# MINUTES OF MEETING OF THE FOURTH JOINT COORDINATING COMMITTEE FOR THE PROJECT FOR CAPACITY DEVELOPMENT FOR AIR NAVIGATION SERVICES IN MALAWI BETWEEN THE GOVERNMENT OF THE REPUBLIC OF MALAWI AND THE JAPAN INTERNATIONAL COOPERATION AGENCY

The fourth meeting of the Joint Coordinating Committee (hereinafter referred to as "JCC") for the Project for Capacity Development for Air Navigation Services in the Republic of Malawi (hereinafter referred to as the "Project") was held in Lilongwe on 5th June 2015.

The meeting was co-chaired by Mr. Mtilatila, Director of Malawi Department of Civil Aviation (hereinafter referred to as "DCA") and Mr. Ueda, Senior Transport Sector Advisor, Japan International Cooperation Agency (hereinafter referred to as "JICA"). Attendants were the Project members, representatives from DCA, JICA Malawi Office and JICA Headquarters. List of participants is shown in Attachment-1.

Several issues were discussed during the meeting, including the current progress of the Project, update of the Monitoring Sheet, activity plan, and other relevant issues of the Project. As a result of the discussions, both sides agreed on the matters in the documents attached in Attachment-2.

## Attachment-2: Matters Agreed

#### 1) Report on Progress of the Project

a) Training

The Project Team reported on the progress and status of the Project which were as follows:

 Trainings for instructors conducted from April to June 2015 at the School of Aviation (SOA)

Course Name	Date	No. of Trainees
Microsoft Office Training	21 st – 24 th April, 2015	5
Electrical/Mechanical Training	20 th - 30 th April 2015	6
Flight Procedure Design	5 th - 28 th May 2015	4
General Communications	18 th May – 4 th June 2015	6
Park Air T6 VHF Maintenance Course	8 th – 19 th June 2015	6
VOR/DVOR/DME/ILS/RADAR Concept Course	22 nd June – 10 th July 2015	6
052 ATC Aerodrome Training	1 st June – 3 rd July 2015	5

- Working Groups for AIS/ACS to develop training syllabuses and materials were launched from May 2015. Draft training syllabuses and materials will be prepared by October 2015.
- Operational training of ATC Simulator System installed at SOA was held in May 2015.
- b) Training Equipment
- Computer Based Training (CBT) system and Test Equipment for engineering training were handed over from JICA to DCA in January 2015 (see Attachment-4)
- ATC Simulator was installed in May 2015. It will be handed over from JICA to DCA in due course.

#### 2) Activity Plan

Arr

Activity Plan of the Project for the next six months was explained by the Project Team and approved by the JCC as follows:

- Overseas training for Instructor Development Course to be held in August 2nd 22nd 2015 and Advanced Instructor Course in 4th 24th October 2015 at East Africa School of Aviation (EASA) in Nairobi, Kenya
- Training for Flight Procedure and Cartography related staff (to be held in October 2015)

AA

ANNEX 4-6

- Training for Electronic Engineering staff/new recruits (to be held in October 2015)
- Training for ATC staff/new recruits (to be held in October 2015)

#### 3) Update Monitoring Sheet

The Project Team explained the Monitoring Sheet Ver. 2 with the updated Plan of Operations and verifiable indicators of the PDM. The JCC accepted the Monitoring Sheet (see Attachment-3).

#### 4) Progress on New Recruitment

DCA updated the progress of new recruitment, i.e. schedules for interviews and selection procedures. DCA explained that new recruits (12 ATC and 12 engineering staff) are expected to join in August 2015.

Mr. O. Yokonia, Electrical Engineer, Chileka Airport [Electrical/Mechanical Engineering Training Instructor]

*Additional Support Staff under consideration.

3) Project Office Space

Office space for the Project was provided in School of Aviation (SOA), DCA.

#### 4) Project Office Expenses

Utility cost was paid by the Malawian side and DCA provided the following expenses for the project office as of June 2015.

a) Purchase of two desktop computers: 1,055,210 MWK
b) Purchase and installation of two split air conditioners: 989,114 MWK

c) Purchase and installation of air conditioners for ATC simulator room 862,100 MWK

#### 1-2. Progress of Activities

- (1) Summary of Work Progress (June 2014 June 2015)
  - 1) Baseline Survey

The Project Team conducted the baseline survey on capacity of SOA which includes the capacities of ATM (ATC, FIS, AIS, ACS), Electronics Engineering (CNS), Electrical and Mechanical (E/M). The survey was conducted according to the ICAO's standard of assessing training organization.

2) Review of the existing training materials

The Project Team, composed of JET members and the counterpart personnel (C/P), observed existing training syllabus and textbooks for all training courses conducted in SOA (see "Results of the PDM Activities", described below).

3) Preparation of a work plan

The Project Team prepared a work plan describing the material development, instructor training, as well as the method and schedule for the implementation of 16 training courses, on which agreement was reached with the Malawian side.

4) Preparation of base materials for training courses

The Project Team is preparing training course materials which follows ICAO guideline.

5) Procurement of equipment

The Project Team procured equipment necessary for operating the Project in line with the JICA equipment procurement guideline.

6) Trainings at the School of Aviation (SOA) (as of June 2015) The trainings for instructors which were held at the School of Aviation are as follows:

#### 8) First JCC Meeting

The First JCC Meeting was held on 30th June 2014. Five people from the DCA side including the Director, the Deputy Director and other three officials, two officials from the JICA Malawi Office, and five members from the JICA Expert Team (hereinafter referred to as "JET") participated in the meeting. The JET Leader, Mr. Hiroshi Mizumasa presented a summary of the Project. The minutes of the meeting for implementation of the Project were signed between Mr. Alfred C. Mtilatila, DCA Director and Mr. Kazuhiko Tokuhashi, Resident Representative, JICA Malawi Office.

#### 9) Second JCC Meeting

The Second JCC Meeting was held on 1st August 2014. Five people from the DCA side including the Director, the Deputy Director and three other officials, one official from the JICA Malawi Office, and two members from the JET participated in the meeting. The issues discussed and agreed were as follows:

- a) Approval of the Work Plan
- b) Confirmation of the Instructor Nomination
- c) Approval of updated PDM
- d) Confirmation of expense for domestic training/counterparts works

The minutes of the meeting was signed between Mr. Alfred C. Mtilatila, DCA Director and Mr. Hiroshi Mizumasa, the JET Leader.

#### 10) Third JCC Meeting

The Third JCC Meeting was held on 27th January 2015. Three people from the DCA side including the Deputy Director and two other officials, two officials from the JICA Malawi Office, and four members from the JET participated in the meeting. The issues discussed and agreed were as follows:

- a) Report on project progress and schedule
- b) Approval of the Monitoring Sheet ver.1
- c) Progress on new recruitment

The minutes of the meeting was signed between Mr. A. G. Matiya, DCA Deputy Director and Mr. Kazuhiko Tokuhashi, Chief Representative of the JICA Malawi Office.

#### 1) Improvement of ATC and FIS Training

PDM Activities	Results
1-1. Review current training syllabus and training materials	All the syllabuses were reviewed. Most of them were made in 1980s.
1-2. Improve/develop training syllabus and training materials	Six training syllabuses and materials will be developed. The progress of preparation of each material is shown in the following 1-3. Achievement of Output.
1-3. Conduct training of instructors	Overseas trainings will be conducted in Nairobi in August and October 2015
1-4. Implement improved training courses	Base Material of ATC Basic Course 051 was provided by JET and it will be customized by SOA/DCA Instructor team. Trainings course of 052 Aerodrome will be conducted in June - July 2015.
1-5. Implement supervisor training	Supervisor trainings were conducted in Johannesburg in January and in Nairobi in February 2015.
1-6. Conduct monitoring and evaluation of the trainings implemented by the trained instructors	and two members wern the JET methodowed in the m as follows: a) Approval of the Wark Plan
1-7. Improve the training courses based on the results from the monitoring and evaluation	b) Conferences of the Instructor Non Institut

#### 1-3. Achievement of Output

Achievement of the Project outputs is observed according to the PDM indicators.

- Output 1 Training of Air Traffic Control (ATC) and Flight Information Services (FIS) is improved.
- Output 2 Training for Aeronautical Information Services (AIS) and Aeronautical Communication Services (ACS) is improved.
- Output 3 Training of Electronic Engineering is improved.

Output 4 Training of Electrical/Mechanical Engineering (E/M Eng) is improved.

#### 1-5. Changes of Risks and Actions for Mitigation

No major changes were seen in the PDM Important Assumptions; therefore no special actions need to be taken. However, as for the Pre-conditions, new trainees were not recruited yet, which may affect the project outcomes.

(1) Pre-conditions

PDM Pre-conditions	Current Situations	Actions for Mitigation	
1) DCA secures budget necessary for preparation of the Project Office and allocation of counterpart personnel before the commencement of the Project.	<ul> <li>Project office space was provided at the time of initiation of the work in Malawi in June 2014.</li> <li>Counterpart personnel (C/P) were allocated in the Project before the commencement of the project.</li> </ul>	- No special actions need to be taken.	
2) New trainees are recruited as scheduled.	<ul> <li>New trainees are not recruited since the initiation of the project in May 2014 to date.</li> <li>Recruitment of 24 new staff is in progress. They are planned to join DCA in August 2015.</li> </ul>	<ul> <li>JET requested DCA ensure the recruitment of new staff.</li> <li>Further 24 new staff has to be recruited to meet pre-condition of the Project.</li> </ul>	

#### (2) Important Assumption when proceeding from Activities to Outputs

(3) Important Assumptions when proceeding from Outputs to the Project Purpose

Important Assumption	Current Situations	Actions for mitigation
1) No major change of the international standards on air navigation services occurred.	- No major changes were seen. It did not affect to the Project operation.	- No special actions need to be taken.

#### 1-6. Progress of Actions undertaken by JICA

No remarkable issues.

1-7. Progress of Actions undertaken by the Government of Malawi

In May 2015, the Government of Malawi/DCA began procedures to recruit new students for ATC, Electronics Engineer, Electrical Engineer and Mechanical Engineer.

- 1-8. Progress of Environmental and Social Considerations (if applicable) No remarkable issues.
- 1-9. Progress of Considerations on Gender/ Peace Building/ Poverty Reduction (if applicable) No remarkable issues.
- 1-10. Other remarks or issues related to the project (such as other projects of JICA, activities of counterparts, other donors, private sectors, NGOs, etc.)
  - (1) Project for the Improvement of Aviation Safety Oversight in Malawi by European Aviation Safety Agency (EASA)

EASA is currently assisting DCA and the Ministry of Transport and Public Works improving safety oversight capacity of civil aviation. There is no overlapping of activities between JICA project and EASA project.

(2) Airport Safety and Security Equipment Project by European Investment Bank (EIB) EIB is funding the procurement of safety equipment such as fire trucks at Kamuzu International Airport. There is no overlapping of activities between JICA project and EIB project.

(3) The Project for Expansion of the Terminal Building at Kamuzu International Airport by JICA JICA is currently conducting a Preparatory Survey for the project, which will include installation of the aircraft surveillance system. Current capacity development project will strengthen the foundation for the introduction of radar control services; however, does not include training for operation and maintenance of the aircraft surveillance system. DCA should plan capacity development for the radar control services if the project is realized.

2. Delay of Work Schedule and/or Issues (if any)

#### 2-1. Detail

The project is on schedule; however, delay in recruitment of new staff would possibly affect the activities related to training of new staff under the Project.

#### 2-2. Cause of Delay

Recruiting process had been delayed due to lack of funds for recruitment on the part of the recruiting agencies.

#### 2-3. Actions to be taken

Recruitment process of the first 24 staff was initiated in mid-May 2015 and it is expected that new staff will join DCA in August 2015. Additional 24 staff has to be recruited to meet pre-condition of the Project.

### 2-4. Roles of Responsible Persons/ Organization (JICA, Gov. of Malawi, etc.) DCA and the Government of Malawi are responsible for recruitment of new staff.

#### 3. Modification of the Project Implementation Plan

#### 3-1. Plan of Operation (PO)

No major modification was made.

#### 3-2. Other Modifications on Detailed Implementation Plan

(Remarks: The amendment of R/D and PDM (title of the project, duration, project site(s), target group(s), implementation structure, overall goal, project purpose, outputs, activities, and input) should be authorized by JICA HDQs. If the project team deems it necessary to modify any part of R/D and PDM, the team may propose the draft.)

Some changes to be made, mainly in "Objectively Verifiable Indicators", were discussed among DCA and JICA Team prior to the 4th JCC meeting as follows (*<u>underlined</u> = changes to be made); 1) Overall Goal

Define the Objectively Verifiable Indicator as "<u>The targeted number of trainees (serving officers and</u> <u>new staff) who will</u> successfully complete the improved/developed training courses <u>between 2016</u> and 2020 is at least 80".

#### 2) Project Purpose

Change minimum score of comprehension test from 80% to <u>70%</u> in accordance with international standard of ICAO.

Replace the Means of Verification "Terminal Evaluation Report" with "Project Completion Report". In addition, insert "- Results of comprehension test score of trainees".

Outputs

Delete the Objectively Verifiable Indicator "Comprehension test score of trainees who receive the improved/developed training courses exceeds at least 80%" as this indicator duplicates with that of the Project Purpose. The revised PDM is attached as Project Monitoring Sheet I.

4. Preparation of the Government of Malawi towards the completion of the Project Not applicable.

#### II. Project Monitoring Sheet I (PDM) & Sheet II (PO) (Version 2) as attached

2-4. Rollss of Responsible Personal Organization (JICA, Gov. of Malmvk, etc.) DCA and the Gevenment of Malovi are responsible for requirment of new staff.

- 3. Modification of the Project Implementation Plan
  - Plan of Operation (PO)
     No-major moduloation was mide
- 3-2. Other Modifications on Detailed Implementation Plan

(Remeater. The emendment of R/D and PDM (Mile of the project, dumnon, project ske(s), lenget groups), implementation structure, everall geer project corpose, outputs, adminio, and input) should be authorized by JICA HDQs. If the project (earn deems if neordbary to mpdify any part of R/D and PCM. the tearth may produce the draft.)

Bonje changes to be made, mainly in "Ovjectively Verifiable Indicatore", were discreted among SICA and JICA Team prior to the 4th JICC meeting as follows ("<u>underlined</u> = changes to be made); 1) Diversil Goal

Behave the Coljectively Verfigeble Indicator as <u>"The propered number of Italness Serving officers and</u> new staffi who will automasculiy complete the improved/iteveloped training courses <u>behaver, 2018</u> and 2020 is at Yeast 30°.

2) Project Purpoise

ANNEX 4-6

Change minimum score of comprehension test from 30 % to <u>70%</u> in eccentance with International standard of ICAO.

#### HANDOVER NOTES

Hereby the Japan International Cooperation Agency (JICA) Malawi Office would like to handover the equipment as listed in the attachment to the School of Aviation. The handover equipment is provided based on the request by the Department of Civil Aviation, the Ministry of Transport and Public Works in accordance with the Article II-1-(1) of the Record of Discussions signed between the Republic of Malawi and Japan International Cooperation Agency on 13th January, 2014 for "The Project for Capacity Development for Air Navigation Services in the Republic of Malawi.".

The Department of Civil Aviation, the Ministry of Transport and Public Works shall take necessary measures:

- a) to ensure that the equipment is used properly and exclusively for the purpose of facilitating the project related activities during and after the project,
- b) to maintain the equipment in good condition and bear all the expenses necessary for or in connection with the use of the equipment,
- c) to ensure that the equipment will not be used for any individual use.

JICA and the Department of Civil Aviation, the Ministry of Transport and Public Works shall consult with each other in the event of any dispute for the handover equipment.

Alfred C. Mtilatila (Mr.) Director for Civil Aviation Ministry of Transport and Public Works

K. Josuhashi

## I. Summary

# **1** Progress

- 1-1. Progress of Inputs
- 1-2. Progress of Activities
- 1-3. Achievement of Output
- 1-4. Achievement of the Project Purpose
- 1-5. Changes of Risks and Actions for Mitigation
- 1-6. Progress of Actions undertaken by JICA
- 1-7. Progress of Actions undertaken by Gov. of Malawi
- 1-8. Progress of Environmental and Social Considerations (if applicable)
- 1-9. Progress of Considerations on Gender/Peace Building/Poverty Reduction (if applicable)

1-10 Other remarkable/considerable issues related/affect to the project (such as other JICA's projects, activities of counterparts, other donors, private sectors, NGOs etc.)

# 2 Delay of Work Schedule and/or Problems (if any)

- 2-1. Detail
- 2-2. Cause
- 2-3. Action to be taken
- 2-4. Roles of Responsible Persons/Organization (JICA, Gov. of Malawi, etc.)

# **3** Modification of the Project Implementation Plan

3-1. PO:

3-2. Other modifications on detailed implementation plan

(Remarks: The amendment of R/D and PDM (title of the project, duration, project site(s), target group(s), implementation structure, overall goal, project purpose, outputs, activities, and input) should be authorized by JICA HDQs. If the project team deems it necessary to modify any part of R/D and PDM, the team may propose the draft.)

This is initial Monitoring Sheet at the initial point. Above information will be reported from 2nd Monitoring Sheet.

# 4 Preparation of Gov. of Malawi toward after completion of the Project

Above information will be reported after start of Project activities.

## **PROJECT MONITORING SHEET**

## Project Title: The Project for Capacity Development for Air Navigation Services Version of the Sheet: Ver.1 (Term: 24 April, 2014 - 20 May, 2016)

Name: Hiroshi Mizumasa

Title: Chief Advisor

Submission Date: January, 2015

## I. Summary

## **1** Progress

### 1-1. Progress of Inputs

(1) The Japanese Side

1) Experts

Six experts (except Flight Procedure Design Expert) were assigned according to plan.

[JICA Experts]

Mr. Hiroshi Mizumasa, Chief Advisor

Ms. Mie Nagayasu, Deputy Chief Advisor

Mr. Kiichiro Hirano, ATC & AIS Training Specialist - 1

Mr. Daniel Paul Diggins, ATC & AIS training Specialist - 2

Mr. Reynaldo Alido Batacan, CNS Maintenance Training Specialist

Mr. Kiyoshi Suzuki, E/M Maintenance Training Specialist

* Expert for Flight Procedure Design Specialist will be named in 2015

Details of their assignment are shown in Project Monitoring Sheet (Plan of Operation) (see Annex-2).

2) Training Materials

Progress on the following training materials was made by the experts:

I. Air Traffic Control Assistant/Basic	50%
II. Aerodrome Control	30%
III. CNS/ATM for ATC	70%
IV. Aeronautical Information Service	40%
V. Electronic Maintenance - Communication	20%
VI. Communication Equipment and System	30%
VII. Navigational Aids and Radar Theory	30%

VIII. CNS/ATM for ATSEP (Engineer) 70%

Other training materials, i.e. "Approach Control - Non Radar", "Area Control - non Radar", "Flight Information Service", "Aeronautical Fixed Service Operator" will be prepared in due

course.

3) Training Equipment

The following training equipment were procured:

I. Computer Based Training ATC (November, 2014)

II. Test Instrument and Equipment (December, 2014)

III. Learning Aids and Office Equipment (June, 2014)

4) Overseas Training (as of February 2015)

DCA officials participated/are participating in the following two overseas trainings:

I. Team Resource Management Course: January 26th to 30th, 2015 <South Africa>*1

II. Supervisory Management Course: February 2nd to 27th, 2015 <Kenya>*² [Organizers]

*1: Air Traffic and Navigation Services (ATNS) / Johannesburg, South Africa

*2: East African School of Aviation (EASA) / Nairobi, Kenya

5) Training in School Of Aviation (SOA) (as of February 2015)

Two trainings for instructors were held at the School of Aviation as follows:

I. Computer Based Training (ATC)

i) Date: November 24th, 2014 (1/2 day)

ii) No. of Participants: 6

II. Test Equipment Course

i) Date: January 12th – 23rd, 2015 (10 days)

ii) No. of Participants: 5

(2) The Malawi side

1) Counterpart Personnel (C/P)

The following DCA Officials were assigned for an effective and sound management of the project (see also Annex-2 "Plan of Operation").

[Counterpart Personnel]

Project Director (P/D): Mr. A. C. Mtilatila, Director of Civil Aviation

Project Manager (P/M): Mr. A. G. Matiya, Deputy Director (Operations)

Co-project Manager (Co-P/M): Mr. S. Galafa, Principal, School of Aviation

Project Coordinator: Mr. F. Kholowa, Chief Air Traffic Services Officer, Operation Division

Project Coordinator: Mr. M.F.T. Bongwe, Chief Telecommunications Engineer, Operation Division

Trainers: Mr. S. Galafa, Principal, School of Aviation [ATC and FIS training]

Mr. R. Y. Malanga, Lecturer School of Aviation [AIS and ACS training]

- Mr. S. Liundi, Lecturer School of Aviation [AIS and ACS training]
- Mr. R. Kanunkha, Head of Engineering Section, KIA [Electronic Engineering & Electrical Engineering (CNS) training]
- Mr. C. F. Betenigo, Electronics Engineer, KIA [Electronic Engineering (CNS) training]
- Mr. T. Mtonga, Electrical Engineer, KIA [Electrical/ Mechanical Engineering training]
- 2) Support Staff

Eight instructors in total were assigned to the Project as support staff personnel:

[Support Staff]

- Ms. L. Manondo, ATC, KIA [ATC and FIS Training Instructor]
- Mr. D. Zamaele, ATC, Chileka Airport [ATC and FIS Training Instructor]
- Mr. F. Chiespeya, ATC, KIA [ATC and FIS Training Instructor]
- Mr. J. Kazito, ATC, KIA [ATC and FIS Training Instructor]
- Mr. R. Nkosi, Air Crew Briefing Officer, DCA [AIS & ACS Training Instructor]
- Mr. N. B. Kaliyasi, Communication Officer, KIA [AIS & ACS Training Instructor]
- Mr. S. Kunje, Electronics Engineer, Chileka Airport [Electronic Engineering (CNS) Training Instructor]

Mr. O. Yokonia, Electrical Engineer, Chileka Airport [E/M Training Instructor]

3) Project Office Space

Office space for the Project was provided in School of Aviation (SOA), DCA.

4) Project Office Expenses

Utility cost was paid by the Malawi side. As of January 2015, DCA provided the following expenses for the project office.

- I. Purchase of two desktop computers: 1,055,210.00 MKW
- II. Purchase and installation of two split air conditioners: 989,114.98 MKW

5) Travel Expenses of Counterpart Personnel within Malawi

The travel expenses for C/P to travel outside the Lilongwe area provided by DCA were as follows:

- I. Transport costs and subsistence allowances for students from Chileka (Team Resource Management Course/ from Chileka to Lilongwe) 76,000.00 MKW
- II. Transport costs for Lilongwe students 70,000.00 MKW (Team Resource Management Course/ from Blantyre to Lilongwe)

6) Others mentioned in Appendix 1, II, 6, of R/D

As agreed in R/D (Appendix 1, II, 6), appropriate considerations were made by DCA for environmental and social impacts of the Project, based on "JICA Guidelines for Environmental and Social Considerations".

# 1-2. Progress of Activities

(1) Summary of Work Progress (June – August 2014)

1) Holding of the first JCC meeting

The first JCC meeting was held on 30th June 2014. Five people from the DCA side including the Director, the Deputy Director and other three officials, two officials from the JICA Malawi Office, and five members from the JICA Expert Team (hereinafter referred to as "JET") participated in the first JCC meeting. The JET Leader, Mr. Hiroshi Mizumasa presented summary of the Project. The minutes of meeting for implementation of the Project was signed between Mr. Alfred C. Mtilatila, DCA Director and Mr. Kazuhiko Tokuhashi, Resident Representative, JICA Malawi Office.

2) Holding of the second JCC meeting

The second JCC meeting was held on 1st August 2014. Five people from the DCA side including the Director, the Deputy Director and other three officials, one official from the JICA Malawi Office, and two members from the JICA Expert Team (hereinafter referred to as "JET") participated in the second JCC meeting. The issues discussed and agreed were as follows:

I. Approval of the Work Plan

II. Confirmation of the Instructor Nomination

III. Approval of updated PDM

IV. Confirmation of expense for domestic training/counterparts works

The minutes of meeting was signed between Mr. Alfred C. Mtilatila, DCA Director and Mr. Hiroshi Mizumasa, the JET Leader.

3) Baseline survey

JET conducted the baseline survey on capacity of SOA which includes the capacities of ATM (ATC, FIS, AIS, ACS), Electronics Engineering (CNS), Electrical and Mechanical (E/M).

a. Survey methods

They assessed their capacities from the following assessment viewpoints or items which are based on the ICAO's standard of assessing training organization.

Assessment items for ATM, CNS and E/M:

1) Training Regulation and Policy;

2) Organization;

3) Instructor (Full time), Supporting Staff (Part time) and Qualification;

4) Quality Control;

5) Curriculum/Syllabus;

6) Operating Rules;

7) Training Facilities (Aids);

8) Reference Material;

9) Examination and Examination Development;

10) On-the-Job Training;

11) Training, Certificate and License;

12) International Cooperation, Certification and Recognition; and

13) Training Demand, potential training participants (Both International and National)

*In addition to above 13 items, the following items are added for CNS and E/M respectively;

14) CNS System Admin on Laboratory, Simulator and Workshop,

14) E/M System Admin on Laboratory, Simulator and Workshop.

b. Survey results

b.1 Results of the capacity of ATM

As the result of the above survey, ATM qualifications of instructors are not well established. Instructor training programs for ATM instructors did not exist. Current instructors rely solely on their personally developed teaching skills and techniques. Most instructors are close to retirement age. ATM curriculum/syllabus is informal and not structured. Some have been used since the 1970's. Consequently, most of them are outdated. Training facilities are not enough and generally inadequate at the School of Aviation.

The result of the survey is shown in Annex-4 of the work plan.

# b.2 Results of the capacity of CNS

The Aeronautical Telecommunication qualifications of instructors are not well established. Instructor training programs for CNS instructors did not exist. A structured CNS curriculum/syllabus was not used for at least the last 5 years. There was no CNS training laboratory facilities for practical application/certification of students. There was no System Administration on Laboratory, Simulator and Workshop. Reference materials were outdated and not responsive to new CNS/ATM technology systems.

The result of the survey is shown in Annex-5 of the work plan.

b.3 Results of the capacity of E/M

The E/M Unit has no instructor position at the MSOA. There are three (3) identified part time instructors ready to assume duties when training commences. There was no E/M curriculum/syllabus. E/M had no training laboratory test equipment and tools for practical application/certification of students.

The result of the survey is shown in Annex-6 of the work plan.

4) Review of the existing training materials

The Project team, composed of JET members and the counterpart personnel (C/P) observed existing training syllabus and textbooks for all training courses conducted in School of Aviation (see "Results of the PDM Activities", described below).

5) Preparation of a work plan

The Project team prepared a work plan describing the material development, instructor training, as well as the method and schedule for the implementation of 16 training courses, on which agreement was reached with Malawi side.

6) Preparation of base materials for training courses

The Project team is proceeding to preparation of training course materials which follows ICAO guideline.

7) Procurement of equipment

The Project team procured equipment necessary for operating the Project in line with the JICA equipment procurement guideline.

(2) Results of the PDM Activities

Following is the summary of the Project activities having been conducted from June 2014 to January 2015. It is described according to the original PDM Activities.

# **1-3. Achievement of Output**

Achievement of each output is observed according to the PDM indicators.

(1) Achievement of "Output 1. Training of Air Traffic Control (ATC) and Flight Information Services (FIS) is improved."

Six course syllabuses and materials were reviewed and one course syllabus was prepared at this stage. One ATC instructor is identified to be able to conduct CBT exercise.

(2) Achievement of "Output 2. Training for Aeronautical Information Services (AIS) and Aeronautical Communication Services (ACS) is improved."

Two course syllabuses and materials were reviewed and one course syllabus was prepared at this stage.

(3) Achievement of "Output 3. Training of Electronic Engineering is improved."

Six course syllabuses and materials were reviewed and one course syllabus was prepared at this stage.

(4) Achievement of "Output 4. Training of Electrical/Mechanical Engineering (E/M Eng) is improved."

Two course syllabuses and materials were reviewed at this stage.

#### Achievement of Outputs

# 1-3. Achievement of the Project Purpose

Achievement of the project purpose is observed according to the PDM indicators. Number of instructors who can conduct the improved/developed training courses is increased slightly since the baseline date.

# 1-5. Changes of Risks and Actions for Mitigation

No major changes were seen in the PDM Pre-conditions and Important Assumptions, therefore no special actions need to be taken.

#### (1) Pre-conditions

	1 0 7	•
Important Assumption	Current Situations	Actions for mitigation
1) Trained counterpart personnel continue to be engaged in the activities of air navigation services.		-No special actions were taken.
2) No major change in the national policy on air navigation services within the national plan/ strategy is occurred.	-Air Transportation Infrastructure Planning Policy is in force. No major changes in the policy were seen.	-No special actions were taken.

# 1-6. Progress of Actions undertaken by JICA

At the time of first arrival of JET, project office facility had not been prepared yet; therefore the JICA Malawi office sent a letter of request on installation of equipment to the DCA in late April, 2014.

# 1-7. Progress of Actions undertaken by Gov. of Malawi

No actions have been taken.

# **1-8. Progress of Environmental and Social Considerations (if applicable)**

This Project focuses on enhancement of capacity for the DCA personnel concerned in the Project to conduct the trainings for air navigation services. It does not have a plan to construct any new large-scale infrastructures. It is expected that the Project will have a minimal negative impact on the environment.

# 1-9. Progress of Considerations on Gender/ Peace Building/ Poverty Reduction (if applicable)

No considerable issues were observed.

# 1-10 Other remarkable/considerable issues related/affect to the project (such as other JICA's projects, activities of counterparts, other donors, private sectors, NGOs etc.)

(1) European Aviation Safety Agency (EASA) workshop

EASA is currently assisting DCA in training on safety management system (SMS) and auditing techniques. However this training is targeted for the higher executives of the DCA, whereas the JICA project is targeted for the professionals and engineers. Their project has no adverse impact on JICA training participation.

# (2) European Investment Bank (EIB) fund

EIB is funding for the procurement of some safety equipment such as fire trucks in KIA. JET already had several meetings with EIB officers in order to avoid any overlapping on equipment provided for the DCA.

# 2 Delay of Work Schedule and/or Problems (if any)

# 2-1. Detail

The test equipment training was supposed to be held for instructors in December 2014. However arrival of the test equipment was delayed so the training was postponed one month later.

# 2-2. Cause

The procedures of the custom clearance in Malawi had not been through smoothly upon arrival of the equipment.

# 2-3. Action to be taken

The abovementioned training was rescheduled to be held in late January, 2015. However, JET will be flexible in rescheduling the future trainings taking into account the possible delay of equipment.

# 2-4. Roles of Responsible Persons/ Organization (JICA, Gov. of Malawi, etc.)

JET requests that the DCA might be of any help on smooth custom clearance, if possible.

# 3 Modification of the Project Implementation Plan

# 3-1. PO

No major modification was made. However, some of the JICA expert members were changed due to personal health issues, which affected the original PO. Updated PO is attached as Annex 2.

# 3-2. Other modifications on detailed implementation plan

(Remarks: The amendment of R/D and PDM (title of the project, duration, project site(s), target group(s), implementation structure, overall goal, project purpose, outputs, activities, and input) should be authorized by JICA HDQs. If the project team deems it necessary to modify any part of R/D and PDM, the team may propose the draft.) None.

# **4 Preparation of Gov. of Malawi toward after completion of the Project** N/A yet.

#### To Chief Representative of JICA Malawi Office

#### **PROJECT MONITORING SHEET**

# Project Title: The Project for Capacity Development for Air Navigation Services

Version of the Sheet: Ver.2 (Term: 24th April 2014 – 20th May 2016)

Name: Hiroshi Mizumasa

Title: Chief Advisor

#### Submission Date: June 2015

#### I. Summary

#### 1. Progress

- 1-1. Progress of Inputs
- (1) Japanese Side
  - 1) Experts

Seven JICA experts were assigned according to the plan.

Mr. Hiroshi Mizumasa, Chief Advisor

Ms. Mie Nagayasu, Deputy Chief Advisor

Mr. Kiichiro Hirano, ATC & AIS Training Specialist - 1

Mr. Daniel Paul Diggins, ATC & AIS training Specialist - 2

Mr. Reynaldo Alido Batacan, CNS Maintenance Training Specialist

Mr. Kiyoshi Suzuki, E/M Maintenance Training Specialist

Ms. Yumi Hosoya, Flight Procedure Design Specialist

Details of their assignment are shown in the Plan of Operation (see Sheet-II "Plan of Operation").

#### 2) Training Equipment

The following training equipment was procured:

- a) Computer Based Training ATC (November 2014)
- b) Test Instrument and Equipment (December 2014)
- c) Learning Aids and Office Equipment (June 2014)
- d) PC-based Simulator Training System for Air Traffic Controllers (May 2015)
- (2) Malawi side
  - 1) Counterpart Personnel (C/P)

The following DCA Officials were assigned for effective and sound management of the Project (see also Sheet II "Plan of Operation").

[Counterpart Personnel]

Project Director (P/D):	Mr. A. C. Mtilatila, Director of Civil Aviation
Project Manager (P/M):	Mr. A. G. Matiya, Deputy Director (Operations)

Co-project Manager (Co-P/M): Mr. S. Galafa, Principal, School of Aviation

Project Coordinator:Mr. F. Kholowa, Chief Air Traffic Services Officer,<br/>Operation DivisionProject Coordinator:Mr. M.F.T. Bongwe, Chief Telecommunications<br/>Engineer, Operation Division

Trainers*: Mr. S. Galafa, Principal, School of Aviation [ATC & FIS Training Instructor]

Mr. R. Y. Malanga, Lecturer School of Aviation [AIS & ACS Training Instructor]

Mr. S. Liundi, Lecturer School of Aviation [AIS & ACS Training Instructor]

Mr. C. F. Betenigo, Telecommunications Engineer, KIA [Aeronautical Engineering (CNS) Training Instructor]

Mr. T. Mtonga, Electrical Engineer, KIA [Electrical/Mechanical Engineering Training Instructor]

#### 2) Support Staff

Eight instructors in total were assigned to the Project as support staff personnel:

[Support Staff]*

Ms. L. Manondo, ATC, KIA [ATC & FIS Training Instructor]

Mr. D. Zamaere, ATC, Chileka Airport [ATC & FIS Training Instructor]

Mr. F. Chisepeya, ATC, KIA [ATC & FIS Training Instructor]

Mr. J. Kazito, ATC, KIA [ATC & FIS Training Instructor]

Mr. R. Nkosi, Air Crew Briefing Officer, DCA [AIS & ACS Training Instructor]

Mr. N. B. Kaliyasi, Communication Officer, KIA [AIS & ACS Training Instructor]

Mr. F. N. Chisale, Electronics Engineer, KIA [Electronic Engineering (CNS) Training Instructor]

Mr. S. Kunje, Electronics Engineer, Chileka Airport [Electronic Engineering (CNS) Training Instructor]

Mr. O. Yokonia, Electrical Engineer, Chileka Airport [Electrical/Mechanical Engineering Training Instructor]

*Additional Support Staff under consideration.

#### 3) Project Office Space

Office space for the Project was provided in School of Aviation (SOA), DCA.

#### 4) Project Office Expenses

Utility cost was paid by the Malawian side and DCA provided the following expenses for the project office as of June 2015.

a) Purchase of two desktop computers:	1,055,210 MWK
b) Purchase and installation of two split air conditioners:	989,114 MWK
c) Purchase and installation of air conditioners for ATC simulator room	862,100 MWK
d) Purchase of desks and chairs for training rooms	951,105 MWK
e) Advertising Cost	1,362,589 MWK

PM Form 3-1 Monitoring Sheet Summary

f) School of Aviation (CBT furniture, meals, and student allowances)	1,405,700 MWK
5) Travel Expenses for Counterpart Personnel within Malawi	
The travel expenses for C/P to travel outside the Lilongwe area provided by DCA	were as follows
(as of June 2015):	
a) Transport costs and subsistence allowances for students from Chileka	
(Team Resource Management Course/ from Chileka to Lilongwe)	76,000 MWK
b) Transport costs for Lilongwe students	
(Team Resource Management Course/ from Blantyre to Lilongwe)	70,000 MWK
c) Transport costs and subsistence allowances for students from outside Lilongwe	е
- Test Equipment, E & M	354,000 MWK
- Flight Procedure Design, General Communications	485,000 MWK

#### 1-2. Progress of Activities

- (1) Summary of Work Progress (June 2014 June 2015)
  - 1) Baseline Survey

The Project Team conducted the baseline survey on capacity of SOA which includes the capacities of ATM (ATC, FIS, AIS, ACS), Electronics Engineering (CNS), Electrical and Mechanical (E/M). The survey was conducted according to the ICAO's standard of assessing training organization.

#### 2) Review of the existing training materials

The Project Team, composed of JET members and the counterpart personnel (C/P), observed existing training syllabus and textbooks for all training courses conducted in SOA (see "Results of the PDM Activities", described below).

#### 3) Preparation of a work plan

The Project Team prepared a work plan describing the material development, instructor training, as well as the method and schedule for the implementation of 16 training courses, on which agreement was reached with the Malawian side.

4) Preparation of base materials for training courses

The Project Team is preparing training course materials which follows ICAO guideline.

#### 5) Procurement of equipment

The Project Team procured equipment necessary for operating the Project in line with the JICA equipment procurement guideline.

#### 6) Trainings at the School of Aviation (SOA) (as of June 2015)

The trainings for instructors which were held at the School of Aviation are as follows:

- a) Computer Based Training (ATC)
   Date: 24th November 2014 (1/2 day)
   No. of Participants: 6
- b) Test Equipment Course
   Date: 12th 23rd January 2015 (10 days)
   No. of Participants: 5
- c) Electrical & Mechanical Training
   Date: 20th 30th April 2015 (9 days)
   No. of Participants: 6
- d) Microsoft Office PC Training
   Date: 21st 24th April 2015 (4 days)
   No. of Participants: 5
- e) Flight Procedure Design Training
   Date: 5th 28th May 2015 (18 days)
   No. of Participants: 4
- f) General Communications Course
   Date: 18th May– 5th June 2015 (15 days)
   No. of Participants: 6
- g) Park Air T6 VHF Maintenance Course
   Date: 8th 19th June 2015 (10 days)
   No. of Participants: 6
- h) VOR/DVOR/DME/ILS/RADAR Concept Course
   Date: 22nd June 10th July 2015 (15 days)
   No. of Participants: 6
- i) ATC Simulator Operation Lecture
   Date: 25th 29th May 2015 (5 days)
   No. of Participants: 6
- j) 052 ATC Aerodrome Control Course
   Date: 3rd June 3rd July 2015 (23 days)
   No. of Participants: 5

A total of 55 participants is expect to complete trainings by the beginning of July 2015.

#### 7) Overseas Training

DCA officials participated or will be participating in the following four overseas trainings:

- a) Team Resource Management Course: 26th to 30th January 2015 <South Africa>*1
- b) Supervisory Management Course: 2nd to 27th February 2015 <Kenya>*²

A total of 12 participants completed overseas trainings as of June 2015.

- [Overseas Training Institutes]
- *1: Air Traffic and Navigation Services (ATNS) in Johannesburg, South Africa

- 4 -

*2: East African School of Aviation (EASA) in Nairobi, Kenya

#### 8) First JCC Meeting

The First JCC Meeting was held on 30th June 2014. Five people from the DCA side including the Director, the Deputy Director and other three officials, two officials from the JICA Malawi Office, and five members from the JICA Expert Team (hereinafter referred to as "JET") participated in the meeting. The JET Leader, Mr. Hiroshi Mizumasa presented a summary of the Project. The minutes of the meeting for implementation of the Project were signed between Mr. Alfred C. Mtilatila, DCA Director and Mr. Kazuhiko Tokuhashi, Resident Representative, JICA Malawi Office.

#### 9) Second JCC Meeting

The Second JCC Meeting was held on 1st August 2014. Five people from the DCA side including the Director, the Deputy Director and three other officials, one official from the JICA Malawi Office, and two members from the JET participated in the meeting. The issues discussed and agreed were as follows:

- a) Approval of the Work Plan
- b) Confirmation of the Instructor Nomination
- c) Approval of updated PDM
- d) Confirmation of expense for domestic training/counterparts works

The minutes of the meeting was signed between Mr. Alfred C. Mtilatila, DCA Director and Mr. Hiroshi Mizumasa, the JET Leader.

#### 10) Third JCC Meeting

The Third JCC Meeting was held on 27th January 2015. Three people from the DCA side including the Deputy Director and two other officials, two officials from the JICA Malawi Office, and four members from the JET participated in the meeting. The issues discussed and agreed were as follows:

- a) Report on project progress and schedule
- b) Approval of the Monitoring Sheet ver.1
- c) Progress on new recruitment

The minutes of the meeting was signed between Mr. A. G. Matiya, DCA Deputy Director and Mr. Kazuhiko Tokuhashi, Chief Representative of the JICA Malawi Office.

#### (2) Results of the PDM Activities

Following is the summary of the Project activities having been conducted from June 2014 to June 2015. It is described according to the original PDM Activities.

# 1) Improvement of ATC and FIS Training

PDM Activities	Results
1-1. Review current training syllabus and training materials	All the syllabuses were reviewed. Most of them were made in 1980s.
1-2. Improve/develop training syllabus and training materials	Six training syllabuses and materials will be developed. The progress of preparation of each material is shown in the following 1-3. Achievement of Output.
1-3. Conduct training of instructors	Overseas trainings will be conducted in Nairobi in August and October 2015
1-4. Implement improved training courses	Base Material of ATC Basic Course 051 was provided by JET and it will be customized by SOA/DCA Instructor team. Trainings course of 052 Aerodrome will be conducted in June - July 2015.
1-5. Implement supervisor training	Supervisor trainings were conducted in Johannesburg in January and in Nairobi in February 2015.
1-6. Conduct monitoring and evaluation of the trainings implemented by the trained instructors	
1-7. Improve the training courses based on the results from the monitoring and evaluation	

# 2) Improvement of AIS and ACS Training

PDM Activities	Results
2-1. Review current training syllabus and training materials	All the syllabuses were reviewed. Most of them were made in 1980s.
2-2. Improve/develop training syllabus and training materials	Two (AIS and ACS) training syllabuses and materials will be developed.
	Two Working Groups, consisting of 4 AIS and ACS officers, were established in May to draft the training syllabuses and training materials which will be due in October 2015. The Working Groups will collect and update relevant information, and customize the base materials to match with the Malawian context. The progress of preparation of each material is shown in the following 1-3. Achievement of Output.
2-3. Conduct training of instructors	Overseas trainings will be conducted in Nairobi in August and in October 2015.
2-4. Implement improved training courses	CBT training course was held in November 2014.
2-5. Implement supervisor training	Supervisor trainings were conducted in Johannesburg in January 2015 and in Nairobi in February 2015.
2-6. Conduct monitoring and evaluation of	
the trainings implemented by the trained instructors	
2-7. Improve the training courses based on the results from the monitoring and evaluation	

PDM Activities	Results
3-1. Review current training syllabus and training materials	All the syllabuses have been reviewed. Most of them were made in 1980s.
3-2. Improve/develop training syllabus and training materials	Six training syllabuses and materials will be developed. The progress of preparation of each material is shown in the following 1-3. Achievement of Output
3-3. Conduct training of instructors	Overseas trainings will be conducted in Nairobi in August and October 2015.
	Training course of test equipment for instructors was conducted in January 2015.
3-4. Implement improved training courses	Training courses of COM & VOR/DME are/will be conducted in May – July 2015.
3-5. Implement supervisor training	Supervisor trainings were conducted in Johannesburg in January and in Nairobi in February 2015.
3-6. Conduct monitoring and evaluation of the trainings implemented by the trained instructors	Evaluation of the training was made through the Test Equipment Training in January 2015.
3-7. Improve the training courses based on the results from the monitoring and evaluation	

## 3) Improvement of Electronic Engineering Training

## 4) Improvement of Electrical/Mechanical Engineering Training

PDM Activities	Results
4-1. Review current training syllabus and training materials	All the syllabuses have been reviewed. Most of them were made in 1980s.
4-2. Improve/develop training syllabus and training materials	Two training syllabuses and materials will be developed. The progress of preparation of each material is shown in the following 1-3. Achievement of Output
4-3. Conduct training of instructors	Overseas trainings will be conducted in Nairobi in August and October 2015.
4-4. Implement improved training courses	Training courses of E & M were conducted in April 2015.
4-5. Implement supervisor training	Supervisor trainings were conducted in Johannesburg in January 2015 and in Nairobi in February 2015
4-6. Conduct monitoring and evaluation of the trainings implemented by the trained instructors	Evaluation of the training was made through the Electrical & Mechanical Training.
4-7. Improve the training courses based on the results from the monitoring and evaluation	

#### 1-3. Achievement of Output

Achievement of the Project outputs is observed according to the PDM indicators.

- Output 1 Training of Air Traffic Control (ATC) and Flight Information Services (FIS) is improved.
- Output 2 Training for Aeronautical Information Services (AIS) and Aeronautical Communication Services (ACS) is improved.
- Output 3 Training of Electronic Engineering is improved.
- Output 4 Training of Electrical/Mechanical Engineering (E/M Eng) is improved.

Indicators for the		Achievement as of June 2015
-Training syllabuses and training materials are improved or developed for the following number of courses:	ATC/FIS: 6 AIS/ACS: 2	<ol> <li>051: ATC Basic: 80%</li> <li>052: Aerodrome Control: 100%</li> <li>053: Approach Control: 60%</li> <li>055: Area Control: 30%</li> <li>CNS/ATM for ATC: 80%</li> <li>Flight Information Service: 50%</li> <li>AIS &amp; ACS (combined): 50%</li> </ol>

	PANS/OPS: 2*2	4 officers successfully completed "PANS/OPS Conventional Flight Procedure Design for Non-Precision Approach"
	ILS Maintenance: 4*2	

#### Achievement of Outputs

*1: Overseas trainings

*2: In-country trainings

#### 1-4. Achievement of the Project Purpose

Achievement of the Project purpose: "Trainings for air navigation services are implemented to effectively utilize the improved air navigation facilities." is observed according to the PDM indicators as follows:

Indicators for	the Project Purpose	Achievement as of June 2015
- The following number of	ATC/FIS: 6	0
instructors can conduct the	AIS/ACS: 4	0
improved/developed training courses (fulltime + part time)	Electronic Eng.: 4	0
	E/M Eng.: 4	0

#### Achievement of the Project Purpose

#### 1-5. Changes of Risks and Actions for Mitigation

No major changes were seen in the PDM Important Assumptions; therefore no special actions need to be taken. However, as for the Pre-conditions, new trainees were not recruited yet, which may affect the project outcomes.

(1) Pre-conditions

PDM Pre-conditions	Current Situations	Actions for Mitigation
1) DCA secures budget necessary for preparation of the Project Office and allocation of counterpart personnel before the commencement of the Project.	<ul> <li>Project office space was provided at the time of initiation of the work in Malawi in June 2014.</li> <li>Counterpart personnel (C/P) were allocated in the Project before the commencement of the project.</li> </ul>	<ul> <li>No special actions need to be taken.</li> </ul>
2) New trainees are recruited as scheduled.	<ul> <li>New trainees are not recruited since the initiation of the project in May 2014 to date.</li> <li>Recruitment of 24 new staff is in progress. They are planned to join DCA in August 2015.</li> </ul>	<ul> <li>JET requested DCA ensure the recruitment of new staff.</li> <li>Further 24 new staff has to be recruited to meet pre-condition of the Project.</li> </ul>

(2) Important Assumption when proceeding from Activities to Outputs

Important Assumption	Current Situations	Actions for mitigation
1) DCA implements the Project with sufficient ownership.	- DCA's ownership was seen.	<ul> <li>No special actions need to be taken.</li> </ul>

(3) Important Assumptions when proceeding from Outputs to the Project Purpose

Important Assumption	Current Situations	Actions for mitigation
1) No major change of the international standards on air navigation services occurred.	<ul> <li>No major changes were seen. It did not affect to the Project operation.</li> </ul>	<ul> <li>No special actions need to be taken.</li> </ul>

#### 1-6. Progress of Actions undertaken by JICA

No remarkable issues.

#### 1-7. Progress of Actions undertaken by the Government of Malawi

In May 2015, the Government of Malawi/DCA began procedures to recruit new students for ATC, Electronics Engineer, Electrical Engineer and Mechanical Engineer.

**1-8.** Progress of Environmental and Social Considerations (if applicable)

No remarkable issues.

- 1-9. Progress of Considerations on Gender/ Peace Building/ Poverty Reduction (if applicable) No remarkable issues.
- 1-10. Other remarks or issues related to the project (such as other projects of JICA, activities of counterparts, other donors, private sectors, NGOs, etc.)
  - (1) Project for the Improvement of Aviation Safety Oversight in Malawi by European Aviation Safety Agency (EASA)

EASA is currently assisting DCA and the Ministry of Transport and Public Works improving safety oversight capacity of civil aviation. There is no overlapping of activities between JICA project and EASA project.

- (2) Airport Safety and Security Equipment Project by European Investment Bank (EIB) EIB is funding the procurement of safety equipment such as fire trucks at Kamuzu International Airport. There is no overlapping of activities between JICA project and EIB project.
- (3) The Project for Expansion of the Terminal Building at Kamuzu International Airport by JICA JICA is currently conducting a Preparatory Survey for the project, which will include installation of the aircraft surveillance system. Current capacity development project will strengthen the foundation for the introduction of radar control services; however, does not include training for operation and maintenance of the aircraft surveillance system. DCA should plan capacity development for the radar control services if the project is realized.

#### 2. Delay of Work Schedule and/or Issues (if any)

#### 2-1. Detail

The project is on schedule; however, delay in recruitment of new staff would possibly affect the activities related to training of new staff under the Project.

#### 2-2. Cause of Delay

Recruiting process had been delayed due to lack of funds for recruitment on the part of the recruiting agencies.

#### 2-3. Actions to be taken

Recruitment process of the first 24 staff was initiated in mid-May 2015 and it is expected that new staff will join DCA in August 2015. Additional 24 staff has to be recruited to meet pre-condition of the Project.

#### 2-4. Roles of Responsible Persons/ Organization (JICA, Gov. of Malawi, etc.)

DCA and the Government of Malawi are responsible for recruitment of new staff.

#### 3. Modification of the Project Implementation Plan

#### 3-1. Plan of Operation (PO)

No major modification was made.

#### 3-2. Other Modifications on Detailed Implementation Plan

(Remarks: The amendment of R/D and PDM (title of the project, duration, project site(s), target group(s), implementation structure, overall goal, project purpose, outputs, activities, and input) should be authorized by JICA HDQs. If the project team deems it necessary to modify any part of R/D and PDM, the team may propose the draft.)

Some changes to be made, mainly in "Objectively Verifiable Indicators", were discussed among DCA and JICA Team prior to the 4th JCC meeting as follows (*<u>underlined</u> = changes to be made);

1) Overall Goal

Define the Objectively Verifiable Indicator as "<u>The targeted number of trainees (serving officers and new staff) who will</u> successfully complete the improved/developed training courses <u>between 2016</u> and 2020 is at least 80".

#### 2) Project Purpose

Change minimum score of comprehension test from 80% to <u>70%</u> in accordance with international standard of ICAO.

Replace the Means of Verification "Terminal Evaluation Report" with "<u>Project Completion Report</u>". In addition, insert "<u>- Results of comprehension test score of trainees</u>".

#### 3) Outputs

Delete the Objectively Verifiable Indicator "Comprehension test score of trainees who receive the improved/developed training courses exceeds at least 80%" as this indicator duplicates with that of the Project Purpose.

The revised PDM is attached as Project Monitoring Sheet I.

**4. Preparation of the Government of Malawi towards the completion of the Project** Not applicable.

## To Chief Representative of JICA Malawi Office

## **PROJECT MONITORING SHEET**

## Project Title: The Project for Capacity Development for Air Navigation Services

Version of the Sheet: Ver.3 (Term: 24th April 2014 – 20th May 2016)

Name: Hiroshi Mizumasa

Title: Chief Advisor

## Submission Date: Oct 2015

## I. Summary

## 1. Progress

- 1-1. Progress of Inputs
- (1) Japanese Side
  - 1) Experts

Seven JICA experts were assigned according to the plan.

Mr. Hiroshi Mizumasa, Chief Advisor

Ms. Mie Nagayasu, Deputy Chief Advisor

Mr. Kiichiro Hirano, ATC & AIS Training Specialist - 1

Mr. Daniel Paul Diggins, ATC & AIS Training Specialist - 2

Mr. Reynaldo Alido Batacan, CNS Maintenance Training Specialist

Mr. Kiyoshi Suzuki, E/M Maintenance Training Specialist

Ms. Yumi Hosoya, Flight Procedure Design Specialist

Details of their assignment are shown in the Plan of Operation (see Sheet-II "Plan of Operation").

## 2) Training Equipment

The following training equipment was procured:

a) Learning Aids and Office Equipment (June 2014)

- b) Computer Based Training ATC (November 2014)
- c) Test Instrument and Equipment (December 2014)
- d) PC-based Simulator Training System for Air Traffic Controllers (May 2015)
- (2) Malawi side
  - 1) Counterpart Personnel (C/P)

The following DCA Officials were assigned for effective and sound management of the Project (see also Sheet II "Plan of Operation").

[Counterpart Personnel]

Project Director (P/D): Mr. A. C. Mtilatila, Director of Civil Aviation

Project Manager (P/M): TBD (vacant as of October 2015)

*Co-project Manager (Mr. S. P. Galafa) will be acting as the Project Manager until the next person

is assigned.

Co-project Manager (Co-P/M): Mr. S. P. Galafa, Principal, School of Aviation Project Coordinator: Mr. F. Kholowa, Chief Air Traffic Services Officer, Operation Division Project Coordinator: Mr. R. C. Kanunkha, Assistant Chief Aeronautical

hator: Mr. R. C. Kanunkha, Assistant Chief Aeronautical Telecommunications Engineer, Operation Division

Trainers: Mr. S. P. Galafa, Principal, School of Aviation [ATC & FIS Training Instructor]

Mr. R. Y. Malanga, Lecturer School of Aviation [AIS & ACS Training Instructor]

Mr. S. Liundi, Lecturer School of Aviation [AIS & ACS Training Instructor]

Mr. C. F. Betenigo, Telecommunications Engineer, KIA [Aeronautical Engineering (CNS) Training Instructor]

Mr. T. Mtonga, Electrical Engineer, KIA [Electrical/Mechanical Engineering Training Instructor]

## 2) Support Staff

Eight instructors in total were assigned to the Project as support staff personnel:

## [Support Staff]

Ms. L. Manondo, ATC, KIA [ATC & FIS Training Instructor]

Mr. D. Zamaere, ATC, KIA [ATC & FIS Training Instructor]

Mr. F. Chisepeya, ATC, KIA [ATC & FIS Training Instructor]

Mr. J. Kazito, ATC, Chileka International Airport (CIA) [ATC & FIS Training Instructor]

Mr. R. Nkosi, Air Crew Briefing Officer, DCA [AIS & ACS Training Instructor]

Mr. N. B. Kaliyasi, Communication Officer, KIA [AIS & ACS Training Instructor]

Mr. F. N. Chisale, Electronics Engineer, KIA [Electronic Engineering (CNS) Training Instructor]

Mr. S. Kunje, Electronics Engineer, CIA [Electronic Engineering (CNS) Training Instructor]

Mr. O. Yokonia, Electrical Engineer, Chileka Airport [Electrical/Mechanical Engineering Training Instructor]

3) Project Office Space

Office space for the Project was provided in School of Aviation (SOA), DCA.

## 4) Project Office Expenses

Utility cost was paid by the Malawian side and DCA provided the following expenses for the project office as of Sept. 2015.

a) Purchase of two desktop computers:	1,055,000 MWK
b) Purchase and installation of two split air conditioners. (Project & CBT)	989,114 MWK
c) Purchase and installation of air conditioners for ATC simulator room	862,100 MWK
d) Purchase of desks and chairs for CNS Laboratory (May 2015)	951,105 MWK
e) Purchase of 2 desks and chairs for CBT. (May 2015)	477,000 MWK

PM Form 3-1 Monitoring Sheet Summary

f) Advertising Cost	1,362,589 MWK
<ul> <li>g) Installing 2 security doors for equipment room</li> </ul>	70,000 MWK
h) Installing 4 Air-conditioner cages	90,000 MWK
i) Building material for class room	30,000 MWK
j) Labor charge for installation security items	43,000 MWK

5) Travel Expenses, Allowance and Ration for Counterpart Personnel within Malawi

The travel expenses, Subsistence Allowance for C/P to travel from outside the Lilongwe area provided by SOA and Ration for trainees at SOA were as follows (as of 30th Sept. 2015):

a)	CBT Training in (Nov. 2014)	75,000 MWK
b)	Test Equipment Training. (Jan.2015)	126,000 MWK
c)	Team Resource Management Course Internal Training. (Jan.2015)	146,000 MWK
d)	Electro-Mechanical Training. (May 2015)	515,100 MWK
e)	Microsoft Office PC Training. (May 2015)	60,000 MWK
f)	AIS & ACS Working Group. (May 2015)	90,000 MWK
g)	Flight Procedure Design Training. (May 2015)	602,000 MWK
h)	General Communication Training. (May 2015)	577,500 MWK
i)	ATC Aerodrome Control 052 Training. (Jun. 2015)	783,000 MWK
j)	Park-Air VHF Maintenance Training. (Jun. 2015)	466,000 MWK
k)	CVOR/DVOR/DME/ILS/RADAR Concept Training. (Jun. 2015)	703,100 MWK

## 1-2. Progress of Activities

- (1) Summary of Work Progress (June 2014 Sept. 2015)
  - 1) Baseline Survey

The Project Team conducted the baseline survey on capacity of SOA which includes the capacities of ATM (ATC, FIS, AIS, ACS), Electronics Engineering (CNS), Electrical and Mechanical (E/M). The survey was conducted according to the ICAO's standard of assessing training organization.

## 2) Review of the existing training materials

The Project Team, composed of JICA Expert Team (hereinafter referred to as "JET") members and the counterpart personnel (C/P), observed existing training syllabus and textbooks for all training courses conducted in SOA (see "Results of the PDM Activities", described below).

## 3) Preparation of a work plan

The Project Team prepared a work plan describing the material development, instructor training, as well as the method and schedule for the implementation of 16 training courses, on which agreement was reached with the Malawian side.

4) Preparation of base materials for training courses

The Project Team is preparing training course materials which follows ICAO guideline.

5) Procurement of equipment

The Project Team procured equipment necessary for operating the Project in line with the JICA equipment procurement guideline.

6) Trainings at the School of Aviation (SOA) (as of Sept. 2015)

The trainings for instructors which were held at the School of Aviation are as follows:

- a) Computer Based Training (ATC)
   Date: 24th November 2014 (1/2 day)
   No. of Participants: 6
- b) Test Equipment Course
   Date: 12th 23rd January 2015 (10 days)
   No. of Participants: 5
- c) Electrical & Mechanical Training
   Date: 20th 30th April 2015 (9 days)
   No. of Participants: 6
- d) Microsoft Office PC Training
   Date: 21st 24th April 2015 (4 days)
  - No. of Participants: 5
- e) Conventional Flight Procedure Design Training Date: 5th – 28th May 2015 (18 days) No. of Participants: 4
- f) General Communications Course
   Date: 18th May– 4th June 2015 (14 days)
   No. of Participants: 6
- g) ATC Simulator Maintenance Lecture
   Date: 19th 22nd May 2015 (4 days)

## 8) First JCC Meeting

The First JCC Meeting was held on 30th June 2014. Five people from the DCA side including the Director, the Deputy Director and other three officials, two officials from the JICA Malawi Office, and five members from the JET participated in the meeting. The JET Leader, Mr. Hiroshi Mizumasa presented a summary of the Project. The minutes of the meeting for implementation of the Project were signed between Mr. Alfred C. Mtilatila, DCA Director and Mr. Kazuhiko Tokuhashi, Resident Representative, JICA Malawi Office.

## 9) Second JCC Meeting

The Second JCC Meeting was held on 1st August 2014. Five people from the DCA side including the Director, the Deputy Director and three other officials, one official from the JICA Malawi Office, and two members from the JET participated in the meeting. The issues discussed and agreed were as follows:

- a) Approval of the Work Plan
- b) Confirmation of the Instructor Nomination
- c) Approval of updated PDM
- d) Confirmation of expense for domestic training/counterparts works

The minutes of the meeting was signed between Mr. Alfred C. Mtilatila, DCA Director and Mr. Hiroshi Mizumasa, the JET Leader.

## 10) Third JCC Meeting

The Third JCC Meeting was held on 27th January 2015. Three people from the DCA side including the Deputy Director and two other officials, two officials from the JICA Malawi Office, and four members from the JET participated in the meeting. The issues discussed and agreed were as

## follows:

- a) Report on project progress and schedule
- b) Approval of the Monitoring Sheet ver.1
- c) Progress on new recruitment

The minutes of the meeting was signed between Mr. A. G. Matiya, DCA Deputy Director and Mr. Kazuhiko Tokuhashi, Chief Representative of the JICA Malawi Office.

## 11) Fourth JCC Meeting

The Forth JCC Meeting was held on 5th June 2015. Five people from the DCA side including the Director, Deputy Director and three other officials, two officials from the JICA Headquarters, two officials from the JICA Malawi Office, and four members from the JET participated in the meeting. The issues discussed and agreed were as follows:

- a) Report on project progress and schedule
- b) Activity Plan
- c) Approval of the Monitoring Sheet ver.2
- d) Progress on new recruitment

The minutes of the meeting was signed between Mr. Alfred C. Mtilatila, DCA Director and Mr. Hiroyuki Ueda, Senior Transport Sector Advisor, JICA Headquarters.

## (2) Results of the PDM Activities

Following is the summary of the Project activities having been conducted from June 2014 to Sept. 2015. It is described according to the original PDM Activities.

## 1) Improvement of ATC and FIS Training

PDM Activities	Results
1-1. Review current training syllabus and training materials	All the syllabuses were reviewed. Most of them were made in 1980s.
1-2. Improve/develop training syllabus and training materials	Six training syllabuses and materials will be developed. The progress of preparation of each material is shown in the following 1-3. Achievement of Output.
1-3. Conduct training of instructors	Two trainings for ATC and FIS were conducted in May and June to July, 2015
1-4. Implement improved training courses	Conventional Flight Procedure Design Course was conducted in May, 2015. 052 Aerodrome Course was conducted in June - July 2015.
1-5. Implement supervisor training	Team Resource Management Course, Supervisory Management Course and Instructor Development Course were conducted in January, February, and August in 2015.

1-6. Conduct monitoring and evaluation of the trainings implemented by the trained instructors	Evaluation of the training was made through the above mentioned courses and all the trainees obtained more than 70% in the comprehension test.
1-7. Improve the training courses based on the results from the monitoring and evaluation	

## 2) Improvement of AIS and ACS Training

PDM Activities	Results
2-1. Review current training syllabus and training materials	All the syllabuses were reviewed. Most of them were made in 1980s.
2-2. Improve/develop training syllabus and training materials	One combined AIS/ACS training syllabus and material will be developed.
	Two Working Groups, consisting of 4 AIS and ACS officers, were established in May to draft the training syllabuses and training materials.
	The progress of preparation of each material is shown in the following 1-3. Achievement of Output.
2-3. Conduct training of instructors	One training course was held in November, 2014.
2-4. Implement improved training courses	CBT training course was held in November 2014.
2-5. Implement supervisor/advanced/specialist training	Team Resource Management Course, Supervisory Management Course and Instructor Development Course were conducted in January, February, and August in 2015.
2-6. Conduct monitoring and evaluation of	
the trainings implemented by the trained instructors	
2-7. Improve the training courses based on the results from the monitoring and evaluation	

## 3) Improvement of Electronic Engineering Training

PDM Activities	Results
3-1. Review current training syllabus and training materials	All the syllabuses have been reviewed. Most of them were made in 1980s.
3-2. Improve/develop training syllabus and training materials	Six training syllabuses and materials will be developed. The progress of preparation of each material is shown in the following 1-3. Achievement of Output
3-3. Conduct training of instructors	Four trainings were conducted in January, May, June and July, 2015.
3-4. Implement improved training courses	Test Equipment Course was conducted in January 2015. General Communications Course was conducted in May-June, 2015.
3-5. Implement equipment-specific training	Park Air T6 VHF Radio Course was conducted in June, 2015. CVOR/DVOR/ILS/DME/RADAR Concept Course was conducted in June – July, 2015.

3-6. Conduct monitoring and evaluation of the trainings implemented by the trained instructors	Evaluation of the training was made through the above mentioned courses and all the trainees obtained more than 70% in the comprehension test.
3-7. Improve the training courses based on the results from the monitoring and evaluation	

### 4) Improvement of Electrical/Mechanical Engineering Training

PDM Activities	Results
4-1. Review current training syllabus and training materials	All the syllabuses have been reviewed. Most of them were made in 1980s.
4-2. Improve/develop training syllabus and training materials	Two training syllabuses and materials will be developed. The progress of preparation of each material is shown in the following 1-3. Achievement of Output
4-3. Conduct training of instructors	One training course was conducted in April 2015.
4-4. Implement improved training courses	Training courses of E & M were conducted in April 2015.
4-5. Conduct monitoring and evaluation of the trainings implemented by the trained instructors	Evaluation of the training was made through the above mentioned courses and all the trainees obtained more than 70% in the comprehension test.
4-6. Improve the training courses based on the results from the monitoring and evaluation	

## 1-3. Achievement of Output

Achievement of the Project outputs is observed according to the PDM indicators.

Output 1 Training of Air Traffic Control (ATC) and Flight Information Services (FIS) is improved.

- Output 2 Training for Aeronautical Information Services (AIS) and Aeronautical Communication Services (ACS) is improved.
- Output 3 Training of Electronic Engineering is improved.
- Output 4 Training of Electrical/Mechanical Engineering (E/M Eng) is improved.

Indicators for the	PDM Outputs		Achievement as of 30 th Sept. 2015

## 1-4. Achievement of the Project Purpose

Achievement of the Project purpose: "Trainings for air navigation services are implemented to effectively utilize the improved air navigation facilities." is observed according to the PDM indicators as follows:

## Achievement of the Project Purpose

Indicators for the Project Purpose		Achievement as of 30 th Sept. 2015

## 1-5. Changes of Risks and Actions for Mitigation

No major changes were seen in the PDM Important Assumptions; therefore no special actions need to be taken. However, as for the Pre-conditions, new trainees were not recruited yet, which may affect the project outcomes.

### (1) Pre-conditions

PDM Pre-conditions	Current Situations	Actions for Mitigation
1) DCA secures budget necessary for preparation of the Project Office and allocation of counterpart personnel before the commencement of the Project.	<ul> <li>Project office space was provided at the time of initiation of the work in Malawi in June 2014.</li> <li>Counterpart personnel (C/P) were allocated in the Project before the commencement of the project.</li> </ul>	<ul> <li>No special actions need to be taken.</li> </ul>
2) New trainees are recruited as scheduled.	<ul> <li>-12 new staff for ATC were recruited in early October 2015.</li> <li>-Recruitment for 12 new staff for Engineer is in progress. They will join DCA by the end of October 2015.</li> </ul>	- No special actions need to be taken.

## (2) Important Assumption when proceeding from Activities to Outputs

Important Assumption	Current Situations	Actions for mitigation
1) DCA implements the Project with sufficient ownership.	- DCA's ownership was seen.	<ul> <li>No special actions need to be taken.</li> </ul>

## (3) Important Assumptions when proceeding from Outputs to the Project Purpose

Important Assumption	Current Situations	Actions for mitigation
1) No major change of the international standards on air navigation services occurred.	<ul> <li>No major changes were seen. It did not affect to the Project operation.</li> </ul>	<ul> <li>No special actions need to be taken.</li> </ul>

## 1-6. Progress of Actions undertaken by JICA

No remarkable issues.

## 1-7. Progress of Actions undertaken by the Government of Malawi

In May 2015, the Government of Malawi/DCA began procedures to recruit new students for ATC, Electronics Engineer, Electrical Engineer and Mechanical Engineer. New students for ATC will be selected and ATC training will start at SOA from October 2015. Recruitment for the new students for Engineer is still in progress. They will be selected and training will start by mid-November 2015.

## 1-8. Progress of Environmental and Social Considerations (if applicable)

No remarkable issues.

- **1-9.** Progress of Considerations on Gender/ Peace Building/ Poverty Reduction (if applicable) No remarkable issues.
- 1-10. Other remarks or issues related to the project (such as other projects of JICA, activities of counterparts, other donors, private sectors, NGOs, etc.)
  - (1) Project for the Improvement of Aviation Safety Oversight in Malawi by European Aviation Safety Agency (EASA)

EASA is currently assisting DCA and the Ministry of Transport and Public Works improving safety oversight capacity of civil aviation. There is no overlapping of activities between JICA project and EASA project.

- (2) Airport Safety and Security Equipment Project by European Investment Bank (EIB) EIB is funding the procurement of safety equipment such as fire trucks at Kamuzu International Airport. There is no overlapping of activities between JICA project and EIB project.
- (3) The Project for Expansion of the Terminal Building at Kamuzu International Airport by JICA Embassy of Japan in Malawi announced that the Japanese government will conclude Exchange of Note (EN) concerning "The Project for Expansion of the Terminal Building at Kamuzu International Airport" in November 2015.

This project will include installation of the aircraft surveillance system. Current capacity development project will strengthen the foundation for the introduction of radar control services; however, will not include training for operation and maintenance of the aircraft surveillance system. Therefore, DCA should plan means for capacity development for Radar Control services in near future.

## 2. Delay of Work Schedule and/or Issues (if any)

## 2-1. Detail

Despite a few months of delay, new staff for ATC will be recruited in early October 2015 and training will start from 12th October 2015. Other new staff for Engineer's recruitment is in progress and selection will be finalized and training will start by mid-November 2015.

## 2-2. Cause of Delay

Recruiting process had been delayed due to lack of funds for recruitment.

## 2-3. Actions to be taken

Project counterparts shall complete the remaining recruitment process within November 2015.

## 2-4. Roles of Responsible Persons/ Organization (JICA, Gov. of Malawi, etc.)

DCA and the Government of Malawi are responsible for recruitment of new staff.

## 3. Modification of the Project Implementation Plan

## 3-1. Plan of Operation (PO)

No major modification was made.

## 3-2. Other Modifications on Detailed Implementation Plan

(Remarks: The amendment of R/D and PDM (title of the project, duration, project site(s), target group(s), implementation structure, overall goal, project purpose, outputs, activities, and input) should be authorized by JICA HDQs. If the project team deems it necessary to modify any part of *R*/D and PDM, the team may propose the draft.)

Some changes made, mainly in "Objectively Verifiable Indicators", were discussed and agreed among DCA and JICA Team at the 4th JCC meeting which were as follows (*<u>underlined</u> = changes made).

## 1) Overall Goal

Define the Objectively Verifiable Indicator as "The targeted number of trainees (serving officers and new staff) who will successfully complete the improved/developed training courses between <u>2016</u> and <u>2020</u> is at least 80".

## 2) Project Purpose

Change minimum score of comprehension test from 80% to 70% in accordance with international standard of ICAO.

Replace the Means of Verification "Terminal Evaluation Report" with "Project Completion Report". In addition, insert "- Results of comprehension test score of trainees".

## 3) Outputs

Delete the Objectively Verifiable Indicator "Comprehension test score of trainees who receive the improved/developed training courses exceeds at least 80%" as this indicator duplicates with that of the Project Purpose.

The revised PDM is attached as Project Monitoring Sheet I.

**4.** Preparation of the Government of Malawi towards the completion of the Project Not applicable.

## II. Project Monitoring Sheet I (PDM) & Sheet II (PO) as attached

Outputs (Objectives to be realized by Activities to achieve the Project Purpose)           1. Training of Air Traffic Control (ATC) and Flight Information Services (FIS) is improved.           2. ### Training Course Summary

Course title:	ICAO 052 Aerodrome Control Course
Schedule:	$1^{st}$ June – $3^{rd}$ July 2015 (5 weeks)
Objective:	To improve ATC instructors' capacity to conduct training through the Aerodrome Control training based on ICAO 052 along with the use of ATC simulator system.

## Syllabus:

- 1. Aerodynamics
- 2. Aviation English
- 3. Search and Rescue
- 4. Aerodrome Control
- 5. Excise Aerodrome Control by Simulator

### Trainees/Instructors:

### [Trainees]

- 1. Mr. CLIFTON J. CHAMPHALE
- 2. Ms. JELIA KALINDA
- 3. Mr. PAUL HARRY LIZIMBA
- 4. Mr. JOSEPH GONANG'OMBE MOYO

## Training Course Summary

Course title:	Conventional Flight Procedure Design (Non-Precision Approach) Course
Schedule:	$5^{\text{th}} - 28^{\text{th}}$ May 2015 (4 weeks)
Objective:	To acquire knowledge on basic flight procedure design based on non- precision approach by conventional navigation-aid targeting ATC and AIP officers.

## Syllabus:

- 1. Flight Procedure Design Concept
- 2. General Regulations (Conversion IAS to TAS, Truck Guidance, Minimum Separation, Fix Point Error, Circling Area)
- 3. Design of STAR by Conventional Navigation
- 4. Design of VOR Approach & NDB Approach
- 5. Design of Circling Approach Area
- 6. Design of Basic Circling Approach
- 7. Design of  $45^{\circ}/180^{\circ}$  turning
- 8. Design of MSA
- 9. Design & Evaluation of Visual Segment Surface

### Trainees:

1. Stephen Donald MKANDAWIRE International Airport Chief Air Traffic Controller, Kamuzu

- 2. Janet Tiyesie MPHANDE
- Air Traffic Controller, Kamuzu International Airport Air Traffic Controller, Chileka International
- Bosco Yokonia NG'OMA Airport
   Robert NKOSI
- Air Traffic Management, Department of Civil Aviation

## Training Course Summary

Course title: PC (Microsoft Office) Training Course

Schedule: 21st-24th April 2015 (4 days)

Objective: To improve computer literacy of the instructors at the School of Aviation and DCA officers.

Syllabus:

- 10. Using Computer & UPS devices
- 11. Microsoft Office Word
- 12. Microsoft Office Excel
- 13. Microsoft Office Power-Point

Trainees:

- 1. Mr. Fredrick L. CHISEPEYA

### Training Course Summary

Course Title:	General Communications Course
Schedule:	18 th May – 4 th June 2015 (3 weeks)
Objective:	To acquire theoretical and new knowledge of General Communication such as Radio, Telephone and Data Network.

Syllabus:

- 1. Introduction
- 2. Wire Technology
- 3. Data Communication
- 4. Digital Network
- 5. Fiber Optics
- 6. Multipoint Distribution System
- 7. Wireless Technology
- 8. Voice Communication System 3025 (Current System in Lilongwe Airport)

15	

B) Are the technologies being transferred to staff other than Taskforce members?

Yes	No
14	

- 3. Influence Factors to Project Implementation
  - A) What are factors that caused problems on conducting Activities?
- Low level of budget on Malawi side.
- Delay in recruitment of new staff has affected the implementation of the Project, as a result, some of the new staff will not be trained under the Project.
- Transport challenges on the part of DCA.

- Having some instructors stationed at Chileka is having a negative effect on implementation.
- In training programs, most instructors earmarked for the training did not do the training to the fullest. This comprised the standard in which the instruction should be done. Selection was not good. Some members will be retiring and hence waste of resources.
- Non-availability of laptops to participants.
- I think the Malawi side Failed to do their part most of the times like counterpart personnel from Chileka find problems when attending courses in Lilongwe due to financial constraints and in some occasions missed out on some activities due to same reasons-Finance.
- Communication breakdown sometimes participants to some other activities were informed very late-even being informed on the very day of activity commencement.
- Education background, age whereby old people who will be retiring soon were trained and there will be lack of continuity.
- Personal gains for some were given priority instead of achieving the institutional goal. Lack of ownership of the project by most Malawians.
- Lack of adequate resources on Malawian side: classrooms, e.g. CBT can only accommodate up to 6 attendance, hence causing a separation in conducting exercises with participants.
- Inadequate finding to the side of parent sector.
- Lack of selection criteria to the side of instructor to various training programs.
- No problems identified so far.
  - B) What are factors that have positive or negative effect on achievement of Outputs?
- Inadequate infrastructure and financial resources.
- Every program was done at the scheduled time and within the given period. Institution selected for external training were appropriate. Organization of the whole project with parallel organization structures on both the DCA side and the JICA side.
- Bureaucracy in the Government system has had a negative effect on the achievement of the outputs.
- Untimely availability of funds on the DCA side.
- Lack of physical presence of some instructors affecting implementation.
- The bringing in of a CNS expert (Mr. Batacan) helped a lot in the transfer of skills from an experienced instructor to the amateur ones (i.e. DCA side).
- Positive- JICA Team were cooperative. Equipment (especially visual aids) were relevant to the capacity development of instructors.
- Negative-There was passive response from the Malawian side. Mostly activities were done when JICA Team are in the country.
- On the Japanese side I would say they tried their best to meet their obligations like organizing courses, finding schools for counterpart instructors and funding these activities. But problems always arise on

the Malawi side in that they fail to fulfil their obligations maybe because our country is passing through difficult times financially.

- Low amount of external allowances to DCA instructors.
- On the positive side, punctuality by the JICA team installed discipline in all participants throughout.
- Education background, age, strategies have both positive and negative effects on achievement of outputs. If an institution has bad strategies and does not plan for the future, doesn't consider education background and age, achievement of outputs is not realized.
- Inadequate rooms to conduct classes at a single time is negative issue.
- Inadequate funding to conduct exercises which require intensive group participation and proper training for those conducting the instructions.
- Delay in executing some of project activities.
- Consistent communication between JICA and parent organization DCA.
- Good learning environment and skilled lecturers.

C) Are there any changes on Important Assumptions?

- No significant changes have been seen and recorded, and international standards and national policy are still within national strategy.
- No change in Important Assumptions. 5
- Assumptions like those on part of instructors being trained some were degree holders in education; it may be assumed that they know instruction techniques as such it seems mostly they were denied opportunities to be trained to the fullest.
- No I don't think there are any changes I think everything is in older apart from the shortfalls on the Malawi Government side.
- Importantly what was assumed has been greatly achieved and we wish such Projects be carried on time and again.
- There are changes on some important assumptions. For instance, the assumption that people will be paid to be a part of capacity building. However, some assumptions are just too rigid to be changed. There is still some resistance to change.
- Changes are there, e.g. Malawian Technical Team of the School are now able to apply the use of technical equipment, e.g. simulation exercise, CBT technical manual editing and updating and power point presentation plus many more.
- Such as assumption based on the issue that when the instructors had already basic academic qualifications which has not been changed.
- Logical framework tool was not available to most of project staff.

- 2. Managing the New Workforce
- 3. Communication and Supervision
- 4. People Development
- 5. Performance Management
- 6. Team Development

4

- 7. Getting the Work Done
- 8. Ensuring your Success

- Mr. MACLETCHER FRANCIS THOMAS BONGWE (DCA) Mr. SHADRECK ARTHUR CHIPINGA (KIA)
- Mr. RUTHERFORD CHAYIMA KANUNKHA (KIA)
- Mr. FRANCIS CHRISTOPHER ZENAS KHOLOWA (DCA)

Instructor Development Program [EASA, Kenya] Course title:

4th August ~ 21st August 2015 (3 weeks) Schedule:

**Objectives:** To enable one to become a confident and effective instructor.

Syllabus:

- 1. Orientation
- 2. Instructors roles and responsibilities
- 3. Principles of learning and instruction
- 4. How to organize a course
- 5. Preparation of Facilities
- 6. Overview of course development
- 7. Tests

8

- 8. Effective training techniques
- 9. Managing individualized instruction
- 10. Conducting group discussion
- 11. Presenting materials and discussion
- 12. Assessment of performance
- 13. Feedback and schedule adjustment

#### Trainees:

- Mr. CLEMENT FREDSON BETENIGO (CNS, KIA)
- Mr. FREDRICK LYTON CHISEPEYA (ATC, KIA)
- Mr. NELSON KALIASI (ATC, KIA) Mr. SPARROW RODNEY KUNJE (CIA)
- Mr. STEVEN SAONEKA MISIEH LIUNDI (AIS/ACS, SOA) Mr. RODRICK YIMANI MALANGA (AIS/ACS, SOA)
- Mr. THOMSON PRECIOUS MALUMBO MTONGA (KIA)
- Mr. OSCAR ALFRED YOKONIA (CIA)

*There were 6 other Kenyan trainees in the course.

Course title: Advanced Instructor Training [EASA, Kenya]

5th October ~ 23rd October 2015 (3 weeks) Schedule:

**Objectives:** To carry out management activities related to training.

#### Syllabus:

- 1. Training Administration
- 2. Training Objectives
- 3. Evaluation of Training
- 4. Academic Counseling Interview
- 5. Student Performance Evaluation Interview
- 6. Professional Conduct Interview
- 7. Departure Interview
- 8. Overview of Trainairplus Training development process
- 9. Report Writing

6

#### Trainees:

- Mr. CLEMENT FREDSON BETENIGO (CNS, KIA)
- Mr. SIDNEY PETER GALAFA (ATC, SOA)
- Mr. SPARROW RODNEY KUNJE (CIA) Ms. LINDA LOISE ANNIE MANONDO
- Mr. OSCAR ALFRED YOKONIA (CIA)
- Mr. DENNIS TELESPHOROUS ZAMAERE

*There were 4 other Kenyan trainees in the course.

Course title: Computer Based Training (CBT)

Schedule: 24th November 2014 (1 Day)

Objectives: To acquire basic knowledge on the Computer Based Training (CBT) software;

To familiarize with the CBT system and develop training exercises and exams.

#### Syllabus:

- 1. Introduction to Computer Based Training (CBT)
- 2. How to use CBT System Operation Manual
- 3. Developing exercises and exams

# Trainees:

6

Mr. CLEMENT FREDSON BETENIGO (KIA) Mr. SIDNEY PETER GALAFA (SOA) Mr. ESTONIC MALANGO KANYIMBO (SOA) Mr. JIMMY HENDRIX DYSON KAZITO (CIA) Mr. RODRICK MALANGA (SOA) Mr. STEVE M. S. LIUNDI (SOA)

Course title: Test Equipment Course	e
-------------------------------------	---

 $12^{\text{th}} \sim 23^{\text{rd}}$  January 2015 (2 weeks) Schedule:

- Objectives: - To acquire basic knowledge on handling and maintaining the test equipment which are the basis for a sound airport operation;
  - To familiarize with the various equipment and to prevent damage from inappropriate maintenance.
  - To understand the requirements relating to various test equipment in communications technology.

Syllabus:

- 1. Introduction to Oscilloscope
- 2. Familiarization
- 3. Probes

5

- 4. Voltage measurements
- 5. Time measurements
- 6. Phase measurements

- Mr. CLEMENT FREDSON BETENIGO (KIA) Mr. FREDERICK NYANDA CHISALE (KIA)
- Mr. ESTONIC MALANGO KANYIMBO (SOA) Mr. THOMSON PRECIOUS MTONGA (KIA) Mr. MZONDI NYIRENDA (KIA)

Course title: Basic Concept for Electrical & Mechanical Training

Schedule: 20th - 30th April 2015 (2 weeks)

Objective: To acquire knowledge on the basic principles (which are not confined to a certain manufacturer), structure, theoretical mechanism and operation minimum, and recovering priority based on ICAO operational standards for Air Field Lighting and UPS/Generator.

#### Syllabus:

Diesel Engine Generator

- 1. DEGS Serviceability Checks
- 2. DEGS Manual and Automatic Operation
- 3. AC Generator Serviceability Check
- 4. Diesel Engine Serviceability Check
- 5. Control Cubicle Serviceability Check
- 6. Troubleshooting (JOB-AIDS)
- UPS 1. Preparatory Checks and
- Manual Operation
   Automatic Simulation and
- Stopping 3. Physical and Electrical
- Checks 4. Troubleshooting (JOB-

AIDS)

- Air Field Lighting
- 1. Operational
- Concept
- 2. Visual Effect
- 3. Human Element
- 4. Operating Requirements
- 5. Lighting Device

# [Trainees]

- 1. Ms. Catherine GIBSON
- 2. Mr. George MLENGANDALE
- 3. Mr. Thomson Precious Malumbo MTONGA
- 4. Mr. Charles Wilned NKOSI
- 5. Mr. Fletcher Misanjo Eneya PHUMISA
- 6. Mr. Oscar Alfred YOKONIA

Chileka International Airport Kamuzu International Airport Kamuzu International Airport Kamuzu International Airport Chileka International Airport Chileka International Airport

Course title: Microsoft Office Training Course (Group 1)

Schedule: 21st-24th April 2015 (4 days)

Objective: To improve computer literacy of the instructors at the School of Aviation and DCA officers.

Syllabus:

- 1. Using Computer & UPS devices
- 2. Microsoft Office Word
- 3. Microsoft Office Excel
- 4. Microsoft Office Power-Point

# Trainees: 5

- 1. Mr. FREDRICK L. CHISEPEYA
- 2. Mr. NELSON B. KALIASI
- 3. Mr. STEVEN M. S. LIUNDI
- 4. Mr. RODRICK Y. MALANGA
- 5. Ms. LINDA ANNIE MANONDO

ATC, Kamuzu International Airport AIS, Kamuzu International Airport ACS, School of Aviation AIS, School of Aviation ATC, Kamuzu International

Course title : Conventional Flight Procedure Design (Non-Precision Approach) Course

Schedule: 5th – 28th May 2015 (4 weeks)

Objective: To acquire knowledge on basic flight procedure design based on non-precision approach by conventional navigation-aid targeting ATC and AIP officers.

# Syllabus:

- 1. Flight Procedure Design Concept
- General Regulations (Conversion IAS to TAS, Truck Guidance, Minimum Separation, Fix Point 2. Error, Circling Area)
- 3. Design of STAR by Conventional Navigation
- 4. Design of VOR Approach & NDB Approach
- 5. Design of Circling Approach Area
- 6. Design of Basic Circling Approach
- 7. Design of  $45^{\circ}$  /  $180^{\circ}$  turning
- 8. Design of MSA
- 9. Design & Evaluation of Visual Segment Surface

# Trainees:

- 1.
- 2.JANET TIYESIE MPHANDE

4

- 3. BOSCO YOKONIA NG'OMA
- 4. **ROBERT NKOSI**

STEPHEN DONALD MKANDAWIRE Chief Air Traffic Controller, Kamuzu International Airport Air Traffic Controller, Kamuzu International Airport Air Traffic Controller, Chileka International Airport Air Traffic Management, Department of Civil Aviation

Course Title:	General Communications Course
Schedule:	18 th May – 4 th June 2015 (3 weeks)
Objective:	To acquire theoretical and new knowledge of General Communication such as Radio, Telephone and Data Network.

Syllabus:

- 1. Introduction
- 2. Wire Technology
- 3. Data Communication
- 4. Digital Network
- 5. Fiber Optics
- 6. Multipoint Distribution System
- 7. Wireless Technology
- 8. Voice Communication System 3025 (Current System in Lilongwe Airport)

# Trainees:

- 1. Mr. EMMANUEL KEN CHAVULA
- 2. Mr. FREDERICK NYANDA CHISALE
- 3. Ms. SELLINA KHAILA

6

- 4. Mr. PATRICK MANJOMO
- 5. Mr. DEUS MALAIDZA
- 6. Mr. JONES G. F. NYIRENDA

Chileka International Airport Kamuzu International Airport Kamuzu International Airport Chileka International Airport Kamuzu International Airport Karonga Airport

Course Title: Park Air VHF Maintenance Course

Schedule:  $8^{th} - 19^{th}$  June 2015 (2 weeks)

Objectives: To gain basic knowledge and to become able to describe and discuss basic multimode radio, transmitter, receiver, operations and preventive maintenance inspection.

# Syllabus:

- 1. Introduction
- 2. T6 Receiver
- 3. T6 Transmitter

# Trainees:

- 1. Mr. MIKECHAVULA
- 2. Mr. OSCAR PATANI CHIHANA
- 3. Mr. FREDERICK NYANDA CHISALE
- 4. Mr. LLOYD TIYEZGE GONDWE
- 5. Ms. SELLINA KHAILA
- 6. Mr. DEUS MALAIDZA

Chileka International Airport Mzuzu Airport Kamuzu International Airport Chileka International Airport Kamuzu International Airport Kamuzu International Airport

# Course title: ICAO 052 Aerodrome Control Course

Schedule:  $1^{st}$  June –  $3^{rd}$  July 2015 (5 weeks)

Objective: To improve ATC instructors' capacity to conduct training through the Aerodrome Control training based on ICAO 052 along with the use of ATC simulator system.

# Syllabus:

- 1. Aerodynamics
- 2. Aerodrome Control
- 3. Search and Rescue

# Trainees/Instructors: 9

# [Trainees]

- 1. CLIFTON J. CHAMPHALE
- 2. JELIA KALINDA
- 3. PAUL HARRY LIZIMBA
- 4. JOSEPH GONANG'OMBE MOYO
- 5. ROBERT NKOSI

#### [Instructors]

- 1. FREDERICK LYTON CHISEPEYA
- 2. SIDNEY PETER GALAFA
- 3. LINDA ANNIE MANONDO
- 4. DENNIS TELESPHORUS ZAMAERE

Kamuzu International Airport Kamuzu International Airport Kamuzu International Airport Mzuzu Airport DCA Headquarters

Kamuzu International Airport School of Aviation Kamuzu International Airport Chileka International Airport

# Course Title: DVOR/CVOR/DME/ILS/RADAR Concept Course

- Schedule:  $22^{nd}$  June  $10^{th}$  July 2015 (3 weeks)
- Objective: To acquire knowledge on basic technical concept for the Communication, Navigation and Surveillance System in aviation engineering and to improve capacity of the current engineers.

# Syllabus:

- 1. Introduction
- 2. DVOR/CVOR
- 3. DME
- 4. ILS
- 5. RADAR

# Trainees:

- 1. Mr. FREDERICK NYANDA CHISALE
- 2. Ms. SELLINA KHAILA

6

- 3. Mr. SPARROW RODNEY KUNJE
- 4. Mr. DEUS MALAIDZA
- 5. Mr. YONAM WILA LUKE SILUNGWE

Kamuzu International Airport Kamuzu International Airport Chileka International Airport Kamuzu International Airport Chileka International Airport

Course title: ICAO 051 Basic ATC Course

Schedule: 12th October 2015 ~ 29th January 2016

Objective: To understand initial Basic Air Traffic Control for freshmen

#### Syllabus:

- 1. Introduction
- 2. Aviation law
- 3. Aerodrome
- 4. Flight Planning
- 5. Air Traffic Management
- 6. Meteorology
- 7. Navigation
- 8. Aircraft
- 9. Human Factor

#### Trainees (New Students)

- 1. Ms. STELLA P. E. CHIRWA
- 2. Ms. EDITH GAMALIEL
- 3. Mr. COSMAS N. JIMSON
- 4. Mr. MICHAEL KACHIGWADA
- 5. Ms. TOWERA E. KAMANGA
- 6. Ms. TAONA KANUNKHA
- 7. Mr. HENRY M. MAGOMBO
- 8. Mr. CHARLES M. MAJAWA
- 9. Mr. GODFREY J. MLENGA
- 10. Mr. HESTON MUNKHONDYA
- 11. Mr. WACKIE L. MWENELUPEMBE
- 12. Mr. AARON W. NDALEMA

Instructor Team

- 1. Daniel Diggins (JICA Exp.)
- 2. Sidney Galafa (SOA)
- 3. Fredrick Chisepeya (KIA)
- 4. Dennis Zamaere (KIA)
- 5. Linda Manondo (KIA)

Course title: NORMARC ILS Maintenance

26th October ~ 4th December 2015 (6 weeks) Schedule:

Objective: To understand maintenance of NORMARC ILS at Kamuzu International Airport (KIA)

Syllabus:

- 1. ILS Theory
- 2. Concept of NORMARC 7000
- 3. Operating Instruction
- 4. RMM Program
- 5. Transmitter Alignment
- 6. Transmitter Adjustment7. Localizer Antenna System
- 8. Glide Slope Antenna System
- 9. Monitor
- 10. Installation and Configuration
- 11. Preventive Maintenance

Trainees (Current Electronics Engineer):

- 1. Mr. FREDERICK NYANDA CHISALE (KIA)
- 2. Mr. ROBINSON CHIZIMU (KIA)
- 3. Mr. LLOYD TIYEZGE GONDWE (KIA)
- 4. Ms. SELLINA KHAILA (KIA)
- 5. Mr. DEUS MALAIDZA (KIA)
- 6. Mr. MZONDI M. NYIRENDA (KIA)

- Course title: Conventional Flight Procedure Design [Departure]
- Schedule:  $2^{nd}$  November ~  $26^{th}$  November 2015 (4 weeks)
- Objectives: To be able to apply the knowledge and skill in designing a non-precision approach procedure;

To understand how to and be able to apply the knowledge and skills in designing a departure procedure; and

To understand general knowledge and concepts of ILS approach procedure design.

#### Syllabus:

- 1. Reviewing the knowledge in designing non-precision approach procedures
- 2. General of departure procedures
- 3. Straight departure procedures
- 4. Turning departures (at designated fix)
- 5. Turning departures (at designated altitude)
- 6. ILS design general
- 7. Charting

- 1. Mr. STEPHEN DONALD MKANDAWIRE (KIA)
- 2. Ms. JANET TIYESIE MPHANDE (KIA)
- 3. Mr. BOSCO YOKONIA NG'OMA (CIA)
- 4. Mr. ROBERT NKOSI (DCA)

Course title:	Aeronautical Information Services (AIS) Course
Schedule:	[Group 1] 2 nd November ~ 13 th November 2015 (2 weeks)
	[Group 2] 16 th November~ 27 th November 2015 (2 weeks)
Objectives:	To refresh Aeronautical Communication Service (ACS) officers to new and existing procedures on Aeronautical Information Services (AIS);
	To familiarize the ACS officers with updated knowledge and modern equipment affiliated with AIS.
Syllabus: 1. F	Purpose of AIS

#### S

- 1. Purpose of AIS
- 2. Communications
- 3. Parts of a message
- 4. NOTAM
- 5. AIC
- 6. NOF
- 7. Flight Plan
- 8. FPL Associated messages
- 9. FLT Crew information
- 10. Movement & control messages/ATM messages
- 11. AFS-AFTN

#### Trainees:

[Group 1] Mr. INNOCENT F. CHIKAKUDA (KIA) Mr. Mc JONES KATHEWERA (Karonga) Mr. STEVEN M.S. LIUNDI (SOA) Mr. MALUMBO S. MHANGO (CIA) Ms. CATHERINE NAZOMBO (KIA) Mr. ANDREW SABUNI (KIA) Mr. LAZARUS G. ZGAMBO (Mzuzu)

[Group 2] Mr. M. K. BANDA (CIA) Mr. ALICK KACHINGWE (KIA) Mr. CHARLES M.C. KAMANGA (KIA) Mr. TAONA WISDOM MFUNI (KIA) Mr. WILLARD R. MIKA (Karonga) Mr. NATHAN KABIYA NDAU (Mzuzu)

- Course title: Microsoft Office Computer Training II
- Schedule: 1st December~3rd December 2015 (3 days)
- **Objectives:** To upgrade the level of computer literacy and presentation skills of the training instructors.

Syllabus:

- 1. Introduction to Word, Excel, Powerpoint
- 2. Presentation

- Mr. CLEMENT FREDSON BETENIGO (KIA)

- Mr. CLEMENT I RELISION BETEINISO (RIA) Ms. ELEMESS B. KAWERENGA (KIA) Mr. SPARROW RODNEY KUNJE (CIA) Mr. THOMSON PRECIOUS MALUMBO MTONGA (KIA) Mr. OSCAR ALFRED YOKONIA (CIA) Mr. DENNIS TELESPHORUS ZAMAERE (KIA)

Course title:	New CNS/ATM Training
Schedule:	$1^{st} \sim 12^{rh}$ February 2016 (2 weeks)

To upgrade the level of knowledge on the prerequisites, trends, and current status of **Objectives:** CNS/ATM concept development.

Syllabus:

- 1. ICAO CNS/ATM Concept
- 2. Institutional Aspects of CNS/ATM
- 3. Communication Technologies
- 4. Navigations Technologies
- 5. Surveillance Technologies
- 6. Operation in the CNS/ATM Environment
- 7. Implementation of the CNS/ATM Technologies
- 8. CNS/ATM Equipment

8

- Mr. HARDWELL D.C. BANDA (KIA)
- Mr. CLEMENT FREDSON BETENIGO (KIA)
- Mr. SIDNEY PETER GALAFA (SOA)
- Mr. SIDIAE I TETEK OALATA (SOA) Ms. JELIA KALINDA (KIA) Mr. TIMOTHY ERNEST KAMANGA (KIA) Mr. ESTONIC MALANGO KANYIMBO (KIA) Mr. SPARROW RODNEY KUNJE (CIA)
- Mr. THOMSON PRECIOUS MALUMBÓ MTONGA (KIA)

Course title: Maru DVOR/DME Maintenance

Schedule: 15th February ~ 24th March 2016 (6 weeks)

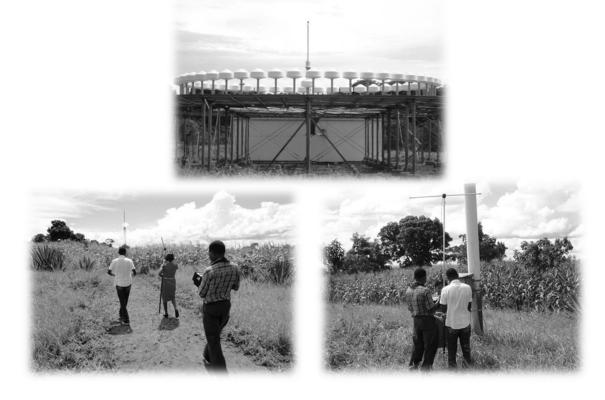

Objective: To understand the theory and various practices in maintaining Maru DVOR/DME.

#### Syllabus:

- 1. Maru DVOR 220 Theory and Introduction
- 2. Maru DVOR 220 Features/Characteristics
- 3. Maru DVOR 220 Monitor System
- 4. Maru DVOR 220 Laboratory 1 (Site Visit)
- 5. Maru DVOR 220 Transmitter System
- 6. Maru DVOR 220 Operations
- 7. Maru DVOR 220 Laboratory 2 (Site Visit)
- 8. Maru DVOR 220 Preventive Maintenance Inspection
- 9. Maru DVOR 220 Laboratory 3 (Site Visit)
- 10. Maru DVOR 220 Antenna System

- 1. Mr. EMMANUEL CHAVULA (CIA)
- 2. Mr. MIKE CHAVULA (CIA)
- 3. Mr. FREDERICK NYANDA CHISALE (KIA)
- 4. Mr. LLOYD TIYEZGE GONDWE (KIA)
- 5. Ms. SELLINA KHAILA (KIA)
- 6. Mr. DEUS MALAIDZA (KIA)

- 11. Maru DVOR 220 Laboratory 4 (Site Visit)
- 12. ICAO SARP's and Airborne Equipment
- 13. Maru DVOR 220 Corrective Maintenance
- 14. Maru DVOR 220 Corrective Maintenance Laboratory 5
- 15. Maru/Fernau DME 330 Introduction
- 16. Maru DME 330 Transponder/Monitor System
- 17. Maru DME 330 Transponder/Monitor Laboratory 6
- 18. Fernau DME 2020 Transponder/Monitor System
- 19. Maru/Fernau DME Corrective Maintenance
- 20. Maru/Fernau DME Corrective Maintenance Lab 7

# Course title: Microsoft Office Computer Training III

Schedule: 4th & 7th March 2016 (2 days)

Objectives: To upgrade the level of computer literacy and presentation skills of the training instructors.

Syllabus:

1. Introduction to Word, Excel, Powerpoint

2. Presentation

Trainees:

Mr. FREDERICK NYANDA CHISALE (KIA) Mr. LLOYD TIYEZGE GONDWE (KIA) Mr. ESTONIC MALANGO KANYIMBO (SOA) Mr. STEPHEN DONALD MKANDAWIRE (KIA) Ms. JANET TIYESIE MPHANDE (KIA) Mr. MZONDI M. NYIRENDA (KIA)

Course title: ICAO 052 Aerodrome Control (for ATC Freshmen)

Schedule: 1st February 2016 ~ May 2016 (planned as of April 2016)

Objective: To understand the basic theories and practice of Aerodrome Control.

Syllabus:

- 1. Aerodynamics
- 2. Aerodrome Control
- 3. Search and Rescue

#### Trainees (New Students)

- 1. Ms. STELLA P. E. CHIRWA
- 2. Ms. EDITH GAMALIEL
