by Socio-Economic Survey**

Marz	Gegharkunik
Number and Name of Community	No.14Drakhtik
District	Kranoseisk

No.	Question	Answer
<b>A: Baseline Data</b>		
A1	Actual population in 2001	1,150
A2	Actual population in 2007	1,200
A3	Number of households	380
A4.1	Elderly people	69
A4.2	Population in labor force (age from 16 to 62)	321
A4.3	Children	307
A5.1	Pensioners	180
A5.2	Unemployed	18
A5.3	Receiving benefits	93
A6	Average monthly income of household (AMD)	100,000
A7	Number of medical ambulance staion/first and health post	absent
A8	Number of beds in each medical ambulance staion	0
A9	Number of school	1
A10	Number of pupils	170
<b>B: Budget</b>		
B1	Annual Budget of the community 2004, in thousand AMD	8,266
	Annual Budget of the community 2005, in thousand AMD	10,183
	Annual Budget of the community 2006, in thousand AMD	12,382
	Annual Budget of the community 2007, in thousand AMD	12,383
	Annual Budget of the community 2008, in thousand AMD	is not planned
B2	Amount spent in drinking water sector 2004, in thousand AMD	0
	Amount spent in drinking water sector 2005, in thousand AMD	0
	Amount spent in drinking water sector 2006, in thousand AMD	0
	Amount spent in drinking water sector 2007, in thousand AMD	0
	Amount spent in drinking water sector 2008, in thousand AMD	is not planned
<b>C: Socio-Economic Survey</b>		
C1	Major industries of the community:	potatoes,cabbage, cereals, dairy, meat
C2	Is there any community activities carrying out by women? 1-Yes, 2-No	no
<b>D: Water Usage and Water Demand Survey</b>		
D1	Does the community hold water use permit? 1.Yes 2.No	no
D2	Water use permit number	-
D3	Date of expiry of water use permit	-
D4	Planned date of obtaining water use permit	is not planned
D5	Present condition of the water supply volume of Domestic use	insufficient
D6	Present condition of the water supply volume of Irrigation water	insufficient
D7	Number of house connection to drinking water system	0
D8	How many house connection household set the water meter	0
D9	Number of public taps	3
D10.1	How is the regime of water supply in your community in the dry season?	24 hrs
D10.2	How is the regime of water supply in your community in the wet season?	24 hrs
D11	What time of day water is given?	-
D12	Are you pleased with duration of domestic water supply?	mainly satis.
D13	Are hours of water supply convenient?	-
D14.1	How long the taps are open to provide the domestic water (cooking, washing, foodstuffs, dishes, Landry, bathing, etc) of each household a day?	-
D14.2	Estimate quantity of domestic water use of each household (liter per day)	400

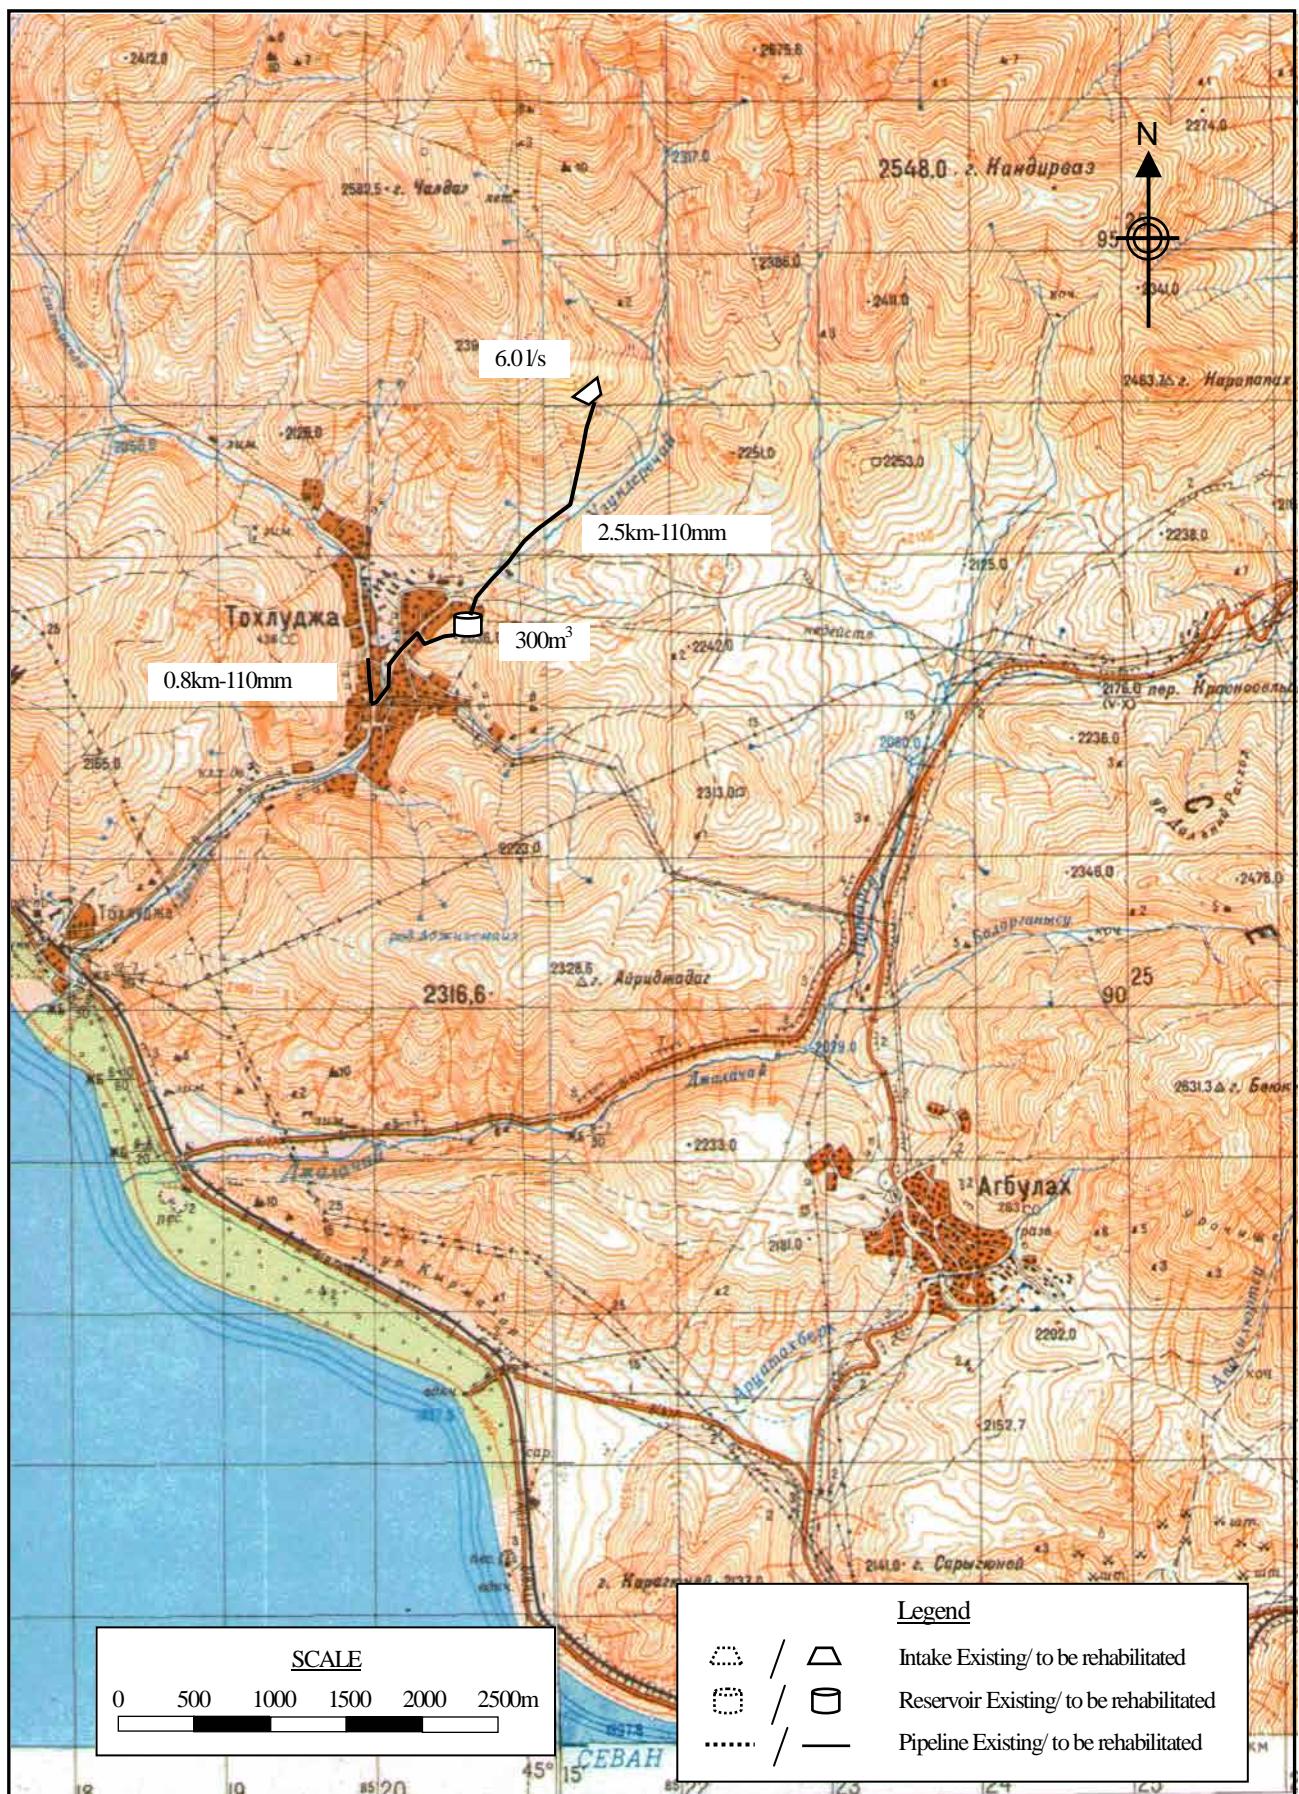

No.	Question	Answer
D15.1	How long the taps are open to provide the each household for filling	-
D15.2	Estimate quantity of water for filling containers of each household (liter per	400
D16	Drinking water monthly water fee per household	0
D17	How often do you usually pay water fees?	-
D18	Water fee structure_ 1Flat rate, 2 Having water tariff	-
D19	Where do you acquire the irrigation water?	no need for irrigation
D20	Are you satisfied with irrigation water supply volume?	insufficient.
<b>E: Present Operation and Maintenance Works</b>		
E1	Name of responsible for water supply	nobody
E2	Position	
E3	Telephone	
E4	Quantity and present condition of the water supply facilities: spring/intake	6-deteriorated
E5	Quantity and present condition of the water supply facilities: pipeline/transmission	1-deteriorated
E6	Quantity and present condition of the water supply facilities: DRR(Daily Regulatory Reservoir)	1-rehabilitated
E7	Quantity and present condition of the water supply facilities: net/distribution	deteriorated
E8	Quantity and present condition of the water supply facilities: public tap	deteriorated
E9	Quantity and present condition of the water supply facilities: pump	absent
E10	Who is the owner of the water supply facilities?	community
E11	Who is engaged in the water supply facilities repairing works?	residents
E12	How do you repair the water supply facilities?	by ourselves
E13	Who is in charge of the repair work in the community?	none
E14	How you prepare O&M costs?	donation from residents
E15	Please indicate the O&M cost breakdown per year for water supply	
	Electricity (AMD)	0
	Labor cost (AMD)	0
	Repair cost(AMD)	0
	Others(AMD)	0
	Total (AMD)	0
E16	Do the residents participate in the O&M works?	manpower
E17	What kind of OM method is preferable to you?	difficult to answer
<b>F: Initial Environmental Examination (IEE)</b>		
F1	Are any of the following areas located inside or around the project site?	
F1.1	National park, protected area designated by the government (coast line, water lands, reserved are for ethnic or indigenous people, cultural heritage), and areas being considered for national parks or proposed areas.	absent
F1.2	Virgin forests, tropical forests	absent
F1.3	Ecological improvement habits areas (coral reef, mangrove wetland, tidal	absent
F1.4	Habit of valuable species protected by domestic laws or international treaties	absent
F1.5	Likely salts cumulus or soil erosion areas on a massive scale	absent
F1.6	Remarkable desertification trend areas	absent
F1.7	Archaeological historical or cultural valuable areas	absent
F1.8	Living areas of ethic, indigenous people or nomads who have a traditional lifestyle or special socially valuable areas	absent

No.	Question	Answer
D15.1	How long the taps are open to provide the each household for filling	1.5 hrs
D15.2	Estimate quantity of water for filling containers of each household (liter per	1,000
D16	Drinking water monthly water fee per household	0
D17	How often do you usually pay water fees?	-
D18	Water fee structure 1Flat rate, 2 Having water tariff	-
D19	Where do you acquire the irrigation water?	pump staton, by gravity from
D20	Are you satisfied with irrigation water supply volume?	insufficient.
<b>E: Present Operation and Maintenance Works</b>		
E1	Name of responsible for water supply	Baghdasaryan Manuk
E2	Position	community diapartment specialist
E3	Telephone	(094)620820
E4	Quantity and present condition of the water supply facilities: spring/intake	3-partially rehabilitated
E5	Quantity and present condition of the water supply facilities: pipeline/transmission	2-rehabilitated
E6	Quantity and present condition of the water supply facilities: DRR(Daily Regulatory Reservoir)	2-rehabilitated
E7	Quantity and present condition of the water supply facilities: net/distribution	deteriorated
E8	Quantity and present condition of the water supply facilities: public tap	partially rehabilitated
E9	Quantity and present condition of the water supply facilities: pump	4-deteriorated
E10	Who is the owner of the water supply facilities?	community, WUA
E11	Who is engaged in the water supply facilities repairing works?	community
E12	How do you repair the water supply facilities?	by ourselves
E13	Who is in charge of the repair work in the community?	specialist from community
E14	How you prepare O&M costs?	community budget
E15	Please indicate the O&M cost breakdown per year for water supply	
	Electricity (AMD)	0
	Labor cost (AMD)	0
	Repair cost(AMD)	3,000,000
	Others(AMD)	0
	Total (AMD)	3,000,000
E16	Do the residents participate in the O&M works?	manpower
E17	What kind of OM method is preferable to you?	water fee
<b>F: Initial Environmental Examination (IEE)</b>		
F1	Are any of the following areas located inside or around the project site?	
F1.1	National park, protected area designated by the government (coast line, water lands, reserved are for ethnic or indigenous people, cultural heritage), and areas being considered for national parks or proposed areas.	absent
F1.2	Virgin forests, tropical forests	absent
F1.3	Ecological improvement habits areas (coral reef, mangrove wetland, tidal	absent
F1.4	Habit of valuable species protected by domestic laws or international treaties	absent
F1.5	Likely salts cumulus or soil erosion areas on a massive scale	absent
F1.6	Remarkable desertification trend areas	absent
F1.7	Archaeological historical or cultural valuable areas	absent
F1.8	Living areas of ethic, indigenous people or nomads who have a traditional lifestyle or special socially valuable areas	absent

Number and Name of Community	No.16 Zolaqar
District	Martini

No.	Question	Answer
<b>A: Baseline Data</b>		
A1	Actual population in 2001	6,840
A2	Actual population in 2007	6,900
A3	Number of households	1,300
A4.1	Elderly people	923
A4.2	Population in labor force (age from 16 to 62)	3,337
A4.3	Children	2,300
A5.1	Pensioners	817
A5.2	Unemployed	2,000
A5.3	Receiving benefits	312
A6	Average monthly income of household (AMD)	37,000
A7	Number of medical ambulance staion/first and health post	absent
A8	Number of beds in each medical ambulance staion	0
A9	Number of school	2
A10	Number of pupils	1,200
<b>B: Budget</b>		
B1	Annual Budget of the community 2004, in thousand AMD	1,020
	Annual Budget of the community 2005, in thousand AMD	1,024
	Annual Budget of the community 2006, in thousand AMD	1,018
	Annual Budget of the community 2007, in thousand AMD	1,118
	Annual Budget of the community 2008, in thousand AMD	is not planned
B2	Amount spent in drinking water sector 2004, in thousand AMD	0
	Amount spent in drinking water sector 2005, in thousand AMD	0
	Amount spent in drinking water sector 2006, in thousand AMD	0
	Amount spent in drinking water sector 2007, in thousand AMD	70
	Amount spent in drinking water sector 2008, in thousand AMD	is not planned
<b>C: Socio-Economic Survey</b>		
C1	Major industries of the community:	potatoes,cabbage, cereals, dairy, meat
C2	Is there any community activities carrying out by women? 1-Yes, 2-No	no
<b>D: Water Usage and Water Demand Survey</b>		
D1	Does the community hold water use permit? 1.Yes 2.No	no
D2	Water use permit number	-
D3	Date of expiry of water use permit	-
D4	Planned date of obtaining water use permit	in the process
D5	Present condition of the water supply volume of Domestic use	almost sufficient
D6	Present condition of the water supply volume of Irrigation water	almost sufficient
D7	Number of house connection to drinking water system	780
D8	How many house connection household set the water meter	0
D9	Number of public taps	3
D10.1	How is the regime of water supply in your community in the dry season?	irregularly ,1 hour in 2 days
D10.2	How is the regime of water supply in your community in the wet season?	irregularly, once in 2 days - 1hour
D11	What time of day water is given?	different times
D12	Are you pleased with duration of domestic water supply?	generaly displeased
D13	Are hours of water supply convenient?	generaly inconvenient
D14.1	How long the taps are open to provide the domestic water (cooking, washing, foodstuffs, dishes, Landry, bathing, etc) of each housshold a day?	-
D14.2	Estimate quantity of domestic water use of each household (liter per day)	300

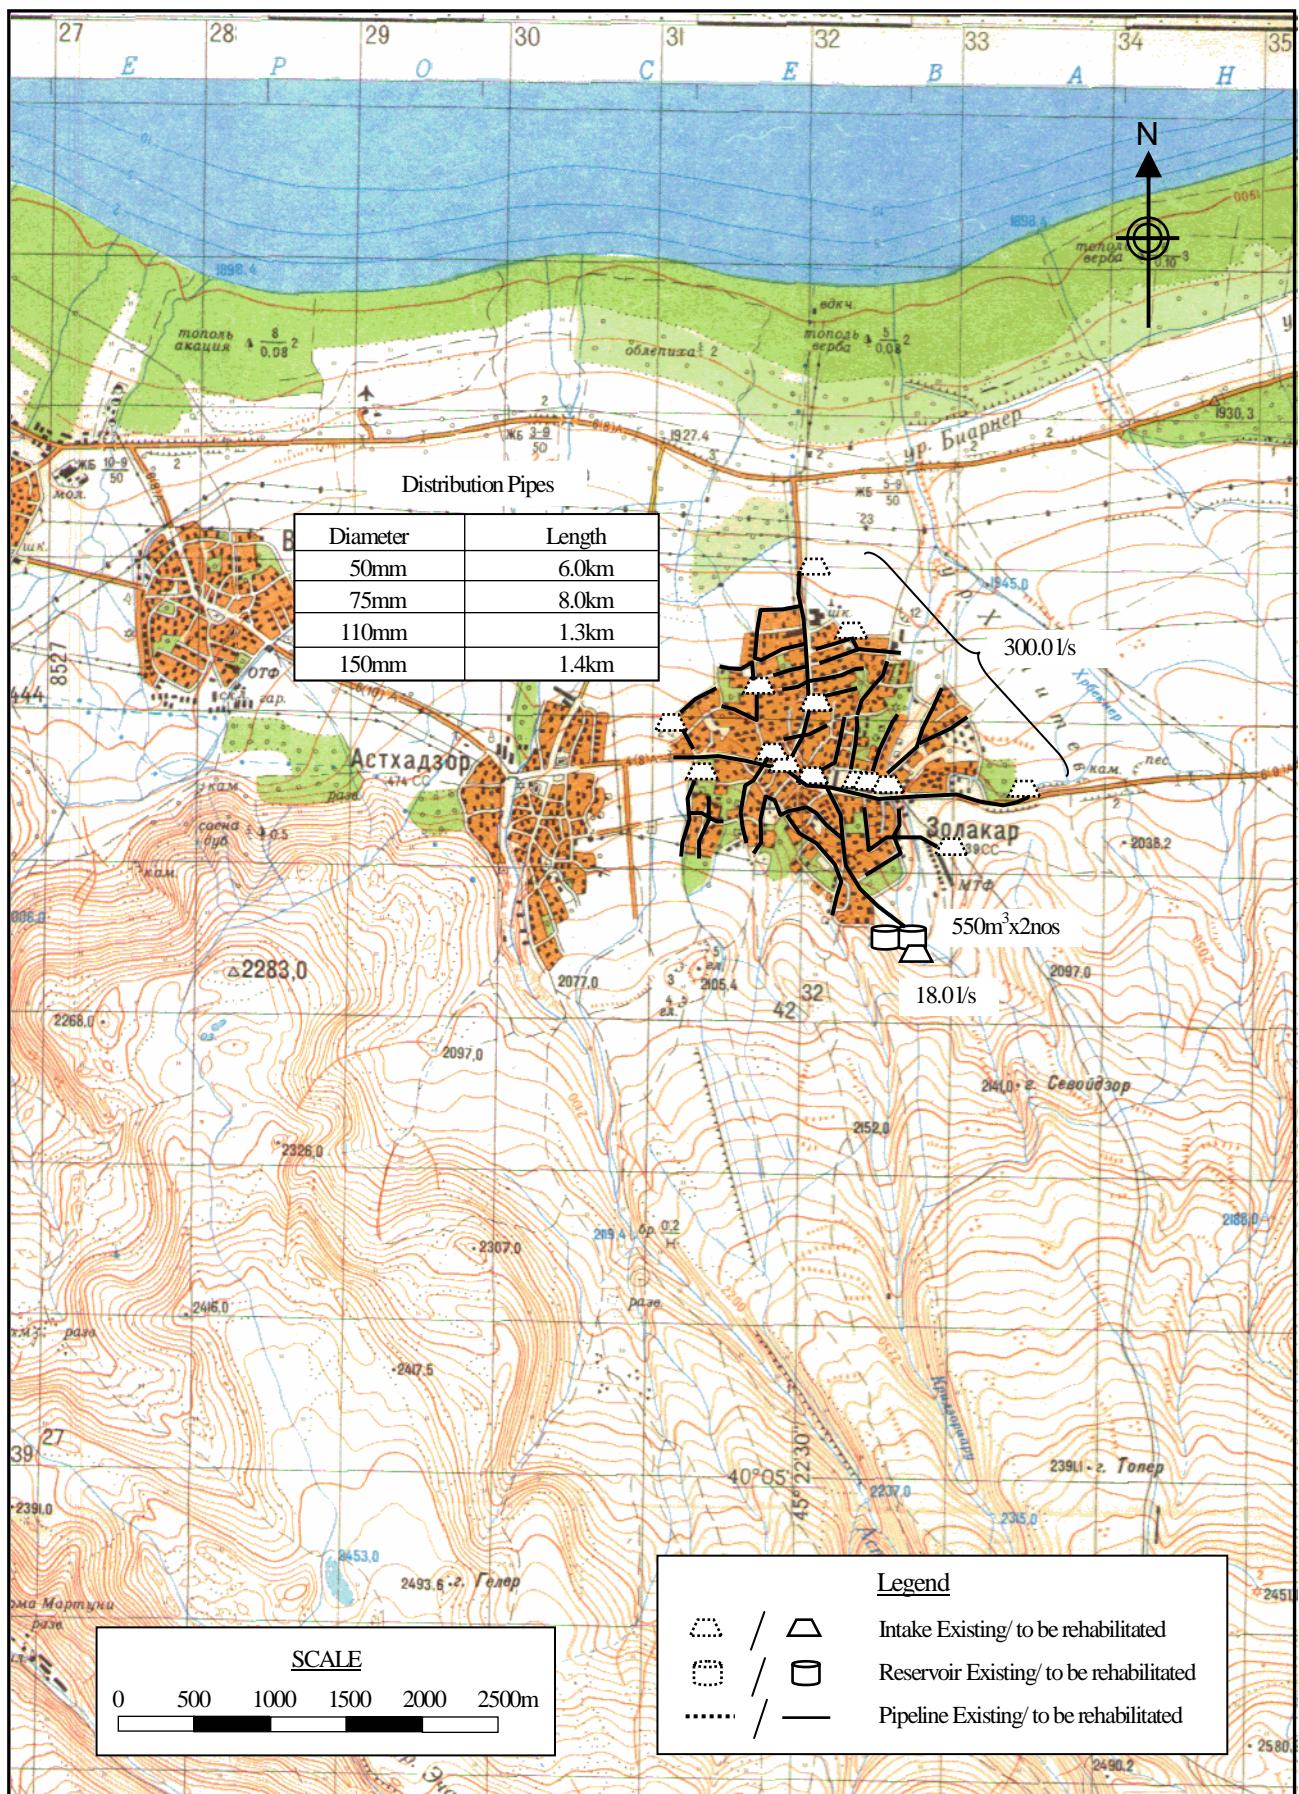

No.	Question	Answer
D15.1	How long the taps are open to provide the each household for filling	-
D15.2	Estimate quantity of water for filling containers of each household (liter per	500
D16	Drinking water monthly water fee per household	300 drams per capita/month
D17	How often do you usually pay water fees?	each month
D18	Water fee structure_ 1Flat rate, 2 Having water tariff	flat rate
D19	Where do you acquire the irrigation water?	deep well, spring
D20	Are you satisfied with irrigation water supply volume?	insufficient.
<b>E: Present Operation and Maintenance Works</b>		
E1	Name of responsible for water supply	every district has it's
E2	Position	
E3	Telephone	
E4	Quantity and present condition of the water supply facilities: spring/intake	7 deep wells
E5	Quantity and present condition of the water supply facilities: pipeline/transmission	absent
E6	Quantity and present condition of the water supply facilities: DRR(Daily Regulatory Reservoir)	absent
E7	Quantity and present condition of the water supply facilities: net/distribution	deteriorated
E8	Quantity and present condition of the water supply facilities: public tap	3-partially rehabilitated
E9	Quantity and present condition of the water supply facilities: pump	deteriorated
E10	Who is the owner of the water supply facilities?	community
E11	Who is engaged in the water supply facilities repairing works?	community and residents
E12	How do you repair the water supply facilities?	inviting a specialist
E13	Who is in charge of the repair work in the community?	volunteers from community
E14	How you prepare O&M costs?	collect water fee from residents
E15	Please indicate the O&M cost breakdown per year for water supply	
	Electricity (AMD)	0
	Labor cost (AMD)	500,000
	Repair cost(AMD)	0
	Others(AMD)	0
	Total (AMD)	500,000
E16	Do the residents participate in the O&M works?	manpower
E17	What kind of OM method is preferable to you?	difficult to answer
<b>F: Initial Environmental Examination (IEE)</b>		
F1	Are any of the following areas located inside or around the project site?	
F1.1	National park, protected area designated by the government (coast line, water lands, reserved are for ethnic or indigenous people, cultural heritage), and areas being considered for national parks or proposed areas.	absent
F1.2	Virgin forests, tropical forests	absent
