Construction Works for Myohaung Station Improvement had been started but any new comer would not be allowed to enter the project area any more.
- He told that MR had plans to meet the PAPs in timely manner throughout the replacement process and so the next meeting would be in coming sixth month.
- He expressed his THANKS to all the participants for their TIME. Attachment 8.2(5) - A Photograph Session
